Comments: It is crucial for our islands to have more food at parks and other places. We are an island of growing plenty food...we can maintain these places and kokua. We have aloha aina concepts so the ai pono will go to where it needs to go, never fighting over ai pono...this is a great idea..mahalo Maile

Comments: Thanks for taking my comments. I strongly support SB640. We need to be making common sense decisions like this. Let's grow food!

Comments: Please pass this important measure!! Not only will it help move Hawaii toward it's goal of producing more food locally, but it's great for our economy. I make skin care products that are 100% locally sourced, EXCEPT for the coconut oil. It's frustrating that there aren't enough coconuts to produce a made-in-Hawaii coconut oil, so I can't label my products "100% Made in Hawaii."

Comments: I strongly support any programs that work to increase our food and resource supply locally. We need to have access to local coconuts for cultural practices and for food. Coconuts are one of the most nourishing and sustainable food/hydration sources on the planet. Let's cultivate and share this knowledge and practice of living sustainably with the aina for future generations.

Comments: Very important have coconuts for human consumption that we can grow here on Maui and not import in form other parts of the world! They grow naturally here without the use of added chemicals or growing agents and have many medicinal properties that our citizens could benefit from! Me and my family support this bill!
