**Testimony in SUPPORT of HB220 PROPOSED SD1
RELATING TO HEALTH**

SENATOR ROSALYN H. BAKER, CHAIR
SENATE COMMITTEE ON COMMERCE, CONSUMER PROTECTION, AND HEALTH

SENATOR DONOVAN M. DELA CRUZ, CHAIR
COMMITTEE ON WAYS AND MEANS

Hearing Date: April 02, 2019

Room Number: 211

1 **Fiscal Implications:** HB220, HD1, Proposed SD1 appropriates \$2,374,847 in general funds to
2 support 5.0 full time equivalent (FTE) positions and operational funds for comprehensive family
3 planning services for fiscal years 2019-2020 and fiscal year 2020-2021. This proposed measure
4 reflects the appropriation priorities of the Governor's Executive Biennium Budget Request and
5 changes the means of financing (MOF) for five (5) permanent FTE employees and operational
6 funds from federal to general funds.

7 **Department Testimony:** The Department strongly supports this proposed measure that
8 appropriates funds for continued operations of the Department of Health (DOH) Family Planning
9 Program due to rule changes in the federal Title X program (42 CFR Part 59).

10 The DOH recognizes the importance of the Family Planning Program services and preventive
11 health services for low income, the underinsured and other individuals with limited access to
12 services. The DOH Family Planning Program was established in 1972. For over 45 years, these
13 Family Planning services included contraceptive services, client-centered education (based on
14 Hawaii Revised Statutes § 321-11.1 [2009]), non-directive counseling, and referrals. The
15 Department directly funds these family planning services on six islands (Kauai, Oahu, Molokai,
16 Maui, Lanai, and Hawaii) through 12 contracts at 31 services sites. Between July 1, 2016 and

1 June 30, 2017, the DOH Family Planning Program service providers served 16,002 unduplicated
2 clients across the state, of which 95% were women.

3 Using the Guttmacher Health Cost Calculator (<https://data.guttmacher.org/calculator>), the
4 Department estimates that from July 1, 2016 to June 30, 2017, publicly funded family planning
5 in Hawaii prevented: 3,250 unintended pregnancies, 1,530 unplanned births, 1,100 abortions,
6 620 miscarriages, 400 unplanned births after short (<18 months) inter-pregnancy intervals, 240
7 unplanned preterm/low-birth-weight births, 160 chlamydia infections, 20 gonorrhea infections,
8 20 pelvic inflammatory disease cases, and 10 HIV infections. This calculates to a total net
9 savings of \$26,651,670 to Hawaii.

10 On March 4, 2019 the U.S. Department of Health and Human Services published in the Federal
11 Register that the new 42 CFR Part 59 rules would go into effect on May 3, 2019. The new rules
12 that govern the acceptance of funds will undermine the quality and success of our longstanding
13 Family Planning Program. The Department believes that the following would occur due to
14 changes in the Title X rules: 1) uninsured and low income women and men would have very
15 limited access to family planning services; 2) unintended pregnancies would increase; 3) teen
16 pregnancies would increase as services ordinarily available at the clinics would be limited or
17 non-existent; 4) there would be an increase of births within the most vulnerable population and a
18 potential increase in the use of public assistance funds; 5) sexually transmitted infections—
19 including Human Immunodeficiency Virus (HIV)—and pelvic inflammatory diseases would go
20 undetected and untreated increasing the rates of disease in communities; 6) infertility rates would
21 rise; 7) overall health outcomes and referrals to other non-family planning services (i.e. alcohol,
22 behavioral health, etc.) would be compromised; and 8) health services programs and clinic
23 infrastructures in rural communities would be severely limited.

24 The DOH reviewed the 2018 Notice of Proposed Rulemaking, 42 CFR Part 59, Docket No.:
25 HHS-OS-2018-0008 (RIN 0937-ZA00) Compliance With Statutory Program Integrity
26 Requirements for the Title X Family Planning Program. The Department found that the rules
27 would impose coercive standards of care on patients, subvert the nationwide network of family

1 planning providers that Title X supports, and diminish access to affordable care. These changes
2 will limit the options for persons accessing family planning program services thereby increasing
3 long-lasting negative impacts with threats to overall health and well-being.

4 If the new rules go into effect, we cannot accept Title X grant funds and need to replace federal
5 funding for important family planning services with state funds through this bill. This measure
6 will institutionalize the DOH Family Planning Program and solidify comprehensive family
7 planning options Hawaii residents, and allow DOH Family Planning Program service providers
8 to deliver voluntary, client-centered, non-directive, quality clinical family planning and related
9 preventive health information, education, counseling, and referrals to women and men, with
10 priority given to low-income and uninsured individuals statewide.

11 DOH is committed to seeking those federal funds that support quality, comprehensive, evidence-
12 based, medically accurate, and effective family planning services to supplement state funding.

13 Thank you for the opportunity to testify.

14 **Offered Amendments:**

15 The department respectfully proposes three amendments relating to: 1) Title X family planning
16 program, 2) a personal emergency response system tax credit, 3) EMS operational and collective
17 bargaining funds, and 4) additional budget priorities.

18 Family Planning Program

19 Change lines 4 and 5 on page to read: “ADD POSITIONS AND FUNDS TO REPLACE
20 FEDERAL FUNDS FOR THE FAMILY PLANNING PROGRAM [~~TITLE X~~].” Suggest
21 modifying the language of the measure to reflect the appropriation as a recurring item in the
22 Program ID (HTH 560) budget.

23 Personal Emergency Response System Tax Credit

1 Regarding a proposed Personal Emergency Response System (PERS) tax credit program, the
2 department respectfully requests the following resources to implement and maintain the program,
3 contingent on enactment of the program, for program ID HTH-907/AP:

- 4 • FTE permanent Program Specialist, preferably SR-22
- 5 • \$25,000 annual operating funds
- 6 • Temporary exemption from chapter 91

7 The departments has no expertise with consumer electronic devices like PERS and little
8 expertise with tax credit programs. Uptake is expected to be high, perhaps thousands or tens of
9 thousands of applications due to the affordability of PERS, which range from \$20 to several
10 hundred dollars, as well as need in the community for frail kupuna, disabled persons, individuals
11 at risk of “wandering” due to Alzheimer’s disease or dementia, and others.

12 At least one new staff person is required to conceptualize a new program, promulgate
13 administrative rules, exercise judgement on qualifying technologies and products, maintain
14 highly confidential records (at a minimum relating to health status, personal and family income,
15 and social security numbers), and process voluminous paperwork driven by deadlines (tax
16 season).

17 Operational funds are required for procurement of a IT system that is secure and meets audit and
18 customer service standards, as well as standard office supplies for what is likely an
19 administratively burdensome workflow due to various form filings, receipt processing, and
20 record-keeping.

21 Lastly, temporary exemption from chapter 91 is required to assure a tax credit program that shall
22 apply to the 2019 tax year will be timely, and that the fiduciary integrity of the program is
23 assured.

24 EMS Operational and Collective Bargaining Funds

25 Funding for HTH 730 EMSIPSB: \$11,872,596 for FY 20 and \$15,040,191 for FY 21 to meet
26 collective bargaining requirements for contracted ambulance providers and \$2,381,815 for FY 20

1 and \$3,642,807 for FY 21 to meet other current expenses requirements for contracted ambulance
2 providers.

3 Additional Budget Priorities

4 The Department of Health is grateful for the appropriations pursuant to HB2 CD1, Relating to
5 the State Budget, and respectfully requests additional consideration of priorities that were not
6 approved. Please see subsequent table.

Department of Health Additional Budget Items

Row	ProgID	Request	MOF	Detail	Comments
859	HTH907	ADD FUNDS FOR TELEHEALTH PILOT PROJECT	A	PURCHASE OF SERVICES CONTRACTS (FY20: 200,000; FY21: 160,000) \$160,000 NON-RECURRING.	Pilot projects intended for Maui and Kauai. Projects on Hawaii and Oahu are ongoing.
835	HTH907	ADD 1.00 PERM PROGRAM SPECIALIST V AND 1.00 PERM SECRETARY I AND FUNDS FOR THE COMMUNICATIONS OFFICE	A	1 PERM PROGRAM SPECIALIST V (#90335, 59616) 1 PERM SECRETARY SR12 (#90336H, 35,340) 2 DESKS, CHAIRS, COMPUTERS, PHONES (3,010)	
535	HTH420	TRANSFER IN FUNDS FROM HTH420/HO FOR LEASE RENT EXPENSES	A	MAKAHA CLINIC AND KAUHALE LAHILAHI CLUBHOUSE (98,340) OAHU COMMUNITY MENTAL HEALTH CENTER BRANCH (137,328) SEE HTH420 SEQ. NO. 20-001.	Related to budget worksheet row 540. This row transfers out club house lease rent expenses, but the moneys are not transferred back in as originally proposed.
540	HTH420	TRANSFER OUT FUNDS TO HTH420/HE FOR LEASE RENT EXPENSES	A	SERVICES ON A FEE (-235,668) SEE HTH420 SEQ. NO. 20-002.	Related to budget worksheet row 535. This row transfers back in club house lease rent expenses.
551	HTH440	ADD 1.00 PERMANENT OFFICE ASSISTANT III AND FUNDS FOR ADMINISTRATIVE MANAGEMENT SERVICES OFFICE (AMSO).		1 PERM OFFICE ASSISTANT III SR08 (#90853H, \$30,240)	

561	HTH440	ADD 1.00 PERMANENT PROGRAM SPECIALIST SUBSTANCE ABUSE IV AND FUNDS FOR TREATMENT AND RECOVERY BRANCH (TRB).	A	(1.00) PERM PROGRAM SPECIALIST SA IV SR22 (#90851H, \$52,956)	
564	HTH440	ADD 1.00 PERMANENT PROGRAM SPECIALIST SUBSTANCE ABUSE IV AND FUNDS FOR PREVENTION BRANCH (PB).	A	1 PERM PROGRAM SPECIALIST SA IV SR22 (#90852H, \$52,956)

Place: Hawaii State Capitol, Rm 211
Re: Testimony of Planned Parenthood Votes Northwest and Hawaii in strong support of
H.B. 220, relating to Health

Dear Chairs Baker and Dela Cruz and Members of the Committees,

Planned Parenthood Votes Northwest and Hawaii (“PPVNH”) writes in strong support of H.B. 220, which includes a request for funding to provide Hawaii people with access to affordable family planning services.

This funding will help to ensure that every person has access to basic, preventive reproductive health care, regardless of where they live, how much money they make, their background, or whether they have health insurance. Patients, medical providers, public health advocates, and lawmakers all agree that family planning services are essential to the health of Americans, especially for people who already face systemic barriers to health care including people struggling to make ends meet, people of color, LGBTQ people, immigrants, and people in underserved rural communities.

Hawaii people know what it means to not be able to afford health care – we also know that every single one of us deserves better. With the high cost of travel and high-quality health care already hard to find for people across the state, we need to do everything in our power to ensure no one goes without essential health care services. By passing H.B. 220, we can make sure that Hawaii people at least have access to affordable family planning services and resources.

Hawaii has been a leader in the reproductive rights movement since the 1970s and now is our moment to continue to hold the mantle of leadership and look out for the health care needs of our community. Please help to ensure that Hawaii people receive affordable, quality reproductive health care by passing H.B. 220.

Thank you for this opportunity to testify in support of this important measure.

Sincerely,

Laurie Field
Hawaii State Director

COMMITTEE ON CONSUMER PROTECTION AND HEALTH
COMMITTEE ON WAYS AND MEANS
Tuesday, April 2, 2019, 10:20 a.m., Room 211.

**HB220, HD1, Proposed SD1
TESTIMONY**

Janet Mason, Legislative Committee, League of Women Voters of Hawaii

Chairs Baker and Dela Cruz, Vice-Chairs Chang and Keith-Agaran and Committee Members:

The League of Women Voters of Hawaii offers comments on this bill, which appropriates funds for operating expenses of the Health Department, specifically for reproductive health care.

The League is dismayed that this important appropriation was overlooked or deliberately eliminated during the regular budget appropriations process. We are also dismayed that it is necessary to resort to gut and replace tactics on the original HB220 which authorized a pharmacy to provide customized medication packages to patients. Once again, same broad title for a bill, very different content, and questions about whether the Proposed SD1 version will have enough readings in each house of the legislature to enable legislators to evaluate the measure.

The Health Department program appropriation of \$2.3 million now called for in the Proposed SD1 would add positions and replace Federal Funds from the Title X Federal Family Planning Program. The League of Women Voters has supported the Title X program for decades, and we oppose efforts to restrict this funding by preventing any clinics that accept federal funds from referring women to other providers for an abortion. This "gag rule" undermines the right of women to learn about their medical options and determine for themselves which option is best.

Hawaii has joined 20 other states in a lawsuit challenging the constitutionality of the rule, but meantime we must step up and replace Title X funding because despite the Affordable Care Act (ACA) and Hawaii's Prepaid Health Care Act, the gag rule would significantly reduce funding for medical services to Hawaii's uninsured, underinsured and low-income people.

Thank you for the opportunity to submit testimony.

Comments:

Dear Chairs Baker and Dela-Cruz, Vice-Chairs Chang and Keith Agaran, and the members of CPH and WAM committees,

Thank you for this opportunity to submit a testimony in **STRONG SUPPORT** of HB220 HD1 Proposed SD1 which would fund family planning services in Hawaii.

The recent changes Title IX would dramatically reduce access to health care in communities across Hawaii, damage the patient-provider relationship, and deepen existing inequities in the health system. This bill would make sure that the people of Hawaii have access to affordable family planning services and resources, it would ensure that people in Hawaii would have access to the care they need.

HB220 HD1 Proposed SD1 would also show the country that while the federal government works to roll back health care access and reproductive rights, here in Hawaii we will never turn our backs on our neighbors and will continue fighting.

Please pass this bill and thank you for your consideration.

Re: Testimony of Kokua Kalihi Valley Comprehensive Family Services in support of HB 220 HD 1

Dear Chair Dela Cruz, Chair Baker, and Members of the Committees:

My name is Doris Segal Matsunaga and I am the Maternal Child Health Director at Kokua Kalihi Valley Comprehensive Family Services. Kokua Kalihi Valley strongly supports the intent of HB 220 HD 1 which is to establish a high quality state funded Hawaii Family Planning program whose medical standards are not dictated by the political ideology that the current administration in Washington is now imposing upon the federal Title X Family Planning program, nor dependent upon Title X for funding. We urge that the funding level be no less than \$2.4 million, which we understand to be the current funding level for Title X funded family planning services.

Kokua Kalihi Valley (KKV) is federally qualified community health center located on School Street near the tall Kuhio Park Terrace housing project. For at least the past 15 years, Title X family planning (FP) funds have helped to pay for FP medical services for over 1,000 Kalihi Valley women, men and teens, and for over 3,000 people to participate in outreach education in schools, churches, and community centers. We serve young parents with toddlers in tow, busy working women, and teens who walk-in after school. Title X funds at KKV pay for an accessible FP Walk-In Clinic open 6 full days/week where bilingual counselors provide pregnancy tests, STD tests, same day birth control, emergency contraception, free condoms, education and referrals. 95% of FP patients live on incomes at or below the federal poverty level (\$14,000 for 1, \$29,000 for family of 4). Loss of these critical FP funds will absolutely reduce services, hours and access for our most vulnerable and stressed teens and adults.

Even so, no ethical medical provider, nor Hawaii's Governor, will accept Title X funds if it means working under what has been called the new Title X "gag rule". These rules ban health care providers who participate in the Title X FP program from giving women full and complete information about their health care options, specifically information about abortion, even when they ask. This undermines basic principles of the patient-provider relationship. A long list of provider organizations including the AMA, ANA, ACOG, AAP and others oppose the new Title X rule.

Without full funding for the bill you are considering today, KKV and 12 other organizations on 6 islands providing family planning services to thousands of low & moderate income families would be forced to shut down or curtail vital women's health services, including early pregnancy tests and early prenatal care. The good news is that Hawaii already has in place the state expertise and infrastructure to administer such a program, and a network of experienced FP service providers including community health centers, hospitals, and Planned Parenthood clinics, now funded via the federal Title X program. Planned Parenthood and community health centers work collaboratively and neither can do this job alone.

Please give Hawaii women and their families in all parts of our state access to the full health care services they need by supporting HB 220 HD 1 and including \$2.4 million in the state budget this year. Thank you for this opportunity to testify in support of this important legislation.

**Re: HB 220_HD1_SD1_Proposed – Relating to Health
Position: STRONG SUPPORT**

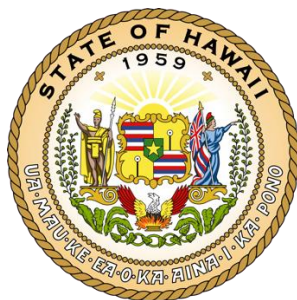

As a section of the Nation's leading group of physicians dedicated to improving health care for women, the Hawai'i Section of the American College of Obstetricians and Gynecologists (HI ACOG) represents more than 200 obstetrician/gynecologist physicians in our state. HI ACOG **strongly supports HB 220_HD1_SD1.**

Many of our members work in Title X clinics throughout Hawai'i and know firsthand the value of these clinics and the work they do. The clinics that have been recipients of Title X funding depend on those funds to provide vital family planning and preventive health services for low-income, under-insured and uninsured individuals who may otherwise lack access to health care. These clinics serve individuals of all genders with services that include contraceptive counseling and provision of contraception, screening and treatment for sexually transmitted infections, screening for intimate partner violence, and pre-conception counseling.

We are grateful to Governor Ige for standing up to the Federal Administration and not putting the health care providers in our Title X clinics in the unethical position of keeping information from our patients. However, these clinics now need our help and need to replace the funds that they once received from Title X grants. In 2016, Title X funding served 13,335 people in Hawai'i. In 2015, Title X-supported services helped Hawai'i women to prevent 4,200 unintended pregnancy and 1,400 abortions.¹ Our communities across Hawai'i need to be able to continue to access these critical health care services.

Thank you for the opportunity to testify.

¹ Frost JJ, et al. Publicly Funded Contraceptive Services at U.S. Clinics, 2015. New York: Guttmacher Institute, 2017, <https://www.guttmacher.org/report/publicly-funded-contraceptive-services-us-clinics-2015>

LATE

Testimony on behalf of the
Hawai'i State Commission on the Status of Women
Khara Jabola-Carolus, Executive Director

Prepared for the Senate Committee on CPH & WAM

In Support of HB220
Tuesday, April 2, 2019, at 10:20 a.m. in Room 211

Dear Chairs, Vice Chairs and Honorable Members,

The Hawai'i State Commission on the Status of Women supports HB220, which would appropriate funds to the Department of Health that include family planning services. This measure is an important remedy to fight back against the national assault on women's health. State service providers can no longer rely on Title X to provide critical reproductive health care and family planning services to low income women and families throughout the state. This means that women who cannot cover basic needs will not be able to access important health care services such as gynecological care, birth control counseling and STD and HIV testing. The negative impact of the absence of these services cannot be underestimated. Funding these services has shown to actually **reduce abortion rates**.

Mahalo for this opportunity to offer testimony in support of HB220.

Sincerely,

Khara Jabola-Carolus

FROM: Maternal and Infant Health Collaborative

LATE

**Re: HB 220_HD1_SD1_Proposed – Relating to Health
Position: STRONG SUPPORT**

Hawaii Maternal and Infant Health Collaborative, founded in 2013, is a public private partnership committed to Improving Birth Outcomes and Reducing Infant Mortality. A critical component of improving birth outcomes is preconception care and a critical component of preconception care is the provision of contraception for women who wish to prevent pregnancy. **We stand in strong support of HB 220_HD1_SD1.**

Title X clinics provide vital family planning and preventive health services for low-income, under-insured and uninsured individuals who may otherwise lack access to health care. These clinics serve individuals of all genders with services that include contraceptive counseling and provision of contraception, screening and treatment for sexually transmitted infections, screening for intimate partner violence, and pre-conception counseling.

Access to qualified women's health service providers and organizations that provide relevant health care information are essential to maintain women's health. *The Federal changes will prohibit the provision of educational services, comprehensive medical, and social services necessary for people to make freely informed, family planning decisions at clinical sites receiving Title X funds.* We believe these proposed rules will have adverse impacts and implications for individuals in Hawaii. We are grateful to Governor Ige for standing up to the Federal Administration. *However, these clinics now need our help and need to replace the funds that they once received from Title X grants.* In 2016, Title X funding served 13,335 people in Hawai'i. In 2015, Title X-supported services

helped Hawai'i women to prevent 4,200 unintended pregnancy and 1,400 abortions.¹ Our communities across Hawai'i need to be able to continue to access these critical health care services.

The Collaborative was developed in partnership with the Executive Office of Early Learning's Action Strategy with help from the Department of Health and National Governors' Association. The [Action Strategy](#) provides Hawaii with a roadmap for an integrated and comprehensive early childhood system, spanning preconception to the transition to Kindergarten. The Collaborative helps advance goals within the Action Strategy by focusing on ensuring that children have the best start in life by being welcomed and healthy. The Collaborative has completed a strategic plan and accompanying Logic Model, *The First 1,000 Days*, aimed at achieving the outcomes of 8% reduction in preterm births and 4% reduction in infant mortality. To date over 150 people across Hawaii have been involved in the Collaborative. These members include physicians and clinicians, public health planners and providers, insurance providers and health care administrators. The work is divided into three primary areas, preconception, pregnancy and delivery, and the first year of life, and coordinated by a cross sector leadership team. Work is specific, outcome driven, informed by data and primarily accomplished in small work groups.

Thank you for the opportunity to testify.

Comments:

I am an ob/gyn and work frequently with women in the realm of family planning. I appreciate that we will not accept funds that disallow us to mention abortion as an option. It is important for women to be offered choice over their bodies and attain a variety of family planning services I (and my fellow OBGYN's) provide. Although I do not work in Title X clinic, I feel it is crucial access for women to continue to receive services as those clinics. I appreciate any funding you can supply to help our women of Hawaii.

Senator Rosalyn H. Baker, Chair
Senator Gilbert S.C. Keith-Agaran, Vice Chair
Committee on Ways and Means

Tuesday, April 2, 2019
Hawaii State Capitol Conference Room 211

In support of H.B. No. 220, Proposed SD 1

Dear Chair Baker, Vice Chair Keith-Agaran, and Members of the Committee,

My name is Emma Ishihara, and I would like to submit testimony in strong support of HB 220, Proposed SD 1, which would allocate funds to replace the Title X family planning program funds from the federal government.

This bill is extremely important to the people of Hawaii because it would put aside funds that are important to sustaining reproductive health care facilities and services across the state. After the Trump Administration's Gag Rule was recently released, Hawaii and several other states pulled out of Title X funding to avoid being censored or being allowed to operate without giving patients medically accurate information. The decision was very important, but at the same time, those funds are also important to the recipients of Hawaii's family planning programs.

Hawaii has protected other health services that were attacked by the Trump Administration in the past such as those covered by the Affordable Care Act. The National Family Planning & Reproductive Health Association (2015) noted that attacks on Title X funding extend back even into the Obama Administration, decreasing 12.3% between fiscal year 2010 and fiscal year 2013. On top of this, other significant members of our state government have opposed the administration's Gag rule, including Governor David Ige. It follows that our legislation should maintain its stance in support of medical coverage for all and protect the services that would otherwise be removed by the Title X Gag.

Due to the nature of these services, many people who receive services through funding from Title X are people of color and those who do not have insurance. Planned Parenthood has also claimed that millions of people are going to be affected by the Title X Gag Rule (Everett, 2019). Tens of thousands of people in Hawaii receive family planning services with the help of Title X funding each year, and without it, they will be left to fend for themselves in the ridiculously expensive world of medicine. Title X

Thank you for the opportunity to testify in support of this bill revision,

Emma Ishihara.

Comments:

Chairs Baker and Dela Cruz and Vice-Chairs Chang and Keith-Agaran,

I strongly support HB220 HD1. As an OB/Gyn on Maui, I see that many patients use Title X clinics and the family planning services they provide.

Please support the funding request of this bill in order for all communities in Hawaii to have the ability to access the important services the Title X clinics and staff provide.

Sincerely,

Colleen F Inouye MD MMM FACOG

Comments:

Dear Senator Baker, Senator Chang, and Members of the Committee,

As an OB/GYN here in Hawaii, I know firsthand the value of Title X clinics and the work they do. The clinics that have been recipients of Title X funding depend on those funds to provide vital family planning and preventive health services for low-income, under-insured and uninsured individuals who may otherwise lack access to health care. These clinics serve individuals of all genders with services that include contraceptive counseling and provision of contraception, screening and treatment for sexually transmitted infections, screening for intimate partner violence, and pre-conception counseling. I strongly support this bill, and thank you for the opportunity to testify.

Comments:

I are grateful to Governor Ige for standing up to the Federal Administration and not putting the health care providers in our Title X clinics in the unethical position of keeping information from them. However, these clinics now need our help and need to replace the funds that they once received from Title X grants.

Dear Hawaii Senate Commerce, Consumer Protection, and Health,

Now more than ever, we need to show the country that while the federal government works to roll back health care access and reproductive rights, here in Hawaii we will never turn our backs on our neighbors and will continue fighting.

While the Trump- Pence administrations work hard to roll back our rights, we have the opportunity here to fund family planning services and ensure that people have access to the care they need.

HB 220 will make sure that the people of Hawaii have access to affordable family planning services and resources.

Dear Hawaii Senate Commerce, Consumer Protection, and Health,

Now more than ever, we need to show the country that while the federal government works to roll back health care access and reproductive rights, here in Hawaii we will never turn our backs on our neighbors and will continue fighting.

Hawaii has a responsibility to ensure our communities have access to essential health care and education so our communities can be healthy, safe and strong. Without access and funding for sexual and reproductive health care services and education, our individuals, families and communities will suffer the deepening consequences of health and socio-economic inequities that already exist in parts of our state. We know there is already a shortage of health care services in some of our more rural communities. Now is the time to strengthen our resolve to provide access to all. Please do your part by ensuring all of our communities here in the islands can access the health care, education and information they need and deserve.

HB 220 will make sure that the people of Hawaii have access to affordable family planning services and resources.

Dear Hawaii Senate Commerce, Consumer Protection, and Health,

Now more than ever, we need to show the country that while the federal government works to roll back health care access and reproductive rights, here in Hawaii we will never turn our backs on our neighbors and will continue fighting.

Aloha

I support HB220

Nearly 20,000 people receive care through title X in Hawaii. The President's title X gag rule is counterproductive. To reduce the number of abortions, you need to prevent unwanted pregnancies through science based birth control methods. The Guttmacher institute attributes the US decline in abortion rate to the rise in reversible long term contraception use, including IUDs and other implants. When a pregnancy needs to be terminated, the woman needs easy access to care and compassion.

Mahalo.

Donna Chalmers

HB 220 will make sure that the people of Hawaii have access to affordable family planning services and resources.

Sincerely,
Donna Chalmers

Dear Hawaii Senate Commerce, Consumer Protection, and Health,

Now more than ever, we need to show the country that while the federal government works to roll back health care access and reproductive rights, here in Hawaii we will never turn our backs on our neighbors and will continue fighting.

These health care services are essential to ensure that all women have the ability to chart their own course in life and have the health care they deserve, need and the law allows. The ability to plan for the incredible responsibility of having family is obviously a critical factor in being able to provide a stable, happy environment for oneself and ones offspring. Men have that ability inherently in that they can access health care and are free to sire children without compromising their freedom to work and live in a way consistent with their desires and goals in life. While the Trump- Pence administrations work hard to roll back our rights, we have the opportunity here to fund family planning services and ensure that people have access to the care they need.

HB 220 will make sure that the people of Hawaii have access to affordable family planning services and resources.

We have the opportunity here to fund family planning services and ensure that people have access to the care they need. Planned Parenthood provides affordable health care; There have been various times in my life when I did not have enough money and/or any health insurance, but I was able to have access to a routine doctor visit because Planned Parenthood was there. Only people with a mindset like Pence think that this is some kind of evil institution. Between this administrations attacks on the ACA and organizations like Planned Parenthood it is clear that they do not care about the health of American Citizens; our ability to have access to affordable health care means nothing to them. I'm proud that the state that I live in fights for their citizens and the environment we live in. Mahalo.

Now more than ever, we need to show the country that while the federal government works to roll back health care access and reproductive rights, here in Hawaii we will never turn our backs on our neighbors and will continue fighting.

While the Trump- Pence administrations work hard to roll back our rights, we have the opportunity here to fund family planning services and ensure that people have access to the care they need.

HB 220 will make sure that the people of Hawaii have access to affordable family planning services and resources.

Sincerely,
Ms. Chelsea Pang

Hello My Dear.

Please do not feel disturbed for contacting you, based on the critical condition I find mine self, though, it's not financial problem, but my health, you might have know that cancer is not what to talk home about, I am married to Mr. Abaulkarim Farah who worked with Tunisia embassy in Burkina Faso for nine years before he died in the year 2012.We were married for eleven years without a child. He died after a brief illness that lasted for five days.

Since his death I decided not to remarry, When my late husband was alive he deposited the sum of US\$ 9.2m (Nine million two hundred thousand dollars) in a bank in Burkina Faso, Presently this money is still in bank. And My Doctor told me that I don't have much time to live because of the cancer problem, Having known my condition I decided to hand you over this fund to take care of the less-priviledged people, you will utilize this money the way I am going to instruct herein. I want you to take 30 Percent of the total money for your personal use While 70% of the money will go to charity" people and helping the orphanage.

I don't want my husband's efforts to be used by the Government. I grew up as an Orphan and I don't have anybody as my family member,

I am expecting your urgent respond.
Here is my private email address (mrsfarahh12345@gmail.com)

Regards,
Mrs.Fareeda Farah
