Hawai'i State Capitol, Room 329  
Honolulu, HI 96813

Dear Chair Takumi and Committee Members:

**Re: HB 1908, HD 1 Relating to Multiburst Trigger Activators**  
**Hearing Date: 02/21/18 – 2:00 pm; House Conference Room 329**

Thank you for this opportunity to support HB 1908, HD 1.

In my testimony at a prior hearing, I expressed hope that even the most ardent firearm enthusiast would agree that there is no legitimate need for devices that accelerate the rate of fire of a semiautomatic firearm. That was naive, to say the least. Firearms legislation seems to be controversial no matter what its content.

I was somewhat heartened that the National Rifle Association testimony on HB 1900 in Judiciary did not object to the concept of any gun regulation, but rather that the language was too broad and overreaching. That being the case, perhaps HB 1908, HD 1 will be more acceptable.

Thank you for taking up this issue, and I urge you to approve HB 1908, HD 1.

Respectfully submitted,

Harry Kim

The Honorable Roy M. Takumi, Chair  
and Members  
Committee on Consumer Protection and Commerce  
House of Representatives  
Hawaii State Capitol  
415 South Beretania Street, Room 329  
Honolulu, Hawaii 96813

Dear Chair Takumi and Members:

SUBJECT: House Bill No. 1908, HD1, Relating to Firearms

I am David Nilsen, Captain of the Records and Identification Division of the Honolulu Police Department (HPD), City and County of Honolulu.

The HPD supports House Bill No. 1908, HD1, Relating to Firearms.

House Bill No. 1908, HD1, Relating to Firearms, prohibits multiburst trigger activators that are designed or function to accelerate the rate of fire of a semiautomatic firearm. State law currently prohibits automatic firearms. The HPD opposes any measure to increase the rate of fire of any semiautomatic firearm that allows it to mimic the capabilities of an automatic firearm. With the regards to the shooting incident in Las Vegas, the HPD believes that prohibiting these modifications to currently legal semiautomatic firearms is in the best interest in providing for the safety of the citizens of the City and County of Honolulu and the State of Hawaii.

The HPD urges you to support House Bill No. 1908, HD1, Relating to Firearms.

Thank you for the opportunity to testify.

APPROVED:

A handwritten signature in cursive script, appearing to read "Susan Ballard", is written over a horizontal line.

Susan Ballard  
Chief of Police

Sincerely,

A handwritten signature in cursive script, appearing to read "David P. Nilsen", is written.

David P. Nilsen, Captain  
Records and Identification Division

COMMITTEE ON CONSUMER PROTECTION AND COMMERCE  
WEDNESDAY, FEBRUARY 21, 2:00 PM, Room 329  
HB1908 HD1 RELATING TO FIREARMS

TESTIMONY

Beppie Shapiro, Legislative Committee, League of Women Voters of Hawaii

Chair Committee TAKUMI, Vice-Chair ICHIYAMA and Committee Members:

The League of Women Voters of Hawaii strongly supports HB1908 HD1 that would make it a felony to manufacture, sell, lend or possess “bump stocks” in Hawaii.

The League of Women Voters of the United State adopted in 1990 a position on gun control which reads:

The League of Women Voters believes that the proliferation of handguns and semi-automatic assault weapons in the United States is a major health and safety threat to its citizens. The League supports strong federal measures to limit the accessibility and regulate the ownership of these weapons by private citizens. The League supports regulating firearms for consumer safety.

Consistent with this position, the League of Women Voters of Hawaii supports HB1908 HD1. HB1908 HD1 proposes a change to Hawaii’s gun laws which is supported by most of the US population.

Polls in 2017 reported that from 76 to 82 percent of American’s surveyed favored a ban on devices that allow gun owners to modify semi-automatic rifles to mimic the rate of firing of automatic weapons (see <http://thehill.com/blogs/blog-briefing-room/news/355376-poll-82-support-a-ban-on-bump-stocks>; or <https://poll.qu.edu/national/release-detail?ReleaseID=2492> among others).

The terrible toll of mass shootings in the United States is an indictment of our gun control policies at least as much as of our mental health support system. Australia’s experience offers strong support for the effectiveness of prohibiting rapid fire weaponry ownership:

49 South Hotel Street, Room 314 | Honolulu, HI 96813  
www.lwv-hawaii.com | 808.531.7448 | voters@lwv-hawaii.com

“The country made sweeping gun control measures after a man killed 35 people with a semi-automatic weapon in Tasmania. Weeks after the April 1996 tragedy, the country and its states began banning rapid-fire guns to tamp down on mass shootings and then offered to buy the prohibited firearms.

Research suggests it's worked.

The University of Sydney, in a 2016 study published in the [Journal of the American Medical Association](#), found Australia hadn't experienced a fatal mass shooting — one in which five or more people are killed — since the 1996 shooting. In the 18 years prior, 1979-1996, there were 13 fatal mass shootings in Australia.” (USA Today, Feb. 15, 2018).

Please help prevent mass shootings from taking innocent lives in Hawaii by passing HB1908 HD1.

Thank you for the opportunity to submit testimony.

### Re: **HB1908, HD1**

DATE: Wednesday, February 21, 2018

TIME: 2:00 P.M.

PLACE: Conference Room 329

State Capitol

415 South Beretania Street

Representatives,

Please vote **NO** and **DEFER HB1908, HD1**.

I have new testimony regarding HB1908 HD1 to follow, but I would like to re-submit my testimony regarding the original version of HB1908 as submitted to the Committee on Judiciary hearing as it applies also to the HD1 version. HB1908 originally read “device... attached... to discharge... shots in a burst”. That language has been replaced in HD1 by “device... simulates automatic gunfire... with a static positioned trigger finger”. So when you read my original testimony below, following this testimony, please make the appropriate substitutions, as all the reasoning still applies.

The greatest “problem” with this legislation is that no criminal will obey the law, as they do not obey

any laws at all that they decide impede them in their pursuit of victimizing innocent people. That's the definition of criminal. All your proposed law would do is turn otherwise law-abiding citizens into criminals, and felons at that, possibly for wearing pants (don't look at me, I didn't write the law).

One problem involved here is that “burst” (and thus “multiburst”) has an already established meaning that is not commensurate with its use in HB1908 HD1. (See my previously submitted testimony following this current submission.)

So now we have introduced new language “simulates automatic gunfire”, but the bill includes no definition of what that means. I cautiously *assume* it may have something to do with “rate of fire”, but if so, what is the rate of fire threshold that meets the definition of “simulate[d] automatic gunfire”, and below which it is NOT “simulate[d] automatic gunfire”? Or is this just some “subjective” decision to be made by law enforcement independent of any actual standards? What if there are two law enforcement officers present and one thinks he heard “simulate[d] automatic gunfire” and the other doesn't? Arrest or no arrest? Felon or no felon?

Another problem is that there are many “devices” that can be used “with a static positioned trigger finger” to increase the rate of fire to what may or may not be the undefined “simulate[d] automatic gunfire” rate. Many of these are ordinary household items such as rubber bands and string, twine, shoe laces, etc. Is possession of any of these items going to be grounds for felony arrest and prosecution? If not, why not? They meet the definition of the proposed law. It seems that perhaps you have created another totally subjective standard for enforcement or non-enforcement of the law. Is that really what you want to do?

Another item that can be used to achieve an accelerated rate of fire is any firm object of appropriate length placed against the shoulder that allows the trigger finger to be in that static position. This could be any sort of wood, metal or plastic. My particular problem is that on my four acres of ohia trees, pine trees, fruit trees, and bamboo I have at least dozens, more likely hundreds or thousands of such

“devices” lying on the ground from both natural falling from the plants and huge piles of prunings full of “devices”. Is law enforcement going to come to my property and arrest me on 3,417 counts of felony possession of plant material devices? If not, why not? That's how the proposed law reads.

Finally, there is the belt loop device. Are you going to arrest everyone with a belt loop on their pants? I'd venture that some of the people sitting on the committee today would qualify as felons if you actually enforce the law as written. If you are not going to prosecute people with belt loops, why not?

Then there's the biggest problem of all with your attempt to outlaw any increased rate of fire (which may or may not meet the undefined standard of “simulate[d] automatic gunfire”): the fact that that can be done without any device at all, merely by using one's hands and arms to achieve the effect. Are you going to arrest everyone with hands and arms, or are you going to not count those as “devices”?

Please, this bill is both literally nonsensical as well as totally useless to accomplish any enhancement of public safety, and it puts ordinary law-abiding citizens in legal jeopardy for owning common items subject to completely non-standardized arbitrary and whimsical enforcement interpretations.

Vote NO and DEFER HB1908 HD1.

Thank you,  
George Pace

**Re: HB1908**

DATE: Tuesday, February 13, 2018

TIME: 2 p.m.

PLACE: Conference Room 325, State Capitol, 415 South Beretania Street

Representatives,

Please defer HB1908 by voting **NO**.

This bill does not address an existing problem and thus cannot solve any known problem effecting public safety. This bill uses language (134- (a)(b)(1)), as commonly understood according to the currently existing definitions and meanings, that would ban weapons that are already totally banned in the state of Hawaii. Section (134- (a)(b)(2)) cannot accomplish the supposed goal of preventing a person from firing a weapon at an “increase[d] rate of fire of that firearm”, since that can be accomplished quite easily without any “device” being “attached” to a semi-automatic firearm. Of course I would be remiss were I to fail to mention that even if this law were to pass, that it would not have any effect on a criminal intent on perpetrating crime, as we have seen time and time again (See: “Xerox murders” in 1999 committed 7 years after the magazines used by the murderer had been banned in Hawaii, etc.). Thus, nothing at all is accomplished to enhance public safety if this bill were passed into law, and its vague, if not meaningless language, could be used to ensnare law-abiding citizens with no criminal intent, and so I ask you to defeat it.

There is no known problem of crime being committed in Hawaii, nor anywhere else, with either weapons as described in 134- (a)(b)(1) or in 134- (a)(b)(2), with the exception of two cases in the past 50 years. In the first case the criminals **illegally possessed** fully automatic weapons, and in the other case it has been argued by knowledgeable people, that as horrific as the killings and injuries were, it could have been worse had the murderer NOT used the “increased rate of fire” devices (See: The University of Texas at Austin “tower shootings” in 1966 where the murderer used a bolt action hunting rifle incapable of even ordinary semi-automatic rates of fire).

What is being banned by 134- (a)(b)(1)?

"§134- **Multiburst** trigger activator; prohibition. (a) Any person in this State who manufactures or causes to be manufactured, imports into the State, keeps for sale, or offers or exposes for sale, or who

gives, lends, or possesses any **multiburst** trigger activator shall be guilty of a class C felony.

(b) As used in this section, "**multiburst** trigger activator" means:

(1) A device designed or redesigned to be attached to a semiautomatic firearm, which allows the firearm to discharge two or more shots **in a burst** by activating the device;"

I found it highly unusual, so to speak, that the word "multiburst" was "defined" as more than one "burst", but "burst" was never defined. I wrote to several of the "introducers" of HB1908 asking for clarification, but received no replies.

I asked, because in fact there already exist definitions and common uses for the term "burst" in connection with firearms:

"In **automatic firearms**, *burst mode or burst fire* is a firing mode enabling the shooter to fire a predetermined number of rounds, usually two or three rounds on hand held weapons and 50-100+ on anti-aircraft weapons and autocannons, *with a single pull of the trigger.*"

"The number of rounds fired in a burst is almost universally determined by a cam mechanism that trips the trigger mechanism for each shot in the burst. Some designs, as employed on the M16 series, *will terminate the burst if the trigger is released* before the burst is complete."

Automatic firearms (aka "machine guns", and/or "select fire" weapons (which can be set to semi-auto, "burst fire" (usually three rounds), or "full auto" modes), require NFA application and registration with BATFE and are ALREADY ILLEGAL IN HAWAII, so unless the authors of this bill are using the Humpty Dumpty view of language ('When I use a word,' Humpty Dumpty said, in a rather scornful tone, 'it means just what I choose it to mean, neither more nor less. '), this section of the bill is making illegal what is already illegal. What's the point of that?

As for section 134- (a)(b)(2):

(2) A manual or power-driven trigger activating device constructed and designed so that **when attached** to a semiautomatic firearm it **increases the rate of fire** of that firearm." [Emphasis added.]

The problems with this are:

1. A person can mimic the rate of fire accomplished by a "device attached to a semi-automatic firearm" without an attached device, and without any device at all. It is (seemingly?) impossible to outlaw firing a firearm at "an increased rate of fire", and certainly HB1908 would not accomplish that.
2. There is no law that would prevent a person with criminal intent from possessing any attachable

device that would increase the rate of fire (Again, see: “Xerox murders”). “Criminals don't obey laws, including gun control laws”. I believe most of the criminal acts committed in Hawaii by criminals using firearms are cases of illegal possession of firearms, i.e. criminals ignored the law making them “prohibited persons”. What makes anyone think they would obey this law?

3. Even if this law passed and was enacted, it would have no effect on a person with criminal intent from firing a firearm at an “increased rate of fire” without using any “attached device” or unattached device, aka “bump firing”.

This law is vague, the language is muddled, if not outrightly simply “wrong”, and will have no effect in enhancing public safety since the single effect (“increased rate of fire”) it would theoretically “outlaw” can be accomplished outside the restrictions of the law.

Please vote NO, and defer HB1908.

Thank you,

George Pace

Comments:

Dear Committee Members,

I am still opposed to this bill even though it was amended with more specific language clarifying multi burst trigger modifications. We don't have issues with folks firing indiscriminately and without regards to range rules. Rapid and indiscriminate rate of fire is prohibited on all public ranges. We already have laws regarding full auto firearms. I believe this will just open the door for more restrictions on lawful gun owners rights, slowly but surely.

Aloha,

Clifford Goo

Re: House Bill 1908 – OPPOSE

Dear Chairman Takumi:

On behalf of the Hawaii members of the National Rifle Association, we oppose House Bill 1908.

HB 1908 would make it a felony for any person who “manufactures or causes to be manufactured, imports into the State, keeps for sale, or offers or exposes for sale, or who gives, lends, or possesses” certain trigger modifications. The broad and overreaching language of this bill could encompass many common modifications done by law-abiding gun owners to make their firearms more suitable for self-defense, competition, hunting, or even overcoming disability.

Thank you for your attention and I ask that you please oppose this bill.

Cordially,

Daniel S. Reid  
State Liaison

I OPPOSE HB1908.  
(support, oppose, or comments only)

Comments: (reason for your position, facts, statements, experiences, etc.)

To add to my previous reasons for opposing this bill and SB 2040, I do believe that there needs to be some level of regulation when it comes to guns, but these bills like pretty much every other gun control law is not based in practicality but based in false information. These shootings and mass attacks we hear about are truly sad and reprehensible, but so are these politicians attempts to enact faulty laws. Many of these bills/laws demonize guns as if guns have minds of their own. **GUNS DON'T KILL PEOPLE, PEOPLE USE GUNS TO KILL PEOPLE!** It's not the guns we need to control, it's the people. Many of these laws remove responsibility, or at least transfer it, from the human person holding or possessing it, to the inanimate object which is the gun. As of this writing, I have yet to see a gun get up and fire itself. In the case of this bill and many, many others that have been presented or passed, Common Sense is NOT a Common Virtue!

RE: Testimony in Support of HB 1908 HD1 RELATING TO FIREARMS

To the Honorable Roy M. Takumi, Chair; the Honorable Linda Ichiyama, Vice-Chair, and Members of the Committee on Consumer Protection & Commerce:

Good afternoon, my name is Melodie Aduja. I serve as Chair of the Oahu County Committee ("OCC") Legislative Priorities Committee of the Democratic Party of Hawaii. Thank you for the opportunity to provide written testimony on House Bill No.1908 HD1 relating to Prohibited; Multiburst Trigger Activators; and Firearms.

The OCC Legislative Priorities Committee is in favor of House Bill No. 1908 HD1 and support its passage.

House Bill No. 1908 HD1 is in alignment with the Platform of the Democratic Party of Hawai'i ("DPH"), 2016, as it prohibits multiburst trigger activators.

The DPH Platform states that "[w]e believe in a government that will adequately, efficiently, courteously, openly, ethically and fairly administer to the needs of the people." (Platform of the DPH, P. 5, Lines 245-246 (2016)).

"We must protect our children, our future, from violence and neglect and provide them with a safe and healthy environment in which to grow and thrive." (Platform of the DPH, P. 4, Lines 186-187 (2016)).

Educational facilities must be maintained, renovated and built to 21st-century innovations so that our students learn in well-designed safe environments. (Platform of the DPH, P. 6, Lines 300-302 (2016)).

Given the recent multiple shootings in schools and massacres of innocent defenseless children and that House Bill No. 1908 HD1 prohibits multiburst trigger activators, it is the position of the OCC Legislative Priorities Committee to support this measure.

Thank you very much for your kind consideration.

Sincerely yours,

/s/ Melodie Aduja

### OPPOSE HB1908

Rep. Roy M. Takumi, Chair  
Rep. Linda Ichiyama, Vice Chair

Committee Members

#### NOTICE OF HEARING

Wed, Feb 21, 2018  
2:00pm  
Room 329

Aloha Chair and Committee members. As a law abiding and long time firearm owner, hunter and target shooter and like many others here in Hawaii that enjoy the hobby with our family and friends I am very concerned about this measure.

For one, I have many old rifles passed down from generation to generation and are still in use today. As a precision shooter and hunter, for both accuracy and for humane reasons we often have adjustments made or replacement triggers added that help facility a softer pull which translates to better accuracy and better shot placement.

When hunting we do not just blast animals. As with any ethical hunter, shot placement is what we strive for so that game will be dispatched quickly, and does not needlessly suffer. Most firearms utilize a manual trigger device and can be modified or replaced with softer pulls or better ergonomically designed triggers for precision shooting.

How will the legislature or whoever will be enforcing this bill know what the purpose of my trigger modifications are for? Are we to be criminalized for having precision rifles that has been part of my family for generations?

I am sorry that some people in society miss use firearms but as this measure stands, we cannot support this type of legislation. Perhaps as a society we need to look deeper into this issue and not blame firearms or the mentally ill. Most firearm owners are not murderers, and most people that suffer mental illness are not deranged killers.

I am available if you would like to discuss this in more detail.

Please oppose.

Sincerely,  
Anthony Sylvester II

## TESTIMONY FOR HOUSE BILL 1908, HOUSE DRAFT 1, RELATING TO FIREARMS

House Committee on Consumer Protection and Commerce

Hon. Roy M. Takumi, Chair

Hon. Linda Ichiyama, Vice Chair

Wednesday, February 21, 2018, 2:00 PM

State Capitol, Conference Room 329

Honorable Chair Takumi and committee members:

I am Kris Coffield, representing IMUAlliance, a nonpartisan political advocacy organization that currently boasts over 400 members. On behalf of our members, we offer this testimony in strong support of House Bill 1908, HD 1, relating to firearms.

On October 1, 2017, 64-year-old Stephen Paddock of Mesquite, Nevada opened fire on a crowd of concertgoers at the Route 91 Harvest music festival, leaving 58 people dead and 851 more injured. Paddock fired more than 1,100 rounds from his suite on the 32<sup>nd</sup> floor of the Mandalay Bay Hotel. Notably, 12 of the rifles found in the gunman's room after the attack had been modified with "bump stocks," an attachment that enables a semiautomatic rifle to fire faster.

Immediately after the attack, the National Rifle Association announced that it would support tighter restrictions on such modifications. A bump stock replaces a rifle's standard stock—the part of a rifle held against the shoulder. Bump stocks enable semiautomatic guns to slide back and forth more rapidly, harnessing kickback energy generated upon firing. Essentially, the stock "bumps" back and forth between the shooter's shoulder and trigger finger as the shooter holds his or her trigger finger in place, allowing the weapon to fire at nearly the rate of a machine gun.

As last week's tragedy in Parkland, Florida shows us, we must take action to protect our citizens from gun madness. Mahalo for the opportunity to testify in support of this bill.

Sincerely,  
Kris Coffield  
*Executive Director*  
IMUAlliance

---

Aloha Chair Takumi, Vice Chair Ichiyama, and members of the House Committee on Commerce and Consumer Protection,

On behalf of the nearly 600 registered members of the Young Progressives Demanding Action (YPDA) Hawai'i, I would like to express **strong support** for HB1908. In the wake of Parkland, Umpqua, Santa Monica, Rancho Tehama, Marysville, Sandy Hook, Virginia Tech, Columbine and the now decades-long history of mass shootings at schools, I am angry, afraid and so tired of watching the news segments; of waking up to text alerts that more of my fellow millennials—and those even younger than us—will never grow up. And for what? Campaign donations exchanged for beneficial regulatory terms for arms manufacturers? The perpetuation of a gun culture that can be used to generate partisan points on a political score board? Defense of an archaic interpretation of the Second Amendment? Enough is enough.

Military-grade weapons have no place in society. They are unnecessary for self-defense, hunting or target practice. Bump stock triggers modify semi-automatic weapons to allow for up to 800 rounds fired a minute, mimicking fully automatic firearms—assault weapons. Popular among mass shooters, assault weapons pose a distinct threat to the safety and security of Hawai'i's people, and people all over the world. After the expiration of the federal ban on assault weapons in 2004 and the failure to renew it by Congress, it now falls upon the states to pass sensible laws to prohibit these deadly weapons and any trigger mods that emulate them.

I've watched the videos from the Parkland massacre. I've seen the charts that show just how many school shootings have taken place in America. Since 2000, there have been at least 188 shootings at schools and universities. It's hard to cite a definitive number, because the federal government does not study gun violence in the United States, despite recommendations from the Center for Disease Control that it do so; the National Rifle Association has opposed any measure to fund research or accounting of America's gun epidemic. But one statistic points out just how horrible our country's gun sickness is. Between 2000 and 2010, 57 incidents of mass shootings with two or more victims occurring on school

campuses were recorded in 36 different countries. Twenty-eight—half of all those incidents—took place in the United States.

I've heard arguments made that this kind of restriction would make it impossible for people with certain disabilities, such as nerve damage, to fire their weapons; that bump stock mods are the only way that they can pull their triggers. To those people, I say to bad. Find a different hobby. Your ability to shoot at things is nowhere near as important as our lives. Our children deserve to go to school free from the fear that they may never see their parents again; that any given school day might be their last on Earth. That is absolutely unacceptable.

We need strict gun control regulations on assault weapons; on trigger modifications; on licensing, ammo, background checks, firearm training and carrying capacity. For the love of humanity, gun regulations should be *at least* as strict as regulations on driving an automobile.

Yesterday, just days after witnessing their friends brutally murdered before their eyes, the survivors of the Parkland massacre watched as their state legislature refused to even consider a proposed assault weapon ban. Those kids, and young people all across the country, will hold responsible any and all politicians that put the interests and money of the NRA and its supporters above the lives and futures of America's youth. And here in Hawaii, we will do the same. No more hiding behind the Second Amendment. We're done waiting for elected leaders to do the right thing. We demand gun reform now.

Mahalo,

Will Caron  
Social Justice Action Committee Chair

CPCtestimony@Capitol.hawaii.gov  
Testimony in support of HB 1908  
February 20, 2018 1:47 PM

I am a witness as to what violence and use of weapons has done to our society and stability in this country.

As a first responder at the World Trade Center Disaster 9/11 I watched and aided to the extent that I could the devastation on surviving family members who were in my class and also provided Mercy College with infrastructure for recovery. My faculty position which started the day before and my competence as a Board Certified Clinical Health Psychologist and Amer. Psychol Fellow since 1972 gave me the credibility to do the necessary work. It was Evil unfolded.

Now the enemy is within our borders. National Rifle Association is putting lives on hold. Gun users whether for sport or shooting animals must be confined to pick up their weapons at the places they are using them.. We must have national vetting of anyone, police included who want to possess or buy a weapon.

As a faculty member at Kent State University on May 4, 1970 I witnessed first hand the shooting and killing of four of my students when the governor called out the NATIONAL GUARD TO stop an anti Vietnam protest at the campus.

Currently, I am immediately dealing with the Parkland Massacre as I owned a condominium in Coral Springs and my mom was in a Parkland Independent Living home. Thank God for the bravery of the teachers who blocked with their own bodies saving lives. We need to support the March for Our Lives on April 20<sup>th</sup> 2018 Its about Time. Pres. Trump did just sign an anti bump document. Let's get the State and the Congress behind this. It needs to be a real control over what is allowed in the name of the 2<sup>nd</sup> Amendment. Shame on us for having such a high incidence of the inappropriate ownership and use of weapons.

If given the opportunity to testify on behalf of the restriction of automatic weapons I would be prepared to say STOP selling these human killing weapons and proclaim that gun holders need to have access to weapons at places they are used..not in homes where they accidentally kill minor children more times than we care to admit.

Barbara G. Melamed, Ph.D. ABPP

Comments:

Well, you've cleaned up this bill considerably, Bravo! Well Done!

I still oppose this due to the fact that it represents an unnecessary restriction on law abiding firearms owners, along with the possibility they may be made felons.

For instance: Does the term "Devices" extend to rubber bands? The same effect you describe in this bill can be achieved with rubber bands. I can buy rubber bands anywhere, in fact I have some on my desk as I type this. Would I, as a firearms owner, be prosecuted as a Class C Felon for using them? How about for merely owning them, or having them on my person at the range where I "Could" use them?

I think you see where this is leading. This bill is obviously a knee jerk reaction to an event that didn't occur here, and most probably never will. Besides, murder is already illegal. If a criminal is willing to go that far what makes you think some obscure gun law will stop them?

Want to make a real difference? Why don't you attack the cause of the estimated 100,000 deaths every year due to "Medical Errors". Those are numbers you can really believe in.

If you've made it this far, Thanks for your time and attention.

Aloha,

Ed Hampton

Aloha,

I oppose the legislative proposal HB1908, prohibiting multiburst trigger activities. While I understand the concern to prohibit such a lethal firearm to the general public, I do not think that prohibiting these items will decrease the amount these items will influence some public desire for these items. This bill does not prohibit multiburst trigger activators for law enforcement officials; nor should the public not have the right to legally obtain these items if they so desire. I would suggest more stringent methods are put in place to acquire these items; however, history has shown that by strictly prohibiting these items, black market operators will influence the procurement of these items. I suggest better training and regulation, not prohibition.

Comments:

I oppose this bill because it clearly shows the authors do not know the subject. I request that the legislators take at least some time to learn about the items they intend to try and ban.

From the bill:

"...power-driven trigger activating device 2 constructed and designed so that when attached to a 3 semiautomatic firearm it simulates automatic gunfire."

The ATF already ruled on this. Any power driven device that attached or used to pull the trigger of a semi-automatic firearm is already considered a machine gun and can not be manufactured to sell to civilians. A company tried to get approval for such a device and the ATF ruled that they could not legally manufacture or sell them.

Once again you are trying to ban something that is already illegal to manufacture and distribute. This shows clear lack of knowledge on the subject you are trying to make a law on. This in turn questions the competency of our legislator's ability to govern.

Comments:

My opposition to such a measure stems from my concern that this sets a precedence that the confiscation of legally-acquired property from law-abiding citizens without due process is ok in the State of Hawaii. Hawaii gun owners represent the "best" our state has to offer. We are **contributing** members of society that have been subjected to second-class treatment via legislation that categorizes us and our constitutional activities alongside convicted criminals.

Comments:

This bill is not only ridiculous, but it would do nothing to curtail gun violence and would only affect law abiding citizens. There has only been one crime committed in the United States in history with a bump stock. The tack on ban for trigger modifications is simply another way to infringe on American citizen rights and Hawaiian rights. Especially those who have a physical disability.

There is no practical statistical information one could use to support the ban of these items. This is simply a knee jerk, feel good reaction rather than an intelligently thought out piece of legislation.

Comments:

Representatives,

**Stand in opposing this bill.**

Removing law abiding citizens access to firearm accessories will do nothing to stop or deter criminals and their activities regarding weapons use. Instantly turning lawful citizens into felons because of owning certain property without due process, nor compensation, is in clear violation of the 4th, 5th, and 14th amendments to the Constitution of the United States.

If you pass this bill, how will people to abide this law, without automatically turning into a felon and criminal, if they **already own these items?**

These items that are being legislated against already have been vetted and deemed legal and defined legal by the Bureau of Alcohol Tobacco and Firearms (ATF), according to firearms laws.

These devices are very expensive property and are considered legal. What kind of compensation will you give to persons who now have to somehow legally get rid of these devices? What is the procedure for surrendering LEGAL items, which this law is intended to summarily turn illegal, with no due process of law or trial, with the assumption that they are intended to be used in any crime?

The 4th Amendment states:

“The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.”

The 5th Amendment further protects property, by stating:

“No person shall be ... deprived of life, liberty, or property, without due process of law;

nor shall private property be taken for public use, without just compensation.”

The 14th amendment states:

"All persons born or naturalized in the United States and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws."

Once again, oppose this bill and please consider working on bills that will actually prevent crimes and catching / incarcerating criminals.

**Law abiding gun owners are not the problem in this state.**

**Again, as a fellow Hawaii resident, I urge you to oppose House Bill 1908.**

Thank you.

Comments:

Once again I oppose this bill as it turns law abiding responsible gun owners into criminals instantly and the bill will have no real effect on criminals who do not respect or follow the law.

There are many reasons for aftermarket trigger modification - firearm competitions, handicap allowance, broken factory triggers, defective factory triggers, and improving one's firearm skill level.

Please hear your constituency - if you want to do anything to make a change, provide harsher penalties for those who commit crimes with firearms up to and including the death penalty.

For once, be a leader in the nation and focus on violence and those with disorders, psychological issues, social warning signs reported to the FBI, HPD, and ATF and increase the penalties for gun violence

End providing those liberal rights to those who GROSSLY violate the law with VIOLENCE involving a firearm, knife, or any instrument which results in harm, injury, or death to a victim.

As a law-abiding Hawaii gun owner, I respectfully urge you to oppose House Bill 1908.

House Bill 1908 would make it a felony for any person who "manufactures or causes to be manufactured, imports into the State, keeps for sale, or offers or exposes for sale, or who gives, lends, or possesses" certain trigger modifications. The broad language of this bill could encompass many common modifications done by law-abiding gun owners to make their firearms more suitable for self-defense, competition, hunting, or even overcoming disability.

Thank you for your attention and I ask that you please oppose this bill.

Aloha,

I oppose this measure and strongly urge you to do the same. This bill still does not achieve its intended goal of preventing acts of violence committed with a firearm. All that this bill does is outlaw a category of gun accessory that thousands of firearm owners have purchased. These folks are law abiding and will be made into FELONS with the stroke of a pen. I am concerned that this equates to an illegal ex post facto law that, again as stated above, primarily punishes currently law-abiding citizens.

The real criminals however will still be unimpeded by this or any law. You as our legislators need to stop looking for laws that only affect lawful gun owners. Instead, I urge you to explore and pass legislation that STRENGTHENS the rights of lawful citizens to protect themselves and their families. Specifically, we need concealed carry law reciprocity and the expansion of the Castle Doctrine outside the home.

Comments:

I strongly oppose this bill as another progressive infringement on our constitutionally protected rights under the second ammendment, as the wording is too broad and could potentially criminalize non-criminal behavior, as it is unnecessary to install any device to a firearm to increase its rate of fire. Please refer to the following as examples:

<https://www.facebook.com/militaryarms/videos/1837117376300053/>

I am a law-abiding Hawaii gun owner, and I urge you to oppose House Bill 1908. I know there are many other hawaii gun owners that feel strongly against this bill as well.

Automatic weaponry is already illegal under existing state and federal law. A new law that expands on it would only serve to ensnare legal gun owners

"Attorney General Doug Chin opined they already are banned under existing Hawaii law that prohibits modifying firearms to convert them into automatic weapons."

Criminals will buy these devices on the black market easily if they wish, and do not care about any laws prohibiting such devices, and ensnaring legal gun owners.

My guess is that the authors of this bill aren't firearms owners, and therefore do not realize that there are many techniques used to "simulate automatic fire" that don't require the usage of any special devices. Below is a video of someone demonstrating how to use the bump stock technique with a standard **BELT LOOP**. You can use rubber bands, belt buckles, straps, makeshift home devices, pretty much ANYTHING that makes use of the motion of the recoil of to activate the trigger.

**<https://www.youtube.com/watch?v=wZCO-06qRgY>**

Is this bill banning pants with belt loops, belt buckles, rubber bands, holsters, and everything else that can *"simulates automatic gunfire by allowing standard function of a semiautomatic firearm with a static positioned trigger finger or a device that fires multiple shots with the pull and release of the trigger;"*? I assure you, those devices are many, and this bill creates potential felons out of a lot of people for no reason.

Once again, please oppose this bill and please consider working on bills that will actually prevent crimes and catching / incarcerating criminals and not designed to ensnare law abiding citizens with more restrictions and subject to vague laws open to interpretation by law enforcement. As it stands, if this law went into effect, HPD could walk down the line at the range, and arrest 99/100 people there because they possess a " multiburst trigger activator" on their pants in the form of belt loops or belt buckles.

Law abiding gun owners are not the problem in this state.

Again, as a fellow Hawaii resident, I urge you to oppose House Bill 1908.

Comments:

First off I'd like to thank the representatives who listened to the overwhelming opposition testimony and modified the proposal to include definitions in a way that at least attempts to make some engineering sense without ensnaring legal owners who perform perfectly reasonable trigger modifications. Your actions have restored some of my faith in the process.

On "Parts Laws"

In my opinion trying to ban firearm accessories in order to reduce violent crime is an exercise in futility that actually creates more problems than it solves. First of all it ties up legislative resources that would be much more useful toward figuring out poverty, inequality, and systemic corruption which, unlike access to firearms, have a much stronger relationship with poor mental health and the resulting acts of individual/group violence that will never run out of clever and inventive methods to kill large numbers of people.

Unfortunately we seem to be living in a decaying society, where laws keep getting passed to make things better but meanwhile if you look out the window anyone can clearly see they are getting worse. Asking the deeper question of what's really going on is a lot more difficult than the knee-jerk banning of random parts. The former is a wholistic approach that challenges true leaders to put aside comfortable biases and try to figure our real solutions to violence, while the other is slapping a band aid on the right leg while the left one bleeds out.

On Automatic Weapons:

My opinion differs from the NRA on automatic weapons. I believe the constitution says we are supposed to have militias and not a standing army. While standing armies are great for bringing home pork barrel money to influential districts and traveling around the world to strip resources from developing nations, militias are made up from people in the community and designed to make the prospect of invasion so distasteful that

hostile powers who would dare set foot into the territory would find themselves quickly ensnared in a painful bear trap and very unlikely to ever try again.

In Iraq and Afghanistan we see two examples of various (and sometimes competing) small forces ultimately defeating what is supposed to be the greatest military in the world with far inferior weapons at a fraction of the cost. Imagine what a properly equipped and trained militia could do for Hawaii as far as freeing up valuable real estate and building community spirit. Imagine the tax money we would save on expensive weapons systems that always cost more than they promise and never work like they are supposed to. As we have seen in the Middle East all anybody really needs for national self defense are Kalashnikovs, rocket launchers, IEDs, HILUX trucks, some video editing equipment, and home field advantage.

Automatic weapons should be available to any adult who passes a background check and develops a documented history of regular training with a local militia or other civil service group where people can keep an eye on each other and report issues if they come up. The "lone gunman" phenomenon is a result of lonely people who feel like they have no place in society. Giving them an opportunity to participate in no-strings-attached training gives them a community and a purpose, while also flagging those who definitely should never have access to firearms in a way that's more proactive rather than simply banning everything and then being confused as to why society continues to grow increasingly dysfunctional and violent.

Thank you for reading this and I hope you reconsider the current approach.

Comments:

I strongly support HB 1908 and urge you to do everything possible to pass this important legislation.

On October 1, 2017, a gunman opened fire from a hotel room on the 32nd floor of the Mandalay Bay hotel into an audience of 22,000 at a country music festival in Las Vegas, killing 58 people and injuring more than 500. The gunman fired more than 1,100 rounds of ammunition in 11 minutes, using semi-automatic rifles modified with a dangerous firearm accessory designed to dramatically accelerate the rate of gunfire. These accessories, commonly known as “bump fire stocks,” enabled the worst mass shooting in modern U.S. history and turned a concert venue into a war zone.

Fully automatic firearms aka machine guns are banned under federal law. But in the last decade the gun industry began marketing devices intended to circumvent this federal law by allowing a gun owner to modify a semiautomatic rifle—which is currently legal to buy and possess under federal law—in such a manner that it operates with a similar rate of fire as a fully automatic rifle. A bump fire stock harnesses the recoil of a semiautomatic rifle to enable a shooter to fire shots much more quickly than if he or she were simply squeezing the trigger on a firearm not altered with a bump stock. **Equipped with a bump stock, the Las Vegas shooter was able to fire 90 shots in 10 seconds.** While often marketed as a novelty item for recreational shooters, bump stocks and similar devices that accelerate the rate of fire of a semiautomatic firearm are extremely dangerous and pose a substantial risk to public safety.

Since the massacre in Las Vegas, the price of bump stocks and similar devices has more than tripled, and a mad dash to purchase these deadly devices has ensued. Instead of taking responsible measures to ensure that these devices are never again used to commit a mass shooting, the gun industry is profiting off of mass tragedy. At the same time, the estimated financial cost of the shooting in Las Vegas is upwards of \$600 million to say nothing of the human cost of this tragedy on the local community.

In the immediate aftermath of the shooting in Las Vegas, there was widespread agreement that bump stocks and similar devices should be banned: An October 2017 poll found that 82% of Americans support banning bump stocks. And yet the NRA, the Hawaii Rifle Association and other pro-gun lobbyists continue to loudly obfuscate the issue with unfounded arguments.

I am counting on state legislators to ban these instruments enabling mass slaughter of civilians. Thank you.

[House Bill 1908](#), introduced by Representative Gregg Takayama (D-34), would charge a person with a felony who “manufactures or causes to be manufactured, imports into the State, keeps for sale, or offers or exposes for sale, or who gives, lends, or possesses” certain trigger modifications. The **broad language** of this bill could encompass many common modifications done by law-abiding gun owners to make their firearms more suitable for self-defense, competition, hunting, or even overcoming disability.

What are the certain trigger modifications? Weapons that can discharge more than one bullet per trigger pull are already illegal.

Comments:

Aloha,

I am opposed to HB 1908. The possibilities for misinterpretation of the intent of this Bill are rampant. What constitutes and improper modification or aftermarket accessory? Would a machinist be in violation of the law if he adjusts a trigger mechanism for a friend?

In the wake of the tragic shootings, the common denominator has been a failure of law enforcement cooperation. I believe that this is a better use of Hawaii taxpayers' resources. Any such effort to regulate firearm alterations and accessories is better left to the Federal Government.

Again I am adamantly opposed to HB 1908.

Comments:

Dear Honorable Representatives,

Thank you for introducing this important bill prohibiting Multiburst Trigger Activators, more commonly known as bump stocks, making it a Class C felony to manufacture, distribute, or own one of these items. After the massacre in Las Vegas, I was shocked that things like this existed on the market. I'm so proud of our legislature for proposing this legislation. While our representatives in Washington seem incapable of passing any type of common sense gun laws, I'm glad that our representatives here at home have the safety of their constituents as their priority.

It has come to my attention that the NRA is actively opposing this bill, sending out email blasts to their members. Please don't be influenced by the NRA and their members, with their copy-and-paste objections to the passage of this bill. I strongly disagree with their contention that the language of this bill is overly broad. I would contend that the language in the bill is appropriate and would help eliminate possible loopholes to these types of modifications. Multiburst trigger activators certainly do NOT make fire arms more suitable for hunting. I would contend that if you can't hunt without modifying your gun to be a weapon of war, you're not a very good hunter. Nor do bump stocks help gun owners overcome a disability. If anything, modifications of this type would make the gun more dangerous to both the person with the disability and anyone around the gun that has been modified.

Thank you again for the important work that you are doing for the people of the state of Hawaii.

With aloha,

Jessica R. Perry

Representatives, Members of the Committee on Consumer Protection and Commerce,

I ask that you strongly oppose HB1908, this bill is flawed legislation that will serve no purpose, law abiding firearms owners are not a problem in this state. Automatic firearms or those with a burst capability are already illegal in Hawaii under HRS 134-8 and regulated at the Federal level by the Bureau of Alcohol Tobacco Firearms and Explosives. In my opinion if passed into law this bill would be and could be used to turn law abiding firearms owners into criminals due to its vaguely written descriptions, definitions if it could even be enforceable in the first place. As a lawful owner of firearms I cannot sit by and let the legislature of this state further erode my rights to own firearms as enumerated in both the US Constitution and the Constitution of The State of Hawaii, I ask you remember your oath. I would like to further ask of you all that you also oppose any further bills that are aimed to restrict the rights of lawful firearms owners to keep and bear arms in this state. Love or hate firearms I don't care but I ask that you do your due diligence and inform yourselves on firearms types and their operation, the Hawaii Rifle Association is always willing to work with and inform legislators and or other elected officials about anything firearms related.

Sincerely,

Edward A. Sosta

Comments:

I am a retired employee of the State of Hawaii (and also a retired attorney formerly in private practice). I support and contribute regularly but in very modest amounts to the Brady Campaign and Brady Center to Prevent Gun Violence. I am testifying in **support** of House Bill No. 1908, H.D. 1, Relating to Firearms.

I submit these comments in furtherance of securing the safety of all Hawaii residents from the high economic and emotional costs resulting from the ongoing epidemic of gun violence across the United States.

The danger posed by devices like "bump fire stocks," or bump stocks, is real and serious and has been known for some time. Bump stocks are one of many accessories to firearms that increase their rate of fire and enable otherwise lawful weapons to be converted into the functional equivalent of fully automatic weapons or machine guns. On October 1, 2017, the nation saw how destructive these devices can be in Hawaii's "ninth island". Despite shooting from a quarter of a mile away, the Las Vegas gunman killed 58 people, injured several hundred more, and inflicted extensive emotional distress on thousands of men, women, and children.

Devices like bump stocks pose grave dangers to public safety and have no place in our communities. While we are blessed to live in a State with more common-sense gun regulation than most, the Legislature can and should do even more to address bump stocks and similar devices known as "multiburst trigger activators" through legislation such as H.B. 1908, H.D.1. Legislative action ensures maximum clarity -- to the public, the industry, and law enforcement -- regarding how these dangerous accessories fit into the broader scheme of gun-related policies. Decisive legislative action minimizes opportunities for obstacles and delay for those hoping to forestall corrective action and extract profit in the meantime. The Legislature needs to act now. Time is of the essence in preventing foreseeable future incidents and saving lives.

Finally, as your Committee receives input from the gun industry and gun enthusiasts on the potential impacts of any change in oversight and regulation of bump stocks and other similar devices, please also focus on the importance of public safety -- the lives and safety of men, women and children in Hawaii -- rather than only on the alleged expense and inconvenience to those who manufacture, import, sell, or use these dangerous accessories.

Thank you for the opportunity to express my views on this matter.

Mahalo for the opportunity to testify in support of this bill.

Our constitution provided us with the right to bear arms; and as sensible humans we should not read this to mean that our founding fathers intended for this to include any type of automatic weapon, nevermind ones altered to fire in bursts or an at even greater accelerated rate.

Let's protect Hawaii's people and our keiki by enacting sensible bans on unnecessary weapon modifications.

Comments:

Hello. I, along with many other law-abiding citizens strongly urge you to oppose House Bill 1908. This non-specific legislation will only serve to potentially and arbitrarily turn regular citizens into felons overnight.

On the language 'trigger activating device', it is too vague. Anything that touches the trigger and causes the firearm to discharge is a 'trigger activating device', be it index finger or rubber band, and therefore potentially in violation of this legislation. The language too broadly allows for arbitrary interpretation.

On the language 'attached', it is too vague. Permanently attached? Detachable? Would a normally legal object, say a belt loop, be immediately illegal when brought into contact with the firearm? Again, too much room for arbitrary interpretation.

On the language 'increases the rate of fire', it is too vague. If meaning 'rounds per minute', what is acceptable, what is not, and where is that line drawn? Too much room for arbitrary interpretation.

At best, this bill will prohibit devices which have been used in a small fraction of the murders committed in America, none of which occurred in Hawaii. At worst, everyday objects - sticks, belt loops, plastic drinking straws - will now be deemed illegal "multiburst trigger activators" because an individual possesses one alongside a firearm. If laws are written to specify unlawful behavior, the vagueness of this bill's language is unacceptable and I ask that House Bill 1908 be fully opposed.

Aloha,

I oppose this measure and strongly urge you to do the same. This bill still does not achieve its intended goal of preventing acts of violence committed with a firearm. All that this bill does is outlaw a category of gun accessory that thousands of firearm owners have purchased. These folks are law abiding and will be made into FELONS with the stroke of a pen. This is an unjust level of punishment and violates the principle of 'the punishment fitting the crime'

The real criminals however will still be unimpeded by this or any law. You as our legislators need to stop looking for laws that only affect lawful gun owners. Instead, I urge you to explore and pass legislation that STRENGTHENS the rights of lawful citizens to protect themselves and their families. Specifically, we need concealed carry law reciprocity and the expansion of the Castle Doctrine outside the home.

Comments:

To ensure the safety of the children and residents of Hawaii, I am in full support of HB 1908.HD1. I see no logical reason for **anyone**, other than the military, to be in possession of a multiburst trigger activator. The only purpose for such a device is to kill people - not for hunting or target practice. Do we really want to put that message out to people by failing this bill?

Respectfully,  
Joanna Savage  
Hilo, Hawaii

<b>Submitted By</b>	<b>Organization</b>	<b>Testifier Position</b>	<b>Present at Hearing</b>
Russell Takata	Individual	Oppose	No

Comments:

I STRONGLY OPPOSE this bill as amended. The recent amendment of the definition has language that is too vague to clearly exclude law-abiding citizens from performing trigger adjustments, acquiring trigger replacements and installation to improve safety of firearms for purposes of competition, hunting, and self defense. This bill leaves too much variety in interpretation that a law-abiding citizen can be made a criminal by default. In essence, someone can be considered guilty until proven innocent. Isn't it suppose to be the other way around, innocent until proven guilty?

Testimony for CPC on 2/21/2018 2:00:00 PM

<b>Submitted By</b>	<b>Organization</b>	<b>Testifier Position</b>	<b>Present at Hearing</b>
Todd Yukutake	Individual	Oppose	No

Comments:

I oppose HB1908 HD1 because I feel it is ineffective while restricting the rights of gun owners.

This law came about from the Las Vegas terrorist incident to help save lives. However it will not work because bump stocks aren't necessary for rapid fire. There are many documented ways of increasing the rate of fire using a belt loop, rubber band, and even holding the rifle a certain way can copy this effect.

There are disadvantages to using a bump stock or similar technique such as inaccuracy, uncontrollability, and use of a lot of ammo which makes it's use in a a terrorist incident highly unlikely. It may seem like a easy thing to ban a firearms part like this, but please be aware you are still taking a constitutionally protected item from legitimate gun owners.

There are other ways that have been suggested by gun owners which can help to fix the gun crime issue. Allocate more resources into finding and investigating felons and keeping them in prison. Fund more mental health research and treatment. Pass Shall Issue CCW to arm the public who can respond to an incident in seconds versus waiting minutes for the police to arrive.

Please oppose HB1908.

Comment only:

I previously registered opposition to this bill.

In 2017 there were 106 deaths here in Hawaii. Where is the outrage and and anger to this carnage? I'm not talking about gun violence here. These were automobile and traffic-related deaths. Please use your common sense and abandon this useless legislation. Get to work and try solving some real problems. Stop wasting your time, my time and MY money.

Comments:

I am in opposition of HB 1908 due to the fact that it contains very vague language and this legislation is unenforceable. The Bureau of Alcohol, Tabacco, Firearms, and Explosives does not say these devices are illegal and it should not be made illegal at the state level. This is clearly an infringement on law abiding citizen's second amendment rights, which is unconstitutional. Banning these devices form law abiding citizens will not reduce crime because criminals don't care about laws, this legislation unjustifiably affects noncriminals. Please support me and thousands of others who oppose this legislation

Comments:

The bill is worded well and I recommend its passage. However, consider another bill prohibiting any non-active duty military or police from possessing an AR 15 or any other military grade firearm. I am appalled that children must experience "active shooter" drills in school, and we must act now to make these weapons illegal.

From Rep.

From: Bradd Haitzuka [mailto:shorecaster96744@gmail.com]

Sent: Monday, February 19, 2018 10:15 AM

To: Rep. Linda Ichiyama <repichiyama@capitol.hawaii.gov>  
Subject: HB1908

As a law-abiding Hawaii gun owner, I respectfully urge you to oppose House Bill 1908.

Removing law abiding citizens access to firearm accessories will do nothing to stop or deter criminals and their activities regarding weapons use. Instantly turning lawful citizens into felons because of owning certain property without due process, nor compensation, is in clear violation of the 4th, 5th, and 14th amendments to the Constitution of the United States.

The 4th Amendment states:

"The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized."

The 5th Amendment further protects property, by stating:

"No person shall be ... deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation."

The 14th amendment states:

"All persons born or naturalized in the United States and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws."

Once again, oppose this bill and please consider working on bills that will actually prevent crimes and catching / incarcerating criminals.

Law abiding gun owners are not the problem in this state.

Again, as a fellow Hawaii resident, I urge you to oppose House Bill 1908.

Thank You,

Bradd Haitzuka

Comments:

If a device allows a semi-auto firearm to function like a full-auto firearm, then its regulation should be a federal issue, to be defined by the BATF. The Federal Government defines and regulates Class III firearms (machine guns, suppressors, etc.). The State of Hawaii should wait and follow federal guidelines on this matter. Regardless, Hawaii is not a Class III state, so these devices would not be allowed here anyway.

Comments:

**February 20, 2018**

**The Honorable Roy M. Takumi, Chair**

**House Committee on Consumer Protection and Commerce**

**Hawaii State Capitol, Room 329**

**Honolulu, Hawaii 96813**

**Re: HB 1908, HD1 Prohibited; Multiburst Trigger Activators; Firearm**

**SUPPORT**

**I am firmly in favor of HB 1908 , HD 1 for the following reasons:**

- 1. The State of Hawaii is recognized as among the top ten states with the most stringent gun control laws and among the top ten with the fewest gun deaths. HB 1908 underscores this status. Any loosening of the existing State gun laws would put at risk the safety of both the State's citizens as well as all visitors and increase the demands on law enforcement.**
- 2. The State of Hawaii depends on tourism as one of its primary industries with a high percentage of tourist from countries with likewise strict gun laws for example, Japan, China, Australia, Canada, UK, and Germany. Any loosening of State gun laws could foreseeably have a negative effect on our strongest industry.**

**3. Results of Honolulu Star Advertiser's ongoing poll in response to the question "*Should Hawaii ban 'bump stocks,' which modify the firing of firearms?*" show overwhelming support; as of Feb. 20th, 1186 responded in favor (yes) with 164 responding against (no).**

**4. Multi-burst trigger activators or any such device that simulates automatic gunfire does not belong in the civilian domain – is not appropriate for nonmilitary self-defense, competition, and certainly not for hunting.**

**Than you for the opportunity to support HB 1908. Jill Savage**

Subject: FW: Regarding HB 1908 and Hawai'i Gun Laws

From Rep.

From: Cheryl B [mailto:burgharc@gmail.com]

Sent: Tuesday, February 20, 2018 8:37 AM

To: Rep. Roy Takumi <reptakumi@capitol.hawaii.gov>  
Subject: Regarding HB 1908 and Hawai'i Gun Laws

Dear Representative,

I had hoped to walk over to the capitol to your office today to talk with you about gun legislation. As I am not able to do so, please accept this email with my thoughts for you.

Understanding that Hawai'i has some of the strictest gun laws in the US, does not ease the anxiety that felt in this current world of individual rights to buy, carry and own a weapon that can be used as a tool to kill others. Today (and I am sure there are more days to come) you have a bill before your committee HB 1908. Please support the ban on these items that can be added.

You have seen the news over the past years of the school shootings and other mass shootings. The pro and con media has been out in full force. I don't need to list them, Google will bring you hundreds of articles. I can only speak from my own experience and heart and ask you to step aside from the politics of winning votes or popularity to truly look at this bill and any other bills that come across your desk.

I am a retired educator, 40 years in elementary classroom, and I can tell you that it was always my job to be the first protector of my students. It is the first job of any teacher to keep their students safe while in their care. Right now, the anxiety and daily stress on teachers and kids wondering and worrying if there school is next is high. Here in Hawai'i, teachers are looking at their classrooms in a whole new light and discovering huge flaws in the system to keep them safe. We have beautiful rooms with lots of windows and open space, ideal for teaching not so much for hiding. Plans in place, procedures learned but in the final moment who is the first line of defense? Teachers, not you who make the laws.

Requesting:

1. that you consider actual people, faces when you create and vote on bills, those teachers on the front line
2. that you think about it being Hawai'i, not the continent when you consider bills
3. that you rethink your reception of \$\$ from the NRA, if you do accept them
4. that you think about how we have gotten to this place and time, look for the underlying issue of anger rather than taking the bandaid approach to a gaping wound.
5. that you look at the recent increase in violent crime and the media and police response to it as well as the armed response of law enforcement to peaceful protest.

These are just a few things I have been thinking about since the most recent tragic act of terror in Florida. It is not easy to create legislation, but on our basic rights to gather in a school, church or event and feel safe. I believe it's time to reassure us all and I hope you can by making positive forward thinking decisions.

Cheryl Burghardt  
Retired educator

Patrick J Morrissey HB 1908

(support, oppose, comments only)

Comments: (reason for your position, facts, statements, experiences, etc.)

legislation proposed before the committee is an over-reach  
of government regulation on a non-existent problem for Hawaii.  
It reflects a knee-jerk reaction to issues not local to Hawaii.

I oppose \_\_\_\_\_ HB 1908

(support, oppose, comments only)

Comments: (reason for your position, facts, statements, experiences, etc.)

This change doesn't have enough definition which would  
cause it to prohibit common modifications that serve  
to aid in sport and self defense purposes. what  
is proposed is too much of a blanket statement

(support, oppose, or comments only)

Comments: (reason for your position, facts, statements, experiences, etc.)

You people know nothing about guns, so you have no right to make laws limiting what I can do to my guns. Maybe YOU PEOPLE should either ~~do~~ ACTUALLY do some reserch or just PISS OFF!!!

No but really JUST PISS OFF!!!!

If this offended you then you can just sit on it AND ROTATE!!!!

HB1908 Relating to Firearms, Prohibits multiburst trigger activation

Wednesday, February 21, 2018, 2p.m.

Conference Room 329, State Capitol, 415 South Beretania Street

I oppose HB1908.  
(support, oppose, or comments only)

Comments: (reason for your position, facts, statements, experiences, etc.)

They're still considered semi-auto, I don't appreciate the freedom of choice being taken away.

Comments:

Aloha Chair Takumi and members of the Consumer Protection Committee

Aloha Ke Akua

I'm writing in opposition to HB1908.

Although well intended specific to "Bump Stock" devices and potential increased rate of fire on a specific rifle, the bill as written and presented is broad and overreaching. It was also obvious from the newspaper article published in the Honolulu Advertiser that the understanding by the article's author of what triggers and trigger modifications actually do is not accurate. We need to make things clear that a bump stock is not a trigger nor is it an internal mechanism that determines weather a firearm is automatic or semiautomaic.**ALSO TO REITERATE, AUTOMATIC FIREARMS HAVE BEEN BANNED BY LAW FOR CONSUMER OWNERSHIP SINCE 1986.**

Many firearm owners modify their triggers to improve the function of the firearm, not to turn them into full auto firearms, but rather to make them more suitable for target practice, self defense, competition, hunting, overcoming a disability and for improved accuracy. This potential law would put those lawful persons at great risk of being charged as felons.

Please take the time to educate yourselves on what are the facts and the specific functions of a firearm before passing laws that serve nothing but a quick rush to judgment and with unintended consequences.

I'm a hunter, Firearms instructor and a huge proponent of safe use of firearms and firearm laws that are reasonable and realistic. This particular bill does not serve the public in ensuring a safer community.. A safer community when it comes to firearm use, is to ensure we enforce existing laws that prevent the wrong people from possessing firearms.

I'm happy to offer a course in basic firearm safety to anyone in the legislature on a volunteer basis. My hope is to bridge this gap in understanding and help our community understand and not be so quick to vilify gun owners and law abiding citizens that own firearms.

Yours with Aloha and always with safety through education.

Glennon T. Gingo

Holualoa, (Big Island) Hawaii

<b>Submitted By</b>	<b>Organization</b>	<b>Testifier Position</b>	<b>Present at Hearing</b>
Michael Leong	Individual	Support	No

Comments:

Why is a bump stock necessary? It's already documented the NRA reportedly bans use of bumpstocks at its gun ranges because these mechanisms makes rifles wildly inaccurate, are difficult to control, and many gun owners look down upon them. Changing the law nationally will require either the ATF or Congress to take up the issue but in the mean time, there are states that already restrict their use. California, Connecticut, Hawaii, Maryland, Massachusetts, New Jersey, New York, Puerto Rico and Wash DC have strict laws but their interpretation is always open to discussion. A study conducted for CNN News showed that states with a large capacity ammunition ban showed a 63% lower rate of mass shootings. I respect the rights of law abiding gun owners, but something has to be done about the school and public shootings occurring now. Too many adults and children are dying. Pass HB1908 -Mahalo

Testimony for CPC on 2/21/2018 2:00:00 PM

<b>Submitted By</b>	<b>Organization</b>	<b>Testifier Position</b>	<b>Present at Hearing</b>
morgan nii	Individual	Oppose	No

Comments:

I feel this Bill in its current state is too vague to be processed in it's current state. The wording seems to try to make felons out of law abiding citizens who may have SEMI AUTOMATIC trigger assemblies that allow them for more consistent use during sport and recreational shooting activites. If "bump-fire" stocks are what cause them to shoot rapidly then they should word it so the EXACT item they want to ban is banned. The bill is too vague and seems to have been written in a way that would make felons out of the people who are actually trying to follow the rules and regulations of owning LONG RIFLES not assault rifles as people like to call them.

<b>Submitted By</b>	<b>Organization</b>	<b>Testifier Position</b>	<b>Present at Hearing</b>
Bill Richter	Individual	Oppose	No

Comments: As a law-abiding Hawaii gun owner, I respectfully urge you to oppose House Bill 1908. House Bill 1908 would make it a felony for any person who "manufactures or causes to be manufactured, imports into the State, keeps for sale, or offers or exposes for sale, or who gives, lends, or possesses" certain trigger modifications. The broad language of this bill could encompass many common modifications done by law-abiding gun owners to make their firearms more suitable for self-defense, competition, hunting, or even overcoming disability.

<b>Submitted By</b>	<b>Organization</b>	<b>Testifier Position</b>	<b>Present at Hearing</b>
Kimiko LaHaela Walter	Individual	Support	No

Comments:

Aloha Chair Takumi, Vice Chair Ichiyama, and members of the Committee,

I am in STRONG SUPPORT of HB 1908 HD1.

In the wake of the Florida school shooting last week, let us remember the dangers of semi-automatic/fully automatic firearms. As I understand it, HB 1908 HD1 would prohibit multiburst triggers on firearms, also known as "bump stocks."

As defined by the measure, a "multiburst trigger activator" is a device that simulates automatic gunfire by allowing the standard function of a semiautomatic firearm with a static positioned trigger finger, or a device that fires multiple shots with the pull and release of the trigger. Bump stocks fit over the stock and pistol grip of a semi-automatic rifle and allows the weapon to fire rapidly, as many as 400 to 800 rounds per minute, emulating a fully automatic firearm.

THERE IS NO REASON to allow this type of weapon here in Hawai'i. Period. "For hunting purposes" is absurd. There is no sport, no practical reason that a "hunting" weapon should fire off 400-800 rounds per minute. This weaponry is designed to kill humans in warfare and has no place in our society.

Let's continue to keep our gun laws in Hawai'i strict and pass this important measure.

Mahalo for the opportunity to testify in support of HB 1908 HD1.

Kimiko LaHaela Walter

House Committee on Judiciary

Chair Scott Y. Nishimoto and Vice-Chair Joy A. San Buenaventura

House Committee on Consumer Protection & Commerce

Chair Roy M. Takumi and Vice-Chair Linda Ichiyama

Dear Members of the House Committees on Judiciary and Consumer Protection & Commerce:

I strongly support HB1908 which prohibits multiburst trigger activators.

The only reason to install a device to simulate automatic gunfire is to shoot more quickly and efficiently. Only mass murderers need such a device.

I strongly support HB1908 which makes possessing such a device as a class C felony.

Thank you for this opportunity to testify on this important matter.

Sincerely,  
Nathan Yuen

<b>Submitted By</b>	<b>Organization</b>	<b>Testifier Position</b>	<b>Present at Hearing</b>
Roger Lukas	Individual	Oppose	No

Comments:

Dear Committee members:

With all due respect, I oppose this bill, and urge you to discontinue its advance in the legislature.

In the wake of recent mass shootings, the extreme media rhetoric in favor of gun control legislation (such as this bill) is quite intimidating to lawful gun owners who cherish their rights. I suspect that many residents in the State of Hawaii are, like me, somewhat afraid to speak up against this legislation because that is not politically correct.

Often ignorant but very passionate public rhetoric, especially since the school shooting in Florida, encourages legislators throughout the nation to "do something". Eroding the 2nd Amendment in the Bill of Rights is relatively easy compared to dealing with the societal issues surrounding mentally deranged individuals and the many ways that they may harm others.

I urge all of you to direct your valuable time and efforts to the many very real problems that the residents of Hawaii have to deal with on a daily basis. Addressing the threats to the public health and safety presented by unstable homeless people is one such pressing problem.

I oppose this bill, and urge you to vote against it..

Sincerely,

Roger Lukas

**LATE**

My name is Mona Chang Vierra, a life long resident of the State of Hawaii and I very strongly support the passage of HB 1908. This bill will help protect our citizens by banning accessories to guns that can turn them into automatic weapons. I have been a public school secondary teacher and school administrator for more than 35 years and believe that all children, teachers, and staffs must feel safe in their learning environment. In fact, all citizens must be safe in their surroundings. The banning of bump stocks and accessories of these types will help to protect everyone in our State. There is absolutely no reason to allow these accessories to continue to be sold. I ask that you pass this bill and have it become law. Thank you.

Mona Chang Vierra

Comments:

At the Las Vegas terrorist attack on October 1st, 2017, the shooter used bump stocks on semi-automatic rifles to increase thir rate of fire to that of an automatic weapon. As a result, 58 people were killed, and hundreds more injured. Restricting this kind of device from being sold and distributed here is not the only thing that must be done, but a failure to do so would mean that Hawai`i officials have not learned a thing from watching what's happening in America.

I am also willing to support further legislation that would prevent the sale or distribution of firearms with, or can be modded for those capabilities. Weapons such as these do not belong here in Hawai`i.

Comments:

I am a teacher at HAwai'i schools and a long-time resident. I have researched guns and the uses of multi-shooting weapons and bumpstocks. I fell there is no reason for anyone to have a weapon of this kind except for military or police.

These are designed to kill many people in a short period of time and are one of the things used by school shooters. I realize this is only one component of a prevention program with the others being school funding and improved reporting for problem children. However, this is the most important step.

I urge you to pass this measure to control multi-firing weapons.

Comments:

After the tragedy in Parkland, it is clear that bump stocks and similar devices which can promote mass killings need to be prohibited in Hawaii and throughout our country to protect school children and others.

Comments:

Thank you for your consideration of my testimony.

I am against the use of military style weapons being sold to civilian, this includes bump stock accessory. I do not see any reason why having a high capacity weapon fire in a faster manner is necessary. I understand that it can make the gun more fun to shoot at the range. However, the fun of shooting the weapon is not worth the lives lost.

In my opinion, the bump stock is an accessory to a gun and therefore should not be protected as a right under the second amendment.

Please let Hawaii be a leader to the rest of the states and ban bump stocks to deter people from owning them.

Thank you,

Stacey Stella

Comments:

Dear Honorable Representatives,

Regarding HB 1908.

I Wyatt Lee strongly oppose this measure, because there are State and Federal laws that cover this issue. It also criminalizes responsible law abiding citizens, and this measure is a reactionary measure to appease one faction of society. If we are to make any sort of changes, you should introduce a measure that prevents firearms from falling in the hands of children who are unsupervised, and people who are law breakers and convicted felons.

Comments:

I urge the Committee to pass HB 1908. I do not believe that restricting the means to convert a firearm into one that can shoot 400-800 rounds per minute violates our 2nd amendment rights. Legitimate uses for a firearm, such as personal safety, hunting, target practice, do not require any device like a bump stock. Saying that the same thing (conversion of a gun) can be accomplished without something like a bump stock has no bearing on the debate. Manufactured devices make the conversion too easy and convenient. I do not believe HB 1908 will infringe on my 2nd amendment rights, but I do think it WILL help protect my personal right to "life, liberty, and the pursuit of happiness" by reducing the ability of a gunman to commit mass murder in minutes.

Comments:

Aloha Legislators,

I am writing to submit testimony in opposition to HB1908 HD1. As a law-abiding gun owner, my rights have been constantly infringed. Up until now, i, and many other individuals have abided by numerous infringements against our rights. Magazine restrictions, capacity restrictions, barrel length restrictions, firearm type restrictions, conceal and carry restrictions, and now our rights are at risk of being further restricted by a poorly crafted and ambiguous bill that would do nothing to enhance public safety, but simply leave the door open to further infringements. Your knee-jerk reaction to events in Las Vegas Nevada, have clouded your better judgment. As your constituent and a citizen of the United States, I am hereby making my voice known to you that should you pass this bill, you will NOT have my vote for re-election.

Mahalo and God bless,

-James P.

Comments:

Aloha,

I urge you to support HB 1908. Mothers everywhere expect this legislation to pass. While I support the second amendment, there must be common sense regulations that address the gun industry's innovation in developing better ways to kill more people. These products were not on the minds of our forefathers in 1791. 1791!!!! They may be fine weapons of war, but they have no place outside the military. No citizen needs these products for self-defense. And their desire to use these for sport does not trump my right, or my children's right, or the public's right to safety.

Support HB 1908. Lead the nation in sensible gun regulation.

Mahalo,

Melissa Marland

Comments:

Aloha Chair Takumi, Vice Chair Ichiyama and members of the Committee on Consumer Protection and Commerce.

I appreciate your review of this important issue. Given the current events and political will of the people, I urge you pass this bill forward. Gun owners have their right to bare arms but there is no need to make those arms so adept at firing that it can take 90 shots in 10 seconds. If every one of those shots were to land on human, it would kill 540 people in a minute's time. Really let that sink in. What threat is so imminent that there would be a civilian need for such a device? It effectively makes the firearm a fully automatic weapon which is illegal for private citizens to own. (see below). Please pass this bill and close this legal loophole in our state.

<https://www.nytimes.com/interactive/2017/10/04/us/bump-stock-las-vegas-gun.html>

"The bump stock is [not banned](#) under federal law even though it allows a weapon to fire at nearly the rate of a machine gun without technically converting it to a fully automatic firearm. (It is illegal for private citizens to possess fully automatic firearms manufactured after May 19, 1986; ownership of earlier models requires a federal license.)"

Mahalo nui for the opportunity to testify,

Lana Olson

Kaua'i

Comments:

'Bumpstocks' and similar devices should be illegal because they essentially convert a standard weapon into an automatic weapon. I don't believe that civilians should have automatic weapons. I believe in the right to bear arms, but there must be legal limits.

Comments:

REPRESENTATIVE Scott Y. Nishimoto

Chair, House Committee on Judiciary

RE: HB1908 SUPPORT: HD1

First, as of 11:40 a.m. February 21, 2018 there are 118 pages of submitted testimony.

There are FOUR very important SUPPORTING testimonies from:

1. Richard K. Minatoya, Maui Department of the Prosecuting Attorney
2. Mayor Harry Kim, County of Hawaii
3. Chief of Police, Susan Ballard and Captain David P. Nilson, HPD
4. Mine, Susan Pcola-Davis, just heard about this today.

There are  $119 - 4 = 115$  currently that are OPPOSED. Of these, there are two that will be present.

I offer comments on two that are OPPOSED. Neither will be present to testify in person.

Hawaii Rifle Association makes the case of WAITING until someone using the device in the commission of a crime may be charged with an additional felony. My case is, why let them own it in the first place. Now the person actually can commit some crime and wait to be convicted.

Institute for Rational and Evidenced-Based Legislation states they oppose the bill because it doesn't address an existing problem. Again, wait until something happens in HAWAII, then we may consider something.

As I viewed all of this I have decided to testify in person.

Respectfully

Susan A. Pcola-Davis
