State Capitol, Room 211

LATE

S.B. 2738
RELATING TO FOUND ELECTRONIC DEVICES

Senate Committee on Ways and Means

The Department of Transportation (DOT) supports S.B. 2738 relating to found electronic devices by amending Hawaii Revised Statutes Sections 52D-14 and 261-17.7 to authorize the county police departments and the DOT to sanitize unclaimed electronic devices in accordance with guidance provided by the Information Privacy and Security Council, before providing the unclaimed property to finders.

The overall goal of the Department of Transportation (DOT) is to facilitate the rapid, safe, and economical movement of people, goods and mail into, within, and out of the State by providing and operating transportation facilities and supporting services.

The DOT currently has three (3) Divisions: Airports, Harbors, and Highways. DOT provides, operates, and maintains 11 commercial service airports, 4 general aviation airports, 10 commercial harbors, and more than 2,500 miles of highway.

The three (3) transportation divisions are regulated by various federal agencies to ensure compliance with environmental, health, safety, law enforcement, and security requirements.

As such, our ports (Airports and Harbors) are for public use and electronic devices are misplaced, turned over and inventoried by their respective Lost and Found programs. Some of these devices containing personal identification data/information are unclaimed and this data/information must be sanitized prior to being auctioned or disposed of in accordance to guidance provided by Information Privacy and Security Council.

Thank you for the opportunity to provide testimony.

Vice Chair Cullen

My name is Kirk Johnson. An I represent Indivisible

We support HB 2738, a bill that creates a program to provide basic healthcare coverage for uninsured babies and children in Hawaii. By filling this gap, we guarantee that all our keikis are covered either via insurance or via this special pilot program, and therefore we will have universal healthcare coverage for our children. It is important for our keikis to have access to healthcare right from birth, as this both immediately protects their health and prevents escalation into potentially more complex, dangerous, and expensive conditions later on. This is a win from both a healthcare and finance perspective, and we respectfully ask that you pass this bill.
