SENATE RESOLUTION

REQUESTING THE DEPARTMENT OF EDUCATION TO CONDUCT A STUDY TO ASSESS THE ADEQUACY OF THE DEPARTMENT'S VOCATIONAL EDUCATION PROGRAMS TO PREPARE STUDENTS FOR A CAREER IN A VOCATION.

1 WHEREAS, a four-year college degree may not be suitable for
2 all students; and

3
4 WHEREAS, the daunting financial commitment necessary to
5 obtain a four-year college degree may leave some students
6 heavily indebted after college; and

7
8 WHEREAS, many vocational career fields provide suitable
9 incomes for the State's middle-class; and

10
11 WHEREAS, many students would benefit from the Department of
12 Education offering courses and training in vocational career
13 fields; and

14
15 WHEREAS, the Hawaii P-20 College and Career Readiness
16 Indicators Report of 2017 found that of the State's high school
17 students, seventeen percent did not graduate and only fifty-five
18 percent enrolled in post-secondary education, of which only
19 thirty-two percent enrolled in a four-year university; and

20
21 WHEREAS, according to the June 13, 2018, edition of Forbes
22 magazine, more than forty-four million borrowers currently owe a
23 total of \$1,500,000,000 in student loans, with the average
24 college graduate owing \$37,172 in student loans in 2016; and

25
26 WHEREAS, according to the National Center for Education
27 Statistics, three out of ten high school graduates nationwide
28 who attended four-year public universities failed to earn their
29 degrees within six years; and

1 WHEREAS, according to the Georgetown University Center on
2 Education and the Workforce, there are nearly thirty million
3 jobs in the United States that pay an average of \$55,000 per
4 year and do not require a bachelor's degree; and
5

6 WHEREAS, according to the United States Department of
7 Labor, there were 6,600,000 job openings in early 2018 in
8 vocational career fields; and
9

10 WHEREAS, due to lack of training in particular skills, the
11 demand for skilled workers in various industries throughout the
12 nation will exceed the number of available workers; and
13

14 WHEREAS, the United States Department of Education,
15 Department of Transportation, and Department of Labor
16 collaboratively examined specific transportation subsectors,
17 including trucking; transportation; highway construction and
18 maintenance; transit and ground passenger transportation; rail
19 transportation; air transportation; and maritime, and projected
20 that annual job openings in these subsectors will be sixty-eight
21 percent larger than the number of individuals completing related
22 education programs; and
23

24 WHEREAS, the United States Bureau of Labor Statistics
25 projects that in four years, careers in construction, health
26 care, and personal care will account for one-third of all new
27 jobs in the nation; now, therefore,
28
