

TO: Chair Green, Vice Chair Chang, and Members of the Senate Committee on Human Services

FROM: Ryan Kusumoto, President & CEO of Parents And Children Together (PACT)

DATE/LOCATION: February 05, 2018; 3:45 p.m., Conference Room 16

RE: TESTIMONY IN SUPPORT OF SB 2097 – RELATING TO CHILD SAFETY

We urge you to support SB 2097 – Relating to disclosure of felony or misdemeanor child abuse or neglect reports to any person upon request. We support this bill which would require the disclosure of abuse and neglect incidents and investigations, upon request, to parents or guardians with children currently enrolled in or to those considering enrolling their child(ren) in the child care home or center. It is a parent's foremost responsibility to ensure the safety of their child and we hope that you would pass legislation that would help assist parents in making informed decisions when it comes to child care.

PACT is a provider of licensed, center-based and home visiting child care programs. We wholeheartedly believe in providing information to families that aids them in choosing a program that fits their needs and where they feel their child will be safe. It is disheartening that children have suffered under the care of others. It is even more disheartening that individuals who have caused harm to children could continue to operate their child care without disclosing this information to others, which could potentially place other children in danger. We can never bring back the lives lost or combat the irreparable harm that has taken place in the past but we can help to protect our keiki and prevent repeat offenses from happening again in the future.

Founded in 1968, Parents And Children Together (PACT) is one of Hawaii's not-for-profit organizations providing a wide array of innovative and educational social services to families in need. Assisting more than 18,000 people across the state annually, PACT helps families identify, address and successfully resolve challenges through its 16 programs. Among its services are: early education programs, domestic violence prevention and intervention programs, child abuse prevention and intervention programs, child and adolescent behavioral health programs, sex trafficking intervention, and community building programs.

Thank you for the opportunity to testify in **support of SB 2097**, please contact me at (808) 847-3285 or rkusumoto@pacthawaii.org if you have any questions.

To Chair Senator Josh Green, Vice Chair Senator Stanley Chang, & Members of the Committee:

RE: Testimony IN SUPPORT of SB 2097, Relating to Child Safety to Increase Disclosure of Child Abuse & Neglect Records

Hi, my name is Laurie Castro. I am the Co-Founder and Administrator of a state licensed group childcare center, Sounds of Success Preschool located in Aiea, Hawaii. I am testifying in support of SB 2097 because this bill will do the right thing to help protect innocent children from being unknowingly placed in a potentially dangerous situation. By allowing full disclosure and release of findings of an investigation into an allegation of child abuse or neglect within a licensed group childcare home or center to any parent or guardian of a child who was enrolled at the time of the alleged abuse or is considering enrolling is a critical piece of information that I feel all parents would want to know about. Just as we have the Hawaii State Sex Offender Registry, which is a very popular website that I know a lot of parents do go online to look at, we should also have a public Child Abuse and Neglect Registry or some means by which full disclosure can be provided upon request. This will help the general public as well as childcare providers or centers like ourselves go online at any time to research potential risks or dangers our children may face.

When it comes to finding childcare for your most precious gift in the world, parents want to make sure their child is left in good hands while they are at work. We've had the privilege of knowing Peyton Valiente the past few months as a student at our preschool and have enjoyed his contagious smile and bright personality. We are lucky that Peyton is alive and thriving. In Peyton's child abuse case which occurred in a childcare provider's home in 2015 when he was only 17 months old, it is extremely unsettling that no one has been held accountable for this tragic incident that almost resulted in his death. The childcare provider that was investigated is still free to continue to provide childcare services for other unknowing families who have no clue that an investigation of alleged child abuse occurred. If this bill is passed, then families can have this critical piece of information and make an educated decision on what is the best placement for their child. It would be a disgrace on our state childcare system if we allow another child to be placed with this provider and a second incident of child abuse or neglect occurs and another child has to suffer what Peyton had to go through or worse with the countless surgeries, rehab, speech therapy, physical therapy, mental health impacts and not to mention all the extreme stress and frustration for his parents. No parent should ever have to go through that and for our state to sit back and allow it to potentially happen again to another innocent child is terribly frightening.

Through the Hawaii State Department of Human Services, federal and state criminal history background checks are conducted on all our employees that we hire at our preschool, however, it would be very helpful to also have something like a Child Abuse and Neglect registry or be able to get this information released to us somehow so we can research for ourselves any potential employees that we may be considering hiring. Since no conviction was ever made in Peyton's case, the childcare provider or providers in that case could apply for a position to work at our preschool and how would we know that he/she was ever involved in a child abuse and neglect investigation? Right now, the stark reality is we wouldn't. Nothing would come up on their criminal history background check and we could potentially hire this person to work at our facility around our children putting our children at risk of abuse.

Thank you for your time and consideration of my testimony in support of Bill SB 2097. I hope you also see the importance of supporting and approving this bill for the sake and safety of all of Hawaii's keiki. Our children rely on us to look out for their best interest and keep them safe from undue harm and this bill would help do just that.

Sincerely,
Laurie Castro

Chair Sen. Josh Green, Vice Chair Sen. Stanley Chang,
& Members of the Committee:

RE: Testimony IN SUPORT of SB2097, Relating to Child Safety to Increase Disclosure of Child Abuse & Neglect Records

My name is Laurie Hirohata, and I not only Support SB2097, I helped draft the bill. I refer to this bill as Peyton Valiente's legacy to all of the other children in Hawaii.

The reason why I am leading the efforts to pass SB2097 is I reviewed Peyton's case as a pro bono summer project after seeing the media coverage on this terribly botched case. Peyton was severely injured and nearly died while at his babysitter's (Manuela Ramos) house in January 2015. I was pretty appalled at the numerous errors and sloppy work done by both the Honolulu Police Dept. (HPD) and the DHS, Child Welfare Services (CWS) [aka, Child Protective Services-CPS].

The 'bottom line' is that there will never be 'justice for Peyton and his family because the 'perpetrator' (term used for the babysitter by the Family Court Judge) will never be indicted for any kind of crime for the injury to Peyton while under her watch, including negligence and/or child endangerment.

Furthermore, although the Family Court Judge ruled the babysitter, Manuela Ramos, as the 'perpetrator' for Peyton's near fatal injuries; the CWS has never completed the investigation on Manuela Ramos, or her (now adult children) who were in the home when Peyton was injured. Since the CWS investigation was never completed, the babysitter or her family members has never been added to the DHS, Child Abuse & Neglect (CAN) Registry database. And in fact, it appears that the CWS has purged Peyton's child abuse casefile. Purging a child abuse casefile for a fatal or near fatal case goes against the federal CAPTA (Child Abuse Prevention & Treatment Act), which mandates that pertinent information on all fatal or near fatal child abuse cases be made available to the public upon request. So, how can Peyton's case file, which was a near fatal case, be made available upon request, if it no longer exists?

Peyton's abusers will never be charged with a crime or sanctioned by the CWS.

Therefore, the babysitter, Manuela, and her family are free to continue to care for, or work with children, because when a background check is done on Manuela or her (now adult children) there will be NO RECORD of Peyton's abuse on file with the DHS, Child Welfare Services or in the Criminal Justice database, or with the Honolulu Police Dept. because of the botched investigations.

The current secretive and clandestine child abuse investigation & treatment system is really protecting the predators instead of protecting and preventing children from abuse and neglect!

The intent of SB2097 is to increase public disclosure on child abuse & neglect cases so the families will have a better opportunity to protect their most 'precious asset,' their child(ren). If the public is given more opportunity to review background information on the people who care for their child(ren) it will force the systems (CWS & HPD) to be more careful and diligent in their investigation and treatment of child abuse cases.

The Valiente's and I really believe that although there will never be 'justice' for Peyton; his "legacy" of surviving a horrific experience will live on if we use his story to help change the policies and procedures on the investigation and treatment of child abuse and neglect cases so other children will be made a little safer while in the care of others.

SB2097 focuses on providing the families, who use any type of child care services, more depth and detail in background information on who is taking care of their children.

The proposed changes to the HRS, CH350 in SB2097 is not only to increase the parents' right to access important information to keep their children safe while in the care of others; it is to make the State Department of Human Services more accountable to the general public in insuring that the children are safe while in the care of people providing (a range of) child care services.

To accomplish this very important goal, I am appealing to the members of the Senate Human Services Committee to please revise the language in SB2097 for the following reasons:

- 1) The current language in SB2097 is incomplete because Hawaii's current statute on 'child abuse' reporting and public disclosure (HRS CH 350-1.6) is not in compliance with the intent of the federal CAPTA (Child Abuse Prevention & Treatment Act).

I recommend that the following language be added to the HRS CH350 to make Hawaii more in compliance with the CAPTA: [In child abuse and neglect cases that has resulted in a fatality or near fatality; when request, the State shall disclose, at a minimum, the following information:

- (a) The child's date of birth and gender;
- (b) The cause of the fatality or near fatality, if it has been determined;
- (c) The alleged offender's relationship with the child;
- (d) A summary of any previous child maltreatment reports and investigations;
- (e) A description of any services offered or provided by the Department currently and in the past; and
- (f) In the case of a fatality, the name of the child.]

- 2) Expand the proposed language in SB2097, Sec. CH250-2(e), **to include** not only “licensed child care providers,” but **also include ALL individuals, programs and agencies who receive state or federal funds for providing services to children.**

All individuals who receive state or federal stipends for babysitting as well as the POS contract agencies that provide children’s services and programs are required to go through a criminal history background check and a Child Abuse & Neglect (CAN) Registry search before they are hired. All of these employers, including the DHS Child Care Licensing Div., DOE & DOH are using the same CAN Registry. If the DHS, CWS is not inputting data correctly and in a timely manner, all of the individuals, programs and agencies servicing children will NOT HAVE ACCESS To Correct and Up-to-Date information.

Therefore, it is not unreasonable that parents be given access to information to insure that their children are safe from abusers and child predators while in the care of these individuals, programs or agencies.

Please consider the following changes to the language in the bill, in Sec. CH250-2(e), line 21, “. . .or group child care center licensed pursuant to section 346-163, [or any persons receiving a stipend or a POS-(purchase of service) or program or service provided to children that are paid with state or federal funds] to any parent or guardian. . .”

If SB2097 is passed, it will allow for more “eyes” to protect our children. The vigilance by the families to “weed out” persons with nefarious reasons for wanting to care for, or work with children will help both the families and the agencies better protect the children from abuse and exploitation.

Respectfully Submitted by:

Laurie Hirohata, MSW, MEd

Committee:

***RE: Testimony IN SUPPORT of SB 2097, Relating to Child Safety to Increase
Disclosure of Child Abuse & Neglect Records***

My name is Chelsea Valiente and I am in **full Support of SB 2097** because I am a mother of a child that had been severely abused while in the care of his babysitter. This particular bill is extremely important to my family and most especially my son, Peyton. He sustained such serious injuries that he was near death at the time emergency medical responders arrived at the babysitter's home. To date, his abuser has never been brought to justice due to the botched initial HPD investigation. Through out our ordeal, the babysitter had been deemed the perpetrator by the family court judge along with DHS/CWS yet they did not place her on a Child Abuse & Neglect Registry. The fact that she was never placed on this registry, poses a continued risk to the entire public. The babysitter may very well be able to seek employment at places such as preschools, day cares, or even hospitals, which have the most vulnerable population in our community. This bill will help to increase public awareness and allow parents to become better consumers when it comes to choosing the best care providers for their most precious gift, their children. Just as anything else, many people look to reviews or research on products and services. Why wouldn't we as parents be able to do such a thing for our children especially when it involves their safety and well-being. If pedophiles or sexual predators are registered and made available for public disclosure, then **shame on Hawaii for keeping known persons who harm children confidential.**

During a time when transparency is an issue at the forefront of government, it is my dire hope that this bill gets passed to allow for more transparency. Why should we have laws in place to protect the abusers when we really should be advocating for our keiki. Majority of the

time, they have no voice or are afraid to speak up against their abuser, so when it is confirmed, let's be transparent to protect any further abuse and neglect from happening. If we continue to ignore it and make them less of a priority, the results may very well end in a tragic fatality or near fatality. Prevention and awareness is key, which is why this bill is so extremely important. I would also like to point out that the bill emphasizes that parents of children enrolled at a child care home/facility during the time of a confirmed abuse or neglect incident, should have the right to know about that incident. How is that not something already in place? I pose this question to all members in the committee and to the public.....Would you not want to be informed of an abuse/neglect case in a place that your loved ones are cared for and make a decision for yourselves whether to continue to allow your loved one to remain there? It was appalling to find out from the other parents that they were never notified of the incident, especially because their children were present on the day of my son's incident. We as parents should have a right to know about our child's caregiver, especially because we make a very difficult decision to entrust them with their well-being while we work to earn a living in a state that has a very expensive cost of living.

I kindly ask Honorable Chair Senator Josh Green, Vice Chair Senator Stanley Chang, & Senate committee members of Human Services to **pass SB 2097**. Our experience has been extremely painful, traumatic, and frustrating to say the least. No family should be put through the sorrow and anguish as we went through, but we believe that from this horrible experience, something positive can come from it. The positivity that stems from the incident is identifying some gaps we have in Hawaii laws to protect children and to come up with ways to make the necessary changes. I believe this bill will help keep parents more aware and informed and hopefully prevent any further tragedies from occurring and also to have a more accurate database of those that harm child. We hope & pray that with the passage of SB 2097 we can work on making Hawaii a safe place to raise our children; for they are our future. Thank you for allowing me to testify.

Mahalo,

Chelsea Valiente

Chair Senator Josh Green, Vice Chair Senator Stanley Chang, & Members of the
Committee:

**RE: Testimony IN SUPPORT of SB 2097, Relating to Child Safety to Increase
Disclosure of Child Abuse & Neglect Records**

My name is Lauren Ono and I support SB 2097 because I feel that individuals (parents/family/friends) deserve to have access to information that affect their loved ones, especially children. We need to be able to inform/share with others if there are child care facilities that are unsafe or have been known to cause harm to children.

When parents drop their children off to a day care facility, there is an expectation that their children will be cared for and ensured safe. However, when this isn't the case and the child care provider is inadequate to properly care for children, parents deserve a right to know.

I am asking that the bill be passed into law to ensure that information is available to families moving forward.

Sincerely,

Lauren Ono

Chair: Senator Josh Green, Vice Chair: Stanley Chang, & Members of the Committee:

RE: Testimony IN SUPPORT of SB 2097, Relating to Child Safety to Increase Disclosure of Child Abuse & Neglect Records

My name is Jessica Lynn R. Daquioag and I support SB 2097 because I am a mother of two beautiful girls – Zoey, 7, and Ava, 3. Peyton James Valiente is the son of one of my longest and dearest friends, Chelsea, and her husband, Rey. When Peyton was in the hospital, I had just given birth to Ava at the same hospital, and my husband and I were able to see him during his stay. I was devastated. To hear Chelsea and Rey’s experience and to see Peyton bandaged in his recovery crib was heart-breaking and infuriating. This ordeal was one of our biggest reasons as to why this type of childcare was not an option for our daughter. We are supposed to trust the people that are taking care of our children, and we were not going to take that risk.

The outcome of Peyton’s case was very upsetting and concerning for my family and I. To know that his former babysitter will not face any consequences, nor was she added to the Child Abuse and Neglect Registry (CAN), is unacceptable, especially since she is still allowed to babysit other people’s children! We, as parents, have a right to be fully informed in regards to who is taking care of, or will be taking care of our children, and we should have the CAN Registry as a regularly updated resource when researching all forms of childcare.

It is difficult enough trying to make a sustainable life in Hawaii for our growing family. We should not have to worry about the well-being of our children while they are in the hands of their caregivers; for this reason, it is imperative that SB 2097 is passed. Peyton’s former babysitter, HPD, the state, and the judicial system have already failed Peyton and his family, please protect the rest of our keiki and pass SB 2097.

Thank you,

Jessica Lynn R. Daquioag

Committee:

**RE: Testimony IN SUPPORT of SB 2097, Relating to Child Safety to Increase
Disclosure of Child Abuse & Neglect Records**

My name is Leslie Sing and I support SB 2097 because access to truthful and transparent information is important in making decisions regarding the safety of children. As an educator and school counselor, I hold in high regard the responsibility of adults, especially child care providers, to ensure a safe environment for children to learn and grow. I believe that parents have a right to truthful and transparent information regarding alleged abuse or neglect that occurs within a child care facility.

While dropping off a child at a school or child care facility is commonplace in today's society, it is important to acknowledge that this everyday action is based on a foundation of trust between the parent, child, and care providers. Parents trust that their child will be cared for in a safe environment and protected from threat and harm. Child care providers have a responsibility to the parents of the children in their care. Parents have a responsibility to select a child care program that ensures their child's safety. The State of Hawaii has a responsibility to provide the information necessary to allow parents to make decisions regarding the care of their children.

I kindly ask that SB 2097 be passed into law to ensure that parents and families have access to this information.

Sincerely,
Leslie Sing

RE: Testimony IN SUPPORT of SB 2097, Relating to Child Safety to Increase Disclosure of Child Abuse & Neglect Records

Dear Senators,

My name is Loida Legapsi and I support SB 2097. As the aunt of Peyton Valiente I am deeply concerned about the possibility of this bill not being passed. I have witnessed firsthand accounts of the frustration, pain and sorrow my family, especially my brother and sister in law have experienced over these many years. A sense of trust, normalcy and joy have been forever shattered by the lack of justice, compassion, and acknowledgement that my family seeks. I am hoping and praying that no other family had to endure the same problems, pain and frustration.

Therefore, I am hoping that SB 2097 be passed so that people will have better access to the CAN registry so updated information will be accurate and more up to date. Hopefully with more accurate information there will be more assurances that people taking care of the children/grandchildren do not have a history of harming children.

If you need any clarification or have further questions please call me. I am sincerely praying that you will do the right thing and pass SB 2097 to ensure the safety of the children and offer some piece of mind for my loved ones and myself.

Sincerely yours,

Loida Legaspi

**RE: Testimony IN SUPPORT of SB 2097, Relating to Child Safety to Increase
Disclosure of Child Abuse & Neglect Records**

My name is Charisa Sumner and I support SB2097 because I am an aunt related to

Peyton Valiente. My heart was broken when I heard the news about Peyton in 2015;
but more broken when I found out that the state of Hawaii did nothing to arrest the
people who put Peyton in the hospital. This state needs a bill like this enforced to
protect our keiki, the future. If the state can inform its people about sex offenders;
parents should have the right to know the childcare/ babysitter has no record of harming
innocent children. This bill could bring so much more peace to our minds.

Thank you,

Charisa Sumner

Chair: Senator Josh Green, Vice Chair: Stanley Chang, & Members of the Committee:

RE: Testimony IN SUPPORT of SB 2097, Relating to Child Safety to Increase Disclosure of Child Abuse & Neglect Records

Dear Senators,

My name is Rey Valiente and I **fully support SB 2097**. I am the father of Peyton Valiente, a child that was severely abused at his babysitter's home. I am completely frustrated with how the outcome has been in obtaining justice for the heinous crime that was committed. No one has been held responsible for his nearly fatal injuries. What is more concerning is that the perpetrator, the babysitter, deemed by CWS was not placed on a Child abuse & neglect registry. This places more children at risk of harm because the perpetrator is still at-large and the public currently does not have access to the information of the abuse.

In today's society, it is common that both parents need to work full time jobs to sustain a living. More so here in Hawaii where the cost of living is one of the most expensive places to live. With that said, many of your fellow constituents probably utilizes some type of child care services. Some are not as fortunate to have family members that are able or capable to stay home to provide that care for their loved ones. Choosing a provider for child care is extremely difficult because we can do our own due diligence to research the provider, but the most important thing is, are they known to harm children? That's where we need more reassurance. SB 2097 provides that for parents by allowing parents access to information pertinent in making one of the most crucial decisions as a parent.

It was difficult to hear that parents continued to utilize the same babysitter where the abuse occurred because they had no knowledge of an investigation nor were they ever alerted to the incident. I can't blame them for being upset, because I would be too. Hopefully with the passing of SB 2097, parents can be a little more at ease knowing that there is a bill out there to receive information in regards to child abuse/neglect that may effect their own child's well being and safety.

The traumatic events that my family and most especially my son has gone through over the past years has been daunting. So many entities have failed my son, Peyton, to obtain justice. We pray that no other family has to ever endure the pain and suffering we have gone through and still continue to go through. Which is why SB 2097 is so important to us. My son's incident has brought to light many inadequacies in the laws to protect our children. So, if something is broken, let's fix it. With that being said, let's not continue to protect the perpetrator. It's time we protect the children.

I pray that this committee do what is in the best interest of the public and most especially the children of Hawaii by passing SB 2097. Thank you for allowing me to submit testimony.

Mahalo,

Rey Valiente

RE: Testimony IN SUPPORT of SB 2097, Relating to Child Safety to Increase Disclosure of Child Abuse & Neglect Records

My name is –Danette Aquino —and I support SB 2097 because as a parent, I strongly believe that I should have a right to know of any alleged child abuse or neglect in a prospective child care home. I strongly believe that this measure will help ensure that as parents, we choose a safe environment for our children. Disclosure of child abuse and neglect is a necessity in our responsibility to keep our children safe and free from harm.

My position on this matter is in my desire for justice for Peyton Valiente. Peyton sustained injuries while in the care of a state licensed child care provider. The state licensed child care provider did not face any criminal charges and continues to provide care for children in our community.

In closing, I am in support of SB 2097. Mahalo for your time and consideration.

RE: Testimony IN SUPPORT of SB 2097, Relating to Child Safety to Increase Disclosure of Child Abuse & Neglect Records

My name is Prescila de Jesus and I fully SUPPORT SB 2097. Peyton Valiente is my precious grandson. It was heartbreaking to have seen him in the ICU bed fighting for his life after he was severely abused at his babysitter's home. My grandson is my world and I am sure that all other parents and grandparents feel the same way that I feel, which is why I am so deeply sadden at the injustice Peyton has received to this very day. I just can not come to terms on how our legal system allowed a perpetrator "off the hook" so to speak. I worry every night and day that another child will be harmed so brutally as Peyton was or even worse because of the inadequacies in our governments system. I have witnessed first hand at how devastating this entire experience has been for my daughter Chelsea, my son in law Rey, and most especially my precious grandson Peyton. SB 2097 means so much to our family and we are graciously asking that this committee please pass SB 2097 to allow for more transparency. Parents should have the right to know about anyone who has harmed children, especially if their own children are in their care or are possibly considering placing them in their care.

The system has unfortunately failed Peyton and his parents, and I beg you all to help prevent the same thing from happening to others. Let's allow parents to be able to make better informed decisions on child care providers so they can be assured that they are leaving their precious children in the hands of someone capable, honest, and most importantly safe. May you do what is in the best interest of the children of Hawaii. Thank you for allowing me to submit testimony.

Sincerely,

Prescila de Jesus
