

9 January 2018

To whom it may concern,

This letter is to address my interest in serving on the Maui Lanai Island Burial Council representing the interests of people of Maui. Of concern is the central area comprising Kahului, Wailuku, N. Kihei, and Maalaea.

Experience is the teacher that has provided opportunity to expand on the foundation of previous ancestors. After the first term of service there is more clarity of purpose and need in for my service on this burial council.

I was a teacher in the DOE Hawaiian Studies Kupuna program, (GR. K-6) for [REDACTED] years

I worked [REDACTED] years as a teller, records manager, and mortgage loan processor at a savings and loan.

I worked in Catering and Groups and Convention for hotels for [REDACTED] years.

I am currently an insurance agent posting bonds and have been doing it over [REDACTED] years.

I am an active member of the Church of Jesus Christ of Latter-Day-Saints, have been my whole life.

I have independently studied and researched kingdom law which adds a dimension to my understanding and in addressing issues, that law is a great tool in my resource chest that has served me well even in the burial council.

I have been a representative in the Aha Moku System particularly, the Aha Moku o Wailuku since its inception. I chair the Air Committee and sit in the Burial and Land Committee's.

I am also a taro farmer, vegetable grower. We live where we grow food and bury our loved ones.

To be of service is my request.

Mahalo,

Johanna M. Kamaunu
