Comments:

A Green Fund will empower the University System to reach its own as well as to meet State of Hawaii goals for energy efficiency, renewable energy and other sustainability measures.

As a graduate from UH Manoa, and the previous Student Sustainability Coordinator, we know that 1/3 of students' tuition went straight to pay utilities. Efficiency measures are critical to save the university and its students money as well as to follow through on its commitment to sustainability.

Mahalo,

Doorae
