GOALS AND OBJECTIVES OF THE DEPARTMENT OF THE ATTORNEY GENERAL

Pursuant to Act 100, Session Laws of Hawaii 1999,
as Amended by Act 154, Session Laws of Hawaii 2005

Fiscal Year 2019 – 2020

Submitted to the Thirtieth State Legislature
Regular Session of 2019

SECTION 1: INTRODUCTION

The Attorney General is the chief legal officer of the State of Hawai'i. By law, the Attorney General and his or her deputies represent the State and its agencies and officers, for all three branches of government. This representation includes litigation in both state and federal court, in both civil and criminal matters. It also includes transactional work and assisting the State's many agencies with the performance of their duties. The Department of the Attorney General reviews bills and testifies on legislation, drafts and reviews regulations, advises boards and commissions, and prepares legal documents in many forms. The office provides a constant stream of informal and often daily advice to our client agencies. Experience counts at this job.

The AG's office has 207 deputy attorneys general. These professionals range from new hires to career deputies who have been with the Department more than 30 years. Experienced deputies are critical to the successful transition between administrations. Deputies' work is an integral component of every project of any importance in which any State agency is involved. In doing so, they serve a vital, irreplaceable function in State government, one that only an experienced, licensed professional can perform.

This past year there were a number of organizational changes. The Civil Rights and Tort Litigation Division was split into the Civil Rights Litigation Division and the Tort Litigation Division. Similarly, the Health and Human Services Division was split into the Health Division and the Human Services Divisions. The splits were effectuated to improve control and handling of litigation and to improve client service, quality of advice and representation. Additionally, the Investigations Division is in the process of reorganization to improve and enhance division efficiency and establish more efficient lines of supervision and command.

SECTION 2: DEPARTMENT GOALS AND OBJECTIVES

The Department of the Attorney General

The Attorney General is the chief law enforcement officer of the State of Hawai'i. The mission of the Department of the Attorney General is to provide excellent legal services to the State of Hawaii by offering advice and counsel to its client agencies, assist in implementing policy decisions, aid the core activities of its client agencies, and represent the State and its clients in litigation. The scope of the practice is wide and varied. The department represents the executive officers of the State of Hawaii, the Governor, the Legislature, the public officers of the State, and under certain circumstances employees of the State of Hawai'i. In addition, the Attorney General administers the Child Support Enforcement Agency, plans and implements crime prevention programs, gathers information and records to support law enforcement, and administers the State's sex offender registration.

GOAL 1: Enhance operations, functioning, and professionalism within the department.

Objective 1: Continue to improve and enhance the operations and functioning of the department.

Objective 2: Continue to enhance the professionalism of the department.

Action Plan 1: Continue to make critical hires as needed.

The target date for this action plan is ongoing.

The measure of success for this action plan is that the hires requested by the divisions and approved by the Attorney General are made, and the department is operating at sufficient capacity to provide appropriate services to its clients.

Action Plan 2: Facilitate better interaction between the department and special deputies and utilize funds set aside for special deputies for complex litigation.

Require the special deputies to work more closely with the division deputies.

This will serve two purposes: (1) it will elevate the quality of the line deputies' work; and (2) it will hold down the special deputies' costs.

The measure of success for this action plan is whether special deputies' costs are held down and departmental supervisors feel that the quality of work, which is already high, continues to improve.

Action Plan 3: Continue to improve cooperation with members of the Legislature.

Both during and outside of the legislative session the department has reached out to legislators offering to assist them as they deem necessary to ensure that any legal or constitutional infirmities are resolved with respect to legislative proposals. This helps ensure that bills can be amended earlier in the session and reflect the intent of the sponsoring legislator.

The measure of success will be increased integration between deputies and legislators and feedback from legislators that the assistance is helpful.

Action Plan 4: Continue to improve control and handling of litigation.

A Litigation Management Committee has been functioning to track existing litigation, and provide critical review and analysis to secure optimal results, especially with respect to major litigation.

The Attorney General needs to be regularly informed of the status of important litigation (both large financial stakes and important policy issues). In addition to monthly supervisors' meetings, litigation supervisors meet with the Attorney

General on at least a quarterly basis to discuss litigation matters in-depth.

The measures of success for this action plan are that the Attorney General is sufficiently informed about litigation matters, important cases are regularly reviewed and discussed, litigation matters are properly calendared to ensure timely completion and filing, and the individual divisions are getting the support they need to handle their litigation case load.

Action Plan 5: Continue to improve client relations and protocols for responding to queries and requests. Continue to improve client service, quality of advice and representation.

Ensure that the department is responding to queries quickly (e.g., a prompt turn-around for responding to emails, even if it is only just an acknowledgment) and that clients feel their concerns are being addressed.

The target date for this action plan is ongoing.

The measure of success for this action plan is that clients are more satisfied with the department's services, and the department receives fewer complaints regarding issues like untimely responses. Another measure is whether the department succeeds in reducing litigation by solving problems before they occur.

Action Plan 6: Continue to improve the technological capabilities of the department.

Replace aging 400+ computers. Offer a laptop instead of a desktop for those Attorneys who do mobile computing. Target completion date of December 2019.

Migrate documents in the current iManage system to Sharepoint online. Sharepoint is included with the Office 365 suite and this should save the department money for document management in the long run, while also providing users remote access to documents in Sharepoint. Target completion date is in February 2019.

Action Plan 7: Continue to improve departmental cohesion.

Continue holding monthly supervisors meetings, which in past audits supervisors have lauded as one of their favorite activities.

Provide access to management and leadership training so that supervisors and up-and-coming managers can play a role in continuing to build a cohesive department, using tried-and-approved management techniques.

Continue holding division group meetings to better organize the department, and let individual divisions share valuable information with each other, in a setting that provides more time for discussion than the monthly supervisors meetings.

Encourage participation in departmental committees: training committee, contracts committee, ethics and conflicts committee, appellate/opinion review committee, management committee, and the innovation committee.

The target date for this action plan is ongoing.

The measure of success for this action plan may be gauged in a variety of ways, including that the department is not providing conflicting advice on the same topic, that more issues are being caught early on because different divisions are more engaged with each other, and that when reviews and/or evaluations are done, more people respond in such a way that shows that they feel like part of the department, rather than just part of their individual division.

Action Plan 8: Provide Continuing Legal Education (CLE) training and regular employee evaluations.

The Training Committee provides and coordinates training for all department employees, both attorneys and staff.

Training consists of formal training, informal or brown-bag training, and training sanctioned by the Hawaii State Bar Association for mandatory Continuing Legal Education (CLE) credits.

The department has successfully worked with the National Association of Attorneys General (NAAG), National

Attorneys General Training and Research Institute (NAGTRI), Conference of Western Attorneys General (CWAG), and other groups to bring in training for department employees.

A formal evaluation process gives strong performers positive feedback, weaker performers an honest assessment and opportunity to improve, and benefits the department as a whole. This process also works as a management tool so that supervisors can gauge the professional development of their employees, and determine who can act as mentors, etc.

The target date for this action plan is ongoing.

The measure of success for this action plan is that more valuable training is occurring. This has been ongoing and continuing over the past four years, including brown bag trainings that are organized by the Training Committee and which occur at least once a month, and various seminars that provide CLE credit and brought in national trainers on topics such as ethics, trial advocacy, jury selection, and leadership. The additional measure of success is that employee evaluations become routine and show tangible benefits through improved performance.

Action Plan 9: Continue to maintain and improve employee morale.

Increase morale through a combination of initiatives like providing developmental training, department-wide breakfasts, engaging award ceremonies, personal acknowledgment and recognition of success, sales of ATG Logo items (i.e. shirts, mugs, caps, etc.) to encourage department-wide pride, collaborative department-wide vision meetings to obtain meaningful employee feedback.

Provide an annual list of departmental accomplishments.

The target date for this action plan is ongoing.

The measure of success for this action plan may be gauged in part through objective measures such as whether more morale boosting events are held, formal and informal feedback from department employees, retention, and more.

Action Plan 10: Continue to provide quality and timely fiscal services to meet the needs of the Department's personnel and to maintain accurate records thereby continuing to attain clean audit records.

Utilize available and new resources and computer technology to enhance the ability of the Fiscal Office staff to provide quality and timely services.

The measure of success will be increased satisfaction of the Department's personnel and attaining clean independent audit records.

Action Plan 12: Encourage Health and Wellness of all employees.

Increase awareness of employee wellness by coordinating informational Health Fairs and educational training sessions on physical and emotional well-being with EUTF for all department-wide employees.

The target date for this action ongoing; offer sessions at least on to two times per year.

The measurement of success for this action plan may be gauged in part through the participation of employers at these scheduled sessions and review of leave of absences.

SECTION 3: LEGAL SERVICES DIVISIONS

Administration Division

The Administration Division differs from other legal divisions in the number and diversity of client agencies it represents and advises, and the wide variety of substantive areas of law that the advice encompasses. The Division is to provide quality advice and counsel to, and representation of policy-making executive branch agencies (i.e., Governor, Lieutenant Governor, the Department of Accounting and General Services, and the Department of Budget and Finance); assist in implementing policy decisions (e.g., through Executive Orders, legislation, and rules); and assist the implementation of the core activities of the above entities, their attached agencies, and other agencies (i.e., Employees' Retirement System, Hawaii Employer-Union Health Benefits Trust Fund, Public Utilities Commission, Office of Enterprise Technology Services; State Procurement Office, Aloha Stadium Authority, E911 Board, Building Code

Council, State Foundation on Culture and the Arts, Office of Elections, Campaign Spending Commission, Land Use Commission, Office of Information Practices, and Ethics Commission). The Division also provides advice and counsel to, and representation of the Judiciary and the Legislature and their agencies.

GOAL 1: **To strengthen the Division’s ability to increase the efficiency in the provision of quality legal services.**

Objective: Broaden deputies’ areas of knowledge beyond what’s currently practiced to avoid subject area silos, to facilitate flexibility in making assignments, and to avoid disruption in the provision of legal services.

Action Plan: Expose deputies to some variety of substantive issues and encourage deputies to jointly take on different assignments and work together on less familiar projects.

The measure of success for this goal is whether an increase in the depth of the bench will result in deputies being able to spot more issues in different areas and provide meaningful feedback to each other.

The target date for this goal is ongoing.

GOAL 2: **Realign duties within the Division to existing areas of expertise and increase ability to provide consistent advice and to increase efficiency.**

Objective: Continue to better prioritize the Division’s function and work.

Action Plan: Notwithstanding Goal 1, to re-examine within and without the Division whether and where specific types of work could best be primarily assigned. Basis for discussions would be where the relevant expertise lies in each deputy and division, without analysis being prevented by “this is how we’ve always done it” reasoning.

The measure of success for this goal is that clients would benefit from expertise of deputies in subject areas, and the Department will give more consistent and timely services to its clients. Another measure of success will be whether the Division is successful in helping to *prevent* litigation and loss through good advice.

The target date for this goal is ongoing.

GOAL 3: **Reduce the time attorneys spend on non-legal tasks for clients.**

Action Plan: Train clients in tasks such as preparing agendas and minutes, maintaining records, creating records and indices of records for administrative appeals, and compiling records on appeal.

The measures of success for this goal are savings in deputy time currently spent reviewing and re-writing agendas and minutes; records that are available to the public do not contain confidential information or attorney-client privileged information; and agency records for administrative appeals are in good order. Expect massive savings in staff time currently spent putting together records on appeal for client agencies.

The target date for this goal is ongoing.

GOAL 4: **To continue the Administration Division's service as a resource for other divisions seeking guidance on substantive legal issues, including in the areas of procurement and contracts, sunshine law, UIPA, and fiscal/appropriation issues.**

Objective: To integrate the work being done in the Administration Division with the Department as a whole to benefit the Department.

Action Plan: Encourage deputies in other divisions to contact the Administration Division to brainstorm issues in the areas of procurement and contracts, sunshine law, UIPA, and fiscal and appropriation.

The measure of success for this goal is more consistent documentation and advice to clients.

The target date for this goal is ongoing.

Goal 5: **Obtain assistance with litigation, administrative appeals.**

Objective 1: Continue to improve prioritization of the Division's work.

Objective 2: Effectively use the amount of time Division deputies have to spend on litigation so that they can focus more on the Division's core advice and counsel function. Expect division deputies to participate in litigation, providing the substantive knowledge of the litigated issues and work with an experienced litigation deputy.

Action Plan 1: Short-term – Work closely with other legal divisions to coordinate services/assistance of experienced litigation deputies and support staff.

Action Plan 2: Continue to train current clerical staff to provide services to attorneys. Essential to fill vacant positions to better serve and reduce wait time for assistance for deputies.

Action Plan 3: Create more standardized procedures for paralegals.

There are several measures of success for this goal: (1) whether the Division is providing experienced representation for the client agencies; (2) whether current deputies are allowed to focus on litigation prevention and advice and counsel functions for multiple clients that currently are not receiving services in as timely a manner as possible; and (3) whether the supervising deputy attorney general has time to address supervisory and administrative issues.

The target date for this goal is ongoing.

GOAL 6: **Continue efforts to reduce or eliminate the number of trips Oahu-based deputies must take to neighbor island courts for matters such as status conferences, hearings on unopposed motions, and hearings relating to subpoenas for confidential records.**

Objective: Save money and better utilize staff and attorneys' time.

Action Plan 1: Work with the Judiciary to have Judiciary employees who are the custodians of the subpoenaed records to represent themselves at routine subpoena returns statewide. Work with the Judiciary to create uniform policy to allow deputies to appear by phone.

Action Plan 2: Continue to work with the Family Law Division on handling these motions on neighbor islands in Family Court and other courts on the neighbor islands. The Administration Division has generated a training binder of top low-level motions and sample pleadings and will update these samples as necessary.

The measure of success for this goal is monetary savings to the department (e.g., air fare, cabs, car rental, parking, etc.) and savings in deputy time.

This target date for this goal is ongoing.

GOAL 7: **Manage open and closed files.**

Objective 1: Provide better, faster, and easier access to critical information.

Objective 2: Continue to clean up the Administration Division's physical space.

Action Plan: Review and move old files to storage or destroy as warranted. Identify and digitize pleadings and advice and make them accessible. Develop a plan and tickler system for regularly reviewing, archiving, and destroying old files.

The measure of success for this goal is improved efficiency, consistency in advice, and improved office appearance.

The target date for this goal is ongoing.

Appellate Division

The primary mission of the Appellate Division is to maximize the quality of the appellate representation of all of the department's clients, and to provide constructive and quality legal advice to deputies throughout the department on all legal matters. The Appellate Division's attorneys also directly handle many of the appeals in the department, including briefs filed and oral arguments presented on behalf of the State, its agencies and officials in the state and federal appellate courts. The Division also drafts amicus briefs in appeals involving issues of importance to the State, and makes recommendations to the Attorney General on whether the State should join multi-state amicus briefs filed in the United States Supreme Court in cases of national interest and importance.

GOAL 1: **To develop and maintain the highest quality appellate writing and advocacy skills of deputies.**

Objective: Provide guidance to deputies handling appeals to assist them in developing and maintaining high quality appellate writing and advocacy skills.

Action Plan 1: Encourage deputies with appeals to contact the Appellate Division: (1) to discuss ideas and arguments supporting the State's positions, or rebutting troubling opposing arguments; and (2) to review and comment on draft appellate briefs as appropriate.

Action Plan 2: Provide periodic training sessions regarding appellate writing, appellate rules, and persuading an appellate court.

The target date for this goal is ongoing.

The measure of success for this action plan is improved quality of appellate briefs and advocacy in the department.

GOAL 2: **To maximize the substantive legal knowledge of deputies within the Appellate Division regarding legal issues that frequently confront the Appellate Division.**

Objective 1: Use Appellate Division expertise to benefit the whole department.

Objective 2: Ensure that if any one deputy or paralegal leaves the division, remaining persons can maintain division functioning without significant disruption.

Action Plan 1: Have appellate deputies work cooperatively on a diverse array of appeals and other legal matters involving a wide variety of substantive legal issues.

The measure of success for this action plan is that deputies will be better able to spot issues and incorporate them in their writing and in advice to deputies outside the division.

Action Plan 2: Have senior appellate deputies (and eventually newer deputies) periodically attend the Appellate Opinion Review Committee meetings.

The measure of success for this action plan is Appellate Division deputies providing constructive and insightful assistance to the Appellate Opinion Review Committee.

Action Plan 3: Have Appellate Division deputies review and comment on other Appellate Division deputies' briefs or memoranda as appropriate.

The measure of success for this action plan is improved quality of Appellate Division output.

Action Plan 4: Instruct paralegals about administrative, procedural, and general appellate matters. Share the knowledge of individual paralegals (who have expertise in electronic filing and other administrative matters) with each other and with deputies within the Appellate Division and Department-wide.

The target date for this goal is ongoing.

GOAL 3: **To make the Appellate Division a legal resource for other divisions seeking substantive legal advice or appellate procedure information.**

Objective: Use Appellate Division expertise to benefit the whole department.

Action Plan: Encourage deputies with appeals to contact the Appellate Division anytime they have questions regarding appellate procedure or, more generally, to discuss with the Appellate Division ideas and arguments supporting the State's positions or rebutting troubling opposing arguments.

The target date for this goal is ongoing.

The measure of success for this goal is improved appellate briefs and substantive motions.

GOAL 4: **Periodically author or coauthor multi-state amicus briefs and provide the highest quality advice to the Attorney General regarding amicus joinder requests.**

Objective: Ensure that Hawaii: (1) periodically authors or coauthors multi-state amicus briefs addressing issues of importance to

the State; and (2) makes amicus joinder decisions based on the soundest advice.

Action Plan 1: Look for opportunities to author or coauthor multi-state amicus briefs addressing issues of importance to the State.

Action Plan 2: Have the Solicitor General review and edit all amicus joinder recommendations before they are given to the Attorney General.

The target date for this goal is ongoing.

The measures of success for these goals are: (1) the Appellate Division's periodic authorship or coauthorship of multi-state amicus briefs; and (2) consistency in the quality of the Appellate Division's recommendations and the Attorney General's satisfaction with those recommendations.

GOAL 5: **Provide the entire department with readily accessible substantive and procedural legal knowledge to assist in their litigation efforts.**

Objective: Create an easily accessible knowledge and brief bank containing a wide variety of substantive legal arguments, as well as numerous appellate brief formatting examples.

Action Plan: Work within the Appellate Division and then with other divisions to make filed appellate briefs available to all deputies.

The target date for this goal is ongoing.

The measure of success for this goal is the creation of a brief bank that can be appropriately accessed.

Civil Recoveries Division

The Civil Recoveries Division provides flexible, efficient, systematic, and timely service in the pursuit and, if necessary, litigation of outstanding debts, delinquent accounts, and other financial obligations by working closely with client agencies, having a sound knowledge of the subject legal doctrines and operational issues facing the clients, and capitalizing on available technology.

GOAL 1: **Strengthen team members and operations by meeting regularly to assess the well-being of team members and identify ideas, areas of strength, areas for improvement, and develop appropriate action plans.**

Objective: To create a climate of constant improvement.

Action Plan 1: Each team leader will hold regular (quarterly minimum) scheduled meetings with individual team members to focus on team member's and team's well-being, ideas, areas of strength, areas of improvement, and development of action plans to help strengthen the team members, team, division, and department.

This action plan is ongoing.

The measure of success for this action plan is regularly scheduled meetings, a consistently positive work environment, and measureable professional development of the team members.

Action Plan 2: These regular meetings will include supervisor discussion notes to document the strengths and positive impact of team members, as well as assist in the improvement of performance if needed. The supervisor discussion notes will be maintained by the supervisor and will address whether the workflow makes sense, is not wasted energy, and that the division is not doing things just because they have always been done that way.

This action plan is ongoing.

The measure of success for this action plan is meaningful documentation reflecting discussions between the supervisor and team members.

GOAL 2: **Division will develop an electronic case file archival plan with input from all teams. Plan procedures will be consistent across all teams.**

Objective 1: To move towards a paperless environment.

Objective 2: To better organize the division using electronic case file archive.

The target date for this goal is ongoing.

GOAL 3: **The division will significantly improve efficiency of case management, tracking, and litigation through the use of existing case management technology in the office (iManage, ProLaw, and software in the division) and identification of future flexibility.**

Objective 1: To work faster and smarter.

Action Plan 1: Continue training all staff on existing technology.

This action plan is ongoing.

Action Plan 2: Implement all existing technology in operations.

This action plan is ongoing.

The measure of success for this goal is that all items are completed by the assigned dates.

GOAL 4: **The division will identify and develop a system to reduce and/or eliminate paper files through the use of technology for simple debt collection of accounts.**

Objective: To move towards a paperless environment.

Action Plan 1: Draft plan to reduce and/or eliminate paper files for simple debt collection amounts.

This action plan is ongoing. The division continues to reduce its paper files and rely on electronic storage.

Civil Rights Litigation Division

The Civil Rights Litigation Division provides legal defense to the State, its departments and agencies, and certain state employees in lawsuits or other claims that primarily involve allegations of civil rights or constitutional violations. The division litigates cases in state and federal courts, including appellate courts. The litigation this division undertakes includes, but is not limited to, answering legal complaints filed in court, investigating claims, conducting discovery, drafting and filing motions, memorandums, and briefs as appropriate, and representing

state interests at administrative hearings, court hearings, arbitrations, mediations, trials, and appeals.

GOAL 1: **Maintain institutional knowledge.**

Objective: Better organize the division's information for use and retrieval.

Action Plan 1: Memo bank – input memos, briefs, etc. on legal issues that often recur, such as discretionary function, qualified immunity, Eleventh Amendment immunity, qualified privilege, etc.

The target date is ongoing.

The measure of success for this action plan is that the briefs and memoranda are available to the department in our document management system (iManage).

Action Plan 2: Expert bank – prior depositions, curriculum vitae, etc.

The target date is ongoing.

The measure of success for this action plan is that the appropriate information is available to the department in our document management system to assist deputies in finding experts for the State, or in defending against opposing counsel's experts.

Action Plan 3: Ensure all case related documents and materials are scanned into the office case management system (ProLaw).

The target date is ongoing.

The measure of success for this action plan is reducing the need to retrieve boxes to obtain information from closed cases.

Action Plan 4: Create uniform and consistent entries in ProLaw and iManage.

The target date depends on coordination with other divisions.

The measure of success for this action plan is it will be easier to conduct conflict searches and to locate other information in ProLaw and to search for documents in iManage.

Action Plan 5: Create manuals and checklists for deputies and staff regarding important duties and reminders for case management.

The target date is ongoing.

The measure of success for this action plan is completed manuals and checklists that will assist deputies and staff to ensure a consistent and complete work product.

GOAL 2: **Increase efficiency.**

Action Plan 1: Create litigation liaisons for all departments so that litigation issues are centralized (some departments already have such liaisons).

The target date for this action plan depends on coordination with the appropriate departments.

The measure of success for this action plan is quicker responses by the department on questions, discovery and other information requests. A few departments have created litigation liaison positions and it has been helpful in streamlining efforts to defend the State in litigation.

Action Plan 2: Add additional runs or a more flexible schedule for messengers. Also have a way to contact messengers, perhaps via cell phone, while they are out on a run so that they can pick up a document (e.g., court order) when the division is notified *after* the messenger has already left on a run.

The target date for this action plan is pending further discussion with administration.

The measure of success of this action plan is reduced concerns about timely filing and delivery of documents.

Action Plan 3: Develop a process to better share information between divisions and creating uniformity in procedures for different divisions that perform similar assignments, such as responding to discovery requests and the manner in which we document and identify the materials turned over to other parties.

The target date for this action plan is pending further discussion with administration and supervisors.

The measure of success of this action plan is to prevent other parties or judges from challenging our responses or procedures because one division's response was inconsistent with another.

GOAL 3: **Help new deputies get up to speed as quickly as possible.**

Action Plan 1: Generate a standard packet of documents, forms, and information important to the division to give to new deputies.

The target date is ongoing.

The measure of success for this goal is that new deputies will have an immediate form bank for important and frequently used documents and eliminates the need for deputies to have to search or ask for the forms.

Action Plan 2: Create standard training for every new employee on iManage, ProLaw and other office systems as well as providing information on critical office policies and procedures soon after they start.

The target date for this action plan is pending further discussions with ETS and the Information Technology (IT) unit. Although periodic training does occur, there is no program in place directed toward new employees at the time of starting their employment.

The measure of success for this goal is that new deputies will have a basic set of important and frequently used forms, documents and other information as well as immediate training on office equipment and software which will enable

them to quickly be able to concentrate on substantive work with optimum efficiency.

Action Plan 3: Establish a mentoring program to pair new or inexperienced deputies with more experienced deputies on a variety of different cases, including complex or high values cases. This will allow deputies to get training and experience more quickly because new deputies ordinarily would handle only smaller, lower value cases.

The target date is ongoing.

The measure of success for this goal is that new deputies will gain confidence and learn and develop litigation skills more quickly.

Commerce and Economic Development Division

The mission of the Commerce and Economic Development Division is to provide high quality and timely legal services to the Department of Agriculture, the Department of Business, Economic Development, and Tourism, and the Department of Commerce and Consumer Affairs. The target date for this action plan is ongoing.

GOAL 2: **Cross-training (for better services, workload balance, and professional growth).**

discuss complicated or unusual legal issues. Continue having these team meetings, with more substantive discussions planned in advance.

The target date for this action plan is ongoing.

Action Plan 3: Hold monthly division meetings.

The target date for this action plan is ongoing.

GOAL 3: **Make effective use of central calendaring system.**

Action Plan 1: Continue to calendar all matters in litigation.

The target date for this action plan is ongoing.

Action Plan 2: Identify other matters appropriate for calendaring.

The target date for this action plan is ongoing.

Criminal Justice Division

The mission of the Criminal Justice Division (CJD) is to serve as the statewide prosecutorial arm of the Department of the Attorney General, to enforce the laws of the State of Hawaii, to ensure public safety through the just, efficient, and effective administration of justice, and to advocate for the passage of laws that protect the people of Hawaii. CJD includes the Internet Crimes Against Children Unit, Medicaid Fraud Control Unit, and the Tobacco Enforcement Unit.

GOAL 1: **Enhance the trial skills of all deputy attorney generals in the Criminal Justice Division.**

Objective: Deputies will be able to proficiently handle and present a jury trial in a case of moderate difficulty.

Action Plan: Provide trial skills training in-house and send deputies to training offered by other agencies. Assign cases with a probability of going to trial to all deputies. Have deputies

assist each other in trial, including acting as second chair.
Retain and recruit trial attorneys.

This is an ongoing goal with no set target date.

Objective: Reduce the demand for juveniles for sex over the internet.

Action Plan: Conduct undercover operations targeting suspects seeking juveniles for sex on the internet.

Objective: Maintain compliance with the 12 performance standards set by the U.S. Department of Health and Human Service, Office of Inspector General (DHHS-OIG).

Action Plan: Work with DHHS-OIG to maintain compliance with the 12 performance standards. Update policy and procedure manual annually to ensure changes are made to track any updates to the 12 performance standards. Ensure that staff is in compliance with 12 performance standards by having training whenever updates are made.

The measure of success for this goal is for DHHS-OIG to approve renewal of funding for fiscal year 2018-2019.

GOAL 4: **To ensure that State laws are followed with regard to the taxation, importation, and sale of tobacco products, and that the State receives a full measure of all present and future tobacco settlement payments and taxes to which it is entitled.**

Objective: Investigate and enforce when appropriate suspected violations of the Master Settlement Agreement (MSA) and the Tobacco Liability Act.

Action Plan: Seek out Non-Participating Manufacturers (those who do not participate in the MSA) who have a presence in Hawaii. Vigorously police the local tobacco industry for compliance with the MSA, the Tobacco Liability Act, and related statutes.

E-filing in federal court and State Appellate court is now well established and all support staff are capable of e-filing. We are completing our ninth year of standardized procedures with the Department of Education, especially in Workers Compensation

We have made a point of making ourselves available to clients for meetings in advance of taking action or making decisions. We have met or had telephone contact with the directors or deputies of B&F, DOE, DOH, DHS, DHHL, DLIR, DLNR, DHRD, PSD, DOT, DOTAX, DOD and RCUH.

Continuing Legal Education, including in-house training must be ongoing and relevant. The division's goal in this regard is to have each person attend some form of continuing legal education at least four times per year. This is not a difficult task given our department's renewed commitment to in-house training and the ability to attend subject matter training frequently funded by the client or other sources (ie, the National Attorneys General Training & Research Institute (NAGTRI), the National Governor's Association, among others).

Training is also offered from time to time by other departments or agencies. Attorneys and support staff are encouraged to attend these sessions as well.

Refer to and collaborate with in-house expertise and resources to assure appropriate and consistent department-wide advice and representation.

Establish and maintain electronic data base of forms, instructional guides and client/matter files.

Increase skill level in use of existing information technology and resources which include iManage, ProLaw, Word, Excel, PowerPoint, AdobeAcrobat, Office 365 and Sharepoint. - Client Training/Outreach: Assist client in standardizing procedures, where possible, and conduct training to encourage consistency of client work product. Maintain good and consistent communication with client on a regular basis.
- Establish and maintain consistent procedures and forms to be used with all clients.

Share with the members of the division and the department and implement as needed.
- Maintain calendaring system to enable planning for anticipated workload.
- Utilize newly updated information technology to the fullest potential. In this regard there is a continuing effort to ensure that each member of the division is proficient in the use of available technology to increase efficiency and sharing of information, not only within our division and department, but also with clients.
- Last, but not least, continue the team approach to the bigger and more complex tasks.
- The measure of success will be through the periodic review by division supervisor on the time spent on various work assignments and the ability of division members to maintain a manageable workload, while accomplishing work

objectives in the time required. This will reflect whether the appropriate knowledge base and resources are available and are being used effectively and efficiently.

GOAL 3: **Maintain reputation of competence, integrity, diligence and fairness.**

Objective 1: Maintain not only client confidence, but public confidence as well.

Action Plan: Ensure availability of professional development within the division, the department, the legal community and the community of which the client is a part.

Promote approach that is reasoned and grounded in doing the “right thing” rather than winning at “all cost.”

Continual ethics training.

We encourage division members, on an ongoing basis, to actively participate in community events/forums as leaders, trainers, and participants. Continuous training (previously mentioned) and professionally mandated continuing legal education address this goal as well.

The measure of success will be the rate of success in the courts and administrative proceedings, the ability to settle issues before they result in lawsuits or administrative claims, the rate of involvement in training as trainers or leaders in discussion, client relations and relationships with others in the communities within which we work.

Timeline and

Progress to date: While all of the foregoing items are already in practice to some degree, time will be taken on a continuing basis to assess the status and effectiveness of each action item and consider improvements that should be implemented.

Objective 2: Cross-train Deputies to increase depth of knowledge about the client agency for better coordination of legal services, to maintain workload balance, and to support professional growth.

Action Plan: Deputies have primary assignments of programs or issues for which they gain expertise, but they collaborate with each other on matters to share their knowledge across their assigned areas, and they cover matters for each other when necessary. Deputies are encouraged, but not required, to

become involved in Department-wide or community-based activities outside of their assigned area to network and expand their skill sets.

This is a continuing action plan.

The measure of success for this action plan is the demonstrated ability to cover areas not within a Deputy's primary assigned programs and to work at a high level of competency and skill, both within and outside their primary assigned areas, and do so with a high level of job satisfaction.

Objective 3: Use technology to improve efficiency.

Action Plan: Increase proficiency with existing technology solutions such as iManage, ProLaw, Word, Excel, Office 365, PowerPoint, Adobe Acrobat, SharePoint, and OneDrive, and become adept in new technology solutions that are introduced in the future. In addition to in-house training, Deputies are encouraged to utilize other State-sponsored training and available web-based courses.

Tobacco Enforcement Unit

The Tobacco Enforcement Unit was formed on July 1, 2000, in response to the Attorney General's obligation to enforce the Master Settlement Agreement (MSA); the State's Tobacco Liability Act as codified in chapter 675, Hawaii Revised Statutes; and the cigarette tax stamp requirements and prohibition against the sale of prohibited export and foreign cigarettes as codified in chapter 245, Hawaii Revised Statutes. The unit consists of a unit supervisor, cigarette tax prosecutor, MSA civil prosecutor, legal clerk, legal assistant, seven criminal investigators, and an auditor. The unit will continue to respond in a professional and timely manner to all matters related to tobacco enforcement.

Objective: To ensure that State laws are followed with regard to the taxation, importation, and sale of tobacco products, and that the State receives a full measure of all present and future tobacco settlement payments and taxes to which it is entitled.

This objective is influenced by the complexities of tobacco enforcement and regulation. The responsibilities of the unit span both the civil and criminal arenas. By statute, the unit is charged with enforcing and implementing the terms of the MSA, chapter 675, and other related statutes. The unit is also statutorily responsible for the enforcement of the provisions of chapter 245 that pertain to Tobacco Stamp Taxation and the prohibition against contraband cigarettes.

Program size: The target groups include approximately 150 cigarette manufacturers worldwide. For the purpose of MSA, chapter 675, and chapter 486P enforcement, it is necessary to gather data on those manufacturers whose cigarettes are sold in Hawaii. In addition, the unit is responsible for inspecting, investigating, and auditing the 13 authorized cigarette stampers and more than 1,300 stores statewide for compliance with

chapter 245 and related statutes. In fiscal year 2018-2019, the unit will continue to enforce the provisions of section 245-2.5, Hawaii Revised Statutes, which requires any entity involved in the retail sale of cigarettes or other tobacco products to obtain a retail tobacco permit issued by the Department of Taxation.

The State will receive approximately \$128 million (\$100 million in cigarette taxes and \$28 million in MSA payments) in fiscal year 2018-2019, all of which is tied to proactive enforcement of chapter 245 and chapter 675. Proactive enforcement requires investigators to conduct inspections at the wholesale and retail level to ensure that only compliant cigarettes are being stamped and sold in Hawaii.

Aggressive enforcement has yielded significant results by way of increased cigarette tax revenues. The following table shows the cigarette tax revenues reported by fiscal year:

Cigarette tax revenues by fiscal year:

FY 1999-2000	\$40,049,539
FY 2000-2001	\$51,739,469
FY 2001-2002	\$62,609,477
FY 2002-2003	\$70,586,392
FY 2003-2004	\$77,541,843
FY 2004-2005	\$83,135,360
FY 2005-2006	\$85,702,483
FY 2006-2007	\$88,771,666
FY 2007-2008	\$101,560,051
FY 2008-2009	\$104,433,576
FY 2009-2010	\$119,296,741
FY 2010-2011	\$135,647,918
FY 2011-2012	\$130,994,721
FY 2012-2013	\$120,095,909
FY 2013-2014	\$114,112,465
FY 2014-2015	\$121,629,882
FY 2015-2016	\$116,382,902
FY 2016-2017	\$114,926,266
FY 2017-2018	\$110,762,991

To date, the State has received more than **\$917 million** in MSA payments. MSA compliance is now very much a part of the inspection process at the wholesale and retail level. This MSA compliance check is designed to

facilitate diligent enforcement of chapter 675 and the terms of the MSA. Estimated MSA payments for fiscal year 2018-2019 are approximately **\$28 million**. Estimated cigarette tax revenues for fiscal year 2018-2019 will be approximately **\$100 million**.
