
HOUSE CONCURRENT RESOLUTION

REQUESTING THE ATTORNEY GENERAL TO CONVENE AN AUTONOMOUS VEHICLE
LEGAL PREPARATION TASK FORCE.

1 WHEREAS, nearly every major automaker worldwide is working
2 diligently toward deploying autonomous vehicles, or vehicles
3 that drive with little or no human intervention; and
4

5 WHEREAS, autonomous vehicles benefit society by lessening
6 accidents and related injuries and deaths, reducing traffic-
7 related stress, lessening greenhouse gas emissions, easing
8 traffic congestion, and providing transportation for those
9 unable to drive; and
10

11 WHEREAS, international companies in several locations have
12 begun using autonomous vehicles for commercial purposes, and
13 current autonomous vehicle industry trends suggest
14 overwhelmingly that all autonomous vehicles will be electric,
15 which could contribute significantly to Hawaii's clean energy
16 goals; and
17

18 WHEREAS, twenty-nine states and Washington D.C. have
19 enacted legislation related to autonomous vehicles; and
20

21 WHEREAS, governors in eleven states, including Hawaii, have
22 issued executive orders related to autonomous vehicles; and
23

24 WHEREAS, despite the trends toward eventual adoption of
25 autonomous vehicles, Hawaii law is silent with respect to
26 autonomous vehicle testing or use; and
27

28 WHEREAS, several factors make Hawaii an ideal location for
29 autonomous vehicle testing and use, including:
30

H.C.R. NO. 220

- 1 (1) A lack of shared state borders, which mitigates
- 2 jurisdictional concerns;
- 3
- 4 (2) Weather that is ideal for autonomous vehicle batteries
- 5 and calm enough for autonomous vehicles to easily
- 6 navigate;
- 7
- 8 (3) Predictable yet varied microclimates and traffic
- 9 patterns that allow testing in different conditions on
- 10 short notice; and
- 11
- 12 (4) A robust telecommunications infrastructure that
- 13 includes wired and wireless infrastructure, multiple
- 14 cloud providers, and ample undersea fiber optic
- 15 capacity to all our neighbors; and
- 16

17 WHEREAS, adaptation of any new industry and technology
 18 presents significant legal and societal challenges; and

19

20 WHEREAS, without testing and regulation of the inevitable
 21 autonomous vehicle industry, the State is at risk of lawsuits
 22 and societal confusion, among other concerns; and

23

24 WHEREAS, the adaptation and testing of autonomous vehicles
 25 should be examined for the State to prepare for the legal and
