COMMITTEE ON PUBLIC SAFETY, INTERGOVERNMENTAL, AND MILITARY AFFAIRS

Senator Clarence K. Nishihara, Chair

Senator Glenn Wakai, Vice Chair

COMMITTEE ON TRANSPORTATION AND ENERGY

Senator Lorraine R. Inouye, Chair

Senator Will Espero, Vice Chair

Wednesday, March 28, 2018

1:15 p.m.

Conference Room 225

Re: SCR 188 Counties end fossil fuel use in ground transportation by 2045

**RESO is PRE-EMPTED**

Aloha Chairs Nishihara and Inouye, and Committee Members

The State Legislature has been unable to deal with fossil fuels used in transportation. The Mayors announced in December 2017 that they had a vision but no plans. This Resolution requires County Plans. The problem with this approach is state pre-emption on vehicle registration and lack of a definition.

(1) vehicle registration is pre-empted by state law (HRS §286-16 Powers and duties. The director of transportation shall prescribe uniform standards and procedures for motor vehicle [] registration)

(2) fossil fuel is not defined under state law. (rather than saying fossil fuel is coal, natural gas, and petroleum, and renewables are everything else, the state does not define fossil fuel, and describes what renewables are in hundreds of words.)

(3) The simple solution is to ban the use of coal, natural gas, and petroleum after 2045

Mahalo,  
Henry Curtis

**SCR-188**

Melodie Aduja	Testifying for Oahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i	Support	No

Comments:

To the Honorable Clarence K. Nishihara, Chair; the Honorable Glenn Wakai, Vice-Chair and Members of the Committee on Public Safety, Intergovernmental, and Military Affairs:

To the Honorable Lorraine R. Inouye, Chair; the Honorable Will Espero, Vice-Chair and Members of the Committee on Transportation and Energy:

Good afternoon. My name is Melodie Aduja. I serve as Chair of the Oahu County Committee ("OCC") on Legislative Priorities of the Democratic Party of Hawaii. Thank you for the opportunity to provide written testimony on **SCR 188 / SR 141** relating to Fossil Fuels; Ground Transportation; and the Counties.

The OCC on Legislative Priorities is in favor of **SCR 188 / SR 141** and supports its passage.

**SCR 188 / SR 141** is in accord with the Platform of the Democratic Party of Hawai'i ("DPH"), 2016, as it is requests that the City and County of Honolulu, County of Maui, County of Hawaii, and County of Kauai Mayors submit a plan detailing how each county intends to meet their pledge of eliminating fossil fuels from ground transportation by 2045; and the counties are requested to consider as part of their plan installing electric vehicle charging ports and converting their county's bus fleets to electric buses; and the Director of Health, in the Director's capacity as the Mayor of Kalawao County, is urged to sign the pledge to eliminate fossil fuels from all ground transportation in Kalawao County by 2045, and to submit a report detailing how the county plans to eliminate fossil fuels from ground transportation by 2045.

The Platform of the DPH provides that "We believe in a government that will adequately, efficiently, courteously, openly, ethically and fairly administer to the needs of the people. (Platform of DPH, P.5, Line 443-448 (2016)).

"We seek to achieve energy sustainability based on renewable energy sources. We must encourage the use of clean alternative fuel sources to include our public transportation systems. We must increase the use of public transit, telecommuting, car and vanpooling, ridesharing, biking, walking, and other forms of transportation thereby reducing traffic congestion and air pollution. We must also urgently develop the use of a variety of cost-effective energy providing systems, encourage transit-oriented development, and support tax incentives that encourage renewable energy initiatives." (Platform of DPH, P.8, Line 443-448 (2016)).

We recognize the necessity of providing a safe, efficient transportation infrastructure. We endorse efforts to promote less reliance on imported fossil fuel and to support energy-efficient methods of transportation. Therefore, we support county, state, and federal efforts to provide more efficient and punctual methods of public transportation, to include but not limited to: sidewalks, pedestrian crossings, bicycle paths and lanes, mass transit, highways, airports, and ferry systems. We support the allocation of resources including public funds to address all necessary transportation issues, including increased funding for mass transit.

We endorse efforts to promote less reliance on the automobile by employing private and public use of alternative modes of travel. We encourage efforts to provide better vehicle and pedestrian safety. In particular, we support initiatives that will provide our state with more fuel-efficient vehicles, affordable mass transit and well-identified bike lanes. In order to be best served by mass transit, we must recognize the importance of the integration in an urban setting of any new modes of mass transportation with existing and future public streets and highways, bike lanes, retail establishments and services, and truly-affordable housing – while maintaining a high degree of open space at ground level in current and all future high-density developments.

We support the development of alternative emergency options for potential evacuation, with special attention to rural areas that only have one access point. (Platform of DPH, P.9, Line 465-483 (2016)).

Given that **SCR 188 / SR 141** requests the City and County of Honolulu, County of Maui, County of Hawaii, and County of Kauai Mayors to submit a plan detailing how each county intends to meet their pledge of eliminating fossil fuels from ground transportation by 2045; and the counties are requested to consider as part of their plan installing electric vehicle charging ports and converting their county's bus fleets to electric buses; and the Director of Health, in the Director's capacity as the Mayor of Kalawao County, is urged to sign the pledge to eliminate fossil fuels from all ground transportation in Kalawao County by 2045, and to submit a report detailing how the county plans to eliminate fossil fuels from ground transportation by 2045, it is the position of the OCC on Legislative Priorities to support this measure.

Thank you very much for your kind consideration.

Sincerely yours,

/s/ Melodie Aduja
