A BILL FOR AN ACT

RELATING TO SCHOOL-BASED HEALTH SERVICES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

- 1 SECTION 1. The legislature finds that the Hawaii keiki:
- 2 healthy and ready to learn program (Hawaii keiki program) is
- 3 designed to improve access to, and the quality of, school-based
- 4 health services available to Hawaii's public school students by
- 5 coordinating and expanding existing efforts of community
- 6 partners and resources. This partnership program with the
- 7 University of Hawaii at Manoa school of nursing and dental
- 8 hygiene supports the department of education in achieving
- 9 student, school, and system success by providing school health
- 10 nursing and primary care services to public schools in five
- 11 complex areas.
- 12 In 2015, the legislature appropriated general funds to
- 13 improve access to, and increase the quality of, health services
- 14 available to Hawaii's public school students. This
- 15 appropriation led to the expansion of the Hawaii keiki program,
- 16 with five advanced practice registered nurses and five
- 17 registered nurses serving seven complex areas across three

- 1 islands. During this time, the Hawaii keiki program also
- 2 established five school-based health centers.
- 3 The legislature further finds that the department of
- 4 education is working with other state agencies, partnering
- 5 organizations, and families to improve attendance, behavior, and
- 6 course marks by partnering to coordinate wraparound services
- 7 that address non-school factors that impede student success.
- 8 Further, through the Hawaii keiki program collaboration, the
- 9 departments of health and human services have identified the
- 10 extent of services provided within each department targeted to
- 11 public school children and the need to coordinate internal
- 12 departmental activity and cross departmental efforts to develop
- 13 sustainable school-based health services.
- 14 The legislature additionally finds that chronic
- 15 absenteeism, poor health, and delayed or limited access to
- 16 health care and preventive services continue to hinder academic
- 17 success and meeting the needs of the whole child. The
- 18 legislature acknowledges that the Hawaii keiki program is an
- 19 effective means by which to continue collaboration between
- 20 health, human services, and education policymakers and providers
- 21 to achieve sustainable, comprehensive school-based health

- 2 outcomes of Hawaii's public school students. Working with each
- 3 complex area superintendent and school principals, the Hawaii
- 4 keiki program builds and enhances school-based health services
- 5 that reflect the specific needs of the individual complex area
- 6 according to student demographics, staffing, available support
- 7 services, and access to health care within the community,
- 8 including:
- 9 (1) Providing comprehensive screening for physical and behavioral health conditions;
- 11 (2) Providing referrals to primary and behavioral health12 care and patient-centered medical home services;
- (3) Preventing and controlling communicable diseases andother health problems;
- 15 (4) Providing emergency care for illness or injury; and
- 16 (5) Collaborating with community partners, including
 17 federally qualified health centers, the Hawaii chapter
 18 of the American Academy of Pediatrics, Hui for
 19 Excellence in Education Coalition, and other key
 20 stakeholders to develop and implement a comprehensive
- 21 plan to implement school-based health.

1	The legislature also finds that the expected cost to
2	continue and expand the Hawaii keiki program to include students
3	from pre-kindergarten through high school in the fifteen
4	department of education complex areas statewide; expand the
5	program to allow the Hawaii state public charter school
6	commission to launch the program in two public charter schools

8	health services and establish a pilot oral health screening and

12	annually, in addition to a one-time allocation of \$500,000 for
13	an evidence based vision screening tool. These funds will
14	additionally establish school health services coordinator roles
15	in the department of health and the MedQUEST division of the
16	department of human services.

18	keiki: healthy and ready to learn program, provide funding to
19	expand and sustain the program, and appropriate funds to
