Comments:

My name is Raelyn Reyno Yeomans and I am writing in support of SB 2816. It makes absolute sense that a person should be released from longer term incarceration with the necessary resources so that they can get started with their life outside of jail or prison. I support this bill providing authority for the Hawaii paroling authority to provide a paroled or discharged individual with \$200 cash. I also support both the request AND appropriation of the necessary funds so that the actual money is made available to the Hawaii paroling authority so that they have both the authority to provide these funds as well as the necessary funds to actually disperse to the individuals.

Thank you-

Raelyn Reyno Yeomans
