**Testimony of
SUZANNE D. CASE
Chairperson**

**Before the Senate Committee on
WAYS AND MEANS**

**Monday, February 27, 2017
9: 35 AM
State Capitol, Conference Room 211**

**In consideration of
SENATE BILL 1229
RELATING TO THE ENVIRONMENTAL COURTS**

Senate Bill 1229 proposes to exempt all proceedings relating to parking violations under certain administrative rules from the exclusive, original jurisdiction of the environmental courts. **The Department of Land and Natural Resources (Department) supports this bill.**

The Department believes that most of the parking violations at the State's small boat harbors and state parks do not pose direct or severe impacts to the State's natural or cultural resources and can be easily and more efficiently processed through the regular district courts or the Traffic Violations Bureau of the First Circuit. The alleged violator can choose to pay a stipulated fine without the need to appear before the environmental court. This simplified process will also alleviate the burden placed on the environmental courts.

On the other hand, the Department believes that, under this legislation, those parking violations that may pose an impact on the State's natural or cultural resources can still be prosecuted at the environmental courts. Some examples of this type include illegal parking in a natural area reserve, a plant and wildlife sanctuary, a historic preservation site, certain state park areas, or certain specific conservation areas such as beaches where parking is prohibited.

Thank you for the opportunity to comment on this measure.
