# HOUSE CONCURRENT RESOLUTION

SUPPORTING THE INTENT OF THE INTERNATIONAL MOONBASE ALLIANCE TO  
ADVANCE SPACE EXPLORATION AND SPACE SETTLEMENT IN THE STATE  
BY BUILDING AN INTERNATIONAL LUNAR RESEARCH AND DEVELOPMENT  
PARK ON THE ISLAND OF HAWAII.

1           WHEREAS, Hawaii has a strategic location near the equator  
2 and in the middle of the Pacific Ocean, resident expertise in  
3 aerospace-related technologies, and terrain that is similar to  
4 the Moon and Mars; and

5  
6           WHEREAS, Hawaii has played a seminal role in the national  
7 space program by providing astronaut training for the Apollo  
8 lunar missions and cutting-edge applications of aerospace-  
9 related technologies in planetary geosciences, satellite  
10 communications, space-based remote sensing, environmental  
11 monitoring, and deep-space surveillance; and

12  
13           WHEREAS, the International MoonBase Alliance is a group of  
14 representatives from various organizations who are knowledgeable  
15 about the aerospace industry; and

16  
17           WHEREAS, the International MoonBase Alliance supports the  
18 global effort led by renowned scientists and engineers to create  
19 the International Lunar Research and Development Park; and

20  
21           WHEREAS, the International Lunar Research and Development  
22 Park invites all space agencies, space companies, and space  
23 institutions to join the International MoonBase Alliance and  
24 come to Hawaii to do the research and development necessary to  
25 robotically build a sustainable permanent human settlement on  
26 the Moon and eventually on Mars; and

1 WHEREAS, the International MoonBase Alliance and the  
2 National Aeronautics and Space Administration's Ames Research  
3 Center have had ongoing conversations about establishing a two-  
4 campus Lunar University (one in Silicon Valley and the other on  
5 the Island of Hawaii); and

6  
7 WHEREAS, the International MoonBase Alliance plans to  
8 provide land to build research facilities and MoonBase  
9 prototypes on the Island of Hawaii; and

10  
11 WHEREAS, the United States is an ideal country to develop a  
12 MoonBase due to its political stability and relations with other  
13 international space agencies; and

14  
15 WHEREAS, Hawaii is the most ideal state to develop a  
16 MoonBase due to its volcanic rock being more than ninety-five  
17 percent chemically identical to the rock of the Moon and Mars;  
18 and

19  
20 WHEREAS, new high-paying job opportunities are rapidly  
21 emerging in this industry related to robotics, renewable energy,  
22 additive manufacturing, and more, that may benefit the State's  
23 economy and encourage its talented young workforce to stay in,  
24 or return to, Hawaii; and

25  
26 WHEREAS, this partnership could provide economic and  
27 educational benefits for the State while providing the necessary  
28 environment and community for international space technology  
29 advancements; now, therefore,

30  
31 BE IT RESOLVED by the House of Representatives of the  
32 Thirtieth Legislature of the State of Hawaii, Regular Session of  
33 2019, the Senate concurring, that this body supports the intent  
34 of the International MoonBase Alliance to advance space  
35 exploration and space settlement in the State by building an  
36 International Lunar Research and Development Park on the Island  
37 of Hawaii; and

1 BE IT FURTHER RESOLVED that certified copies of this  
2 Concurrent Resolution be transmitted to the Governor;  
3 Administrator of the National Aeronautics and Space  
4 Administration; Administrator of the Federal Aviation  
5 Administration; Commander of United States Indo-Pacific Command;  
6 Commanding General of the United States Army Pacific; and  
7 Director of Business, Economic Development, and Tourism.
