

**Kimi Mikami Yuen, LEED AP BD+C**  
**Principal/Planner, PBR Hawaii & Associates, Inc.**

As a Principal with PBR HAWAII, Ms. Yuen manages a variety of planning and design projects as well as the successful preparation of land use permits, environmental assessments and environmental impact statements. Her work includes a diverse range of regional and long-range land plans, master planned communities, public and private sector projects, community outreach and meeting facilitation, urban design, educational facilities, and park master plans. On Kaua'i, Ms. Yuen worked closely with State Parks and the local community on the Hā'ena State Park Master Plan and Environmental Impact Statement. She also completed the update of the South Kaua'i Community Plan, which integrates long-range land use and transportation solutions to encourage sustainable development and appropriate growth based on the community's vision for the region. Her current projects include the County of Maui's Wailuku Civic Complex and the Mayor Wright Homes Redevelopment Project on O'ahu.

She has coordinated and led extensive community outreach efforts, testified in front of various commissions and councils on behalf of clients, and is actively involved in several professional organizations including the American Planning Association, of which she is the current Past President for the Hawai'i Chapter, the Urban Land Institute, and the US Green Building Council. She is also a member of the University of Hawai'i Department of Urban and Regional Planning (DURP) Professional Council and DURP 'Ohana Board.
