H.B. 2283
RELATING TO TRANSPORTATION

House Committee on Transportation

The Department of Transportation (DOT) **supports** this bill provided as it does not replace Departmental priorities requested in the Executive Budget.

From the DOT H-1 Corridor Study the prioritization ranking of these 3 projects amongst the 63 projects identified for the Interstate Route H-1 are as follows:

1. EB Widening- Waiawa IC to Halawa IC- one additional travel lane
8. EB Widening- Kualakai Pkwy to Waiawa IC- one additional travel lane
58. Ft Weaver Ramp Modification- new makai bound loop on-ramp

Additionally, these projects are considered regionally significant under the federally approved metropolitan transportation planning process therefore would require evaluation and prioritization that include the regional long-range transportation plan, congestion management process, and transportation improvement program.

Thank you for the opportunity to provide testimony.

LATE LATE

HB-2283

Comments:

These projects are badly needed to help ease traffic in the most congested areas of our State, the H1 corridor.
