# A BILL FOR AN ACT

RELATING TO THE UNIVERSITY OF HAWAII.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. Due to a variety of factors, Hawaii has long  
2 suffered from a shortage of qualified public-school teachers.  
3 This shortage not only continues but is worsening. Fewer  
4 graduates from Hawaii teacher education programs are entering  
5 the profession. According to the Hawaii State Teachers  
6 Association, the number of graduates joining the department of  
7 education fell by nearly thirty per cent, from five hundred  
8 forty-five in the 2010-11 school year to three hundred  
9 eighty-seven in the 2016-17 school year. Furthermore, four  
10 hundred eleven public-school teachers resigned and left Hawaii  
11 in 2017, compared to two hundred sixty-six in 2012 and two  
12 hundred twenty-three in 2010.

13           In a presentation to the board of education on June 21,  
14 2018, the Hawaii State Teachers Association testified that  
15 teacher vacancies increased fifty-one per cent from 2011 and the  
16 number of unlicensed teachers who do not meet state  
17 qualifications rose sixty-three per cent from 2011.

1 Data released by the department of education on  
2 November 15, 2018, revealed that out of a total 13,437 teaching  
3 positions in 2018, five hundred eight spots were filled by  
4 instructors who had not completed a state-approved teacher  
5 preparation program. An additional five hundred twenty-one  
6 spots were vacant as of August 1, 2018. As a result, one  
7 thousand twenty-nine positions statewide are not filled by  
8 highly qualified teachers.

9 In comparison, during the 2012-13 school year, out of a  
10 total of 12,934 teaching positions, two hundred seventy-four  
11 were filled by emergency hires and three hundred thirty-four  
12 spots were vacant as of August 1, 2012, for a total of six  
13 hundred eight positions not filled by certified teachers during  
14 that school year.

15 The recent data reflects another long-term trend: teachers  
16 leaving Hawaii has outpaced retirement as the top reason for  
17 attrition in the last three years. During the 2017-18 school  
18 year, four hundred twenty-three teachers left Hawaii for the  
19 mainland, a seventy-one per cent increase from five years ago.

20 The legislature finds that the University of Hawaii system  
21 does not offer a sufficient number of classes in their major for

1 students who are pursuing undergraduate or graduate degrees in  
2 the field of education, especially distance-learning classes.  
3 The legislature further finds that this issue is a matter of  
4 statewide concern that falls under its purview pursuant to  
5 article X, section 6, of the Hawaii State Constitution.

6 The purpose of this Act is to require the University of  
7 Hawaii to establish additional distance-learning classes in  
8 teaching for students who are pursuing undergraduate or graduate  
9 degrees in education.

10 SECTION 2. (a) Beginning with the 2020-2021 academic  
11 year, the University of Hawaii shall establish additional  
12 distance-learning classes in teaching for students who are  
13 pursuing undergraduate or graduate degrees in education.

14 (b) As used in this section, "distance learning" means a  
15 method of education in which lectures are broadcast or classes  
16 are conducted over the Internet and enrolled students are not  
17 required to attend lectures or classes at a physical campus of  
18 the University of Hawaii.

19 SECTION 3. This Act shall take effect on July 1, 2035;  
20 provided that this Act shall be repealed on December 31, 2023.

**Report Title:**

University of Hawaii; Distance-learning; Teaching

**Description:**

Requires the University of Hawaii system to create additional distance-learning classes in teaching for students who are pursuing undergraduate or graduate degrees in education. Effective 7/1/2035. (SD1)
