Comments:

Thank you for giving us the opportunity to voice that we have been a part of the Kapaa Industrial from 2000. We appreciate being in Kailua and having an affordable place to operate our business. We live this location especially being close to home.

Comments:

Aloha,

SCR 146 was not written by Senator Laura Thielen. SCR 146 falsely misrepresents the Kawainui-Hamakua Marsh Complex Master Plan and includes inaccurate statements. In addition, SCR 146 does not support the great deal of effort, time and hard work that the State of Hawaii, Department of Land and Natural Resources has put into developing the Kawainui-Hamakua Marsh Complex Master Plan. The intentions of the Plan are to restore and preserve Kawainui-Hamakua Marsh and the Environment Impact Statement supports the long-range Master Plan and states that there will be no impact. Please disregard SCR 146.

Mahalo,

Kirstin Hochart

Comments:

I oppose the relocation of Kapaa Quarry Industries. As Kailua town has evolved many of the industrial businesses have had to relocate out of Kailua town. Being born and raised in Kailua these are businesses that I have used and supported my entire life. By eliminating Kapaa you will be taking more businesses out of our community and eliminating jobs for our residents.

with the cost of living and working in Kailua continues to rise these small often family owned businesses need convenient locations in their community that they can successfully grow.

Comments:

I am opposed to the portion of this bill which relocates the Kapa'a Industrial Park out of the Kawainui-Hamakua Marsh Complex. The Kapa'a Industrial Park has many dedicated small business owners who have agreed to do their business in ways that mitigate impacts to the environment. Many of these owners could not afford lease rent or relocation costs to other parts of the island, and in addition, many live in Kailua or Kaneohe and are also important constituents of the community.

Making a blanket statement on "relocation" (p.3, line 11) of a dedicated group of community members who are in compliance with the environmental impact mitigation for the Marsh does not take into account or provide for a realistic plan for the impact to their livelihoods.

In addition, the blanket statement that the clean up of the contaminated soil in Kapa'a valley should be conducted, though admirable, does not take into account the enormous cost and time span of such a cleanup.

Finally, showing bias against the Industrial Park tenants (relocating them but no other group) without similar concerns for Le Jardin, the AMRON facility or the Kapaa Transfer Station is not in keeping with the spirit of fairness we collectively stand for.

As a long term resident who lived in Kailua for more than ten years, including in Maunawili, I agree with land restoration where it is feasible and where practical improvements can be made. But I remember when the old drive in theater site sat unused for several years after it closed, with no useful life until Le Jardin was built,. I drove by it daily and wondered why it was left in disrepair in a beautiful part of Kailua. My experience thus makes me an informed skeptic of the pace of change that would actually occur if this bill is passed.

Instead, I see more clearly the harm that would be done by relocating the tenants of the park to an unknown location.

Thank you for your attention, and aloha.

Phyllis Horner
