Employment

Employer : U.S. Peace Corps
[REDACTED]

Job Title : volunteer

Job Description : Peace Corps Volunteer assigned to a county engineer, Republic of Liberia, in a public administration project. The theory of this project was for Peace Corps Volunteers to do (not advise, not train Liberians) mid-level administrative work, until a cadre of Liberians could be developed who could to the work. In practice, the volunteers had to make up their own jobs; the Liberian government lacked the capacity to supervise us effectively. It was a wonderful experience, but I'm not sure many of us had a lasting impact on the country.

Employer : Castle & Cooke, Inc. (now Dole Foods Corp)
