DEPUTY TO THE CHAIR

January 1, 2018

The Honorable David Y. Ige
Governor, State of Hawaii
415 South Beretania Street
Honolulu, Hawaii 96813

Aloha e Governor Ige:

On behalf of the Hawaiian Homes Commission and the staff of the Department of Hawaiian Home Lands, I am pleased to submit the 2017 Annual Report covering the period July 1, 2016 to June 30, 2017.

As stewards of the Hawaiian home lands, the Department of Hawaiian Home Lands (DHHL) remains focused on the core mission of returning native Hawaiians to the land, as envisioned by our founder Prince Jonah Kuhio Kalanianaʻole. In FY 2017, the DHHL received a record setting appropriation of \$23.9 million in general funds from the Hawaii State Legislature. This figure represents the largest general funding amount received by DHHL in the history of the Department. Significantly, this general fund appropriation for DHHL's operating budget has meant that, for the first time in history, the majority of revenues generated on the home lands could be spent on capital improvement projects (like new lots) and other programs that directly benefit beneficiaries. To provide beneficiaries with more options, the Department expanded its vacant lot program and crafted Administrative Rules to initiate the development of a new type of lot award called a subsistence agricultural lot. This new award type is a large rural lot that provides families with the opportunity to cultivate or reside and cultivate subsistence agricultural crops on the lot.

2017 also saw a renewed focus on water with the Department taking steps to improve upon the management of our water systems. Beneficiary Consultations were initiated across the State to gather feedback and input on proposed rules intended to clarify DHHL's policies related to the management and operations of the four water systems owned by DHHL. These water systems are located in Molokai; Anahola, Kauai; Kawaihae, Hawaii; and Puukapu, Hawaii.

Rules related to DHHL's Planning System were also part of the Beneficiary Consultations conducted by DHHL in 2017. These proposed rules clearly articulate the system of planning and land use documents that underpin the myriad of land use decisions that are made by the Hawaiian Homes Commission. Specifically, these new rules are intended to create a comprehensive method to systematically coordinate how planning and land use decisions are made so there is regular engagement with beneficiaries, predictability, and consistency over time, regardless of leadership changes at the Hawaiian Homes Commission level.

2017 also saw the passage of historic legislation that was initiated at the request of many beneficiary families across the State. Introduced by Representative Lynn DeCoite, a third generation homesteader from Molokai, Act 080 amends the Hawaiian Homes Commission Act to allow for Hawaiian home lands lessees to designate a spouse, child, grandchild, brother or sister with a blood quantum of one thirty-second Hawaiian as a successor to their homestead lease. This state legislation is just the first step however. Before this amendment can be fully implemented by DHHL it requires the review of the U.S. Department of Interior and the consent of the U.S. Congress.

Mahalo to you, and the members of the Hawaii State Legislature for your interest and continued support of DHHL. Working together, there is much that we can accomplish to bring Kuhio's vision for the 'Aina Hoopulapula (Hawaiian home lands) to life.

Aloha Ke Akua,

Jobie M.K. Masagatani, Chair
Hawaiian Homes Commission

Hawaiian Home Lands

HAWAIIAN HOME LANDS

HAWAIIAN HOMES COMMISSION · DEPARTMENT OF HAWAIIAN HOME LANDS

HAWAIIAN HOMES COMMISSION

Created by the U.S. Congress by the Hawaiian Homes Commission Act of 1920, assimilated by the State of Hawai‘i in 1959 as part of the Statehood Act, the Hawaiian Homes Commission exists to administer the Act and the 200,000 acres of land set aside for native Hawaiians.

The Commission consists of nine commissioners, including the Chair, who also serves as the Director of the state agency known as the Department of Hawaiian Home Lands.

Hawaiian Homes Commission

The commission shall be composed of nine members, as follows: three shall be residents of the city and county of Honolulu; two shall be residents of the county of Hawai'i one of whom shall be a resident of east Hawai'i and the other a resident of west Hawai'i; two shall be residents of the county of Maui one of whom shall be a resident from the island of Moloka'i; one shall be a resident of the county of Kaua'i; and the ninth member shall be the chairman of the Hawaiian homes commission. All members shall have been residents of the State at least three years prior to their appointment and at least four of the members shall be descendants of not less than one-fourth part of the blood of the races inhabiting the Hawaiian Islands previous to 1778.

– *Hawaiian Homes Commission Act, 1920*

Jobie M.K. Masagatani

Chair – Term: 2014-2018

Jobie Masagatani previously worked at the Office of Hawaiian Affairs as special assistant to the CEO. Prior to OHA, was an assistant to the President and CEO of The Queen's Health Systems. She served as DHHL Deputy from 1995-2002, and served as a Land Investment Analyst for Kamehameha Schools. Masagatani has a Master's in public affairs/urban and regional planning from Princeton University, and a BS in education from Northwestern University. She is a graduate of Kamehameha Schools.

Wren Wescoatt III

O'ahu – Term: 2015-2019

Born and raised in Waimānalo, Commissioner Tassill currently resides in the Kupuna Hale in Waimānalo and is a member of the Waimānalo Hawaiian Homestead Association. Commissioner Tassill's career includes being the founder of the Hale O Ho'oponopono Middle and High School alternative school for at-risk youth, and serving for nearly two decades as a State Capitol tour guide.

David B. Ka'apu

West Hawai'i – Term: 2014-2017

Commissioner Ka'apu is a practicing attorney at law in Kailua-Kona with emphasis in quiet title, business law, wills and trusts, general litigation and land use. He graduated from the University of Hawai'i with a B.A. in anthropology (Hawaiian archaeology) and received his J.D. from Santa Clara University in 1988. .

Randy K. Awo

Maui – Term: 2017- 2019

Commissioner Awo is from the island of Maui and a longtime Hawaiian home lands beneficiary. He most recently served as the Administrator for the Division of Conservation and Resources Enforcement (DOCARE) branch of DLNR. He brings over 32 years of experience in government and community relations to the Commission and holds an extensive background in conservation as one of the creators of the Ahupua'a management model, aimed at protecting, managing and conserving Hawaii's natural resources.

Kathleen Puamae'ole Chin

Kaua'i – Term: 2014-2017

Commissioner Chin was appointed by Gov. Neil Abercrombie in November 2014. Commissioner Chin presently serves as Kaua'i Island Utility Cooperative (KIUC) Executive Administrator. She has served as a construction industry administrator, worked in commercial aviation and is an entrepreneur and small business owner. She is a Hawaiian Homes lessee and member of the West Kaua'i Hawaiian Homes Association.

Michael Kahikina

O'ahu – Term: 2015-2019

Commissioner Kahikina is the executive director of Kahikolu 'Ohana Hale 'O Wai'anae and a former state representative representing the Leeward Coast. He has been active in the homestead community, sitting on the Executive Board of the Nānākuli Hawaiian Homestead Community Association and working with the Sovereign Councils of the Hawaiian Homelands Assembly.

Wallace A. Ishibashi, Jr.

East Hawai'i – Term: 2013-2017

Commissioner Ishibashi is a retired full-time officer of ILWU Local 142, and draws from a range of experience that includes his current position as UH-Hilo's cultural monitor for the Office of Mauna Kea Management as well as time as business agent, contract and benefits negotiator, workers compensation specialist, and youth basketball and baseball coach.

The 2nd O'ahu commissioner and Moloka'i commissioner positions are vacant

HAWAIIAN HOME LANDS

HAWAIIAN HOMES COMMISSION · DEPARTMENT OF HAWAIIAN HOME LANDS

OFFICE OF THE CHAIR

The Office of the Chair manages the daily operations of the Department, sets directions, and provides leadership support to all DHHL offices and divisions.

Additionally, the office is responsible for supporting the Hawaiian Homes Commission.

Administrators

Jobie M.K. Masagatani

Director

The Director of the Department of Hawaiian Home Lands also holds the title of Chair of the Hawaiian Homes Commission. The Chair has full charge of and responsibility for the administration and execution of all actions approved by the Commission. All orders and actions of the Commission are authenticated or signed by the Chair or the Deputy. The Chair also signs all licenses, leases, loan contracts, contracts with other governmental agencies, and the Commission resolutions.

Jobie M. K. Masagatani was re-appointed by Gov. David Ige in December 2014, after finishing her term under Gov. Abercrombie, which began in May 2012. She previously served as DHHL Deputy Director from 1995 to 2002. Jobie's career has focused on serving Native Hawaiian communities through her work at the Office of Hawaiian Affairs, The Queen's Health Systems, Kamehameha Schools, and her own private consulting firm.

William Ailā, Jr.

Deputy to the Director

William Ailā Jr. was appointed by Gov. David Ige in December 2014. As former chair of the Board of Land and Natural Resources (BLNR) and head of the Department of Land and Natural Resources (DLNR), Deputy Ailā directed the agency's activities including the management of public lands; forest, fish and game resources of the State; and of the forest reserve, state parks, small boat harbors, and historic sites.

Derek Kimura

Executive Assistant & Chief of Staff

As Executive Assistant and Chief of Staff, Derek Kimura is responsible for the Department's day-to-day operations. He is the former President of National Mortgage and Finance Company, Branch Chief of the Hawaii Public Housing Authority and Land Management Office at the Office of Hawaiian Affairs. Derek holds a Bachelor's Degree as well as a Master's Degree in Business Administration.

Office of the Chair

The Office of the Chairman manages the daily operations of the department, sets directions, and provides leadership support to all Department of Hawaiian Home Lands (DHHL) offices and divisions. Additionally, the office is responsible for supporting the Hawaiian Homes Commission.

The Chairman of the Hawaiian Homes Commission holds two titles, Chairman of the Commission and Director of the DHHL. The Chairman has full charge of and responsibility for the administration and execution of all actions approved by the Commission. All orders and actions of the Commission are authenticated or signed by the Chairman or the Deputy to the Chairman. The Chairman also signs all licenses, leases, loan contracts, contracts with other governmental agencies, and Commission resolutions. The Director is the administrative head of the DHHL, all department staff are under the direction of and responsible to the Director.

The Office of the Chairman houses the Department's Enforcement Team, the Native American Housing Assistance and Self-Determination Act (NAHASDA), the HALE Program, and a wide variety of projects and programs including, administrative rules, procurement, individual claims, affordable housing programs, renewable energy proposals, and intergovernmental relations.

Chairman Masagatani set four (4) priority areas for Fy 2017

- 1) Address DHHL Waitlist Needs,
- 2) Support Thriving Healthy Communities,
- 3) Ensure Fiscal Sustainability, and
- 4) Improve DHHL operations.

These priority areas treat the Hawaiian Home Lands program as a dynamic whole, supporting key, interconnected elements. The department is more than housing; the Hawaiian Homes Commission Act (HHCA or Act) provides homesteading opportunities for native Hawaiians, as defined by the Act. The Act authorizes homestead leases to residential, agricultural, pastoral, and aquaculture lands.

Addressing DHHL Waitlist Needs

Addressing the waitlist means bringing applicants and homestead lots together. Most of the department's land inventory is raw land. Developing homestead lots entails understanding what applicants on the waitlist want, identifying department lands that will meet those needs, securing the funding resources necessary to transform raw land into homestead lots, and preparing the parcels with infrastructure. Ready beneficiaries on the waitlist for a lease award often means helping them prepare for the financial aspects of building or purchasing a home. It also may involve connecting an applicant to the technical assistance that can help ensure successful farming. For the department, the process of bringing applicant and

homestead lot together requires coordination among the Office of the Chairman, Planning Office, and Land Development Division.

Consultation meetings with beneficiaries and beneficiary surveys have helped to identify and prioritize program strategies that focus on the needs of the waitlist. Affordability and diverse options, including vacant lot awards are what beneficiaries on the waitlist want. Although some are still interested in turn-key homes, perspectives are shifting as affordability and suitability continue to grow as focal points for beneficiaries.

In Fiscal Year 2017 (FY 2017), the Office of the Chairman directed the reinvigoration of a residential vacant lot awards program. Residential vacant lot awards provide new lessees the flexibility to design the home they need and expand that home at a pace that is financially feasible.

The agriculture waitlist is the longest list for every island except O‘ahu. Beneficiary surveys reveal that those on the agriculture waitlists are most interested in smaller agriculture lots that can be used for “subsistence” farming. Administrative rules promulgated in March 2017 create a subsistence agriculture program. Planning and development processes are underway to implement this program and award the first agriculture lots in over twenty years.

The NAHASDA and the HALE Programs along with the department’s Land Development Division work to make project construction and lot awards a reality. Residential construction activities are underway statewide and lots were awarded in Waiohuli, Maui; Anahola, Kaua‘i; Kapolei and Waimānalo, O‘ahu. This year, the department’s rent with option to purchase pilot project, Ho‘olimalima, in Kapolei, O‘ahu, converted sixty-nine (69) applicant-renters into lessee-homeowners; the NAHASDA program provided financial assistance to twenty-nine (29) of these families and the HALE Program helped thirty-one (31) of these families obtain the financing necessary to purchase their homes.

Many applicants on the waitlist fall below the area median income, making home purchase or construction beyond their financial reach. Through the NAHASDA funding and the HALE Program beneficiaries receive support with financial aspects of home purchase and homeownership. Eligible low-income native Hawaiians can be helped with the NAHASDA homeowner financing or down payment assistance. The HALE Program provides self-help options for financial planning through homebuyer education and financial literacy services. These programs are essential for many beneficiaries interested in owning a home.

Supporting Thriving Healthy Native Hawaiian Communities

A significant measure of success for the department is the success of Hawaiian homestead communities; the purpose of the HHCA is rehabilitation through returning native Hawaiians to the land. The Office of the Chairman, in coordination with the Planning Office, supports beneficiaries, homesteaders, and homestead associations through capacity building, foreclosure prevention, home repair, and consultation processes that engage beneficiaries,

homesteaders, and homestead associations through capacity building, foreclosure prevention, home repair, and consultation processes that engage beneficiaries to influence department direction and planning, and Hawaiian Homes Commission policy setting.

The financial services offered through the HALE Program also provide foreclosure prevention counseling that keep lessee families in their homes. This year, thirty (30) households were assisted. Through the NAHASDA program, five (5) home repairs in the oldest Hawaiian homestead communities were completed.

Soliciting beneficiary input and engaging with beneficiaries is a focal point in supporting homesteaders and homestead communities. In August 2016, the department hosted a Puwalu with homestead leaders from across the state. Together, these leaders identified priority projects in their communities, which were included in the DHHL's sufficient funds budget request. This type of engagement, as well as smaller community or region-specific consultation, is critical to establishing healthy communities and assisting those communities to thrive and grow into the visions they set for themselves.

The promise of the HHCA comes to fruition when information gained through consultation and opportunities fostered through capacity building support come together to realize a homestead community's vision. This year, for example, the HHC granted the Kekaha Hawaiian Homestead Association's land use request for the Pu'u 'Ōpae Farm and Irrigation project. Beneficiary consultation in the department's planning process identified the project as a priority in the West Kaua'i Regional Plan that community. Armed with capacity building support from the department, the Kekaha Hawaiian Homestead Association undertook the research, planning, and development necessary to complete a master plan for the project. The project brings together community, planning, resource development, conservation, and homesteading.

Ensuring Fiscal Sustainability

The HHCA authorizes general leasing of lands not required for homesteading. Ensuring fiscal sustainability means, in part, smart development and fair rent for DHHL lands used as income properties. The infusion of state general funding to cover administration and operating (A&O) expenses allows the department to redirect Trust funds it receives through the leasing of its non-homesteading lands to finance homestead development and capital improvement projects on Hawaiian Home Lands. The Office of the Chairman in coordination with the department's Land Management Division, is working diligently to increase the performance of lands in its inventory to ensure ongoing financial support for the program. To this end, several projects are underway, including Ka Makana Ali'i.

Ka Makana Ali'i shopping center, constructed on Hawaiian home lands a little over a mile from the University of Hawai'i - West O'ahu, Kroc Community Center, and the Kapolei terminus of the rail, opened in October 2016 and commercial spaces continue to be filled.

Soon, construction will begin on the Nānākuli Village Center, a commercial project lead by the Nānākuli Hawaiian Homestead Association. Transit-oriented development along the route of the rail are in conceptual stages. While these commercial developments can generate income for the program, alternative energy projects, whether geothermal, wind, solar, or hydropower on Hawaiian home lands are also being investigated as income opportunities.

Improving Operations

Improving operations requires internal and external efforts. The nature of the Hawaiian home lands and the application process means the department is entrusted with precious, personal, and historic information. To better preserve and safeguard this information, the Office of the Chairman is enhancing document storage and retrieval through digital solutions.

Several significant amendments to the department's administrative rules, Title 10 Hawai'i Administrative Rules, were adopted in FY17. This was the first of several rounds of rulemaking envisioned by the Office of the Chairman. Maintaining administrative rules is foundational to consistent, transparent, and accountable operations; upgrading administrative rules is key to implementing programmatic innovation and transitioning into the information age. The amendments that became effective this year included responding to unfairness beneficiaries saw in the lease transfer process, adding 'ohana testing as an optional part of the application process, and creating the subsistence agriculture program in response to applicant interests.

The Office of the Chairman also continues to work with Governor David Ige's administration and the Hawaii State Legislature to secure unprecedented levels of state funding to support the DHHL's mission of developing and delivering homesteading opportunities to qualified native Hawaiians. The legislature appropriated general funds totaling \$17.1 million for fiscal year 2016 (FY16) and \$23.9 million for FY17 for A&O expenses; never has the State of Hawaii provided general funding for A&O expenses in amounts that can help the department make positive strides in moving the program forward. This success is historic and laudable for native Hawaiians, Governor Ige, the Legislature, the department, and the state. Nonetheless, the DHHL must continue to pursue litigation for sufficient funding through *Nelson v. Hawaiian Homes Commission* so the department has sufficient funding and resources necessary to meet its obligations under the Hawaiian Homes Commission Act.

Native American Housing Assistance and Self-Determination Act (NAHASDA)

The Native American Housing Assistance and Self-Determination Act (NAHASDA) is a federal block grant given directly to the DHHL for affordable housing activities. Title VIII, which provides funding to the department for eligible activities that are outlined in its Annual Housing Plan, was added to NAHASDA in 2000 by the U.S. Congress. Native Hawaiian families whose total household income is at or below 80% of the established area median income and who are qualified to reside on Hawaiian home lands are eligible for services.

As the designated recipient of the Native Hawaiian Housing Block Grant (NHHBG) administered by the U.S. Department of Housing and Urban Development's (HUD) Office of Native American Programs (ONAP), the DHHL utilizes its funding to develop and promote safe, decent, and affordable housing for native Hawaiians, as defined by the Hawaiian Homes Commission Act. The department is the designated recipient because the department is the only entity that can legally serve beneficiaries of the HHCA exclusively.

Each year, the DHHL submits a Native Hawaiian Housing Plan (NHHP) to HUD for review and approval. As of June 30, 2017, DHHL received a total of \$150,880,193 in funding from Program Year (PY) 1 to PY 16, and an additional \$10.2 million in American Recovery and Reinvestment Act (ARRA) funds. DHHL did not receive an allocation of NHHBG funds for PY 15.

The table on Page 17 identifies the NHHBG and ARRA funds received and expended, as well as unexpended funds.

Since its inception, NHHBG funds benefited numerous native Hawaiian families through:

Status of NAHASDA Awards

HAWAIIAN HOME LANDS

HAWAIIAN HOMES COMMISSION · DEPARTMENT OF HAWAIIAN HOME LANDS

INFORMATION AND COMMUNITY RELATIONS OFFICE

The Information and Community
Relations Office is the communications
hub for the Department of
Hawaiian Home Lands.

Information and Community Relations Office

The Information and Community Relations Office (ICRO) serves as the communications center for the Department of Hawaiian Home Lands (DHHL). The office is committed to facilitating superior communication between the department and its applicants/beneficiaries in the community as well as facilitating interdepartmental communications as well.

It is the goal of the department to promote applicant and beneficiary awareness, address issues, encourage participation and increase beneficiary involvement. The office recognizes its responsibility to ensure open communication and understanding of the DHHL, endeavors and accomplishments.

The primary functions of the department are:

- Applicant/Beneficiary Relations
- Media Relations
- Marketing
- Crisis Communication
- Recognition
- Business & Community Outreach
- Interdepartmental Communications

HAWAIIAN HOMES COMMISSION MEETING

ICRO works with the Hawaiian Homes Commission secretary to coordinate and publicize the monthly Hawaiian Homes Commission meetings. This effort includes creation and distribution of a meeting announcement, mailing of the announcement and managing the registration of meeting attendees. ICRO also manages any audio/visual needs for the meetings. Here below is the FY2016-2017 schedule of Hawaiian Homes Commission meetings.

July 18 & 19, 2016	Hawaiian Homes Commission meeting	Kapolei
August 22 & 23, 2016	Hawaiian Homes Commission meeting	Lihu'e, Kaua'i
September 19 & 20 2016	Hawaiian Homes Commission meeting	Paukūkalo, Maui
October 13, 2016	Hawaiian Homes Commission meeting	Teleconference
October 16 & 17, 2016	Hawaiian Homes Commission meeting	Hilo, Hawai'i
November 21 & 22, 2016	Hawaiian Homes Commission meeting	Kapolei, O'ahu
December 19 & 20, 2016	Hawaiian Homes Commission meeting	Kapolei, O'ahu
January 23 & 24, 2017	Hawaiian Homes Commission meeting	Kapolei, O'ahu
February 21 & 22, 2017	Hawaiian Homes Commission meeting	Kapolei, O'ahu
March 20 & 21, 2017	Hawaiian Homes Commission meeting	Kapolei, O'ahu
April 17 & 18, 2017	Hawaiian Homes Commission meeting	Kalama'ula, Moloka'i
May 22 & 23, 2017	Hawaiian Homes Commission meeting	Kamuela, Hawai'i
June 19 & 20, 2017	Hawaiian Homes Commission meeting	Kapolei, O'ahu

HAWAIIAN HOMES COMMUNITY MEETING

ICRO coordinates the monthly hawaiian homes community meetings at various locations throughout the state. This effort includes creation and distribution of a meeting announcement, mailing of the announcement and managing the registration of meeting attendees. ICRO also manages any audio/visual needs for the meetings. In addition, ICRO coordinates with homestead associations in each area who utilize the meetings to share information from their association meetings with all homesteaders who attend.

These community meetings are a way for the DHHL to engage with the community, in person, in order to update them on the latest with the department as well as answer any questions or concerns.

Here below is the FY2016-2017 schedule of hawaiian homes community meetings

July 18, 2016	DHHL Community Meeting	Papakōlea, O’ahu
August 22, 2016	DHHL Community Meeting	Līhue, Kaua’i
September 19, 2016	DHHL Community Meeting	Paukūkalo, Maui
October 17, 2016	DHHL Community Meeting	Keaukaha, Hawai’i
November 20, 2016	DHHL Community Meeting	Lāna’i City, Lāna’i
December 19, 2016	DHHL Community Meeting	Nānākuli/Wai’anae, O’ahu
March 21, 2017	DHHL Community Meeting	Waimānalo, O’ahu
May 23, 2017	DHHL Community Meeting	Kamuela, Hawai’i
June 19, 2017	DHHL Community Meeting	Kapolei, Oahu

DIVISION SUPPORT

ICRO supports all DHHL divisions with outreach and communications for their respective community meetings and beneficiary consultations. When needed, ICRO develops flyers, conducts mailers, organizes presentations and handouts, and serves as the on-site registration team for those attending.

ICRO also manages the creation and distribution of news releases and social media postings on behalf of the department. ICRO also assists other divisions with their presentations, graphic designs, photography, print production, speechwriting, and other editing and writing assignments. ICRO also takes a proactive approach in working hand-in-hand with the local print, television and news media to ensure that all department events receive the proper amount of public and media attention.

HAWAIIAN HOME LANDS

HAWAIIAN HOMES COMMISSION · DEPARTMENT OF HAWAIIAN HOME LANDS

PLANNING OFFICE

Papa Ho‘olālā

Hikiāpoko

Hikiālōpū

Hikiāloa

The Planning Office provides a long-term and comprehensive perspective that supports the Hawaiian Homes Commission, the Department and beneficiaries in realizing the mission, goals, and objectives of the Hawaiian Homes Commission Act.

Planning Office

Planners have many kuleana: to communicate, facilitate, translate, coordinate, prioritize, implement, summarize, and evaluate. The Planning Office provides a long-term and comprehensive perspective that supports the Hawaiian Homes Commission, the Department of Hawaiian Home Lands and its beneficiaries in realizing the mission, goals, and objectives of the Hawaiian Homes Commission Act.

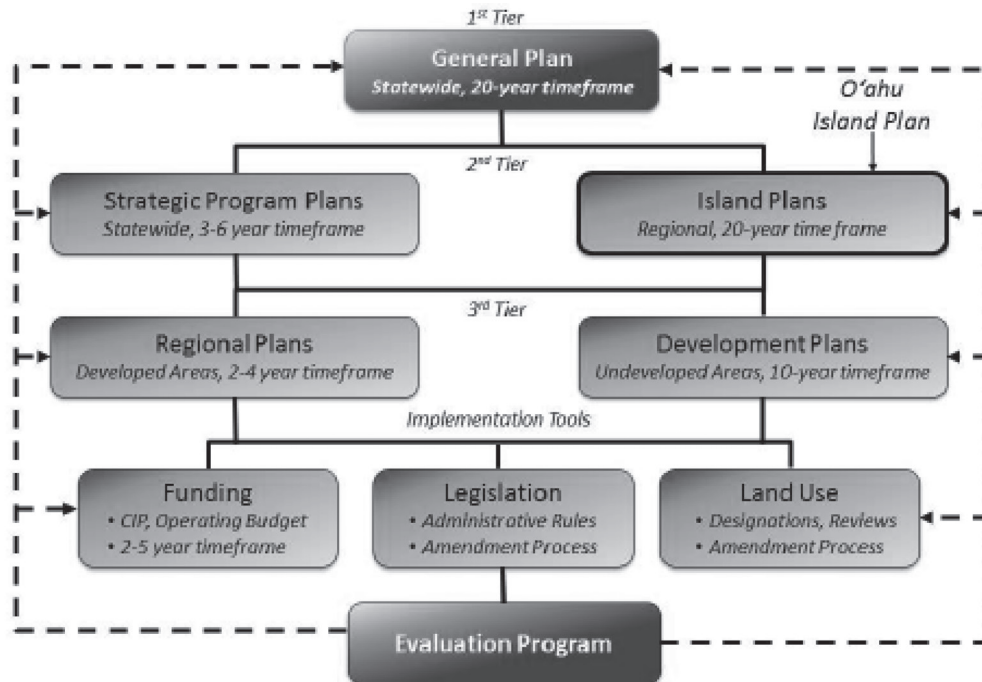

Figure 1-1 DHHL Planning System

Planning Office

The Planning System functions in three tiers:

Tier 1: the General Plan, identifies long-term goals, articulates vision, and organizes priorities for the Department of Hawaiian Home Lands (DHHL) and the Hawaiian Homes Commission (HHC).

Tier 2: includes the Strategic Program Plans and Island Plans, focuses on statewide programs and policies as well as island-specific land use projections.

Tier 3: addresses the Regional Plans and Area Development Plans, identifies and addresses issues and opportunities relative to existing homestead communities and their future development.

Embedded in this area of focus, the Planning Office provides planning support data and assessments in order to enhance plans, policies, and programs and make them more efficient. The Planning Office conducts specialized research, surveys, and other planning studies in order to monitor, implement and improve the Department's overall Planning System.

General Plan – A comprehensive policy document adopted by the HHC in 2002 which ensures coordinated, integrated and orderly social, physical, and economic development of Hawaiian Home Lands through the establishment of goals, objectives, and implementing actions.

Strategic Program Plans – These Plans provide specific objectives and work tasks for the near-term 3-5 year period. The Program Plans set objectives, implementing activities and budget timelines for Program areas. The planning process for several Strategic Program Plans implemented by the Planning Office in fiscal year (FY) 2017 include:

- Native Hawaiian Development Program Plan (NHDPP), Statewide. Approved July 2014, the purpose of the NHDPP is to guide DHHL in providing services covering individual and community development for all beneficiaries served by the Hawaiian Home Lands Trust. DHHL consulted with homestead association leaders on the NHDPP in the Fall of 2015. Several activities conducted during FY 2017 to implement the NHDPP include:
 - Residential Technical Assistance. The HALE program conducted ___ workshops to prepare applicants seeking a homestead lease by providing comprehensive support and resources for homeownership including homebuyer education, financial literacy training, one-on-one credit counseling, and other homeownership tools. Additionally, ___ in-person training sessions were held on proper preventative maintenance of individual septic tank systems.
 - University of Hawai'i College of Tropical Agriculture and Human Resources (CTAHR) Technical Assistance Program. DHHL maintains an annual service contract which provides two full-time Cooperative Extension Service agents (CES) under the management of the University of Hawai'i (UH) to provide hands-on assistance and enable access to a vast array of agricultural services to assist homestead farmers and ranchers on Hawai'i and Moloka'i. The Hawai'i Island CES program serves 500 homestead farmers and 300 homestead ranchers. From September 2016 to August 2017, the CES worked with over 560 contacts through 100 phone contacts, 11 office visits, 50 farm visits, and the conduct of 22 workshops for homesteaders. The Moloka'i CES program is in recruitment for an agent so homesteaders there access the general UH CES program. The Molokai CES program is designed to serve 420 homestead farmers and 27 homestead ranchers. Agricultural homesteaders on O'ahu, Maui and Kaua'i are able to access the general UH CES program.
- Planning Office Community Association Liaison Program, Statewide. DHHL implemented the community liaison program by assigning Planning Office staff to

each homestead region. As liaisons, staff provided a consistent point of contact between the associations and DHHL. The role of the liaison is to assist with community association business and to coordinate with internal DHHL divisions, as needed, to respond to association questions and concerns. During FY 2017, liaisons attended homestead association meetings and met with association boards; provided community planning technical assistance and troubleshooting; and helped identify potential projects and community issues.

- Homestead Associations & Beneficiary Organizations, Statewide. DHHL provides various capacity building, training, technical assistance, and educational workshops to Homestead Associations & Beneficiary Organizations that serve communities. In addition, at its April 2017 meeting, the HHC approved the following Capacity Building Grant Awards in the amount of \$96,818: (1) \$33,310 to ‘Ahupua‘a o Moloka‘i; (2) \$5,000 to ‘Ahahui ‘Āina Ho‘opulapula o Wa‘ohuli; (3) \$5,000 to Kailapa Community Association; (4) \$5,000 to Kalalea/Anahola Farmers Hui; (5) \$5,000 to Kekeha Hawaiian Homestead Association; (6) \$5,000 to Kēōkea Homestead Farm Lots Association; (7) \$5,000 to Moloka‘i Hawaiian Home Lands Kupuna Advisory Committee; (8) \$5,000 to Moloka‘i Homestead Farmers Alliance; (9) \$5,000 to Papakōlea Community Development Corporation; (10) \$5,000 to Papakōlea Hawaiian Civic Club; (11) \$5,000 to Pi‘ihonua Hawaiian Homestead Community Association; (12) \$5,000 to Princess Kahanu Estates Association; (13) \$4,900 to Kaumana Hawaiian Homes Community Association; and (14) \$3,608 to Paukūkalo Hawaiian Homes Community Association.
- Statewide Homestead Leaders Puwalu and Conference was held from August 5 to August 8, 2016 at the Hilo Hawaiian Hotel. Participants: (1) helped build the DHHL’s Biennial Budget by providing input on island and regional priorities for inclusion in the DHHL’s request to the legislature; (2) shared stories of success and succession of leadership; (3) were provided in depth education, training and networking opportunities in three conference tracks including agriculture, project planning and capacity building; (4) attended mobile workshops and site visits to Waimea and Maku‘u for homestead presentations.

2017 Ka‘ū Leadership Development Training Program. This 64-hour training program uses the leadership curriculum developed by The Ford Family Foundation and is delivered by Ford-certified trainers. The training style is unique in that it employs highly interactive and participant-centered training methods such as hands-on activities, role playing, and small group exercises. The goal of the program is to enhance and strengthen the knowledge and skills of emerging and current leaders so they can be well equipped to successfully plan and implement community and economic development projects. The 2017 Ka‘ū class project is to implement

a monthly food bank program in the Ka‘ū district. A total of 14 participants graduated including 6 beneficiaries.

Agriculture peer-to-peer pilot grant program. Under the Homesteading Opportunities Assistance Program (HOAP), DHHL continued its grant program to support peer-to-peer mentoring for agriculture beneficiaries and training that will result in an increase in agriculture lessee and applicant capacity to undertake commercial or subsistence agriculture activities. In FY 2017, a total of \$200,000 in grant funds were awarded to 4 nonprofit organizations including: Kēōkea Homestead Farm Lots Association on Maui to train 28 beneficiaries in farm lot preparation, planning, purchasing and building greenhouses; Sons of Ho‘olehua Cooperative on Moloka‘i to train and assist 4 Co-op members to develop their agricultural lots into the commercial farming businesses; Ka‘ala Farm Inc. to teach Wai‘anae homestead lessees about farming and preparing wet and dry land kalo; and Kekaha Hawaiian Homestead Association to conduct a pilot test of the Pu‘u ‘Ōpae Ho‘omākaukau Training Program.

Water Policy Plan, Statewide. DHHL has major water responsibilities including the development of water sources, the operation and maintenance of water systems, planning for the use of water and advocating the water rights of DHHL, the HHC, and native Hawaiians. To fulfill those responsibilities, DHHL utilizes various legal rights described in constitutional and statutory provisions and case law. After three years of research and beneficiary and agency input, the HHC passed the Water Policy Plan (WPP), the first policy on managing the water kuleana of DHHL since the passage of the Hawaiian Homes Commission Act, in July 2014. Implementation of the WPP has included: Should we include the hiring of the Water Resources Planner, with a brief description of the duties of that position? Or was that in FY 2018?

- Water Planning: Commission on Water Resource Management (CWRM), Statewide. Planning Office staff attend the monthly CWRM meetings to monitor and advocate for DHHL and beneficiary rights to water. Staff also work collaboratively with CWRM staff to share information, discuss various water projects and identify solutions to assist DHHL in its water kuleana. In addition, DHHL worked with the County of Maui Department of Water Supply on the update of their Maui Water Use and Development Plan to ensure DHHL’s plans and water needs are incorporated into their planning efforts and revised and updated its Water Use Permit Application (WUPA) for the Ho‘olehua Water System (Public Water System 230), after its original filing in the 1980s.
- Water Rights Advocacy, Statewide. Application of the FY 2017 WPP IP, as in previous years, has focused on advocacy and communication / education. There

were a number of critical efforts made to assert the Department's rights to water in key proceedings before the CWRM. The most significant highlights were as follows:

1) CWRM approved a mediated agreement for the Waimea Watershed Area on Kaua'i with an acknowledgement of DHHL water needs and a path to provide those waters, which resulted in CWRM granting a surface water reservation of 6.903 MGD to DHHL in the Waimea Surface Water Hydrologic Unit, Kaua'i.

2) CWRM approved the State Water Projects Plan (SWPP) that estimates DHHL water needs across the islands for the next twenty years. The SWPP will be a significant basis for future water reservations for DHHL.

That latter effort was supported by supportive testimony from Homestead leaders across the State, which came about in part from water rights training for them held as part of the 2017 WPP IP in August 2016.

3) CWRM granting a water reservation of 3.398 MGD to DHHL in the Keauhou Aquifer, outside of a water management area, for the first time since the State Water Code was enacted in 1987.

The focus on advocacy and communication / education again eclipsed other work. As in past years, ongoing water disputes had critical implications for the Department's interests in water. Conflicts regarding groundwater on Molokai and surface water from East Maui and Waimea, Kaua'i necessarily required focused staff

Figure 1-2 Island Planning Process

and consultant efforts to ensure that the rights of the beneficiaries, Hawaiian Homes Commission, and the DHHL were protected and enhanced. Due to the necessary redirection of efforts towards advocacy, efforts on other goals remain to be fully implemented.

The HHC also authorized the Chair to formally request water reservations from

CWRM to adequately reserve water for current and foreseeable development and use of Hawaiian home lands in East Maui, Central Maui, and Upcountry Maui; if necessary, enter as a party into CWRM contested case proceedings concerning East Maui Irrigation Company, Ltd. (EMI) stream diversions and any subsequent litigation, and/or to submit testimony and briefs related to the same; secure legal counsel, subject to Hawai'i Revised Statutes (HRS) Chapter 28, to assist in advocacy efforts concerning HHC and DHHL interests in CWRM proceedings on EMI stream diversions and any subsequent litigation; and take other action as necessary.

DHHL continues to advocate on Moloka'i in light of the filing of a water use permit application by a Moloka'i Ranch subsidiary in a neighboring aquifer and advocated for the dismissal of the controversial In Re Kukui (Moloka'i), Inc case involving the multiple appeals of the Water Commission 2001 decision issuing water permits to Kukui Moloka'i, Inc for approximately 1 MGD for existing and new uses from Well 17. Staff also drafted comments on water relevant actions (e.g. Environmental Assessments, Environmental Impact Statements, and Water Use Permit Applications) that appear to have a potential effect on the rights and uses of water by DHHL and beneficiaries.

- Water Development and Stewardship, Statewide. The USDA obligated over \$15.8 million to DHHL for 5 water improvement projects with DHHL providing a federal funds match of \$19,453,123 for total project funds of \$37,994,314:

- (1) Ho'olehua Public Water System 230 for major upgrades including a new tank, a PV system, paved access roads with USDA providing \$10,011,750 and DHHL providing \$12,273,250 for a total of \$25,000,000;

- (2) Anahola Public Water System 432 improvements to serve 75 homestead lots in the Anahola farm lots and Bay View residential area, 1 County inter-connect and 1 RP holder with USDA providing \$3,055,137 and DHHL \$3,770,723 for a total of \$6,825,860;

- (3) La'i 'Ōpua Village 4 Hema Phase (water), (4) (sewer); and (5) (storm water/drainage) for 101 homestead lots. These systems will connect to Hawai'i County Water Department and the County will perform operation and maintenance on the systems with USDA providing \$2,759,304 and DHHL \$3,409,150 for a total of \$6,168,454.

In addition, water rate studies were continued for all four DHHL operated water systems (Anahola, Moloka'i, Kawaihae, and Pu'ukapu).

- Water Assets Inventory, Statewide. The Planning Office continued to work on data collection on DHHL water assets including East Maui, Ka'ū, Molokai, and Pūlehunui.

Agricultural Program Plan, Statewide. The HHC adopted the recommendations of the Agricultural Task Force in 2000, which provides the foundation upon which a viable Agricultural Program can be developed. In addition, a 2014 Beneficiary Survey indicated that more and more beneficiaries were interested in a subsistence agricultural lot. The goal is to enable native Hawaiian farmers to effectively utilize their Hawaiian homestead leases under a subsistence homestead and/or commercial use model to continue the philosophy established by the first homestead farming community at Kalama‘ula known as “the Molokai Miracle” envisioned by Prince Kūhiō called ‘Āina Ho‘opulapula.

‘Āina Mauna Legacy Program Plan (AMLPP), Humu‘ula, Hawai‘i
DHHL continued to work on the AMLPP to organize the Advisory Council. The purpose of the AMLPP adopted by the HHC in 2009 is to restore and preserve the trust resources that exist in the region that include, but are not limited to, the Native Hawaiian Koa forest, sensitive environmental resources, and other cultural and historic resources. The role of the Advisory Council is to provide advice and recommendations to the HHC and the DHHL regarding the implementation of the AMLPP. Council membership will include two groups: (1) representatives of Hawai‘i Island Homestead Associations and (2) resource management and cultural specialists. It is intended that group 1 will advise on higher level goals and policy based on feedback from their respective communities and group 2, which is comprised of technical experts, will advise on best management practices to implement the Plan, goals and policies from group 1.

Island Plans – Asserts HHC’s authority to designate land uses for Hawaiian Home Lands based on a comprehensive analysis of the Trust lands, needs, and opportunities on Hawai‘i Island (2002), Kaua‘i (2004), Maui (2004), Moloka‘i (2005), and O‘ahu (2014). Island Plans also identify priority areas for homestead development within each moku-puni based upon homestead applicant preferences and site analysis to identify lands most suitable for development.

Area Development Plans – Area specific plans that carry out second tier planning recommendations. These plans contain information necessary to implement area-wide development, including off-site infrastructure systems and improvements, utilities, estimated costs, and phased implementation.

Regional Plans – Regional Plans provide the means to define opportunities for partnerships among stakeholders, including the Trust, its beneficiaries, and other interest groups in the region. This participatory planning process also documents issues and opportunities in the homestead community and identifies priority projects through consensus building in the near term 2 – 4 year period. There are 22

Regional Plans throughout the State.

The following are a few of the Regional Plan Priority Projects that were either in progress or completed in FY 2017:

Hawai'i Island

The South Point Resource Management Plan was adopted by the HHC in October 2016 and involved a 15-month planning process that involved outreach and consultation with DHHL beneficiaries in Ka'ū. Based on that consultation, the collective vision for the area is “a self-sustaining, healthy and safe community where the 'āina – inclusive of the people and resources within it – and native Hawaiian culture and values thrive.”

Planning Office updated the 2009 Pana'ewa Regional plan which involved a 9 month consultation process with Pana'ewa beneficiaries and the updated plan was approved by the HHC in January 2017.

The new Kaumana-Pi'ihonua Regional Plan was developed through consultation with beneficiaries including meetings in September 2016 and October 2016, a Kaumana-Pi'ihonua Regional Plan Survey, and additional meetings in January 2017 and March 2017. The updated plan was approved by the HHC in May 2017

Maui

A Memorandum of Understanding was reached with the Hawai'i Housing Finance & Development Corporation for \$10,000,000 in DURF funds for the development of the Honokōwai Water System.

Kahikinui completed their Firewise Community Hazard Assessment and was the first homestead community to be certified as a Firewise Community.

Molokai

Assisted with the preparation of an environmental assessment for Kapa'akea Residential Homestead involving a proposed project to build a flood mitigation wall to protect 5 residential homestead lots from flooding due to storm water inundations.

O'ahu

Kanehili Community Association received \$500,000 from the DeBartolo Ka Makana Ali'i Project that will assist with the development of a park in their community.

Waimanalo Hawaiian Homestead Association received Certificate of Occupancy for their Community Technology Education Center.

Kauaʻi

Secure & Manage Surface Water Resources in Anahola – A USGS study was conducted on Anahola Stream to look at availability of water resources. Reservoirs were assessed, recommendations for remediation, removal, and de-regulating were developed. The Anahola reservoirs construction project begins approximately January of 2017. The plans call for the shrinking of Field 1 and the upper Anahola reservoirs and the removal of Field 2 and the lower Anahola reservoirs.

Lānaʻi

The Planning Office continued to engage the new owner, Pūlama Lānaʻi, in discussions regarding the transfer of 10 acres of commercial use and 15 acres of industrial use lands and to increase water allocation for additional residential lots. Implementation Tools – The Planning System includes a number of tools to ensure the long-range, coordinated implementation of directives and priorities established by the HHC for plans in Tiers 1, 2, and 3. Implementation tools include the operating budget, capital improvements program, land use designations, and federal and state legislation.

Evaluation Program – The Evaluation Program component of the DHHL Planning System allows the Department to identify, monitor and assess its plans, programs and policies in order to provide more efficient and effective services to beneficiaries. By identifying strengths and areas that need improvement, the Evaluation Program provides critical information and analysis that supports future decision making by the Department and the HHC. In FY 17, DHHL evaluated three previous programs that intended to speed-up the award of homestead leases: (1) Acceleration of Leases Program (1984-1987), (2) Kuleana Leases (1994), and (3) Undivided Interest Leases (2005 to 2007). The purpose of the evaluation of these programs was to assess their long term impact on successfully “enabling native Hawaiians to return to their lands” and identify the lessons learned from each of these previous efforts.

Beneficiary Policy and Advocacy

The Planning Office is responsible for conducting beneficiary consultation on proposed policy changes and land use designation changes, including those related to revenue-generating projects affecting homestead regions. In the past fiscal year, the Planning Office conducted the following beneficiary consultations:

Planning Office Beneficiary Consultations FY 2017

Puʻu ʻŌpae Farm and Irrigation Plan, Kekaha, Kauaʻi. A beneficiary consultation meeting was held on January 17, 2016 to seek beneficiary input on a long-term land use request by the Kekaha Hawaiian Homestead Association of approximately 230

acres mauka of Kekaha, adjacent to the Pu‘u ‘Ōpae Reservoir, to implement their farm and irrigation project.

Waimea Hydroelectric Project, Waimea, Kaua‘i. Two Beneficiary Consultation meetings (June 13 and 14, 2017) and two Public Hearings (July 12, 2017) were conducted to share information and accept comments regarding a renewable energy hydroelectric project proposed by the Kaua‘i Island Utility Cooperative (KIUC) that would be partially located on DHHL lands in Waimea, Kaua‘i.

Administrative Rules for DHHL Planning System and Water Systems, Statewide. In FY 2017, beneficiary consultation meetings on the draft administrative rules for the DHHL Planning System and Water System were held in Līhu‘e – June 22; Kapolei – June 27; Waimea – July 6; Waimānalo – July 10; Paukukalo – July 20; Keaukaha – July 21; Kalama‘ula – July 25 and August 24; and Lāna‘i – August 1. The purpose of the meetings were to discuss proposed changes to the DHHL Administrative Rules, HAR Chapter 10 to add these two sets of rules to address the DHHL Planning System with rules that propose a comprehensive process to systematically coordinate how planning decisions are made through consistent engagement with beneficiaries and Water Systems with rules that propose effective and efficient management of 4 DHHL systems in Ho‘olehua, Anahola, Kawaihae and Pu‘ukapu. Extensive input from beneficiaries was provided to help shape these rules.

Other Planning Activities

Environmental Review and Compliance

The Planning Office is also responsible for education and monitoring of Department activities regarding compliance with state and federal environmental review requirements. Activities included review of environmental assessments, environmental impacts and providing agency comments on various project proposals; and providing technical assistance to other DHHL divisions regarding compliance with Hawai‘i Environmental Protection Act (HEPA) and National Environmental Protection Act (NEPA), including the provision of Department-wide training in the State of Hawaii’s environmental review process. The Planning Office also works with other DHHL divisions to plan for and manage environmentally and culturally sensitive areas such as wetlands, fishponds and shoreline/coastal areas.

Coastal Hazard Mitigation, Community Resilience and Climate Change Adaptation

The Planning Office worked with the Kapa‘akea Hawaiian Homestead Association to identify priorities for community resilience and coastal hazard mitigation, including a flood mitigation improvements project. Staff also attended coastal zone management-related meetings such as the Marine and Coastal Zone Advisory Committee (MACZAC) and the Ocean Resources Management Plan (ORMP) Implementation Committee. Planning Office staff represented the Chairman on the Interagency Climate Change Adaptation Committee, which was formed to study

inundation forecasts and assess vulnerability of Hawaii's coastal communities and infrastructure in terms of impending sea level rise and climate instability, participated in climate vulnerability assessment and adaptation workshops and monitored coastal impacts due to the effects of the King Tides.

GIS

Planning Office digitized records to be included in its Geographic Information System (GIS) related to DHHL's Land Use Designation, homestead leases, general leases, and rights-of-entry. Planning Office will be working on the digitization of all of DHHL's licenses including utility and access easements. The digitization of these records into a GIS will allow DHHL to better manage its resources and communicate more effectively the location of its various land dispositions.

Transit Oriented Development

Research and engagement continued with Honolulu City and County (HC&C) and state-level planning efforts to explore the potential for pursuing transit-oriented development (TOD) on DHHL lands associated with five stations along the HART line: East Kapolei/UH West O'ahu, Lagoon Drive, and Kapālama/ Middle Street. Staff participated in State TOD Task Force meetings and worked with consultants on conceptual planning activities for DHHL's revenue-generating properties within HC&C's TOD Planning Areas, attended TOD design workshops, and participated in a five-day Design Charrette.

Kalaupapa

The Planning Office participated with several other state and federal agencies in meetings to discuss the very sensitive issue of the future of the Kalaupapa Settlement once the Department of Health no longer has a presence there. A two day site visit and meeting were held in Kalaupapa with the Chairman and Deputy Director to strengthen DHHL's relationship with the Kalaupapa community. Planning Office staff has also been participating in the Section 106 Consultation process being conducted by the National Park Service on the Draft General Management Plan for the National Historic Park at Kalaupapa.

HAWAIIAN HOME LANDS

HAWAIIAN HOMES COMMISSION · DEPARTMENT OF HAWAIIAN HOME LANDS

ADMINISTRATIVE SERVICES OFFICE

The Administrative Services Office provides staff support in personnel, budgeting, program evaluation, information and communication systems, risk management, facilities management, clerical services and other administrative services. This office also provides support services in preparation of reports to the legislature and facilitates the rule-making process.

Administrative Services Office

2017 Legislation

Operating Budget

The General Appropriations Act of 2017 (Act 49, SLH 2017) maintains current allocation of department positions: 200 permanent general funded positions and 4 permanent federally funded positions.

Section 3 of the Appropriations Act provides the Hawaiian Home Lands 625 Program, Administrative and Operating Support, with non-recurring general fund appropriations of \$25,120,730 for FY 2018 and FY 2019.

Program HHL 625 – Administration and Operating Support

Means of Financing	FY 2017-2018	Permanent Positions	FY 2018-2019	Permanent Positions
General Fund	\$25,120,730	(200)	\$25,120,730	(200)

Program HHL 602 – Planning and Development for Hawaiian Homesteads

Means of Financing	FY 2017-2018	Permanent Positions	FY 2018-2019	Permanent Positions
Special Fund	\$4,824,709		\$4,824,709	
Trust Fund	\$3,740,534		\$3,740,534	(4)

HAWAIIAN HOME LANDS

HAWAIIAN HOMES COMMISSION · DEPARTMENT OF HAWAIIAN HOME LANDS

LAND DEVELOPMENT DIVISION

The Land Development Division
is responsible for developing
Department of Hawaiian
Home Lands' property for both
homesteading and income-producing
purposes.

Land Development Division

The Land Development Division (LDD) is responsible for developing Department of Hawaiian Home Lands (DHHL) property for both homesteading and income-producing purposes. LDD consists of three branches: (1) Design and Construction, (2) Housing Project, and (3) Master-Planned Community.

The Design and Construction Branch designs and constructs on-site and off-site improvements for the development of residential, farm, and pastoral lots for homesteading purposes.

The Housing Project Branch (Housing) is DHHL's "marketing and technical assistance arm" for homestead leases and awards. Housing staff processes applicants from DHHL wait lists to lease execution and processes Undivided Interest Lessees to amend leases to specific lot descriptions. Housing staff achieves this by helping beneficiaries with financial qualification, native Hawaiian qualification, contractor and house design selection, lot selection and lease execution. During FY 2017, Housing facilitated seventy-five (75) new residential awards which includes sixty-three (63) tenants of the Ho'olimalima project that participated in the fifteen (15) year rent with option to purchase program. Housing also processed eleven (11) lease amendments, as a result of eleven (11) undivided interest lessees being able to qualify for a loan to purchase or build their own home. To achieve this, staff sent out approximately 12,714 offering letters to market fifty-one (51) units within nine (9) projects statewide. Upon indicating interest, staff arranged for approximately 387 interested applicants to work with various lenders to financially qualify for a home. A series of orientation and workshops helped to individualize the efforts.

The Master-Planned Community Branch (MPCB) prepares plans and designs, and constructs communities with homes, businesses, services, open space, and recreational and cultural amenities. MPCB major projects include 1) Pūlehunui Infrastructure Masterplan which plans and designs infrastructure systems including potable water, wastewater, drainage, transportation for the Pūlehunui Region in Central Maui, and 2) West Maui Regional Water Development to provide potable and non-potable water from Honokōwai lands to the Villages of Leiali'i for the development of residential lots and subsistence agriculture lots. In 2017, the MPCB assisted in the development of a Memorandum of Understanding with the Hawai'i Housing Finance Development Corporation to provide \$10 million from the State Dwelling Unit Revolving Fund to finance the development of the Honokōwai well and transmission system.

LDD is also responsible for maintenance and repair infrastructure improvements, including roads, water lines, drainage systems, and sewer lines within DHHL subdivisions on all islands. The various tasks include sewer mitigation and repair, overseeing the operations and maintenance of the DHHL water systems; keeping

drainage channels and all connected arterial channels, detention basins and other drainage structures free from debris and obstruction; trimming overhanging trees and repairing fencing along drainage canals to ensure public safety; design and implement wall shoring and spall repairs on the concrete lined drainage channels in Nānākuli and Waimānalo; upgrade street lights in various subdivisions to provide more energy efficient, ecologically friendly, durable, and low maintenance LED lighting; and any issue that becomes or has the potential to become a threat to public health and safety.

During the 2017 Legislative session, appropriations were made for the following projects:

Act 49, SLH 2017 HHL 602 Planning and Development for Hawaiian Homesteads	MOF	FY 2018	FY 2019
Hawaiian Home Lot Development			
Kaūmana Subdivision Lot Rehabilitation, Hawai'i	C	\$500,000	
Ka'u Water System, Hawai'i	C	\$1,500,000	
Hanapēpē Residential Subdivision Phase 2, Kaua'i	C	\$1,000,000	
Agricultural Offsite Water System Kēōkea, Maui	C	\$2,000,000	
Leiali'i Parkway and Highway Improvements, Maui	C		\$1,400,000
Kēōkea-Waiohuli Phase 2 Site Improvements, Maui	C	\$1,000,000	
Ho'olehua Scattered Lots Site Improvements, Moloka'i	C	\$1,500,000	
Nā'iwa Subdivision Site Improvements, Ho'olehua, Moloka'i	C		\$1,500,000
Lot Development, O'ahu	C	\$6,900,000	
Voice of America Phase 1 Infrastructure, Nānākuli, O'ahu	C	\$800,000	
Waimānalo Agriculture Lots, Waimānalo, O'ahu	C	\$1,300,000	
Pūlehunui Site Improvements and Infrastructure, Maui	C	\$17,500,000	
Repair and Maintenance			
Roadway Safety and Drainage Improvements, Kula, Maui	C	\$1,200,000	
Archaeological Preservation Improvements, Kēōkea-Waiohuli, Maui	C	\$1,000,000	
Water, Sewer, Drainage and Streetlights Maintenance, Statewide	C	\$2,900,000	
Water Systems Security Enhancements, Moloka'i, Kaua'i	C	\$500,000	
Environmental Mitigation and Remediation of Existing Lots, Statewide	C	\$2,000,000	
Wai'anae Coast Second Access Road, O'ahu	C	\$3,000,000	
Grants In Aid			
Kailapa Community Association, Hawai'i	C	\$500,000	
La'i 'Ōpua 2020, Hawai'i	C	\$500,000	
Waiohuli Hawaiian Homesteaders Association, Inc.	C	\$500,000	
NAHASDA Development Projects, Statewide			
	N	\$15,000,000	\$15,000,000
Totals By Means Of Financing			
General Obligation Bonds	C	\$46,100,000	\$ 2,900,000
Federal Funds	N	<u>15,000,000</u>	<u>15,000,000</u>
Grand Total		\$61,100,000	\$17,900,000

Major Projects for 2017

Statewide

Habitat Loan Program

Housing has facilitated a better working relationship between DHHL and all the Habitat for Humanity affiliates (Habitat) in the State. Housing staff was instrumental in creating the Habitat Loan Program that provided 0% financing to qualified beneficiaries. This loan product has increased the number of units produced by Habitat. During FY 2017, one (1) beneficiary completed construction of their home in partnership with Habitat because of this working relationship with DHHL and utilized the Habitat Loan Program. Also during FY 2017, three (3) beneficiaries in partnership with Habitat began construction of their homes. Of the three (3) homes under construction, one (1) utilized the Habitat Loan Program and two (2) utilized the United States Department of Agriculture Rural Development direct loan. Construction continued on five (5) other homes, which began in FY 2016.

Moloka‘i and Kaua‘i Water Systems Security Enhancements

Scope involves securing water tank sites in Ho‘olehua, Moloka‘i and Anahola, Kaua‘i by installing perimeter fencing, securing ladders, installing area lighting and security cameras. Intending to issue invitation for bids for the project in the fall of 2018. The State legislature approved \$500,000 in the State CIP budget for design and construction in fiscal year 2018.

Environmental Mitigation

DHHL is responsible for the mitigation and remediation of various environmental issues on existing lots. These would include unexploded ordinance (UXO) findings in Waimea on Hawai‘i Island that are affecting 600 lots from being developed; tar removal remediation on Kaua‘i; clean-up of dead fish on Moloka‘i; testing and removal of possible contaminated soil in the Waimānalo drainage channel; mitigate and remediate sewer spills; mitigate and remediate clean-up of various industrial vacant sites; rock fall mitigation; and flood mitigation and remediation on the island of Moloka‘i. The State legislature appropriated \$2 million in the State Capital Improvement Project (CIP) budget for repair and maintenance in fiscal year 2018.

Hawai‘i

Lālāmilo Phase 1, Waimea, Hawai‘i

Infrastructure improvements for thirty-seven (37) residential lots, including roads, water distribution, drainage facilities and utilities were completed in March 2011. This development consists of an east subdivision of seventeen (17) lots and a west subdivision of twenty (20) lots, and includes two owner-builder

homes, five vacant lots and thirty (30) turnkey homes. At the end of June 30, 2017, thirty (30) homes were occupied. Two turnkey houses are unoccupied and five vacant lots are unawarded due to unexploded ordnance (UXO) issues.

Lālāmilo Housing Phase 1, Kawaihae Road Improvements, Waimea, Hawai'i

Channelization of the Kawaihae Road/Keanu'i'omanō Street (West Access Road) Intersection. Improvements include constructing storage lanes, pavement widening, grading, and utility relocations. The project was advertised for bids on May 17, 2013. Bids were opened June 7, 2013, and a construction contract was awarded. Construction began June 3, 2014, but is currently on hold because of UXO issues. The restart of construction date is not set. Pavement widening dependent upon removing seven telecommunication poles from the State highway right-of-way and installing seven new poles in DHHL property.

Lālāmilo Housing, Phase 2A, Increment 1; and Lālāmilo Housing Phase 2A, Kawaihae Road Improvements, Waimea, Hawai'i

Infrastructure construction for DHHL Lālāmilo Phase 2A, Increment 1 consists of eighty-one (81) residential lots, three archaeological preservation lots, one HELCO substation easement lot, one park, a landscape buffer, and roadway construction to channelize the Kawaihae Road/South Kohala Distribution Road intersection. Construction began March 18, 2013, but is currently on hold because of UXO issues. The restart of construction date is not set. Pavement widening dependent upon removing two telecommunication poles from the State highway right-of-way and installing two new poles in DHHL property.

Pu'ukapu Hybrid Water System, Waimea, Hawai'i

Water system improvements for 184 pasture lots awarded during DHHL's Acceleration Award Program in 1985 and 1986. Design of Phase 1 was completed in 2009 and construction began on November 5, 2010. Construction is complete. The non-potable water system is active. The Hawaiian Homes Commission approved interim water rates to users. DHHL is executing Internal Elevation Agreements with lessees. The Hawai'i County Department of Water Supply (DWS) completed final connection of the hybrid water system to the DWS existing water system. Operation and maintenance contractor installed first individual meter and backflow preventer in September 2014. Installation of individual meters and backflow preventers is ongoing.

Pu'ukapu Road Improvements, Waimea, Hawai'i

DHHL completed the first phase of roadway improvements along three fire roads in the Pu'ukapu Pastoral Lot Subdivision. DHHL coordinated this work with the lessees who use these roads. DHHL is continuing the coordination efforts with the lessees to prepare for the second phase of roadway

improvements. The project is currently on hold due to concerns with possible unexploded ordnances (UXO) in the area. The Army Corps of Engineers are surveying the area for UXO. DHHL is awaiting UXO clearance to resume the project.

Kahilu Road Improvements, Waimea, Hawai'i

DHHL executed a Memorandum of Agreement with the County of Hawai'i to resurface and widen Kahilu Road in DHHL's Kūhiō Village, Waimea, Island of Hawai'i. As part of this joint venture agreement, DHHL provided funding to the County for the materials, and the County provided the labor and specialized equipment to construct the approximately one mile long segment of roadway improvements.

Honokaia Water System, Waimea, Hawai'i

This proposed system is a gravity fed non-potable water system consisting of a connection to the County water system, a 104,600-gallon metal storage tank reservoir, 33,000 linear feet of transmission lines and laterals, submeters and appurtenant infrastructure. The system will serve forty-six (46) pastoral lots within the Honokaia subdivision. The current domestic water needs are being met through individual water tanks, wells and catchment basins.

Kawaihae 304.5' and 632' Reservoirs System Repair Work, Kawaihae, Hawai'i

Repair work consists of grouting and sealing of cracks, painting, modification to railing system, drainage improvements and replacement of asphalt. Construction Notice to Proceed issued November 13, 2013. Recent emergency impacts to the Kohala Ranch wells that provide water to the DHHL Kawaihae Residential Subdivision has delayed the completion of the reservoir repairs. Construction of the reservoir repairs is estimated to be completed in late October 2017. We will need to changes this sentence depending on which comes first the completion of the repairs or the printing of the annual report.

Kawaihae Water Assessment, Kawaihae, Hawai'i

Preparing Final Water Assessment Study, which identifies several options to provide a new or additional source of potable water for the Kailapa Subdivision within the Kawaihae ahupua'a consisting of 199 lots, and possible future DHHL developments in the area. A well pump test was completed on existing well site 6549-03 and indicated that the existing water could be used as a drinking water source with proper water treatment. DHHL will further analyze the assessment and well pump test results to determine the preferred type of water source and system to be implemented.

**Ka'ū Water Assessment, Ka'ū, Hawai'i**

An assessment is in progress which identifies several options to provide regional groundwater development for DHHL landholdings in Ka'ū in order to better serve homestead, pastoral and agricultural homestead lessees in the area. Further due diligence studies are being conducted. DHHL is currently focusing on providing water to the Kamaoa, Puueo and Waiohinu properties. The State legislature appropriated \$1,500,000 in the State CIP budget for plans, design and construction for FY 2018.

La'i 'Ōpua Village 5, Kealakehe, Hawai'i

Construction of the roads and utilities for a 117-residential lot subdivision on 23.6 acres in Kealakehe, north of Kealakehe High School, began May 1, 2009 and is nearly complete. Phase I house construction started in October 4, 2010. As of June 2017, fifty-one (51) houses have been completed and occupied: forty-two (42) turnkey, and nine (9) self-help in partnership with Habitat for Humanity. One loan for a self-help home with Habitat for Humanity is in the final approval process. Eight (8) leases and loans recorded for the Habitat for Humanity "2017 Blitz Build" and the final two will record in July. The ten (10) day construction of ten (10) homes was completed in September of 2017.

La'i 'Ōpua Village 4, Kealakehe, Hawai'i

The mass-grading of a 219 residential lot subdivision on about 60 acres at Kealakehe, located east of Kealakehe High School was completed in December 2009. The current plan is to develop the subdivision in two phases, Phase 1 ('Ākau - 118 residential lots) and Phase 2 (Hema - 101 residential lots). Engineering contracts for each phase have been awarded to develop construction drawings for the road, utility and other infrastructure improvements. Construction Notice to Proceed for the infrastructure improvements of Phase 1 ('Ākau) issued on May 12, 2014. Construction substantially complete October 26, 2015. Engineering design of Phase 2 (Hema) is ongoing.

Hawaiian Home Lands Rental Housing in the Villages of La'i 'Ōpua, Kealakehe, Hawai'i

Best and Final Offers for a Request for Proposals were evaluated in Spring 2017 for a proposed Rent with Option to Purchase development within the Villages of La'i 'Ōpua, Village 4, Akau Subdivision. DHHL anticipates selecting a developer before the end of 2017. This affordable rental housing project will be funded with Low Income Housing Tax Credits and will provide up to 160 single-family rental units for native Hawaiians on DHHL's waitlist.

La'i 'Ōpua Plant Preserve, Kealakehe, Hawai'i

DHHL hired a plant specialist contractor to restore, upkeep and maintain the La'i 'Ōpua Plant Preserves, including the Aupaka Plant Preserve and the Uhiuhi

Plant Preserve. The work is being coordinated with the U.S. Fish and Wildlife and the Department of Land and Natural Resources. These plant preserves are home to the Aupaka, Uhiuhi, and other critically endangered plants.

La'i 'Ōpua Brush Clearing, Kealakehe, Hawai'i

DHHL hired a maintenance contractor in July 2016 to clear brush and control the vegetative growth in DHHL's Villages of La'i 'Ōpua, including vacant lots and boundaries of Laiopua Village 2, 4, and 5, and the outer boundaries of the La'i 'Ōpua Plant Preserves.

Maku'u Offsite Water System Development, Puna, Hawai'i

Construction of a production well, a 1.0-million gallon reservoir, transmission lines, and support facilities to service DHHL's Maku'u homesteads. The water system would provide service to 66 existing lots and permit new house lot development. Due to recent lava flows, DHHL will document the location of the well cap and will cancel the project.

Panaewa Subsistence Agricultural Lots, Panaewa, Hawai'i

DHHL is subdividing one ten-acre agricultural lot into 16 half-acre lots to be awarded to beneficiaries as subsistence agricultural lots. DHHL is assessing if the infrastructure at Panaewa Lot 185 would be able to support approximately thirty (30) residential lots in lieu of the sixteen (16) subsistence agricultural lots.

Kaumana Subdivision Lot Rehabilitation, Kaumana, Hawai'i

This project will rehabilitate and provide infrastructure improvements to accommodate approximately five residential lots in the Kaumana Subdivision in Hilo. The State legislature appropriated \$500,000 in the State CIP budget for plans, design, and construction for FY 2018.

Hawaii Community College Model Home Program, Keaukaha, Hawai'i

Hawaii Community College (HCC) completed their 50th model home in May 2017. This was the 20th home HCC built in partnership with DHHL since 1998. HCC's Model Home program provides their vocational technical students with on the job training and provides a new custom home for a DHHL beneficiary. The lease award of this home is expected to be recorded in July, 2017

DHHL executed a new five year agreement with the University of Hawaii - Hawaii Community College that will provide a new home each May for the duration of the Agreement (July 1, 2017 – June 30, 2022).

Keaukaha Scattered Lots – lot subdivisions, Keaukaha, Hawaii

This project will rehabilitate and provide infrastructure improvements to accommodate four (4) residential lots in the Keaukaha Tract 1 Subdivision in Hilo.

O‘ahu

Kānehili, East Kapolei, O‘ahu

Roads and utilities were completed in January 2010 for this 403-lot subdivision. As of June 30, 2017, 356 homes have been completed and occupied: 338 turnkey houses by Gentry Homes, Ltd.; ten (10) modified self-help houses; two (2) self-help houses through Habitat for Humanity; and six (6) on vacant lots by individual owner/builders. Habitat for Humanity Leeward O‘ahu is working closely with five (5) families: one (1) is in the final stages of construction, one (1) is in the building permit process and three (3) are in various stages of the loan approval process.

A barrier wall has been constructed at the back of the residential lots along the Kualaka‘i Parkway. Construction notice to proceed was issued in October 2015. The final thirty-nine (39) residential lots within Kānehili are now available for house construction.

Kauluokaha‘i, Increment IIB, East Kapolei, O‘ahu

Formerly identified as East Kapolei IIB, these 160 lots are the first increment of residential lots within the Kauluokahai master-planned community. Mass grading was completed in 2011 using Federal American Recovery and Reinvestment Act (ARRA) monies provided through the U.S. Department of Housing and Urban Development (HUD). Construction of on-site infrastructure started in October 2014 and was substantially completed in August 2015. U.S. Department of Agriculture-Rural Development (USDA-RD) funding for the construction of water and wastewater improvements was used with the assistance of Nā Kūpa‘a O Kūhiō, a non-profit organization that facilitates federal funding opportunities. A Request for Proposals from house developers was issued in January 2017, and resulted in the selection of Gentry Kapolei Development, LLC. Lot selection is anticipated in December 2017, with turnkey house construction to start soon thereafter.

Kauluokaha‘i, Increment IIC, East Kapolei, O‘ahu

These 127 lots are the second increment of residential lots within the Kauluokahai master-planned community. Mass grading was completed in 2011 using Federal American Recovery and Reinvestment Act (ARRA) monies provided through the U.S. Department of Housing and Urban Development (HUD). Engineering and design work started in June 2016. Infrastructure construction is anticipated from late 2018 through the middle of 2020.

Kauluokaha‘i, Increment IIA, East Kapolei, O‘ahu

This 32.6-acre parcel had originally been planned for 157 single-family lots.

To capitalize on the opportunity presented by the proximity of the Honolulu Rail Transit Project's East Kapolei Station, DHHL is preparing a request for proposals (RFP) for the development of the parcel for multi-family residential rentals and commercial uses. The developer would be responsible for designing, financing, constructing, marketing, operating, and maintaining the facilities. Rental income from the commercial operations will subsidize operation and maintenance of the rental units.

Kapolei Ho'olimalima, Kapolei, O'ahu

In 2001, Mark Development, Inc. offered and managed seventy (70) low income single-family home rental units in the Maluohai subdivision of Kapolei. This pilot rental housing project was funded through Low Income Housing Tax Credits to applicants on the Oahu Residential waitlist, whose incomes fell within 50% and 60% of median incomes established by Housing and Urban Development. Seventy (70) applicants completed the 15-year rental compliance period in 2016 and began closing the purchase of home sales in 2017.

Kumuhau, Waimānalo, O'ahu

Infrastructure improvements for fifty-two (52) residential lots, including roadways, water distribution, sewer collection, drainage facilities and utilities were completed in February 2011. Turnkey house construction on forty-five (45) lots commenced in July 2010 and the first home was occupied in February 2011. As of June 30, 2012 all the turnkey homes were occupied. Habitat for Humanity Honolulu assisted six (6) low income families with constructing their houses. Leeward Habitat is assisting with the completion of one (1) of Honolulu Habitats homes. The house on the final lot was constructed by a self-help type partnership between Mustard Seed Miracle and Partners in Development Foundation. The home was completed in September 2016.

Kaka'ina, Waimānalo, O'ahu

This is a 45-lot residential project on a 7-acre parcel acquired from the Department of Land and Natural Resources (DLNR) in 2007. Infrastructure construction started in December 2012. Due to concerns from the surrounding community, a re-design of the project was required. Construction activities slowed while engineering work and processing new County approvals took place. Infrastructure was substantially completed in May 2016. This is the first DHHL residential subdivision to utilize USDA-RD funding for the construction of water and wastewater improvements, with the assistance of Nā Kūpa'a O Kūhiō. The offering notice for turnkey lots was sent out in June 2016. In October 2016, fifteen (15) turnkey lots were selected. House construction began in April 2017 with first home completions estimated in October 2017.

Waimanalo Agricultural Lots, Waimānalo, O‘ahu

The project will consist of the development of approximately ten (10) acres of Hawaiian Home Lands in Waimānalo into seventeen (17) subsistence agricultural lots for native Hawaiian beneficiaries. Site improvements include roadways, water lines, sewer lines, drainage facilities, electrical and communication lines, and lot preparation. The State legislature appropriated \$1,300,000 in the State CIP budget for plans, design and construction for FY 2018.

Sewer System Infrastructure Assessments for Princess Kahanu Estates, Papakōlea, Waimānalo, Wai‘anae, and Nānākuli Homesteads, O‘ahu

ACT 227, Session Laws of Hawai‘i 2014 requires the counties to accept dedication or license of sewer systems servicing Hawaiian Home Lands upon meeting certain conditions. The existing DHHL sewer systems located within City and County of Honolulu streets in the Waimānalo, Papakōlea, Nānākuli, and Wai‘anae subdivisions have been investigated to assess the structural condition and hydraulic capacity, as an initial step in implementing the act.

Papakōlea Sewer System Improvements, Papakōlea, O‘ahu

ACT 122, Session Laws of Hawaii 2014 appropriated \$1,000,000 for construction designs for Papakōlea Sewer System Improvements and related accessory improvements to steep slopes impacting existing sewer lines. DHHL has procured an engineering consulting firm to prepare plans and specifications for improvements to the Papakōlea Sewer System. Construction is expected to be done in four (4) phases. Design of the first phase, which includes the high priority sewer improvements and related slope stabilization work, is complete.

ACT 119, Session Laws of Hawaii 2015 appropriated \$3,750,000 for plans, designs, and construction to rebuild existing sewer systems in DHHL’s Papakōlea Subdivision. After completion of designs and plans above, DHHL plans to implement the construction of the sewer system improvements in late 2017 and 2018.

Wai‘anae/Nānākuli Housing Offering, Wai‘anae and Nānākuli, O‘ahu

Lot selected in January 2017; USDA-RD direct loan application in process.

Habitat Rehab Pre-Owned Home Offering, Nānākuli, O‘ahu

The rehabilitation of the home is continuing utilizing USDA-RD Loan funds.

Voice of America Site, Mā‘ili, O‘ahu

The conceptual master plan has been completed to develop a portion of this 90-acre site for DHHL homesteads. Approximately forty (40) acres of land has been designated for the Kamehameha Schools Community Learning Center at Mā‘ili. The remaining land would be developed by DHHL as a residential community. Implementation of the master plan is proposed to occur in phases and consists

of a mix of single-family and multi-family (duplex) units. The residential community is envisioned to accommodate approximately 253 units, consisting of single-family residences (+/-5,000 square foot lots) and duplex residences (+/-7,500 square foot lots). The State legislature appropriated \$800,000 in the State CIP budget for plans, design, and construction for FY 2018.

Lualualei Subdivision, Lualualei, O'ahu

DHHL is submitting an application for subdivision to the City and County of Honolulu so that seven DHHL lessees will have County lots of record. The lessees were relocated to the site from Pahe'ehe'e Ridge approximately twenty years ago.

Wai'anae Coast Emergency Access Road, Nānākuli, O'ahu

The State legislature appropriated \$3 million in the State CIP budget for plans, land acquisition, design construction, and equipment in fiscal year 2016. DHHL is coordinating this project with Hawai'i State Senator Maile Shimabukuro and the DHHL lessees. DHHL is looking at a number of possible alternative alignments that would address the lessees and community needs and concerns.

Wai'anae Coast Secondary Access Road, Nānākuli, O'ahu

DHHL is working with the Hawai'i State Legislature, Hawai'i State Department of Transportation, and the City and County of Honolulu in developing a parallel route to Farrington Highway in the Waianae-Nanakuli region. The State legislature appropriated \$3 million in the State CIP budget for plans, land acquisition, design construction, and equipment in fiscal year 2018.

Hawaiian Home Lands Lot Development, O'ahu

The State legislature appropriated \$6,900,000 in the State CIP budget for plans, land acquisition, design, construction, and equipment for FY 2018. The project will consist of the acquisition of new land on O'ahu, and the development of that land into new lots for native Hawaiian beneficiaries.

Maui

Kēōkea-Waiohuli, Kula, Maui

The Kēōkea-Waiohuli Development consists of a total of 386 lots comprised of sixty-six (66) Kēōkea farm lots and 320 undivided interest residential lots. Infrastructure improvements for Phase 1 consists of ninety-eight (98) undivided interest residential lots and sixty-six (66) Kēōkea farm lots, and includes work on roadways, offsite water transmission, water distribution, reservoir, drainage facilities and utilities. Site work on Phase 1 began in September 2006 and was completed in March 2010. Due to severe lot drainage concerns, additional engineering work and construction of drainage structures is under design to meet HUD standards for some of the residential lots. DHHL procured a contractor

in 2015 to construct drainage improvements on forty-five (45) lots to be offered to Waiohuli Undivided Interest lessees. An Environmental Review Record was completed as a requirement for use of NAHASDA funds for construction of drainage improvements. \$7,509,000 in NAHASDA funds were encumbered in FY16. Notice to Proceed was issued on May 1, 2016, and construction was substantially complete in spring 2017. Land Development Division assisted in the offering of forty-five (45) vacant lots by providing technical and engineering services to Undivided Interest lessees.

Kēōkea Off-Site Water, Kula, Maui

This project will provide design and construction of offsite agriculture water to support the Kēōkea Farm Lots. The State legislature appropriated \$2 million in the State CIP budget for design and construction in fiscal year 2018.

Kēōkea-Waiohuli, Phase 2, Kula, Maui

This project will design and construct an additional seventy-six residential lots in the Kēōkea-Waiohuli Development. The State legislature appropriated \$1 million in the State CIP budget for plans, land acquisition, design construction, and equipment in fiscal year 2018.

Leiali'i Parkway and Highway, Leiali'i, Maui

This project will plan and design roadway improvements to expand the accessibility to the Villages of Leiali'i, a requirement for the development of Villages of Leiali'i 1B, up to 250 homes. The State legislature appropriated \$1,400,000 in the State CIP budget for plans, land acquisition, design construction and equipment in fiscal year 2019.

Kula Drainage and Safety

This project will provide drainage improvements to mitigate flooding of lots and roadway safety measures. The State legislature appropriated \$1,200,000 in the State CIP budget for design and construction for repair and maintenance in fiscal year 2018.

Kēōkea-Waiohuli Archaeological Preservation Improvements

DHHL's Up Country Kula, Waiohuli and Kēōkea areas are culturally rich in its archaeological resources. Under the consultation of the State Historic Preservation Division of the Hawai'i State Department of Land and Natural Resources, numerous archaeological sites and areas have been designated as "Preservation". Within the Kēōkea-Waiohuli development, two large tracts of land totaling approximately ninety (90) acres have been set aside as archaeological preserves and will never be offered as homestead lots. These areas are currently open to trespassing, hunting, dumping, potential human desecration, natural degradation from the weather elements, and overgrowth of the natural

landscape. The State legislature appropriated \$1 million in the State CIP budget for design and construction for repair and maintenance in fiscal year 2018.

Honokōwai Well, Honokōwai, Maui

An exploratory well located south of the Honokōwai Gulch, West Maui was completed in March 2011. This well will provide a potable water source for the **development of** the Villages of Leiali'i Phase 1B development and other State Housing projects in West Maui. DHHL's engineering consultant is preparing an Environmental Assessment for the development of this potable well, a water transmission plan, designs and plans for a pump, well site, transmission lines, and storage and pressure regulating devices.

Pulehunui Masterplan, Pulehunui, Maui

Act 122, 2014 provided \$4,000,000 for master-planning and design of infrastructure for approximately 936 acres of State lands in Pulehunui in Central Maui, including over 800 acres of DHHL lands. DHHL has procured a community planner to initiate the master-planning and environmental compliances.

The State legislature appropriated \$17,500,000 for the design and construction of sewage treatment facilities for the Pulehunui region in fiscal year 2018.

Moloka'i

Ho'olehua Water System, Ho'olehua, Moloka'i

This is a USDA and Native America Housing and Self Determination Act (NAHASDA) funded project initiated in August 2016 for \$22.3 million to improve/replace portions of the water system in the Ho'olehua and Kalamaula areas. It also includes providing a photo-voltaic (PV) system in the Ho'olehua tank site to offset electricity being used; improvements to the Moloka'i District Maintenance Yard; and equipment necessary to maintain the water system once the improvements are completed. The design contract with Group 70 International, Inc. is about 30% complete. Intending to issue invitation for bids for the project in the fall of 2018.

Kapa'akea Flood Mitigation, Kaunakakai, Moloka'i

Plans and specifications for the construction of flood mitigation measures to protect five homestead residential lots from flooding completed in October 2015, but waiting for the final Environmental Assessment and Hawaiian Homes Commission approval. Applying for Flood Mitigation Grant monies to fund this project, application due April 2017. Invitation for bids will be issued upon funding approval.

**Kanakaloloa Cemetery Improvements, Ho‘olehua, Moloka‘i**

This project consists of cemetery road paving, new parking lot, site preparation for a future pavilion, security rock wall, security area and parking lot lighting, and signage. Invitations for bids for construction of this project have been issued twice with a budget of \$500,000 of DHHL Trust funds. Both times the bids were over \$1 million and therefore a contract was not awarded. The project is on hold until future construction funding available.

Ho‘olehua Scattered Agricultural Lots, Ho‘olehua, Moloka‘i

This project will provide site and infrastructure improvements to allow the habitation and to increase the productivity of existing vacant agricultural lots. The consultant has been selected and the meeting to scope the project has been initiated with fee negotiations to follow. Intending to issue invitation for bids for the project in late 2018. The State legislature appropriated \$1,500,000 in the State CIP budget for design and construction for FY 2018.

Naiwa Agricultural Subdivision, Ho‘olehua, Moloka‘i

This project will provide site and infrastructure improvements to allow the habitation and to increase the productivity of existing vacant agricultural lots. The consultant has been selected and the meeting to scope the project has been initiated with fee negotiations to follow. Intending to issue invitation for bids for the project in late 2018. The State legislature appropriated \$1,500,000 in the State CIP budget for design and construction for FY 2019.

Moloka‘i Veterans Center, Ho‘olehua, Moloka‘i

This project consists of the construction of a second Veterans Center in the Hoolehua area to supplement the Veterans Center in Kaunakakai which will service over 300 veterans on Molokai. Intending to issue invitation for bids in early 2018. The State legislature appropriated \$4 million in the State CIP budget for plans, design, construction, and equipment.

Kaua‘i**Pi‘ilani Mai Ke Kai, Anahola, Kaua‘i**

Phase 1 of the project consisted of eighty (80) improved residential lots. Site work began in September 2006 and was completed in April 2009. As of June 30, 2017, fifty-six (56) houses have been constructed and occupied: thirty-six (36) turn-key, five (5) owner-builder, and fifteen (15) self-help. Two (2) homes under construction in partnership with Habitat for Humanity are nearing completion. LDD assisted in the offering of twenty-two (22) vacant lots by providing technical and engineering services to the Undivided Interest Lessees.

Phase 2 of the project consists of infrastructure improvements for fifty-one (51) single-family house lots. Construction started in June 2013 and was completed

in July 2014. The water system improvements in the amount of \$810,000 were funded by the USDA-RD, through the assistance of Nā Kūpa‘a O Kūhiō.

Habitat Rehab Pre-Owned Home Offering, Anahola, Kaua‘i

In 2016, DHHL selected a family to partner with Habitat to rehabilitate an existing home in Anahola. The rehabilitation of the home has been completed.

Wailua Well #1 Drilling and Casing, Wailua, Kaua‘i

A contract has been awarded to drill and case Wailua Well #1 located in TMK (4) 3-9-02:12 for future homestead development. The construction will consist of drilling 125 feet deep, installing a 10-inch casing, and conducting a pump test to determine the capacity of the well. This project requires Commission of Water Resources Management permit and will be constructed to meet Federal and State Safe Drinking Water standards. Pursuant to Chapter 343, Hawai‘i Revised Statutes, a Finding of No Significant Impact was approved in August 2017 and a Final Environmental Assessment was published in September 2017.

Anahola Farm Lots Water System, Anahola, Kaua‘i

The department is conducting a two-phase study of the Anahola Farm Lots Water System. This potable water source which services seventy-eight (78) farm and residential lots requires remediation work on its water storage facility, pump station and distribution lines. DHHL’s consultant provided an assessment of the system. With the assistance of RCAC, environmental studies were initiated along with community consultation for the design and construction of new source, storage, transmission and distribution system pursuant to USDA RD standards. A Preliminary Engineering Report and USDA RD application was submitted in FY2016. Design phase will commence in 2017 and construction is anticipated to commence in FY18.

Anahola Reservoirs Improvement Project, Anahola, Kaua‘i

Act 122, 2014 provided \$3,000,000 in General Obligation Bond financing for construction improvements of four reservoirs located in the Anahola Valley. Two (2) reservoirs will be improved, while two (2) reservoirs will be decommissioned, pursuant with Dam Safety Act standards. In FY 2016 a contractor was procured for the construction. In 2017, DHHL’s engineering consultant worked to modify the engineering plans and Dam Safety Act permits and approvals. Construction is anticipated to commence in early 2018.

Anahola Village Residence Lot Habitat Offering 2015, Anahola, Kaua‘i

The lease award was recorded and Habitat began construction of this home utilizing USDA-RD loan funds.

Hanapepe Master Plan, Hanapepe, Kaua‘i

DHHL owns approximately 350 acres in Hanapepe, Kaua‘i, acquired through

a land transfer from the Hawai'i State Department of Land and Natural Resources as a settlement for discrepancies in acreage on a statewide basis. In the early 1990's DHHL developed Hanapepe Residential Subdivision, Phase 1 consisting of forty-five (45) lots for turnkey and self-help housing construction. The development of Phase 2 will require additional environmental compliance and the establishment of a masterplan for the remaining acreage to include potential commercial/industrial purposes, community use purposes, along with homestead development, consistent with the Kaua'i Island Plan. The State legislature appropriated \$1 million in the State CIP budget for plans, design and construction for FY 2018.

Kekaha Soil Remediation, Kekaha Residence Lots Unit 4, Kekaha, Kaua'i

In early 2017, due to continued beneficiary concerns about potential soil contamination due to prior dumping in the Kekaha community, DHHL contracted an environmental engineering firm to conduct surface and sub-surface soil testing, as well as fruits and vegetables testing for arsenic, lead, and mercury. Extensive surface soil samples were taken throughout the entire community and analyzed. Extensive sub-surface samples were taken on two lots to retest for metals. To date, all soil test results have shown that levels of metals are below the State Environmental Action Level. As it pertains to trace amounts of naturally occurring metals in the soil, consumption of the fruits and vegetables grown in the community does not pose a risk to human health. The environmental engineering consultant will be preparing a Best Management Practices Plan for the residents of Kekaha Residence Lots Unit 4.

HAWAIIAN HOME LANDS

HAWAIIAN HOMES COMMISSION · DEPARTMENT OF HAWAIIAN HOME LANDS

HOMESTEAD SERVICES DIVISION

The Homestead Services Division is involved in the direct servicing of homestead lessees and applicants for homestead leases.

- Applications Branch
- Loan Services Branch
- District Operations Branch

Homestead Services Division

Applications Branch

The Applications Branch is responsible for ensuring that Department of Hawaiian Home Lands (DHHL) applicants meet the blood quantum requirement of the Hawaiian Homes Commission Act, 1920, as amended. The branch is also charged with the maintenance of applicant records and includes all transactions involving applications such as processing new applications, transfer requests, reinstatements, rescissions and successorships to application rights.

As of June 30, 2017, the DHHL waiting lists reflect a combined total of 44,935* lease applications comprised of applications for residential, agricultural, and pastoral homesteads - an increase of 506* applications on file as compared to the previous fiscal year. As of the same date, the DHHL notes there are 28,123* individual applicants, an increase of 317* applicants over the previous fiscal year. The number of applications and the number of applicants differ because the administrative rules allow each applicant to hold a maximum of two (2) applications - one (1) for a residential lease and the other for either an agricultural lease or a pastoral lease.

During fiscal year 2017, the Applications Branch processed 970 applicant transactions (which includes new applicants and applicant waiting list transfers) requiring Hawaiian Homes Commission action.

**These are preliminary figures as final figures were not yet available when final proofs were submitted for printing. Please call the Application Branch at (808) 620-9220 for final figures.*

Application Branch Annual Summary Report FY 2016-2017 (Compiled 10-03-2017)

Loan Services Branch

The Loan Services Branch (LSB) administers the department's loan origination, loan servicing and loan collection programs. DHHL is authorized by the Hawaiian Homes Commission Act of 1920 to provide loan funds to native Hawaiian beneficiaries and issues guarantees through Memorandums of Understanding (MOU) for loans made by alternative lending sources for the replacement, construction and repair of homes.

The Direct Loan Program run by the LSB is a revolving loan fund. Loans are made available primarily for new loans to homestead lessees for re-awarded home purchases, home construction, and repairs. In fiscal year (FY) 2017, this Branch issued 11 direct loans, totaling approximately \$1.33 million.

The LSB is responsible for the collection of payments of these loans. Funds must be collected in a timely manner so the money can be used for additional loans to help more native Hawaiians. Improving the department's loan collection process makes efficient use of funds and insures that the maximum numbers of beneficiaries will be assisted. Working with loan delinquencies, the LSB also refinances loans and refers borrowers for financial counseling to prevent lease cancellations.

DHHL lessees are also able to access mortgages from private lenders through the Department of Housing and Urban Development's (HUD) Federal Housing Administration (FHA) Section 247 mortgage loans. This lender insured program is by far the largest used funding source among DHHL lessees. In FY 2017, 300 loans totaling some \$72.7 million were granted through this program.

A loan product starting to gain popularity among beneficiaries is the HUD 184A loan program which was first launched in FY 2008. The program enables lessees and the lenders another option for financing from the FHA 247 program. In the HUD 184A program, HUD guarantees the lenders' loans on the DHHL leased land. Also, the guaranty fee paid by the lessee(s) is less than the insurance premium that the lessee(s) would pay for a similar FHA 247 mortgage loan. There were 105 loans for \$25.5 million processed through the HUD 184A loan program during the 2017 fiscal year. The HUD 184A program has proven to be a very popular product for our lessees due to lower closing costs as compared to other mortgage loan products and continues to grow annually.

Lastly, the DHHL has existing MOUs with various lenders to guaranty loans. In FY 2017, DHHL issued 11 guarantees to various lending agencies totaling approximately \$2.9 million.

District Operations Branch

The District Operations Branch is comprised of six district offices located on O‘ahu, Kaua‘i, Moloka‘i, Maui and in East and West Hawai‘i. The offices provide frontline support and services to the homestead lessees, applicants and homestead community associations by managing homestead areas and by assisting in various departmental projects in their respective areas. Neighbor island district offices also provide services to all other DHHL divisions and staff offices and serve as liaison on behalf of the Chairman’s office when called upon. Interacting with private, federal, state and county agencies, the Branch provides and coordinates services for native Hawaiian beneficiaries, including facilitating and processing lessee requests for lease closings; conveyances through successorships, transfers, or assignments; subdivision of homestead lots; relocations; surrenders of homestead leases; authorization to pursue home improvement permits; updating lessee files and successorship designations; and compliance with the conditions of the lease.

The O‘ahu District Office (ODO), in addition to servicing O‘ahu lessee requests; manages, coordinates and finalizes the processing of all transactions and legal documents for homestead lessees including participating in contested case hearings and preparing submittals to the Hawaiian Homes Commission.

During fiscal year 2017, the ODO processed for Hawaiian Home Commission’s approval/ratification, 229 assignment of leases, 193 amendment of leases, 104 designation of successors, 70 non-exclusive licenses, and completed 192 transfers through successorship.

As of June 30, 2017, there were 9,876 homestead leases statewide.

HAWAIIAN HOME LANDS

HAWAIIAN HOMES COMMISSION · DEPARTMENT OF HAWAIIAN HOME LANDS

FISCAL OFFICE

The Fiscal Office is responsible for providing financial information, accounting services, and establishing internal financial control policies and procedures for the Department.

Fiscal Office

The Fiscal Office is responsible for providing financial information, fiscal accounting services which includes, but not limited to, receipt of monies, processing of payroll, purchase orders, contracts for certification, payments of invoices which includes travel and purchasing card, and accounting of loans and leases. The office is also responsible for establishing internal financial control policies and procedures for the Department of Hawaiian Home Lands (DHHL).

The Fiscal Office also provides valid, reliable, properly classified financial data to the State of Hawai'i Department of Accounting and General Services (DAGS) for incorporation in the State of Hawai'i Comprehensive Annual Financial Report (CAFR) and DHHL's independent auditors for preparation of the department's annual audited financial statements.

In 2017, the Fiscal Office received and processed receipts from various sources including DHHL's water systems, principal and interest payments on loans, including homestead leases, non-homestead income producing leases (i.e., general leases, rights-of-entries and licenses) and federal grants. The Fiscal Office also expended funds for operations and capital improvements as identified and authorized in the 2017 Operating Budget and Capital Improvement Projects Budget.

The Fiscal Office plays a vital role in establishing and maintaining internal controls to ensure the data in the financial statements and reports are reliable, safeguarding the department's assets, promoting operational efficiency and ensuring the department's operations follow DHHL's policies, goals and objectives as well as laws, rules and regulations that govern DHHL.

The Fiscal Office maintains the department's accounting records and prepares the department's financial reports which conform to generally accepted accounting standards.

The Department of Hawaiian Home Lands 2017 Financial and Compliance Audit Report is "Unmodified". It is the best type of audit report an auditee may receive from an external auditor because the auditor has concluded that the financial statements are presented fairly in conformity with accounting principles generally accepted in the United States of America.

The Department's financial statements, taken from the 2017 Financial and Compliance Audit Report for the period ended June 30, 2017 is included in this year's annual report.

DHHL's 2017 Financial and Compliance Audit Report may be viewed at DHHL's website at dhhl.hawaii.gov/fo

HAWAIIAN HOME LANDS

HAWAIIAN HOMES COMMISSION · DEPARTMENT OF HAWAIIAN HOME LANDS

LAND MANAGEMENT DIVISION

The Land Management Division is responsible for managing all non-homestead DHHL assets. These lands comprise approximately 80 percent of the Hawaiian Home Lands inventory and include lands utilized for agricultural production, pastoral purposes, commercial and industrial uses. Through its various land dispositions, LMD generates revenue to support homestead development projects.

Land Management Division

The Land Management Division (LMD) is responsible for the management of all Department of Hawaiian Home Lands (DHHL) non-homestead assets. These lands comprise the bulk of the DHHL's inventory (approximately 80 percent) and include those utilized for agricultural production, pastoral purposes, and commercial and industrial use. Through its various land dispositions, the LMD generates revenue to support homestead development projects. The LMD consists of three separate but interrelated branches: (1) Land Management, (2) Income Property, and (3) Technical Services.

The Land Management Branch (LMB) is responsible for management of all lands unencumbered by homestead use. The LMB also provides support to the DHHL's Land Development Division (LDD) by issuing permits and licenses. Issuance of dispositions such as Right-of-Entry and License Easements to the various state and county agencies, which require access and use of Hawaiian Home Lands for infrastructure and utilities purposes, assists LDD prior to their development of homestead communities.

The Income Property Branch (IPB) is specifically tasked with generating revenue from the development and long-term leasing of DHHL assets not slated for residential use. The income generated and the services provided by the IPB are integral components of the DHHL's goals towards self-sufficiency and community building. As such, the IPB has an integral role towards one of the Trust's primary goals, which is to place native Hawaiians on the land.

The Technical Service Branch (TSB) manages the land inventory of Hawaiian Home Lands prior to homestead disposition. Its responsibilities include database management of all non-homestead assets. The TSB also oversees the appraisal process for the rental, acquisition, exchange, licensing, and general leasing of the DHHL's non-homestead properties. Third-party appraisers are hired for the valuation of the LMD assets to ensure that the Trust is fairly compensated by market standards in its dispositions.

Significant Events and Activities in Fiscal Year 2017

Status of Revocable Permit (RP) Program

In its status report to the Hawaiian Homes Commission in December, 2016, LMD confirmed that the following recommendations as proposed by then Governor Neil Abercrombie's Ad Hoc Advisory Group in June 2014 have been completed:

- Cease issuance of new RPs until a reformed program is in place
- Review existing RPs for violations
- Transition of existing RPs to Limited Rights-of-Entry

These recommendations by the Ad Hoc Advisory Group in 2014 were formulated to address challenges that LMD was experiencing with the RP program at that time due to:

- A dramatic increase in the number of requests for land
- Insufficient resources to maintain inspection and enforcement measures
- Permittees who developed a sense of ownership and entitlement to the property; short term use became longer term
- Incidents of unpermitted subleasing along with other violations
- External forces which had been exerting influence on management of the RP program

Some of the more complex components of the new program, which will also seek to incorporate the issuance of RPs for pastoral and/or agricultural uses to beneficiaries on the pastoral and/or agricultural waitlist starting from the first applicant, are in various stages of completion and require funding or further research and follow-up:

- Hire a commercial real estate consultant
- Inventory non-homesteading lands
- Issue licenses and leases for lands which development is not planned in the next 20 years
- Formulate a new permitting system for lands envisioned to be developed soon (less than 20 years)

Once the details of the new RP program are finalized, statewide beneficiary consultation meetings to inform beneficiaries and tenants of DHHL of the proposed new RP program will be undertaken before presentation to the Hawaiian Homes Commission for approval.

Nānākuli Village Center Development Update

One of the commercial developments that will undoubtedly be a “jewel” on the Wai‘anae Coast, on the Island of O‘ahu, will be the Nānākuli Village Center. It will be situated on Hawaiian home lands next to the Nanaikapono Elementary School in Nanakuli, under General Lease No. 281 issued to the Nānākuli Hawaiian Homestead Community Association (NHHCA). Construction will be in phases and scheduled to start in late 2017. Offsite improvements have already begun that include construction of a signalized intersection on Farrington highway, relocation of the signalized pedestrian crosswalk, installation of stacking and acceleration lanes, construction of new sidewalks, and relocation of utility lines. When

completed, Nānākuli Village Center will feature a commercial center with Long's Drugs as the anchor tenant, the Agnes Cope Learning Center, a Wai'anae Coast Comprehensive Health Center satellite clinic, a kidney dialysis center, a community center, and affordable rental housing for kupuna.

Although the lease was executed in 2008, it was nearly impossible for NHHCA to obtain the financing for construction of the Center. NHHCA was a 501(c)(3) nonprofit organization with no tangible assets other than its 65-year lease from DHHL. Following numerous attempts to obtain financing through commercial lenders and government sources, NHHCA finally succeeded in obtaining a construction loan from American Savings Bank that was subject to many conditions of which LMD has provided assistance to satisfy. One of the major attempts to facilitate the Center's development has been to submit the property under a Condominium Property Regime (CPR) that created condominium units so that NHHCA can sublease the commercial spaces to individual tenants who would obtain their own financing. LMD assisted in amending the lease twice during Fiscal Year 2017 to effect changes to the land description, the CPR, and the extension to the general lease rent commencement date, among other things.

Results of Geophysical Surveys of DHHL lands at Humuula

Geophysical data surveys undertaken by the University of Hawai'i, in Humuula, on Hawai'i Island, under a Right-of-Entry in 2015, have yielded information suggesting the presence of groundwater and hydrothermal resources in the region. Non-invasive geophysical methods were used to determine whether or not there was evidence of high elevation groundwater or evidence for a deeper geothermal system underground. Following careful analysis of the data which took more than a year, Professor Donald M. Thomas of the University of Hawai'i at Hilo's Center for the Study of Active Volcanoes presented his findings to the Hawaiian Homes Commission at its May 2017 meeting in Waimea and confirmed the significant probability of those resources on Hawaiian home lands along Mana Road, on the East flank of Mauna Kea. The data also suggested that groundwater may be at a shallower depth than expected.

Thomas along with Professor Nicole Lautze of the University of Hawai'i at Mānoa, will be seeking funding from the U. S. Department of Energy for exploratory drilling estimated to cost up to \$1.5 million and expect a decision on the funding request by the end of 2017. The purpose of drilling an exploratory well will be to document and quantify the water and geothermal resources, at the depth they are present, where the aquifers are, and how extensive they are. For the geothermal resources, the drilling will document the temperature and how fast the temperature increases as the drill goes deeper into the well.

Confirmation of an ample water resource, especially, and its development would be a major step to active homesteading and revenue-generating projects for DHHL in the Humu'ula region.

Kapolei Homestead Community Takes a Step Closer to Sustaining its Cultural Heritage Center

The Hawaiian Homes Commission (HHC) gave preliminary approval in March, 2017 for the Kapolei Community Development Corporation (KCDC) to submit the premises it holds under a 65-year lease (General Lease No. 290) for a condominium property regime (CPR). The premises are Hawaiian home lands in Kapolei, on the Island of O‘ahu, comprised of 4.992 acres at the corner of Kualaka‘i Parkway and Kapolei Parkway, directly across from the first phase of the Ka Makana Ali‘i Shopping Center.

The five-unit commercial-retail condominium envisioned will help facilitate negotiations underway with a private developer for a sublease of the premises whereby the rental revenue received by KCDC will be used to build-out, maintain, and sustain its community project, the Kapolei Heritage Center. By the creation of a CPR, sub-lessees of the individual condominium units will be able to take out separate mortgages and be responsible for their own real property taxes and insurance, thereby minimizing any risk and liability to KCDC. The heritage center is situated adjacent to DHHL’s Kapolei headquarters and will encompass a community center and social services facilities benefitting native Hawaiians residing in Kapolei and the broader West O‘ahu area. Once the condominium process is finalized, the general lease will be amended for HHC approval.

Preparation for Redevelopment Continues at Stadium Bowl-O-Drome Site

Environmental and other due diligence studies continue at the former Bowl-O-Drome site at 820 Isenberg Street, Honolulu, as part of the master planning to redevelop the property. A consultant team, headed by PBR Hawaii & Associates, Inc. began site visits in March 2016 to conduct studies and address potential issues affecting redevelopment of the property such as infrastructure capacity, the historical status of the Bowl-O-Drome building, hazardous materials in the building and on-site, traffic, noise, and subsurface conditions. LMD procured a 24/7 guard service to secure the site in May 2017 after the long-time permittee finally vacated the property and relocated its operation to Sand Island.

The site will provide DHHL with opportunities to increase revenues and provide housing within a mixed-use building. The housing component could be for kupuna rental housing, market-rate condo units for DHHL beneficiaries who are first-time homeowners, student housing, or a combination of these. The location is ideal for such a project because of its proximity to employment centers in Waikiki and downtown Honolulu; proximity to the University of Hawai‘i Manoa Campus; and being adjacent to a public park. The site will also be near a proposed rail station at the corner of Date Street and University Avenue should the planned extension of the rail line be built from Ala Moana Center to the University.

Once all the on-site studies are done; beneficiary and community input is received; the master planning and environmental review processes are completed; and the constraints and opportunities are clear, LMD will integrate them into a Request for Proposals for a developer of the project with the land already cleared of the Bowl-O-Drome building.

Transit-Oriented Development Conceptual Planning

LMD, in partnership with the DHHL's Land Development Division and Planning Office, has been involved in transit-oriented development for DHHL lands located in Shafter Flats and Kapālama, on the Island of O'ahu. Both these areas are within one-half mile of rail transit stations that will be part of the Honolulu Rail Transit Project currently under construction.

PBR Hawaii & Associates, Inc. was awarded the consulting contract and is scheduled to begin work in July 2017 to assist with development of the conceptual plans. The plans are expected to be completed by the end of December 2017. As part of the due diligence, meanwhile, engineering and geotechnical studies will be arranged to confirm the lands' ability to support the development types envisioned in these areas.

Solicitations for Developer Issued for Waimea Hydroelectric Project

The opportunity for a renewable energy project to benefit Kaua'i residents and to be built on Hawaiian Home Lands in the Waimea District arose with the landmark settlement agreement reached on April 21, 2017, between the Poai Wai Ola/West Kaua'i Watershed Alliance, the State Agribusiness Development Corporation, the Kekaha Agriculture Association, Kaua'i Island Utility Cooperative (KIUC) and the DHHL. The agreement, which the Hawai'i State Water Commission approved, resolved issues regarding the use of the water and alleged claims of waste, and restores Mauka to Makai flows in the Waimea River. The hydroelectric project, when constructed, will help support future homesteading projects and agricultural cultivation in the area through infrastructure development, including upgrading DHHL's Pu'u 'Ōpae reservoir.

The DHHL issued a public notice for prospective developers on May 12, 2017 to submit information and be considered for the developer selection process pursuant to Section 171-95.3, Hawai'i Revised Statutes. KIUC was selected as the potential hydroelectric project developer/lessee subject to the completion of beneficiary consultation meetings and public hearings scheduled in July 2017 on the proposed General Lease of DHHL lands for a 65-year term.
