DAVID Y. IGE  
GOVERNOR

LEO R. ASUNCION  
DIRECTOR  
OFFICE OF PLANNING

Statement of  
**LEO R. ASUNCION**  
Director, Office of Planning  
before the  
**SENATE COMMITTEE ON WAYS AND MEANS**  
Friday, February 23, 2018  
10:00 AM  
State Capitol, Conference Room 211

in consideration of  
**SB 2668**  
**RELATING TO SUSTAINABLE DEVELOPMENT GOALS.**

Chair Dela Cruz, Vice Chair Keith-Agaran, and Members of the Senate Committee on Ways and Means.

The Office of Planning supports SB 2668 Relating to Sustainable Development Goals. SB 2668 seeks to amend Hawaii Revised Statutes (HRS) Chapter 344, the State's Environmental Policy, to codify one of the United Nations' (UN) Sustainable Development Goals, a group of 17 goals to transform our world; SB 2668 specifically seeks to codify UN Sustainable Development Goal, global goal 7, to ensure affordable and clean energy by 2030.

The OP appreciates the adoption of global goal 7 to ensure access to affordable, reliable, sustainable, and modern energy for all throughout the State of Hawaii by 2030.

The OP recommends amendments to codify this proposal in Hawaii Revised Statutes Chapter 226, the Hawaii State Planning Act, to be consistent with HRS § 226-108, the State's sustainability priority guidelines and principles.

Thank you for the opportunity to testify on this measure.

**DEPARTMENT OF BUSINESS,  
ECONOMIC DEVELOPMENT & TOURISM**

DAVID Y. IGE  
GOVERNOR

10:00 a.m.  
State Capitol, Conference Room 211

in consideration of

**SB2668**  
**RELATING TO SUSTAINABLE DEVELOPMENT GOALS.**

Chair Dela Cruz, Vice Chair Keith-Agaran, and Members of the Committee.

The Department of Business, Economic Development, and Tourism (DBEDT) supports SB2668, which codifies the affordable and clean energy sustainable development goal based on the United Nations' Global Goal Seven and has references to existing state sustainability programs.

DBEDT appreciates the adoption of the United Nations' Global Goal Seven 7 to ensure access to affordable, reliable, sustainable, and modern energy for all throughout the State of Hawaii by 2030. We also appreciate the inclusion in Global Goal Seven 7 of our State's statutory goal of 100% renewable energy in the electricity sector by 2045.

Thank you for the opportunity to offer testimony on SB2668.

February 20, 2018

Dear Committee on Ways and Means, Senator Donovan M. Dela Cruz, Chair, and Senator Gilbert S.C. Keith-Agaran, Vice Chair,

The Oahu Economic Development Board supports SB2668 to adopt the United Nations 2030 Sustainable Development Goal (SDG) #7, into state law. This is a significant opportunity to highlight Hawai'i's sustainability leadership, and catalyze new partnerships and resources to support local action. We recommend adopting all 17 SDGs, as reflected in SB2661, and acknowledge discussion on the appropriate placement in the Hawai'i Revised Statutes.

The SDGs provide a global blueprint to balance environmental, social, and economic priorities, which embodies Hawai'i's mālama ethic and systems-based approach to resource management. Senator Kenneth Brown's 1973 speech eloquently conveys a guiding framework to Mālama Hawai'i, calling forth the vision of SDGs. Through SDGs, Hawai'i can partner with other local communities around the world to support place-based action that drives global sustainability outcomes.

The SDGs can support locally and culturally appropriate implementation of sustainability goals through the Aloha+ Challenge (SCR 69), Sustainable Hawai'i, 100 Resilient Cities, Promise to Pae 'Āina, and other efforts. This builds on the recent adoption of the Paris Agreement (Act 32) and the inspiring Worldwide Voyage of Hōkūle'a. Progress on Hawai'i's statewide sustainability commitment is being tracked through the online Aloha+ Challenge Dashboard, highlighting collaboration and action towards the global agenda.

The Oahu Economic Development Board priority is to facilitate progress on such infrastructure and planning issues that involve land, water and permitting in order to move the state towards energy independence and food independence. This organizational priority aligns with the SDG #7, Affordable and Clean Energy. The SDGs intersect with key cross-cutting issues in Hawai'i, and acknowledge that none of these can be achieved without consideration for the others.

Please feel free to contact me directly should you have any questions.

Sincerely,

Pono Shim  
President and CEO  
Oahu Economic Development Board

Dillingham Transportation Building  
735 Bishop Street, Suite 424, Honolulu, Hawaii 96813 • 808-521-3611

*Hawai'i Green Growth is a statewide public-private partnership that catalyzes action across government, private sector and civil society to achieve Hawai'i's sustainability and climate goals, and serve as a model for integrated green growth*

---

**Testimony of Hawai'i Green Growth**  
In Support of SB2668 Relating to Sustainable Development Goals  
Senate Committee on Ways and Means  
23 February 2018, 10:00am, Room 211

Honorable Chair Dela Cruz, Vice Chair Keith-Agaran, and Members of the Committee:

As a statewide partnership, Hawai'i Green Growth (HGG) **strongly supports SB2668** to adopt the United Nations 2030 Sustainable Development Goals (SDGs) into state law. We recognize the critical importance of affordable and clean energy to build a sustainable future, as highlighted through SDG7. Even further, HGG recommends adopting the entire global framework with all 17 SDGs, as reflected in **SB2661 SD1**. HGG acknowledges discussions underway to determine the appropriate placement in HRS, but supports the overarching vision to holistically address 21<sup>st</sup> century challenges that cut across environmental, social, and economic priorities.

We appreciate the Senate's leadership on the 2018 Majority Program on UN Sustainable Development Goals (SDGs), as well as the support for Hawai'i sustainability initiatives over the past several decades. Our partnership believes that the SDGs can help advance local efforts to address key challenges in Hawai'i across housing, climate change, energy, environmental protection, health, education and economic development by acknowledging that none of these can be addressed without consideration for the others. We cannot meet our climate goals without achieving sustainable development outcomes and vice versa. Senator Kenneth Brown's 1973 Mālama Hawai'i speech proposed that every action – economic, social and political - be guided by *mālama*. The 17 SDGs embody Hawai'i's *mālama* 'āina approach to resource management, and counsels the necessity of maintaining a balance between all aspects of our environment, society, and economy. In many ways Senator Brown foretold the eventual arrival of the SDG framework.

Hawai'i launched the *Aloha+ Challenge: He Nohona 'Ae'ōia* one year prior to the formal adoption of the SDGs by over 190 countries. The *Aloha+ Challenge* is led by the State Legislature (Senate Concurrent Resolution 69), Governor, four County Mayors, Office of Hawaiian Affairs, and private sector and civil society partners. Building on Hawai'i's history of systems thinking and many community initiatives, this commitment identifies statewide sustainability goals across energy, food, natural resources, waste, smart sustainable communities and climate, green education and workforce. Hawai'i's *Aloha+ Challenge* is recognized as a place-based model to support locally and culturally appropriate implementation of the SDGs. At the same time, the global SDG framework supports the implementation of local models like the *Aloha+ Challenge*, Sustainable Hawai'i Initiative, 100 Resilient Cities, Promise to Pae 'Āina, and other efforts, and can help attract new resources to drive implementation. It also builds on Hawai'i's recent adoption of the Paris Agreement (Act 32) and the inspiring Mālama Honua Worldwide Voyage of Hōkūle'a. Enacting SDGs into state law is significant for Hawai'i locally, nationally and internationally.

Above all, the partnership recognizes that Hawai'i's long-term security in the face of climate change and other challenges is now linked to the success of this global agenda. Because of the scale of the threat, this is no longer something Hawai'i can do alone. Indeed, for many in the international community, Hawai'i holds the answer to finding the balance based on the wisdom of our host culture and fundamental island values, as embodied in Senator Kenneth Brown's speech delivered 45 years ago. It is our kuleana, both a responsibility and privilege, to partner with communities across the globe to build a more sustainable future for Hawai'i and island earth.

Thank you for your visionary leadership and for the opportunity to submit testimony.

THE COMMITTEE ON WAYS AND MEANS

THE SENATE

TWENTY-NINTH LEGISLATURE

REGULAR SESSION OF 2018

Friday, February 23, 2018

10:00 AM

Hawaii State Capitol, Conference Room 211

RE: Testimony in Support of SB2668 RELATING TO SUSTAINABLE DEVELOPMENT GOALS

To the Honorable Donovan M. Dela Cruz, Chair; the Honorable Gilbert S.C. Keith-Agaran, Vice-Chair, and Members of the Committee on Ways and Means:

Good morning, my name is Melodie Aduja. I serve as Chair of the Oahu County Legislative Priorities Committee of the Democratic Party of Hawaii. Thank you for the opportunity to provide written testimony on Senate Bill No. 2668, relating to United Nations' Global Goal Seven: Affordable and Clean Energy.

The OCC Legislative Priorities Committee is in favor of Senate Bill No. 2668 and support its passage.

Senate Bill No. 2668 is in alignment with the Platform of the Democratic Party of Hawai'i ("DPH"), 2016, as it codifies sustainable development goals based on the United Nations' Global Goal seven, affordable and clean energy. The DPH Platform states that "[w]e support energy independence, selfsufficiency, affordability and reliability for Hawai'i through the development of renewable alternative energy sources.

Specifically, we need to support policies that foster the development of energy production methods that de-emphasize carbon-based fuels and promote renewable sources such as wind, solar, wave geothermal and Ocean Thermal Energy Conversion (OTEC). (Platform of the DPH, P. 9, Lines 452-456 (2016)).

Given that Senate Bill No. 2668 adopts United Nations' Global Goal Seven, affordable and clean energy, it is the position of the OCC Legislative Priorities Committee to support this measure.

Thank you very much for your kind consideration.

Sincerely yours,

/s/ Melodie Aduja

## Comments:

Dear WAM Chair Dela Cruz, Vice Chair Keith-Agaran, and Committee members,

I support SB 2668, with two amendments.

The new statutory material should include a sixth goal, to the effect of "Prohibiting, to every extent legally possible, the construction of any new or improved fossil fuel infrastructure." And in subsection (4), "advanced and cleaner fossil-fuel technology" should be stricken. Any such expense and effort is a wasteful distraction from subsections (2), (3) and (4).

The United Nations Sustainable Development Goals, and the goals of the Paris Climate Agreement are noble, necessary and urgent. Goal seven, affordable and clean energy, is among the most, if not the most, important. Ensuring access to affordable, reliable, sustainable, and modern energy for all by 2030 is a crucial milestone on our path to 100% renewable energy by 2045.

To: The Senate Committee on Ways and Means  
From: Brodie Lockard, 350Hawaii.org, 808-262-1285  
Date: Friday, 2/23/18

**In support of SB 2668**

Dear WAM Chair Dela Cruz, Vice Chair Keith-Agaran, and Committee members,

I am the founder of the Hawaii chapter of 350.org, the largest international organization dedicated to fighting climate change. 350Hawaii.org supports SB 2668, with two amendments.

The new statutory material should include a sixth goal, to the effect of "Prohibiting, to every extent legally possible, the construction of any new or improved fossil fuel infrastructure." And in subsection (4), "advanced and cleaner fossil-fuel technology" should be stricken. Any such expense and effort is a wasteful distraction from subsections (2), (3) and (4).

The United Nations Sustainable Development Goals, and the goals of the Paris Climate Agreement are noble, necessary and urgent. Goal seven, affordable and clean energy, is among the most, if not *the* most, important. Ensuring access to affordable, reliable, sustainable, and modern energy for all by 2030 is a crucial milestone on our path to 100% renewable energy by 2045.

Thank you for the opportunity to testify.

Dear Members,

I belong to 350HI and we try to assist policy makers to create bills that promote renewables, keep fossil fuels in the ground and try to make State Funds join the divestment movement so i support the following SB26668 bill. Technological development and R&D in PV, Wind generation, battery storage and driving prices down so that wind and PV are competitive with coal without all the environmental, social, health, poverty externalities. So we should try and implement the United Nations' Global Goal 7. Hawaii is well placed to use these and other (OTEC, Geothermal & market mechanisms to transition to a 100% renewable future.
