

DEPARTMENT OF TRANSPORTATION

Chair and Honorable Members of the Committee:

Thank you for the opportunity to present the Department of Transportation's FY 2019 Supplemental budget requests. Our testimony consists of:

- 1) Air Transportation Facilities and Services
- 2) Water Transportation Facilities and Services
- 3) Land Transportation Facilities and Services
- 4) Overall Program Support for Transportation

Each division has provided its mission statement, a narrative of the current statewide economic condition and how it has affected the division's operations and ability to meet goals and some notable performance measures, expected outcomes, and recent results. Presented also are additional information related to each division for operating & maintenance and capital improvement program (CIP). Please refer to Tables 1 – 18 in each division's section (Airports, Harbors, and Highways).

TRANSPORTATION FACILITIES AND SERVICES

A. Provide your agency's mission statement.

The overall mission of the Department of Transportation (DOT) is to provide a safe, efficient, accessible, and sustainable intermodal transportation system that ensures the mobility of people, goods, and enhances and/or preserves economic prosperity and the quality of life.

B. Discuss how current state-wide conditions have affected agency operations and the ability to meet goals. Identify and discuss notable performance measures, expected outcomes, and recent results.

The DOT is an enterprise fund operation, it is authorized to impose and collect rates, and charges for the use of Hawaii's airports, harbors, and highways, as well as secure grants from the federal government to generate revenue to fund operating expenses. Because it is mostly out-of-state travel and tourism, which drive these revenues that come predominantly from user charges, the DOT is highly dependent on economic factors outside of the state than inside of the state. To project revenue that will affect the agency's operations and its ability to meet goals in the coming year, we have to look at the economic conditions in major tourism markets as well as proposed federal spending amounts.

Hawaii's economy depends on conditions in the US economy (US East and US West) and key international economies, particularly Japan and Canada. The US economy is expected to grow at 2.2% in 2017 and 2.5% in 2018 based on the Blue Chip Economic Consensus Forecast. The OECD projects that Japan's real GDP will grow by 1.2%, after accounting for inflation, between 2017 and 2018. This increase in wealth in Japan combined with the relative value of the Yen appreciating vis-à-vis the US dollar will both result in making it easier/cheaper for Japanese nationals to travel to Hawaii. Similarly, the US dollar has lost value relative to the Canadian dollar, just like the Japanese Yen. Moreover, the Canadian economy is also projected to grow by 2.1% in inflation-adjusted terms between 2017 and 2018, including a 2.8% increase in private consumption.¹

Conditions in our major tourism markets and impact on Hawaii seem favorable. Each market is predicted to increase in spending, and the US dollar is weakening in value which makes it easier for international travelers to come to Hawaii. On the other hand, Federal grants (Transit Formula Grants) are expected to be flat in 2018.² Beyond 2020, prediction for Federal revenue sources are unclear, there has been no substantive updates to President's Trump's \$1 billion infrastructure investment plan.

Given the above current statewide economic conditions, presented are FY19 supplemental budget requests in detail in the section of each of the DOT division. For Airports, the budget requests are not expected to have any direct impact on the program's measures of effectiveness; however, the requests may affect the efficiency and safety of the operations. For Harbors, the budget requests have no significant change to the measures of effectiveness and program size. And for Highways and General Administration, budget requests are not anticipated to have any significant impact on the program's measures of effectiveness and program size.

Federal Funds

- C. Identify programs that have lost or are at risk of losing federal funds. Identify the source of these federal funds by federal award title and CFDA number. Discuss the impact to the public and your planned response, including efforts to supplant any federal fund reductions for the current year (FY18) and the upcoming fiscal year (FY19) with other funds.**

Each division manages a number of federal grants awarded by various federal agencies. Federal funds awarded to the divisions are used for both Operating & Maintenance and CIP projects. General Administration holds grants which are later distributed to sub-

¹ Source: OECD economic outlook of Canada.

grantees. Except for Highway, which is faced with declining Federal Highway Trust Fund that continues to depend on other Federal revenue sources to cover ongoing shortfalls in fuel (due to declining vehicle miles traveled, more fuel efficient vehicles and other factors) and other user tax revenues over a 5-year period to support the surface transportation program, the other divisions in the agency have not received any indication or anticipate reductions in Federal funding levels.

Non-General Funds

- D. Please provide a web link (url) of the reports to the Legislature on non-general funds under your department pursuant to HRS 37-47.**

Currently, we are waiting for B&F to upload the latest FY17 submitted non-general funds report. The FY16 non-general fund reports are located in <https://budget.hawaii.gov/wp-content/uploads/2017/01/TRN-2017-Leg-1.pdf>.

Budget Request

- E. Explain the process used to develop the agency's budget and prioritize requests for budget changes.**

Each Division, in consultation with their respective stakeholders, monitors their finances and presents a budget for the agency Director's consideration. Each Deputy Director prioritizes their budget requests according to meeting their goals and outcomes as well as compliance with Federal law and requirements, for approval by the Director.

- F. Identify and discuss significant adjustments contained in the budget request submitted to the legislature. Explain and quantify how significant requests for additional funds are expected to affect outcomes.**

Each Division presents their significant budget requests to the Legislature with explanations, which are presented subsequently in this report.

**DEPARTMENT OF TRANSPORTATION
AIRPORTS DIVISION**

Overview

A. Provide your agency's mission statement.

The mission of the statewide airports system, which consists of Five primary airports — Daniel K. Inouye International Airport (HNL), Kahului Airport (OGG), Lihue Airport (LIH), Ellison Onizuka Kona International Airport at Keahole (KOA), and Hilo International Airport (ITO) serve domestic overseas and international carriers, six smaller airports that serve primarily propeller-driven commercial and general aviation traffic serving both commercial and general aviation, and four small airports for general aviation is:

Encourages, fosters and assists in the development of aeronautics in the State of Hawaii. Plans, designs, constructs, maintains and operates public airports. Provides airport facilities that accommodate the safe, orderly and efficient movement of aircraft, vehicles and air travelers.

B. Discuss how current state-wide conditions have affected agency operations and the ability to meet goals. Identify and discuss notable performance measures, expected outcomes, and recent results.

To meet the economic needs of the state, the Airports Division must provide suitable airport safety and facilities that provides domestic and international travelers a unique destination experience. As an island state, air travel is particularly critical to Hawaii's tourism industry. Hawaii airports cater primarily to origination and destination traffic and not necessarily as a stop-over to other destinations. A report prepared recently by the Department of Business Economic Development and Tourism (DBEDT) has indicated that Hawaii's tourism market is resilient. Visitors by air to Hawaii for the 12 months ended September 30, 2017 have increased by 2.4 million or 36% since the economic downturn in 2008. DBEDT forecasts continued growth in air traffic averaging 2.3% through 2018. Prior to the economic downturn, visitors averaged 7.5 million. Hawaii's resilient tourism market has rebounded and surpassed pre-recession visitor counts are forecasted to increase even further to 9.2 million by 2017. Domestic visitor arrivals accounted for 68% in the first 9 months of 2017, with international visitor arrivals accounting for 32%.

The continued improving economy positively impacts the financial condition and position of the Airports Division. Total airline and concession revenues have grown steadily over the past 5 years. Operating revenues have grown to \$398 million in fiscal year 2017 or \$86 million since fiscal year 2012 mainly due to increases from signatory airline, rental car, and parking revenues. The Airports Division's Multi-Year Financial Statement forecast indicates growth in operating revenues of approximately \$27 million

in FY 2018 and \$28 million in FY 2019 mainly due to anticipated increases in concession revenues and higher airline revenues. Among other concessionaries, the in-bond duty free operator, DFS, has committed to major capital improvements amounting to \$69 million, with higher minimum annual guarantees starting 2018.

The Airports Division continues to generate income from its operations, as a result of a diverse mix of revenue sources. Signatory airline requirements are continuously monitored by the Division to assure financial stability and bond certificate requirements are met on an annual basis. The continued implementation of cost saving measures by management such as the Energy Savings Contract which was subsequently completed in FY 2016 and, together with other factors, reduced overall utility expenses. As a result of prudent financial management, the Airports Division has received overall credit ratings upgrades from Moody's Investor Service from A2 to A1 with stable outlook in October 2015, Standard & Poor's from A to A+ with a stable outlook in October 2015, and Fitch from A to A+ with a stable outlook in October 2017. In July 2017, the Airports Division received new ratings for the Airport System Customer Facility Charge (CFC) Revenue Bonds. The Airports Division received ratings of A+, A and A2 from Standard and Poor's, Fitch Ratings, and Moody's Investors Service, respectively. The ratings were equal to or greater than the strongest Airports' CFC Revenue Bonds ratings in the nation. The rating agencies cited the Airport System's monopoly of commercial air travel, continued strength in financial performance, and strong passenger growth trends as major factors. The Airports Division will realize lower borrowing rates for current and future bond issues, which would enable the Airports Division to continue working with the airlines to improve airport facilities and enhance the overall passenger experience.

Capital Improvement Projects to modernize our airport facilities continue to move forward. Major projects under construction include the Daniel K. Inouye International Airport (HNL) Mauka Concourse Terminal adding a combination of 6 wide body or 11 narrow body gates; and the HNL and Kahului Airport Consolidated Car Rental facilities. These projects are funded by cash, revenue bonds, federal grants, passenger facility fees, and rental car facility collections. The upward trend in domestic and international travel to Hawaii and limited resources (staffing and status quo maintenance budget) continue to challenge us to maintain and upgrade our facilities. The Airports Division is seeking improvements to the State's time consuming contractual and procurement process in order to deliver projects on a timely basis since the Division is a major contributor and economic stimulus to the State's construction industry. Improving the overall contractual and procurement process will also enable the Airports Division to utilize the Federal Aviation Administration (FAA) grants in a timely manner, thus facilitating increased future grant funding. We continue to adapt to airline industry standards and additional FAA and U. S. Customs and Border Protection requirements. Processing time of arriving international passengers at HNL was reduced with the installation of the Automated Passport Control (APC) kiosks. Additional APCs were installed at KOA in support of the new Hawaiian Airlines 3 flights per week service from Haneda, Japan. In September 2017, Japan Airlines added a daily flight to KOA. Airline

related Capital Improvement Projects are reviewed by our staff and approved by Signatory Airline Carriers.

The approval of budget increases of \$61,528,459 and \$72,025,027 for FY 2018 and 2019, respectively, has enabled the Airports Division to maintain the same level of service to its customers and stakeholders. We expect enplanements to increase by approximately 1.5% annually in future years, with higher growth rates for overseas visitors.

Federal Funds

- C. Identify programs that have lost or are at risk of losing federal funds. Identify the source of these federal funds by federal award title and CFDA number. Discuss the impact to the public and your planned response, including efforts to supplant any federal fund reductions for the current year (FY18) and the upcoming fiscal year (FY19) with other funds.**

The Airports Division continues to receive Airport Improvement Program (AIP) entitlement funds (CFDA # 20.106) at a stable level for airfield, terminal and firefighting improvements. Depending on availability, the Division also receives its share of AIP discretionary funding for the same purposes. The FAA's AIP is funded through the Airport and Airway Trust Fund, and therefore is not subject to the fund reductions other federal programs are experiencing.

Non-General Funds

- D. Please provide a web link (url) of the reports to the Legislature on non-general funds under your department pursuant to HRS 37-47.**

<https://budget.hawaii.gov/wp-content/uploads/2017/01/TRN-2017-Leg-1.pdf>

Budget Request

- E. Explain the process used to develop the agency's budget and prioritize requests for budget changes.**

The Airports Division and its stakeholders proactively monitor the airport system finances. The Airports Division and the Signatory Airlines operate under a lease agreement that allows airline rates and charges to be adjusted under a residual rate-setting methodology, which allows any remaining residual costs of the airport system to be recovered, if necessary. Individual airline carriers have to constantly adjust as the demand for air transportation changes. Routes that have been

abandoned by carriers are quickly being picked up by existing Hawaii carriers or are being given serious consideration by other carriers indicating confidence in the strength of the Hawaii market. The food and beverage and retail concessionaires are making large capital investments in their Hawaii facilities in response to increased demand and future projected growth. In fact, these are the times to reiterate the importance of moving forward to ensure the Airports Division provides the necessary infrastructure to meet the evolving needs of the traveling public, concessionaires, tenants, employees, and Hawaii's airport system. We are cautiously optimistic with this momentum and in order to meet future growth, our budget requests focuses on continuity of services and safety. The Airports Division is seeking to increase funding for non-recurring costs (equipment, and motor vehicles), other operating expenses (i.e., routine maintenance, consultant services, etc.), and additional personnel at various airports.

The capital improvement modernization program continues to award contracts and break ground on numerous projects which will increase construction expenditure levels to four times the annual average in the next four years. In addition to the projects mentioned earlier, these projects include airfield and apron reconstruction, reroofing, roadway and terminal signage, and concession and restroom improvements at Daniel K. Inouye International Airport; holdroom and gate improvements at Kahului Airport; terminal modernization and an aircraft rescue and firefighting training center at Ellison Onizuka Kona International Airport at Keahole; and ticket lobby and holdroom improvements at Lihue Airport.

For the Operating and Maintenance budget, we are requesting:

FY 19: \$69,169,331B

Per Act 49/SLH 2017, Airports Division was appropriated \$541,110,349B funds and \$3,606,000N funds.

For CIP budget, we are requesting:

FY19: \$458,839,000

(\$390,687,000E/\$10,152,000N/\$53,000,000X/\$5,000,000R)

F. Identify and discuss significant adjustments contained in the budget request submitted to the legislature. Explain and quantify how significant requests for additional funds are expected to affect outcomes.

Below are highlights of the significant adjustments, organized by priority area, with an explanation of the expected outcomes:

1. Additional Positions – The Airports Division is seeking to increase its staffing levels by 84.5 FTE positions at various airports. The requests include the transfer of PSD positions to DOTA; Visitor Information Program Assistant positions to assist

international travelers in utilizing the APC kiosks and checkpoint management; ARFF positions to comply with bargaining union agreements and OSHA standards/FAA Part 139; and other positions to maintain and operate the various airports.

2. Other Operating Expenses – Additional funding is needed for routine maintenance, and other personal services contracts and expenses. The increased expenses are mainly due to additional planned maintenance expenses, continued 2nd year Wiki Wiki bus services, engineering and environmental consultant services, and operating and maintaining shuttle services for the Consolidated Rent-A-Car facilities (ConRAC).
3. Equipment and Motor Vehicles – Equipment is needed for employees to repair and maintain the airport facilities. The current ARFF vehicles have exceeded their useful service life cycles. The ARFF vehicles are required to respond to fire emergencies at the airport. The intra-airport passenger transportation system at the Daniel K. Inouye International Airport(HNL) provides international passengers transport to Customs Border Protection (CBP) and domestic passengers with transportation from gates to baggage claim and between terminals. Increased international passengers along with the "peaking" of airline schedules creates a "daily rush hour" and the need for additional vehicles. The Wiki Wiki bus fleet is increasing with electric vehicles. To support the ConRAC program approved by the Legislature in prior legislative sessions, the Division is seeking to purchase the (alternative fuel) shuttle buses. These are important purchases to achieve the State's and the DOT's clean energy initiatives.

TRN102			3		Increase in Wiki-Wiki bus service	Continue 2nd year funding.	B			347,459
TRN102			2		Add'l Wiki-Wiki buses (10)	This request is seeking funds to acquire electric vehicles for Wiki Wiki bus replacements. Having the proper number working vehicles will enable staff to work and/or respond more efficiently and effectively and reduce the passenger wait time, particularly international passengers in Customs & Border Protection.	B			10,994,788
TRN111			1		Add'l Routine Maintenance	Additional funds are needed to support routine maintenance contracts for various equipment which are up for rebidding and requiring a new contract. Anticipated cost increases are due to inflation, aging equipment and facilities.	B			734,000
TRN114			2		APC Kiosk assistance VIP positions	To expedite passengers with required arrival & departure procedures.	B	4.00		112,025
TRN114			1		Airport Operations Controller II psns	Add'l manpower to the operations in order to meet the requirements & needs of this expanding airport.	B	2.00		61,152
TRN131			2		Groundskeeper positions	Add'l manpower to the operations in order to meet the requirements & needs of this expanding airport.	B	3.00		93,427
TRN131			1		Kahului Access Rd landscape maintenance	Funds will be used for the daily maintenance of the roadway, landscaping, water feature & irrigation system of the recently completed airport access road from Hana Hwy to Kahului Airport. The new access road "gateway" consists of nearly 6 lane miles of roadway, covering an improved & manicured area of 1,200,000 sq ft or 27 acres with an initial investment of \$60M.	B			824,000
TRN161			1		ARFF vehicles	Purchase (2) 1500-gal ARFF vehicles.	B			2,040,000

TRN161			2		ARFF positions	Add'l manpower to the operations in order to meet the requirements & needs of this expanding airport.	B	12.00		740,176
TRN161			3		Airport Operations Controller II psns	Add'l manpower to the operations in order to meet the requirements & needs of this expanding airport.	B	3.00		91,728
TRN195			1		Consultant Services, O&M SMP - Statewide	Funds will be used to supplement the current Airports Division Engineering Branch (AIR-EM) with Architectural & Engineering firms to handle the increased workload on "as needed" basis to assist with the design and construction management of special maintenance projects.	B			3,700,000
TRN195			3		Architectural & Engineering Svcs, Mechanical Sys - Statewide	This contract will provide engineering and inspection support for oversight of the mechanical systems maintenance contracts statewide. Engineering & certified inspection services are required to insure the systems are being maintained according to manufacturer requirements per the maintenance contract specifications.	B			2,000,000
TRN195			2		Consultant Svcs - Environmental	Needed for the Environmental Engineering Section to provide a broad range of services Statewide including environmental engineering mgmt, design, inspections, compliance services with emphasis on stormwater prog to comply with the DOT consent decree.	B			8,000,000
TRN195			4		Increase APC kiosk maintenance	Cost to maintain additional APC kiosks.	B			200,000
TRN195			5		AIR-LF Secretary position	This position will serve as Secretary to the Airports Fire Chief, who is the head of the Airport Division Aircraft Rescue Firefighting Program, located in the Airports Operations Branch, Airports Division.	B	1.00		30,576

Positions will provide administrative support with security pass and identification processing in Kona. Positions are pending organizational and classification review.
FY18/FY19	Add one (1) Office Assistant IV, SR-10, pseudo position number 98179D, and two (2) Office Assistant III, SR-08, pseudo position numbers 98177D and 98178D to Security Services Section, Kauai. Positions will provide administrative support with security pass and identification processing on Kauai. Positions are pending organizational and classification review.
FY18/FY19	Add two (2) Visitor Information Program Assistant III, SR-12, pseudo position numbers 98144D and 98145D, and four (4) Visitor Information Program Assistant II, SR-10, pseudo position numbers 98146D, 98147D, 98148D, and 98149D in the the Visitor Information Office, Kona. Positions are pending organizational and classification review.
FY18/FY19	Add two (2) Visitor Information Program Assistant III, SR-12, pseudo position numbers 98107D and 98108D, and eight (8) Visitor Information Program Assistant II, SR-10, pseudo position numbers 98109D, 98110D, 98111D, 98112D, 98113D, 98115D, 98116D, and 98117D in the the Visitor Information Office, Oahu. Positions are pending organizational and classification review.

**DEPARTMENT OF TRANSPORTATION
HARBORS DIVISION**

Overview

A. Provide your agency's mission statement.

To effectively improve and manage a commercial harbors system that facilitates safe and efficient operations of commercial cargo, passenger, fishing, and other commercial maritime-related services and support activities within the State of Hawaii and which serves to sustain and enhance the State's economic prosperity and quality of life.

B. Discuss how current state-wide conditions have affected agency operations and the ability to meet goals. Identify and discuss notable performance measures, expected outcomes, and recent results.

Hawaii's isolated island geography underscores the significance of ocean cargo transport as the lifeline and only viable means to serve and support every facet of the local economy, including tourism, construction, national defense, agriculture, and all other industries. An estimated 80% of all goods consumed in Hawaii are imported, and 98.6% of the imported goods arrive through the commercial harbor system. Hawaii's residents heavily depend on its commercial harbor system and a disruption of ocean transport services will severely impair the state economy.

Hawaii's commercial harbors operate as a hub-and-spoke system with Honolulu Harbor as the hub and primary entry point for incoming cargo from the continental United States and foreign countries. Honolulu Harbor features 200 acres of cargo yard space and 30 major berth facilities. From Honolulu, cargo is distributed to five other islands served by seven commercial harbor facilities on six islands.

Current Conditions

The cargo volumes have steadily grown 22.6% over the last six fiscal years, and volume growth rates are projected to mirror forecasts for State economic growth. In Fiscal Year 2016, a total of 1.51 million twenty-foot equivalent units (TEU), or 234,879 domestic containers, 33,523 foreign containers, and 327,709 interisland containers, moved through Port Hawaii. In Honolulu Harbor, there are about 7,000 TEUs per container yard acre making the port 75% more dense than much larger ports like Seattle or Oakland. In addition to cargo, cruise ships account for a considerable portion of harbor activity with about 1 million passengers arriving at a commercial harbor facility in Fiscal Year 2016. There was an approximate 8% increase in passenger arrivals in Fiscal Year 2017.

Port Hawaii is a self-funded enterprise that generates revenue from harbor use fees and charges to cover operating and maintenance costs, as well as capital improvement projects and debt expenses for harbors modernization projects. In Fiscal Year 2016, the total operating revenue from harbor use fees such as wharfage, cruise passenger fees, dockage, mooring permits, port entry, cleaning charges, and other sources like land dispositions, storage agreements, and parking permits equaled \$130.13 million. The unaudited figures for Fiscal Year 2017 show an increase of 5.3%, or \$137 million in total operating revenue.

The increase in revenue is attributed to growth in cargo volumes and passenger arrivals plus a \$0.50 increase in per capita passenger fees and a 3% increase in wharfage rates in July 2016, followed by another 17% wharfage increase in February 2017. Additional increases to the wharfage rate effective on October 1, 2017, and July 1, 2018, as well as adjustments to the cruise passenger, dockage, and port entry fees ensure the revenue levels are sufficient for cash financing of the Harbors Modernization Plan and related capital improvement projects.

Altogether, these current statewide conditions are favorable for the Harbors Division and its ability to facilitate safe and efficient operations of the State's commercial harbors.

Harbors Modernization Plan Milestones Achieved

The Harbors Modernization Plan (HMP) was adopted by the Hawaii State Legislature in 2008 as a series of capital improvement projects with the objective of maximizing operational efficiencies that, in turn, will allow for decreases in costs associated with the movement of cargo and goods. The estimated cost of these projects was \$850 million.

The heart of the HMP is the 84-acre Kapalama Container Terminal (KCT) in Honolulu Harbor. In 2017, after nearly a decade of planning, the Harbors Division has awarded the construction contract for Phase 1 of this crucial project, and just issued the notice to proceed on December 1, 2017. The contract award of \$163.52 million is lower than the project estimate. Groundbreaking for the new cargo yard is scheduled for January 16, 2018.

The next phase of KCT is the wharf and 1,800 linear feet of berthing space at the terminal. Bids are expected to be advertised in early 2018. The completion of the entire KCT project is targeted for 2022.

Another key project of the HMP is the new Pier 4 inter-island barge terminal facility at Hilo Harbor. The construction of a new 602-foot wharf started in January 2016, was completed at the end of 2017, and was commemorated with a blessing ceremony on December 22.

The Harbors Division continues to achieve its HMP goals and safeguards the future of the commercial harbor system.

Strong Financial Performance

The Harbors Division's recent rate increases have created an infusion of cash necessary to fund the implementation of the Harbors Modernization Plan through cash flow financing. This infusion coupled with sound fiscal management resulted in two bond rating upgrades in 2017. In February, S&P Global Ratings upgraded the long-term rating to AA-/Stable, and in March, Fitch Ratings affirmed its A+ rating and revised the rating outlook from Stable to Positive. This strong financial performance is critically important; Kapalama Container Terminal and other modernization projects can be done at the lowest finance costs and interest rates available.

Federal Funds

- C. Identify programs that have lost or are at risk of losing federal funds. Identify the source of these federal funds by federal award title and CFDA number. Discuss the impact to the public and your planned response, including efforts to supplant any federal fund reductions for the current year (FY18) and the upcoming fiscal year (FY19) with other funds.**

There are currently no recurring federal funds or appropriations, or grants to the Harbors Division. In February 2017, the Harbors Division executed a cooperative agreement with the U.S. Maritime Administration (MARAD) for \$500,000 on a reimbursement basis for a feasibility study on an inter-island and intra-island ferry system. Additionally, the Harbors Division still awaits final approval by the U. S. Secretary of Transportation for a marine highway designation for state waters between and around Hawaii's islands to increase competitiveness of harbor projects for federal appropriations and grant awards.

Non-General Funds

- D. Please provide a web link (url) of the reports to the Legislature on non-general funds under your department pursuant to HRS 37-47.**

<https://hidot.hawaii.gov/harbors/files/2017/12/37-47-DOT-Harbors-Division-Non-General-Fund-Report-FY2018-Leg-Sess-.11217-F.pdf>

Budget Request

- E. Explain the process used to develop the agency's budget and prioritize requests for budget changes.**

The Harbors Division's overall priorities are directly related to its ability to efficiently move people and goods in to, out of, and through Hawaii's commercial harbors to support the State's economic prosperity. In developing this supplemental budget request, the Harbors Division considered the highest and best uses of its special funds and bond funds that contribute to positive impacts in the following priority areas:

1. Continued implementation of the Harbors Modernization Plan;
2. Support of commerce through cost-effective maintenance of harbor facilities; and
3. Compliance with environmental and security requirements.

F. Identify and discuss significant adjustments contained in the budget request submitted to the legislature. Explain and quantify how significant requests for additional funds are expected to affect outcomes.

Below are highlights of the proposed supplemental budget request, organized by priority area, with an explanation of the expected outcomes:

1. Continued implementation of the Harbors Modernization Plan

In the coming fiscal year, the Harbors Division will advance the key modernization project at Kahului Harbor on Maui and requests \$17 million in bond funds and \$2,000 in special funds in this supplemental budget for a much-needed land acquisition and associated improvements. This project is expected to transform the main harbor in Maui County and maximize operational efficiencies there.

The Harbors Division also request \$4.16 million for a portion of a land transfer agreement executed with the Airports Division for a parcel that will become part of the new Kapalama Container Terminal. The design of this terminal is predicated on this agreement and the balance of the agreement has been paid for with a previous appropriation.

2. Support of commerce through cost-effective maintenance of harbor facilities

The balance of the requested \$93.87 million for capital improvement projects will cover costs for seven projects statewide aimed at addressing administration priorities or health and safety concerns that ultimately promote commerce and greater operational efficiencies at harbor facilities.

Separate and apart from the requested \$93,87 million is an additional request for \$15 million in special funds cover ongoing special maintenance costs for all commercial harbors. For Fiscal Year 2019, the Harbors Division request the sum of \$15 million to be

allocated to the Harbors Administration account (TRN 395) instead of allocated to the program ID for each respective harbor. This lump sum approach better enables the Harbors Division to be more responsive to maintenance needs as the surface and to streamline project planning and delivery processes.

The Harbors Division has also identified that several projects over the years are stalled due to limited funds available for architectural and engineering services. As such, the budget requests include additions of \$200,000 in special funds to be allocated primarily to planning and design work to reduce the number of projects that are deferred due to the lack of funds.

The Harbors Division requests that this supplemental budget also include appropriations for various services, utilities, non-project maintenance costs, and eight new positions without which the cost-effective maintenance of facilities, structure, and infrastructure at the harbors is unachievable.

3. Compliance with environmental and security requirements

In 2014, the U.S. Environmental Protection Agency (EPA) and the Hawaii Department of Health (DOH) found Harbors Division violations of the Clean Water Act and deficiencies in stormwater management plans for Honolulu Harbor and Kalaeloa Barbers Point Harbor. The resulting consent decree laid out a series of required corrective actions and standards for compliance to prevent future violations and deficiencies. In addition to the consent decree terms, the Harbors Division must adhere to federal security requirements for each facility. The requests for three of the eight new positions and the funds for the CCTV camera maintenance guarantee compliance with the aforementioned requirements.

Department of Transportation - Harbors
Functions

Table 1

<u>Division</u>	<u>Description of Function</u>	<u>Activities</u>	<u>Prog ID(s)</u>	<u>Statutory Reference</u>
1	To facilitate the rapid, safe and economical movement of people and goods into, within, and out of the State by providing and operating harbor facilities and supporting service at the commercial harbors.	Primary activities include assigning and managing vessel berthing space; allocating and controlling cargo space on the docks; providing secure cargo storage areas; maintain compliance with safety and security regulation and requirements; charge, bill and collect required fees for the use of facilities and for services provided; maintaining offices for the conduct of business with the public; and controlling the movement of traffic into, within and out of the State's harbor system.	TRN 301, 303, 311, 313, 331, 333, 341, 351, 361, 363	Chapter 266, HRS
2	To provide program leadership, engineering services and administrative staff support services for the commercial harbors system.	Primary activities include directing and coordinating the operation of the statewide commercial harbors program; provide for the plans, designs, development, expansion and construction of necessary facilities as well as the maintenance and reconstruction of existing harbors and facilities; provide policies, procedures, goals and objectives; directs and coordinates administrative activities in functional areas such as financial management, property management, budget and management analysis, personnel management and information systems. The General Professional III (G.P. III), serves as the Oahu District's Facility Security Officer on weekends and is the project manager of its 2.2 million security services contract security contracts. The conversion of the position from temporary to permanent ensures operational efficiency and continuity of security over 24-7 basis.	B	1.00	(1.00)	\$ -
TRN301	CC	FC			New Office Assistant III Position SR-08	To assist with the data extraction and input of information through the Harbors Division's City Works data base system required by the EPA/DOJ Consent Decree. Because of increased workload and time constraints to have the data entered into City Works, work is contracted out. The Maintenance section is also entering repair and maintenance information for the DOT's vehicle and equipment replacement policy.	B	1.00		\$ 23,913
TRN301	CC	FC			New Office Assistant III Position SR-08 HAR-OE	Since 2009, the district re-organized to expand the functions of the Harbor Police unit to include complying with the Maritime Transportation Security Act of 2002 and 33 CFR 105. The position will assist the Enforcement and Security Unit with assignments such as checking records and various forms and other material for completeness and accuracy, compose routine correspondence, and maintains paper and electronic files.	B	1.00		\$ 23,913

Proposed Budget Additions

Table 6

<u>Prog ID</u>	<u>Sub-Org</u>	<u>Addition Type</u>	<u>Prog ID Priority</u>	<u>Dept-Wide Priority</u>	<u>Description of Addition</u>	<u>Justification</u>	<u>MOF</u>	<u>Pos (P)</u>	<u>Pos (T)</u>	<u>\$\$\$</u>
TRN301	CC	FC			Add Equipment Operator III BC-09	The request to add an Equipment Operator III (BC-09) is to increase productivity by having an Operator III operate equipment needed to support the work crews. Having two Operators III increases the District ability to assign the Operators to support work crews to multiple projects on the same day.	B	1.00		\$ 43,442
TRN301	CC	FC			Add Store Keeper I SR-11	The position will purchase and maintain janitorial supplies, equipment and parts. Provide support to the Maintenance and Repair supervisors with procurements and entering data into City Works, in a timely manner pursuant to the EPA Consent Decree.	B	1.00		\$ 26,850
TRN301	CC	FC			New Wharf Maintenance Worker I	Oahu Wharf Maintenance Unit consist of (1) Building Maintenance Worker II, and (2) Wharf Maintenance Worker 's. Adding to the crew supports 1) worker safety because of the risks involved with repairing piers while in the water, and 2) adds to staffing to ensure pier repairs can be made in a timely manner to ensure the flow of commerce.	B	1.00		\$ 43,442
TRN301	CC	FC			Add (2) Building Maintenance Worker I BC-09	Currently, projects are designed and contracts let out due to the absence of specialized trade experience. Without proper maintenance or masonry work, the repairs and maintenance are deferred and become a special maintenance project or CIP project.	B	2.00		\$ 86,883
TRN311	CD	FC			Other Utilities - Refuse Services	With a new inter-island terminal opening in December 2017 and Hilo Harbor experiencing a growth in cruise ship passengers. Hawaii District is requesting recurring funds to cover the cost of refuse removal services and tipping fees in Hilo.	B			\$ 6,000

**DEPARTMENT OF TRANSPORTATION
HIGHWAYS DIVISION**

Overview

A. Provide your agency's mission statement.

The mission of the Highways Division is to maximize available resources to provide a safe, efficient, accessible and sustainable State Highway System that ensures mobility of people and goods, and supports economic vitality and livability.

B. Discuss how current state-wide conditions have affected agency operations and the ability to meet goals. Identify and discuss notable performance measures, expected outcomes, and recent results.

Actual revenues collected and deposited into the State Highway Fund may vary from projections due to fluctuating economic conditions, changes by the Legislature in the laws governing the pledged user taxes and other variables affecting revenues. Future revenues collected for the State Highway Fund are projected to grow at an average of approximately one half percent (0.5%).

The future revenue growth for the State Highway Fund is projected to be relatively flat. Existing motor vehicle fuel taxes will become a less effective way to fund public highways as new vehicles continue to offer greater fuel-efficiencies and operate with alternative fuel sources. As a result, fuel tax revenue will not grow in proportion to the growing safety, preservation, congestion, capacity and multi-modal needs. The Division is exploring alternative funding mechanisms to the fuel tax.

Special Maintenance Program (SMP): Due to revenue limitations, the Division has had to fund the special maintenance program at levels below those needed to adequately support system preservation. The deferred maintenance of our facilities has caused an increase in repair costs, and a higher rate of emergency repairs. Thus, the Highways Division has scaled back on the size of projects, and deferred maintenance projects to later years to maintain budget limitations. These reductions in project limits (size) and deferral of necessary work creates a backlog of projects that still needs to be implemented to achieve an adequate system that is in a state of good repair. Once an adequate system is achieved, it will further take approximately \$112 million in SMP funding annually to maintain such a system in good repair.

The SMP budget is \$70.9 million in FY 2019. The funds are used for maintenance and operational improvements projects.

The current highways special maintenance resurfacing projects include the following:
On Oahu:

1. Kamehameha Highway Resurfacing, Dairy Road to Laiewai Bridge – Construction is on-going; 9/15/17 99% Complete-Negotiating Change Order Work;
2. Likelike Highway Resurfacing, School St to Emmeline Pl – 69% Complete , Construction is on-going;
3. Farrington Highway Resurfacing, Vicinity of Kili Drive to Satellite Tracking Station Road- Preliminary construction started. Estimated completion in December 2018;
4. Kahekili Highway Contraflow –Construction completed on 11/17/17;
5. Moanalua Freeway to H-1 West Bound, Additional Lane – Work started 6/5/17. Paving work scheduled to be completed by end of December 2017. Striping and signage scheduled to be completed by end of January 2018;
6. H-1 Eastbound Pavement Improvements, Waimalu to Halawa – See item 8. Same project;
7. Kalihi Street Resurfacing, Nimitz Highway to School Street— Project awarded on 10/24/17. Precon held on 12/15/17;
8. RFP H-1 Pavement Rehabilitation, Vicinity of Waimalu Viaduct to Vicinity of Halawa - -Design-build project. Design and price proposals submitted on 12/4/17.

On Hawaii:

1. Hawaii Belt Road Resurfacing, Pepeekeo to Hakalau – Construction done in POP as of 12/15/17;

On Maui:

1. Hana Highway Resurfacing, Hookipa Park to Kaupakalua Road, Makawao—bids opened on 12/14/17 – construction anticipated to start April 2018;
2. Hana Highway Resurfacing, Paia Town to Hookipa Park-construction anticipated to start 1/8/18 and end 5/3/18;
3. High Street Resurfacing, Main Street to Keanu Street-construction anticipated to start 12/26/17 and end 3/8/18;

On Kauai:

1. Kaunualii Highway Resurfacing, Kipu Road to Huleia Bridge – Final Acceptance Letter 5/17/17, Construction is complete;
2. Kaunualii Highway Resurfacing, Waimea Canyon Drive to Waimea River Bridge – Final Payment Approved 9/26/17, Construction is complete;
3. Kuhio Highway Resurfacing, Kapule Highway to North Leho Drive—Award in Progress 12/14/17;
4. Kapule Highway, Pavement Repair, Halau Street to Ahukini Road—NTP 10/4/17, Start Work on 1/2/18;

CIP: Changes in the State's economic climate have not significantly revised our Highways Division CIP program. Because most CIP projects are funded with revenue bonds, economic conditions do not immediately affect the program, still targeting \$40 million per year in revenue bond expenditures on average. The division continues to

leverage Federal monies with State funds at the same matching rates as in the past. Reasonable bids continue to be received due to a fair level of competition, which allows the Department to continue to put out projects in order to pursue its goal of providing a safe, efficient, and accessible highway system through projects such as the following which have been recently bid, begun, or completed:

On Oahu:

1. Freeway Management System, Phase 1C, Part 3A, Data Expansion, Various Locations – Construction was authorized to begin on March 17, 2017, with anticipated completion of February 28, 2018;
2. Kalanianaʻole Highway Drainage Improvements, Vicinity of Wailupe Place – Construction was authorized to begin on October 16, 2017;
3. Halawa Heights Road Pedestrian Bridge – Construction contract was awarded on July 12, 2017;
4. Interstate Route H-2 and Moanalua Freeway, Guardrail and Shoulder Improvements – Construction is authorized to start on December 26, 2017;
5. Kawainui Watershed Storm Water Best Management Practices on Oahu – Construction contract processed for closing in January, 2017;
6. Miscellaneous Permanent Best Management Practices on Oahu – Construction contract processed for closing in July, 2017.

On Hawaii:

1. Kohala Mountain Road Safety Improvements – Opened bids on November 16, 2017;
2. Queen Kaahumanu Highway Intersection Improvements at Kawaihae Road – Advertised and scheduled to open bids on December 21, 2017;
3. Mamalahoa Highway Drainage Improvements, Vicinity of Puuwaawaa Ranch Road – Construction was authorized to begin on February 10, 2017. Project is currently in the project closeout stage.

On Maui:

1. Puunene Avenue Improvements at Kuihelani Highway – Construction contract awarded on August 10, 2017;
2. Honoapiilani Highway Safety Improvements, Vicinity of Ukumehame to Olowalu – Advertised and scheduled to open bids on December 28, 2017;
3. Hana Highway Improvements, Phase 2A, Huelo to Hana – Construction contract processed for closing in September, 2017;
4. Waiehu Beach Road Rehabilitation of Iao Stream Bridge – Construction contract processed for closing in August, 2017.

On Kauai:

1. Kuhio Highway Safety Improvements, Wailapa Road to Kapaka Street – Opened bids on December 7, 2017;
2. Kaumualii Highway Intersection Improvements at Lauoho Road and Kuli Road - Estimated advertisement for construction in July, 2018;

3. Kuhio Highway Emergency Slope Stabilization in the Vicinity of Kalihiwai Bridge – Estimated advertisement for construction in August, 2018;
4. Kuhio Highway, Replacement of Hanamaulu (Kapaia) Stream Bridge, MP 1.1 to MP 1.5 – Estimated advertisement for construction in August, 2019.

Federal Funds

- C. Identify programs that have lost or are at risk of losing federal funds. Identify the source of these federal funds by federal award title and CFDA number. Discuss the impact to the public and your planned response, including efforts to supplant any federal fund reductions for the current year (FY18) and the upcoming supplemental (FY19) with other funds.**

Federal funding for the highways program is provided by Federal Appropriation Acts. On December 4, 2015, Fixing America’s Surface Transportation Act (FAST) was signed by President Obama. FAST provides a 5-year funding stream and authorization for the surface transportation program and at levels slightly higher than the previous Moving Ahead for Progress in the 21st Century Act (MAP-21). In 2018 Hawaii’s apportionment was \$178 million, approximately 2% more than the previous year. From FAST, funding increases approximately 2 percent annually until 2020.

Funding for the highways program is generated from dedicated revenue sources in the form of: fuel tax, tire sales, truck and trailer sales, and heavy vehicle use taxes; all paid into the Federal Highway Trust fund for disbursement to the States. However, due to declining vehicle miles traveled, more fuel efficient vehicles and other factors, this has negatively affected revenue into the Federal Highway Trust Fund, which in turn required periodic transfers of Federal General Funds into the Federal Highway Trust Fund in the past to keep it solvent. FAST does not address the ongoing shortfalls in fuel and other user tax revenues to support the surface transportation program, and will continue to depend on other Federal revenue sources over the 5- year period to cover shortfalls. Prediction beyond 2020 remains unclear, as there have been no substantive information updates to President Trump’s \$1 billion infrastructure investment plan.

Non-General Funds

- D. Please provide a web link (url) of the reports to the Legislature on non-general funds under your department pursuant to HRS 37-47.**

<https://budget.hawaii.gov/wp-content/uploads/2017/01/TRN-2017-Leg-1.pdf>

Budget Request

E. Explain the process used to develop the agency's budget and prioritize requests for budget changes.

O&M: The Division assessed its operations and maintenance needs, and determined its priority based on the following:

- The Division's operations and maintenance budget is fiscally constrained by the revenues generated and deposited into the State Highway Fund and eligible program federal funds.
- Program funding priority is given to current level of services which includes debt service; central services surcharge payments; personnel costs; and reoccurring operational expenses.

CIP: The Division CIP program includes projects from numerous programs and plans throughout the Division. These projects are programmed in accordance with the various divisional programs' priorities; planning implementations according to need and project development estimates, while taking into consideration funding limitations. Initial prioritization follows current Division guidelines, which grants highest priority to safety and system preservation improvements, followed by capacity and congestion mitigation projects, and lastly, enhancement and "other" provisions. Provisions for transportation choice are considered in all projects. Requests for funding for ongoing projects and programs are given higher priority to minimize project cost increases due to delays caused by funding shortfalls, as well as to bring those projects to completion in the order of their program's priorities.

F. Identify and discuss significant adjustments contained in the budget request submitted to the legislature. Explain and quantify how significant requests for additional funds are expected to affect outcomes.

The Highways Division has included the following budget adjustments:

TRN 597/AB Highway Safety:

County Speed Enforcement (FY 19: \$200,000 (B)) Additional state authority is needed to fund the counties speed enforcement effort. The police departments of the City and County of Honolulu, County of Maui, County of Hawaii, and County of Kauai will use the funds to purchase various speed enforcement equipment. The speed of a motor vehicle is a major factor in the severity of an injury. Providing funding to the county police departments for the purchase of speed enforcement equipment will enhance their speed enforcement efforts, thereby deterring drivers from speeding and making our roads safer for our residents and visitors.

Federal Nonmotorized Safety Programs (FY 19: \$153,747 (N)) Additional federal authority is needed for the FAST Act 405 funding for Nonmotorized Safety programs. The purpose of the program is to decrease pedestrian and bicyclist fatalities and injuries that result from crashes involving a motor vehicle.

**DEPARTMENT OF TRANSPORTATION
GENERAL ADMINISTRATION**

OVERVIEW

A. Provide your agency's mission statement.

To enhance the effectiveness and efficiency of the program by providing program leadership, staff support services, and general transportation related services.

B. Discuss how current state-wide conditions have affected agency operations and the ability to meet goals. Identify and discuss notable performance measures, expected outcomes, and recent results.

DOT Administration currently accounts for only 2.4% of departmental special fund spending. The General Administration program is projected to remain a low-cost program moving forward. It provides critical leadership and coordination to the department's three divisions in addition to serving as a focal point for departmental budgets, public relations, and outreach.

Federal Funds

C. Identify programs that have lost or are at risk of losing federal funds. Identify the source of these federal funds by federal award title and CFDA number. Discuss the impact to the public and your planned response, including efforts to supplant any federal fund reductions for the current year (FY18) and the upcoming fiscal year (FY19) with other funds.

General Administration does not expect to see a reduction in federal funds received.

Non-General Funds

D. Please provide a web link (url) of the reports to the Legislature on non-general funds under your department pursuant to HRS 37-47.

Currently, we are waiting for B&F to upload the link. Physical reports can be provided by request.

Budget Request

E. Explain the process used to develop the agency's budget and prioritize requests for budget changes.

The department focuses on providing safe and efficient transportation to the traveling public while keeping fees low. As it is the administration's priority to keep the costs of administrative

oversight as low as possible, only requests which fulfill critical needs for the department's ongoing operations are considered as additional budget requests.

F. Identify and discuss significant adjustments contained in the budget request submitted to the legislature. Explain and quantify how significant requests for additional funds are expected to affect outcomes.

General Administration has relatively few budget requests. Two important requests, the Coordinated Public Transit Services Plan and the Hawaii Statewide Transportation Plan are both required by the U.S. DOT. These plans provide guidelines which help identify the most efficient and beneficial ways to use federal awards provided by grants from U.S. DOT. The program is also requesting three positions to establish an Office of Law Enforcement and Security for Transportation. This office will coordinate and implement security related efforts and initiatives, and provide critical oversight to the growing number of security personnel working on statewide transportation facilities. Finally, the program has asked that its federal fund ceiling be increased to allow for the budgeted inclusion of federal funds provided for the Oahu Metropolitan Transportation Organization. These are funds which the Department of Transportation receives annually. Including OMPO's funding in the budget will help reduce the time it takes for the department to allot and issue these funds and increase the overall efficiency of HiDOT's work as it relates to OMPO.

Department of Transportation - General Administration
 Functions

Table 1

<u>Division</u>	<u>Description of Function</u>	<u>Activities</u>	<u>Prog ID(s)</u>	<u>Statutory Reference</u>
1	To provide leadership and administrative support to the divisions and programs.	This program provides program leadership and staff support services by formulating policies and plans, directing operations, allocating resources, providing staff support and other administrative services.	TRN995	Section 26-19, HRS
1	To better serve the economic, maritime, and recreational needs of the people of Hawaii by developing, redeveloping, or improving the Aloha Tower Complex.	This program manages the real property assets that are within the jurisdiction of ATDC. The major activities involve administrative and managerial support, property management and the development of master plans for the areas within ATDC's jurisdiction.	TRN695	Section 206J, HRS
