DAVID Y. IGE  
GOVERNOR

LEO R. ASUNCION  
DIRECTOR  
OFFICE OF PLANNING

Statement of  
**LEO R. ASUNCION**  
Director, Office of Planning  
before the  
**SENATE COMMITTEE ON WAYS AND MEANS**  
Wednesday, February 21, 2018  
10:10 AM  
State Capitol, Conference Room 221

**LATE**

in consideration of  
**SB 2663, SD 1**  
**RELATING TO SUSTAINABLE DEVELOPMENT GOALS.**

Chair Dela Cruz, Vice Chair Keith-Agaran, and Members of the Senate Committee on Ways and Means.

The Office of Planning supports SB 2663, SD 1 Relating to Sustainable Development Goals. SB 2663, SD 1 seeks to amend Hawaii Revised Statutes (HRS) Chapter 226, the Hawaii State Planning Act, to codify one of the United Nations' (UN) Sustainable Development Goals, a group of 17 goals to transform our world; SB 2663, SD 1 specifically seeks to codify UN Sustainable Development Goal, global goal 2, zero hunger by 2030.

The Office of Planning appreciates the adoption of global goal 2 of ending hunger, achieving food security and improved nutrition, and promoting sustainable agriculture throughout the State of Hawaii by 2030.

The Office of Planning appreciates the amendments made in the Senate Draft 1 version of this bill, codifying this proposal in Hawaii Revised Statutes Chapter 226, the Hawaii State Planning Act, to be consistent with HRS § 226-108, the State's sustainability priority guidelines and principles.

Thank you for the opportunity to testify on this measure.

**LATE**

February 20, 2018

Dear Committee on Ways and Means, Senator Donovan M. Dela Cruz, Chair, and Senator Gilbert S.C. Keith-Agaran, Vice Chair,

The Oahu Economic Development Board supports SB2663 to adopt the United Nations Sustainable Development Goals (SDGs) into state law and highlight Hawai'i's leadership on integrated sustainability. We recommend adopting all 17 SDGs to provide a holistic framework that addresses cross-cutting environmental, social, and economic priorities, as reflected in the meta-version SB2661.

The 17 SDGs exemplify Hawai'i's mālama values and systems-based approach to resource management; this was eloquently outlined by Senator Kenny Brown in his 1973 speech to the State Legislature on the Mālama Ethic. The global framework can support locally and culturally appropriate implementation through the statewide Aloha+ Challenge (SCR69) and key initiatives such as the Sustainable Hawai'i Initiative and City's 100 Resilient Cities partnership.

The Oahu Economic Development Board priority is to facilitate progress on such infrastructure and planning issues that involve land, water, and permitting in order to move the state towards energy independence and food independence. This priority aligns with the SDG on Zero Hunger (#2). The SDGs intersect with key cross-cutting issues in Hawai'i, and acknowledge that none of these can be achieved without consideration for the others.

This presents an important opportunity to reinforce Hawai'i's as a global sustainability model through a mālama 'āina approach, building on the recent adoption of the Paris Agreement (Act 32) and inspiring Worldwide Voyage of Hōkūle'a. Through this, we can attract new resources to support and finance local implementation, and partner with communities across the globe to build a more sustainable future for Hawai'i and island earth.

Sincerely,

Pono Shim  
President & CEO

*Hawai'i Green Growth is a statewide public-private partnership that catalyzes action across government, private sector and civil society to achieve Hawai'i's sustainability and climate goals, and serve as a model for integrated green growth*

---

**Testimony of Hawai'i Green Growth**  
In Support of SB2663 SD1 Relating to Sustainable Development Goals  
Senate Committee on Ways and Means  
21 February 2018, 10:10am, Room 211

Honorable Chair Dela Cruz, Vice Chair Keith-Agaran, and Members of the Committee:

As a statewide partnership, Hawai'i Green Growth (HGG) **strongly supports SB2663 SD1** to adopt the United Nations 2030 Sustainable Development Goals (SDGs) into state law. We recognize the critical importance of ending hunger and achieving food security while promoting sustainable agriculture, as highlighted through SDG2. Even further, HGG recommends adopting the entire global framework with all 17 SDGs, as reflected in **SB2661 SD1**. HGG acknowledges discussions underway to determine the appropriate placement in HRS, but supports the overarching vision to holistically address 21<sup>st</sup> century challenges that cut across environmental, social, and economic priorities.

We appreciate the Senate's leadership on the 2018 Majority Program on UN Sustainable Development Goals (SDGs), as well as the support for Hawai'i sustainability initiatives over the past several decades. Our partnership believes that the SDGs can help advance local efforts to address key challenges in Hawai'i across housing, climate change, energy, environmental protection, health, education and economic development by acknowledging that none of these can be addressed without consideration for the others. We cannot meet our climate goals without achieving sustainable development outcomes and vice versa. Senator Kenneth Brown's 1973 Mālama Hawai'i speech proposed that every action – economic, social and political - be guided by *mālama*. The 17 SDGs embody Hawai'i's *mālama* 'āina approach to resource management, and counsels the necessity of maintaining a balance between all aspects of our environment, society, and economy. In many ways Senator Brown foretold the eventual arrival of the SDG framework.

Hawai'i launched the *Aloha+ Challenge: He Nohona 'Ae'ōia* one year prior to the formal adoption of the SDGs by over 190 countries. The *Aloha+ Challenge* is led by the State Legislature (Senate Concurrent Resolution 69), Governor, four County Mayors, Office of Hawaiian Affairs, and private sector and civil society partners. Building on Hawai'i's history of systems thinking and many community initiatives, this commitment identifies statewide sustainability goals across energy, food, natural resources, waste, smart sustainable communities and climate, green education and workforce. Hawai'i's *Aloha+ Challenge* is recognized as a place-based model to support locally and culturally appropriate implementation of the SDGs. At the same time, the global SDG framework supports the implementation of local models like the *Aloha+ Challenge*, Sustainable Hawai'i Initiative, 100 Resilient Cities, Promise to Pae 'Āina, and other efforts, and can help attract new resources to drive implementation. It also builds on Hawai'i's recent adoption of the Paris Agreement (Act 32) and the inspiring Mālama Honua Worldwide Voyage of Hōkūle'a. Enacting SDGs into state law is significant for Hawai'i locally, nationally and internationally.

Above all, the partnership recognizes that Hawai'i's long-term security in the face of climate change and other challenges is now linked to the success of this global agenda. Because of the scale of the threat, this is no longer something Hawai'i can do alone. Indeed, for many in the international community, Hawai'i holds the answer to finding the balance based on the wisdom of our host culture and fundamental island values, as embodied in Senator Kenneth Brown's speech delivered 45 years ago. It is our kuleana, both a responsibility and privilege, to partner with communities across the globe to build a more sustainable future for Hawai'i and island earth.

Thank you for your visionary leadership and for the opportunity to submit testimony.
