Re: S.B. No. 1156

The Hawai‘i Civil Rights Commission (HCRC) has enforcement jurisdiction over Hawai‘i’s laws prohibiting discrimination in public accommodations, HRS chapter 489, including § 489-9, which requires movie theaters to provide open captioning during at least two showings per week of each motion picture that is produced and offered with open captioning, and also requires movie theaters to provide audio description upon request of any motion picture that is produced and offered with audio description.

HRS §489-9 was added to chapter 489 by the enactment of Act 39, L. 2015, effective January 1, 2016, and has been successfully implemented by Hawai‘i movie theaters.

Section 3 of Act 39 includes a “drop dead” or “sunset” provision that provides for the repeal of the Act on January 1, 2018.

S.B. No. 1156 would delete the “sunset” provision of Act 39. This makes sense, because the state law accessibility requirements go beyond those provided in the U.S. Department of Justice final rules, effective January 17, 2017. The federal rules provide only for closed captioning, without requiring any showings with open captioning. For this reason, HRS § 489-9 continues to provide meaningful accessibility, even after the federal rules have gone into effect.

The HCRC supports S.B. No. 1156.

Dear Senator Baker and Members of the Committee:

SUBJECT: SB 1156 - Relating to Movie Theaters

The State Council on Developmental Disabilities **SUPPORTS SB 1156**. The bill removes the sunset date of January 1, 2018 in Act 39, Session Laws of Hawaii 2015, thereby making permanent the requirements for a public accommodation that owns, leases, leases to, or operates a motion picture theater in more than two locations in the State to provide open movie captioning during at least two showings per week of each motion picture that is produced and offered with open movie captioning and audio descriptions upon request for all motion pictures for which such accommodations are available and provide public notice if such accommodations are not available for certain movies.

Open movie captioning provides a display of text on a screen or other visual display that provides additional or interpretive information of what is being presented. Furthermore it has resulted in positive benefits of providing access for individuals who are deaf or hard of hearing to enjoy movies in a similar manner as those who do not require open movie captioning.

The passage of SB 1156 would provide permanency in providing motion picture theater accommodations, such as open movie captioning.

Thank you for the opportunity to submit testimony **supporting SB 1156**.

Sincerely,

Waynette K.Y. Cabral, MSW

TESTIMONY TO THE SENATE COMMITTEE ON COMMERCE, CONSUMER PROTECTION AND HEALTH

Senate Bill 1156 – Relating to Movie Theaters

The Disability and Communication Access Board (DCAB) supports Senate Bill 1156. The purpose of Senate Bill 1156 is to remove the sunset date of Act 39, Session Laws of Hawaii 2015, thereby making permanent the requirements for a public accommodation that owns, leases, leases to, or operates a motion picture theater in more than two locations in the State to provide open movie captioning during at least two showings per week of each motion picture that is produced and offered with open movie captioning and audio descriptions upon request for all motion pictures for which such accommodations are available and provide public notice if such accommodations are not available for certain movies.

The proposed amendment to the current law would address the discriminatory effects of communication barriers at movie theaters encountered by individuals who are deaf or hard of hearing by making the requirement to offer open captioned movies in Hawaii permanent. This law would afford individuals who are deaf or hard of hearing an equal opportunity to attend open captioned movies and follow both the audio and visual aspects of movies exhibited in motion pictures similar to members of the general public. After a year of offering open captioned movies, local motion picture theaters should realize that providing people the opportunity to view movies with their family and friends improves access to their services for everyone.

We ask that you pass this bill out of Committee.

Thank you for the opportunity to testify.

Respectfully submitted,

Dear Chair Baker and CCPH Committee,

We, the Association, would like to commit and uphold our Mission Statement. Two of the objectives are significant to the Bill and we would like to share this with you:

- Advocating the educational and civil rights of Deaf, Hard of Hearing, and DeafBlind (DHHDB) citizens in the State of Hawai'i.
- Improving the quality and standard of living for all DHHDB people.

On the behalf of DDHDB members, I am writing a request that the sunset date from the current law needs to be repealed. The accessibility is the heart of the communicative environments where we can exchange our ideas and thoughts freely.

The current law is still great where we all can go to theaters and enjoy the movies. My friends and I want to continue and support the cinematic businesses. Therefore, I respectfully testify to the requested change to make it a permanent and forever law.

SUPPORT for SB1156: RELATING TO MOVIE THEATERS.

Dear Chair Baker and CCPH Committee,

My name is Keri Lee. I am in support to delete the sunset date from the open-captioning law. It is important to maintain the accessibility for all of us DHHDB (Deaf, Hard of Hearing, and DeafBlind) consumers.

Since the law passed, I have many friends who have enjoyed watching many open-captioned movies. They have had many beautiful experiences to watch movies with family, friends, and many moviegoers. They have seen “Fantastic Beasts and Where to Find Them”, “Assassin’s Creed”, “Moana”, and Star Wars’ “Rogue One”. I know they look forward to watching many new movies this year. Would love to watch future movies next year and beyond. What a wonderful time to spend with family and friends.

This letter is the reason I ask to stress the importance that the open-captioning access should be available for DHHDB community to enjoy the films rather than depending on unnecessary devices such as captioning glasses and rearview window display. The joy of the cinematic journey of all moviegoers should be forever. Mahalo.

Comments: I strongly support the removal of the sunset date of Act 39, Session Laws of Hawaii 2015, thereby making open captioning and audio descriptions at motion picture theaters available as a permanent service to the hard of hearing, deaf, and our community at large. As we age, our hearing is affected and the familiarity of viewing ethnic language programs with open captioning on TV, is an easy transition to motion pictures. I strongly support this bill to become law. Thank you for the opportunity to testify.

Comments: Dear Chair Baker and CCPH Committee, My name is Mala Arkin, I am in support to delete the sunset date from the open-captioning law. It is important to maintain the accessibility for all Deaf, Hard of Hearing, and DeafBlind consumers. As a hearing person that does not need captioning I attest to the fact that having the open-captioning does not detract from my movie watching experience. In fact, since the law has passed I have been able to watch many open captioned movies with friends and relatives, including my 92 year old grandmother. It was wonderful to share the experience of the movies. I stress the importance that the open-captioning access be available for future generations to enjoy films rather than depending on unnecessary devices such as captioning glasses and rearview window display. The joy of the cinematic journey of all moviegoers' should be forever. I look hope that open-captioning is still available at the point in time when I might need such a service. Mahalo, Mala

Dear Chair Baker and CCPH Committee,

My name is Kathy Thomas. I am in support to delete the sunset date from the open captioning law.

It's really important to maintain accessibility for all of us DHHDB (Deaf, Hard of Hearing, and DeafBlind) consumers.

Believe other consumers would also like that to increase accessibility for different reasons, especially some aging people who just lost hearing and some foreign people who need to improve English.

Since the law passed, I saw and enjoyed many open captioned movies. I look forward to watch many new movies this year. Would love to watch future movies next year & beyond.

This letter is the reason I ask to stress the importance that the open captioning access should be available for us to enjoy the films without depending on devices, like heavy captioning glasses and rearview window display which is so hard to use.

The joy of the cinematic journey of all movie goers should be forever. Mahalo.

Dear Chair Baker and CCPH Committee,

My name is Tiare . I am in support to delete the sunset date from the open-captioning law. It is important to maintain the accessibility for all of us DHHDB (Deaf, Hard of Hearing, and DeafBlind) consumers.

Since the law passed, I saw many open-captioned movies. It was always beautiful experiences to watch movies with family, friends, and many moviegoers. I saw "Fantastic Beasts and Where to Find Them", "Assassin's Creed", "Moana", and Star Wars' "Rogue One". I look forward to watch many new movies this year. Would love to watch future movies next year and beyond.

This letter is the reason I ask to stress the importance that the open-captioning access should be available for us to enjoy the films rather than depending on unnecessary devices such as captioning glasses and rearview window display. The joy of the cinematic journey of all moviegoers should be forever. Mahalo.

SUPPORT for SB1156: RELATING TO MOVIE THEATERS.

Dear Chair Baker and CCPH Committee,

My name is Daniel DiDonna. I am in support to delete the sunset date from the open-captioning law. It is important to maintain the accessibility for all of us DHHDB (Deaf, Hard of Hearing, and DeafBlind) consumers.

Since the law passed, I saw many open-captioned movies. It was always beautiful experiences to watch movies with family, friends, and many moviegoers. I saw "Fantastic Beasts and Where to Find Them", "Assassin's Creed", "Moana", and Star Wars' "Rogue One". I look forward to watch many new movies this year. Would love to watch future movies next year and beyond.

This letter is the reason I ask to stress the importance that the open-captioning access should be available for us to enjoy the films rather than depending on unnecessary devices such as captioning glasses and rearview window display. The joy of the cinematic journey of all moviegoers should be forever. Mahalo.

SUPPORT for SB1156: RELATING TO MOVIE THEATERS.

Dear Chair Baker and CCPH Committee,

My name is AL LEE. I am in support to delete the sunset date from the open-captioning law. It is important to maintain the accessibility for all of us DHHDB (Deaf, Hard of Hearing, and DeafBlind) consumers.

Since the law passed, I saw many open-captioned movies. It was always beautiful experiences to watch movies with family, friends, and many moviegoers. I saw "Fantastic Beasts and Where to Find Them", "Assassin's Creed", "Moana", and Star Wars' "Rogue One". I look forward to watch many new movies this year. Would love to watch future movies next year and beyond.

This letter is the reason I ask to stress the importance that the open-captioning access should be available for us to enjoy the films rather than depending on unnecessary devices such as captioning glasses and rearview window display. The joy of the cinematic journey of all moviegoers should be forever. Mahalo.

Dear Chair Baker and CCPH Committee,

My name is Noreen Morales. I am in support to delete the sunset date from the open-captioning law. It is important to maintain the accessibility for all of us DHHDB (Deaf, Hard of Hearing, and DeafBlind) consumers.

Since the law passed, I saw many open-captioned movies. It was always beautiful experiences to watch movies with family, friends, and many moviegoers. I saw "Fantastic Beasts and Where to Find Them", "Assassin's Creed", "Moana", and Star Wars' "Rogue One". I look forward to watch many new movies this year. Would love to watch future movies next year and beyond.
