II. Background and Summary

This section shall clearly and concisely summarize and highlight the contents of the request in such a way as to provide the State Legislature with a broad understanding of the request. Please include the following:

1. A brief description of the applicant's background;

Kalamaula was the first Hawaiian homestead community developed in 1921 as a demonstration community after the establishment of the Hawaiian Homes Act. The Kalamaula Homesteaders Association (KHA) was founded in 1961 and became a non-profit 501(c)(3) entity since January 2010. KHA was established to ...

- . . . challenge and inspire youth who live on homestead land to achieve their full potential by providing support and opportunities for advancement in education;
- ... promote better health for our Kalamaula community and homesteader's outside
- of Kalamaula through education; and
- ... preserve and protect Hawaii's natural environment, including Kiowea Park in Kalamaula in particular, through the stewardship of our lands consistent with Hawaiian culture, values, and traditional methods of resource management.

Some of the initiatives that Kalamaula Homesteaders Association has participated

in include the following:

- Kalanianaole Hall partnered with various organizations to restore and renovate the historic building and currently oversees and manages the Hall.
- Kiowea Park made improvements to the park and continues to manage and maintain the Park.
- Fire Break Project worked to develop and expand a fire break to ensure fire safety for the community.
- Community Pasture Project- played a pivotal role in the island-wide development of livestock ventures for the island.
- Advocacy plays a critical advocacy role for the Kalamaula Community on issues related to housing, water, and other concerns of homestead residents. The proposed project is to build and improve Kiowea Park's deteriorated amenities such as, outmoded restrooms, grills, and an undersized sheltered pavilion. KHA is in need of additional financial support to complete the building of a new pavilion with certified kitchen, updated restrooms (Phase 1-almost completed) paved parking lot, installation of renewable energy resources (to offset the high cost of electricity) landscape beautification. These improvements to Kiowea Park will allow KHA to be a centrally located resource for the community to use to build or expand their business and/or retail ventures while continuing to provide a cultural event site for the community.
- 2. The goals and objectives related to the request; Phase 1:
 - Objective #1: To build a new larger sheltered pavilion, to include a certified kitchen at Kiowea Park.
 - Objective #2: New restrooms that are ADA compliant and septic system including grease trap for certified kitchen.
 - Objective #3: To establish a Community Business and Retail Incubator for the Molokai Community.

Phase 2:

- Objective #1: Improve existing and expand parking lot to accommodate increased usage as well as handicapped accessible parking stalls.
- Objective #2: Install alternative energy resource technology.
- Objective #3: Landscape improvements through design, irrigation, and installation.
- Objective #4: Address environmental concerns regarding shoreline deterioration.
- Objective #5: Kiowea Park to be self-sufficient and self-sustaining, impacting the Community through the use of education, culture, and tradition.

The public purpose and need to be served;

The redevelopment of Kiowea Park facilities will provide an avenue for the fulfillment of social, cultural, economic, and educational needs for the community. There is a high community demand to lease facilities for many purposes at a reasonable fee. Kiowea Park is centrally located, and community members will have access to utilize Kiowea Park for events, meetings, and fundraisers. The certified kitchen will allow for small business owners to prepare food and be another locale for large commercial farmers or small-scale farmers to prepare their produce and product to ship out to outer islands. Kiowea Park will be an important venue for the Kalamaula Homesteaders Association to be self-sufficient and be able to manage and maintain the historical richness and natural environmental wealth through educational workshops, archival display and community interaction.

4. Describe the target population to be served; and

The target population is based on the 2010 Molokai census, the resident population is 7404 (including Kalaupapa) persons, making up 2402 households. The race demographics on Molokai include 4599 Native Hawaiians and other Pacific Islanders. The Molokai homestead community consists of approximately 1000 active leaseholds in residential, agricultural, and pastoral leases. As of 2014, DHHL Residential/Agriculture leases for Molokai are: Kalamaula 162/72; Hoolehua 157/348; Kapaakea 47/0;

One Alii 29/0. Kiowea Park facilities will be open to all homesteaders as well as the broader non-homestead community.

5. Describe the geographic coverage.

The island of Molokai is the geographic coverage. The island is 38 miles long and 10 miles wide. Specifically, Kiowea Park is centrally located on the island and lies east of the 10-acre Kapuaiwa Grove in Kalamaula. Kiowea Park is fronted by the ocean and shares one of five water springs located in the area. Kiowea Park and its' surrounding area are rich with significant cultural sites and natural beauty.
