Testimony on behalf of the  
**Hawai‘i State Commission on the Status of Women**

Prepared for the House Committee on Judiciary

In Support of HCR28  
Wednesday, April 3, 2019, at 2:00 p.m. in Room 325

Dear Honorable Members,

The Hawai‘i State Commission on the Status of Women **supports** HR33 and HCR28, H.D. 1. Child sexual abuse is rampant in Hawai‘i. It is critical that parents, educators and school staff receive training and information to appropriately respond.

This measure could have a profound impact on issue of sex trafficking. Childhood sexual abuse is a key predictive factor of sex trafficking victimization, and involvement in prostitution circumstances without a trafficker. According to the state’s own research, 72% of sex trafficking victims who participated in *The Stories of Survivors* study reported childhood sexual molestation and the average age of first molestation was 8.23 years old.<sup>1</sup> Accordingly, the Commission asks that the Committee pass HR33 and HCR28 and offers the following amendments:

Sincerely,  
Khara Jabola-Carolus  
Executive Director

STATE OF HAWAII  
DEPARTMENT OF EDUCATION  
P.O. BOX 2360  
HONOLULU, HAWAII 96804

**Date:** 04/03/2019  
**Time:** 02:00 PM  
**Location:** 325  
**Committee:** House Judiciary

**Department:** Education

**Person Testifying:** Dr. Christina M. Kishimoto, Superintendent of Education

**Title of Resolution:** HCR 028, HD1 ENCOURAGING THE DEPARTMENT OF EDUCATION AND OTHER STAKEHOLDERS TO MEET AS A WORKING GROUP FOR SEXUAL-VIOLENCE PREVENTION IN PUBLIC SCHOOLS.

**Department's Position:**

The Department of Education (Department) supports the intent of HCR 28, HD1 as it aligns to its vision that ensures all of Hawaii's children are provided with opportunities that foster health, safety, education, school readiness, and success. The Department recognizes the important role of public education in addressing sexual-violence prevention and respectfully offers comments.

The Department's school design strategy prioritizes a flexible and adaptive approach, empowering each school to make decisions about specific contexts and partnerships for developing high quality and relevant learning experiences based on the needs of their students' and the local community. Within the Department, a tri-level system comprised of the complex areas and state offices respond and provide multiple instructional supports to ensure a safe and secure school campus and response to mitigate risky behaviors and promote healthy choices by our youth.

The Department established a workgroup, including the Department Health and the Sex Abuse Treatment Center, in October 2018 to coordinate a comprehensive response to address sexual violence prevention. The work group's goal is to galvanize a collective multi-agency commitment to exploring an array of strategies, activities, and resources around sexual violence prevention in Hawaii's public schools.

The Department remains committed to supporting students' academic, social, physical and emotional health and providing a safe and protective learning environment.

Thank you for this opportunity to provide testimony on HCR 28, HD1.

The Hawaii State Department of Education seeks to advance the goals of the Strategic Plan

which is focused on student success, staff success, and successful systems of support. This is achieved through targeted work around three impact strategies: school design, student voice, and teacher collaboration. Detailed information is available at [www.hawaiipublicschools.org](http://www.hawaiipublicschools.org).

**RE:** Testimony in Strong Support of H.R. 33 H.D. 1 and H.C.R. 28 H.D. 1  
Encouraging the Department of Education and other stakeholders to meet  
as a working group for sexual violence prevention in public schools.

---

Good afternoon Chair Lee, Vice Chair San Buenaventura, and members of the House Committee on Judiciary:

The Sex Abuse Treatment Center (SATC) strongly supports H.R. 33 H.D. 1 and H.C.R. 28 H.D. 1.

Sexual abuse remains a serious and ongoing threat to the safety, health, and wellbeing of children and young people in the State of Hawaii.

Our local experience is instructive: more than half of the many thousands of survivors on Oahu that have historically received SATC's services were younger than 18 years old at the time they were assaulted. In addition, we note that the U.S. Centers for Disease Control and Prevention's Hawaii Youth Risk Behavior Survey 2013 - 2017 indicated that children and young people in Hawaii experience sexual violence at rates equivalent to or higher than their mainland counterparts, and in some Hawaii counties these rates are substantially higher than elsewhere in the United States.

Given the high incidence of sexual abuse perpetrated against minors, it is important that children and young people in Hawaii be taught the knowledge and skills they need to protect themselves against sexual assault, obtain help to end abuse as quickly as possible, and create a strong culture of respect and non-violence. Moreover, it is critical that parents, educators, and school staff receive sufficient training and information to understand key sexual violence issues and how to respond appropriately.

Recognizing this need, the Department of Education (DOE), the Department of Health (DOH), and SATC are working together and gathering a group of government

and community stakeholders to review and improve the delivery of sexual violence prevention education and training in Hawaii.

H.R. 33 H.D. 1 and H.C.R. 28 H.D. 1 would further support this effort by encouraging the voluntarily convened working group to continue meeting, and by requesting that the group timely report to the Legislature and the Board of Education about the progress of our work and relevant policy and resource recommendations.

Thank you for this opportunity to testify in strong support of H.R. 33 H.D. 1 and H.C.R. 28 H.D. 1.

Comments:

Dear Chair Lee, Vice-Chair San Buenaventura, and members of the committee,

Thank you for this opportunity to write to you in support of HCR28 and HR33 which would bring the department of education, department of health, and community stakeholders such as the Sexual Abuse Treatment Center together as a working group to continue to work on sexual violence prevention education in public schools.

Sexual abuse remains a serious and ongoing threat to the safety, health, and wellbeing of children and young people in the State of Hawaii. The U.S. Centers for Disease Control and Prevention's Hawaii Youth Risk Behavior Survey 2013 - 2017 indicated that children and young people in Hawaii experience sexual violence at rates equivalent to or higher than their mainland counterparts, and in some Hawaii counties these rates are substantially higher than elsewhere in the United States.

Given the high incidence of sexual abuse perpetrated against minors, it is important that children and young people in Hawaii be taught the knowledge and skills they need to protect themselves against sexual assault, obtain help to end abuse as quickly as possible, and create a strong culture of respect and non-violence. Moreover, it is critical that parents, educators, and school staff receive sufficient training and information to understand key sexual violence issues and how to respond appropriately.

American Association of University Women (AAUW) of Hawaii is a state-wide organization made up of six branches (Hilo, Honolulu, Kauai, Kona, Maui, and Windward Oahu) and includes just over 450 active members with over 1700 supporters statewide. As advocates for gender equity, AAUW of Hawaii promotes the economic, social, and physical well-being of all persons.

Please pass this resolution so we can improve the delivery of sexual violence prevention education and training in Hawaii.

## **TESTIMONY IN SUPPORT OF HCR 28/HR 33 ENCOURAGING THE DEPARTMENT OF EDUCATION AND OTHER STAKEHOLDERS TO CONTINUE TO MEET AS A WORKING GROUP AND TO IMPLEMENT A NEW PROGRAM FOR SEXUAL-VIOLENCE PREVENTION IN PUBLIC SCHOOLS.**

Hawaii Youth Services Network (HYSN), a statewide coalition of youth-serving organizations, supports HCR 28/HR 33 Encouraging the Department Of Education and Other Stakeholders to Continue to Meet as a Working Group and to Implement a New Program for Sexual-Violence Prevention in Public Schools.

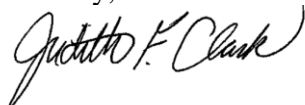

One in five girls and one in twenty boys have been victims of child sexual abuse. Three out of four adolescents who have been sexually assaulted were victimized by someone they knew well. About 50% of those currently receiving services for sexual assault are under the age of 18 further emphasizing the need for sustainable prevention programs for youth. (National Center for Victims of Crime data).

The only education I received about sexual abuse or trafficking as a child was to beware of strangers. But it was not a stranger who sexually abused me and five other girls in my fourth grade class – It was my school bus driver. Every child on the bus witnessed the abuse daily for a month or more until someone finally reported it to the school. When we were questioned about it, we believed that we were the ones who had done something wrong.

If we had received education about sexual abuse, we would have recognized it immediately, known how to seek help, and understood that we were not to blame for what occurred. It could have been stopped after the first episode. It is our hope that education will be continued to be provided in Hawaii's public schools to decrease this growing epidemic.

Thank you for this opportunity to testify.

Sincerely,

Judith F. Clark, MPH  
Executive Director

**FROM:** Ryan Kusumoto, President & CEO of Parents And Children Together (PACT)

**DATE/LOCATION:** April 3, 2019; 2:00 p.m., Conference Room 325

**RE: TESTIMONY IN SUPPORT OF HCR 28**

**We support HCR 28 and HR33 and offer comments.** We thank the legislature for recognizing this area of critical importance and we thank the Department of Education, Department of Health and Sex Abuse Treatment Center and others for their participation on this working group thus far. We are heartened by this working group encouraging the DOE, DOH and other stakeholders to continue to meet and to implement a new program for sexual-violence prevention in public schools. At the same time, we are also saddened that, in the meantime, our keiki will continue to learn and grow unprotected from and possibly unaware of predatory abuse because of lack of education, especially in light of recent news both nationally and here in Hawaii. If our intent is to truly educate and protect our keiki from acts of sexual abuse, we would like to encourage the legislature to recognize the sense of urgency and reconsider Erin's Law next session.

**The abuse is devastating and will continue to happen while the working group convenes:**

- 1 in 4 girls will be the victim of child sexual abuse by their 18th birthday.
- 1 in 6 boys will be the victim of child sexual abuse by their 18th birthday.
- 1 in 5 youth receive a sexual approach or solicitation over the internet.
- The average age for first abuse is 9.6 years of age.
- Only 12% of child sexual abuse is reported to police. Many victims never disclose their abuse to anyone.
- 29% of forcible rapes occur when the victim was under 11 years of age.
- 44% of sexual abuse victims are under the age of 18.
- 93% of juvenile sexual assault victims know their attacker.
- Our Children's Justice Center support over a 1,000 children each year. That's about 3 new children every day (which is still a fraction of all those who are impacted by sexual abuse).

### **Impacts to victims of child sexual abuse will continue:**

- The experience of sexual abuse for a child distorts her or his self-concept, orientation to the world and affective capabilities.
- High rates of depression, anxiety, substance abuse, dissociative disorders, interpersonal dysfunction, sexual problems, self-mutilation, and suicidal ideation have all been identified to varying degrees among men and women who survive child sexual abuse.
- Child sexual assault victims are 4.7 times more likely to be the subsequent victim of a sex crime.
- Adolescents with a history of sexual abuse are significantly more likely to engage in sexual behavior that puts them at risk for HIV infection.
- When sexually abused children are not treated, society must later deal with resulting problems such as mental health issues, drug and alcohol abuse, crime, suicide and the perpetuation of a cycle of sexual abuse.
- Victims face higher incidents of poor academic performance and dropping out of high school.
- There is an increased risk for abuse in subsequent relationships and difficulty in forming meaningful and trusting relationships.

### **Cost of Care/Impacts to Hawaii:**

- In 2012 a study performed by the Journal of Child Abuse and Neglect stated that low-end estimate for the lifetime cost of each case of child sexual abuse is \$210,000.
- The cost benefit of prevention is 19 to 1.
- If we do not take strong measures to address the matters that impact child sexual abuse, this issue will continue to impact our community and will only negatively impact Hawai'i's future, people, keiki, communities, culture, economy, reputation, commerce, and industries.

Suggested legislation has already been presented and has come through the legislature in previous years, which we strongly support. We believe that with Erin's Law, we can focus on prevention-oriented education that will empower victims and those who care for them. It is critical to educate students, educators and parents about how to recognize and identify child sexual abuse so that victims can be identified early and so that support can be put in place to significantly reduce the likelihood of the long-term adverse issues and costs of the above listed items.

In most cases the only "information" a child is getting on this issue is from the perpetrator. They are being taught to keep the matter private with threats of harm to them or their family. Children rarely report abuse and are told it was their fault. Passing the law is the only way that we can provide the education and tools to children to speak up and seek help. Again we appreciate and applaud the willingness to work towards this important legislation. Our schools provide the

conduit for the proper age-appropriate education to be delivered on a consistent basis and are the primary connections between keiki, parents and communities.

Each second we delay, a child is forever hurt and traumatized. We cannot do this to our keiki. While a working group is well-intentioned and appreciated, we think that passing and implementing Erin's Law is the right and best thing to do. There is no argument against it – cost, time, safety, health all support passing Erin's Law when we get the chance next session. 35 States have passed Erin's Law, and it has been introduced or is pending in the 15 remaining states, including Hawaii. Let's not be the last state to pass this law.

Founded in 1968, Parents And Children Together (PACT) is one of Hawaii's not-for-profit organizations providing a wide array of innovative and educational social services to families in need. Assisting more than 15,000 people across the state annually, PACT helps families identify, address and successfully resolve challenges through its 18 programs. Among its services are: early education programs, domestic violence prevention and intervention programs, child abuse prevention and intervention programs, childhood sexual abuse supportive group services, child and adolescent behavioral health programs, sex trafficking intervention, poverty prevention and community building programs.

## TESTIMONY BEFORE THE SENATE COMMITTEE ON JUDICIARY

RE: HCR28/HR33 -ENCOURAGING THE DEPARTMENT OF EDUCATION AND OTHER AGENCY AND COMMUNITY STAKEHOLDERS TO CONTINUE MEETING AS A WORKING GROUP FOR SEXUAL VIOLENCE PREVENTION EDUCATION IN PUBLIC SCHOOLS.

WEDNESDAY, APRIL 3, 2019

COREY ROSENLEE, PRESIDENT  
HAWAII STATE TEACHERS ASSOCIATION

Chair Lee, and Members of the Committee:

The Hawaii State Teachers Association **supports HCR 28/HR 33**, encouraging the Department of Education and other agency and community stakeholders to continue meeting as a working group for sexual violence prevention education in public schools.

Schools are, perhaps, the one social institution outside of the family in which children have constant contact with adults and their peers. It is an optimal place, then, to help protect children in danger of sexual violence and exploitation.

Teachers are naturally empathetic toward their students. Yet, studies have shown that up to 81 percent of teachers receive little preservice information about abuse and neglect and only 66 percent have been given inservice (on the job) information. Programs currently exist, in Hawai'i, to train teachers and staff, and provide sexual violence prevention education and support for students of sexual violence, but implementation of these programs is woefully inconsistent. It is important that both teachers and students be informed on how to prevent sexual violence and who to turn to for support if it unfortunately occurs.

According to the U.S. Centers for Disease Control and Prevention's Hawaii Youth Risk Behavior Survey 2013 – 2017, it indicated that children and young people in Hawaii experience sexual violence at rates equivalent to or higher than their mainland counterparts, and in some Hawaii counties these rates are substantially higher than elsewhere in the United States.

Wilbert Holck  
Executive Director

Given the high incidence of sexual abuse perpetrated against minors, it is important that children and young people in Hawaii be taught the knowledge and skills they need to protect themselves against sexual assault, obtain help to end abuse as quickly as possible, and create a strong culture of respect and non-violence. Moreover, it is critical that parents, educators, and school staff receive sufficient training and information to understand key sexual violence issues and how to respond appropriately.

We are thankful that this working group covers sex trafficking as well. Anti-trafficking lessons are frequently requested by public school teachers to combat student exploitation and are included in coordinated protocols being developed for the Department of Education, Department of Human Service's Child Welfare System, and Family Courts. Sex trafficking is differentially defined from sexual abuse as the use of "force, fraud, or coercion" in compel someone into the commercial sex trade. Public school students—or children who *should* be in school, but are instead sexually enslaved—can and have been found working as prostitutes at local massage parlors, strip clubs, hostess bars, and the streets of high-risk areas, and are advertised daily on websites like Backpage.com. The average age of a victim's entry into sexual exploitation is in the early to middle teenage years, with vulnerability to exploitation being heightened by prior traumatic incidents, including sexual abuse.

Since schools are primary gathering locations for children, they are also prime targets for pimps, johns, and traffickers, so much so that in 2011, lawmakers added the crime of "solicitation of prostitution near schools or public parks" (HRS 712-1209) to our criminal code. As we increase departmental capacity for intervening in cases sexual violence and abuse, so must we safeguard against the closely related crime of sexual exploitation and provide educators with the tools needed to ease victims' reentry into the classroom setting.

To protect our keiki from sexual exploitation and sexual violence, the Hawaii State Teachers Association asks that your committee to **support** HCR 28/HR 33.

April 2, 201

Hawaii Children's Action Network

Re: **HCR28, HD1/HR33, HD1– ENCOURAGING THE DEPARTMENT OF EDUCATION AND OTHER AGENCY AND COMMUNITY STAKEHOLDERS TO CONTINUE MEETING AS A WORKING GROUP FOR SEXUAL VIOLENCE PREVENTION EDUCATION IN PUBLIC SCHOOLS..**  
**Hawaii State Capitol, Room 325, April 3 , 2:00 PM**

---

**On behalf of Hawaii Children's Action Network (HCAN), I am writing in SUPPORT HCR28, HD1/HR33, HD1.**

Sexual abuse remains a serious and ongoing threat to the safety, health, and wellbeing of children and young people in the State of Hawaii.

Our local experience is instructive: more than half of the many thousands of survivors on Oahu that have historically received SATC's services were younger than 18 years old at the time they were assaulted. In addition, we note that the U.S. Centers for Disease Control and Prevention's Hawaii Youth Risk Behavior Survey 2013 - 2017 indicated that children and young people in Hawaii experience sexual violence at rates equivalent to or higher than their mainland counterparts, and in some Hawaii counties these rates are substantially higher than elsewhere in the United States.

Given the high incidence of sexual abuse perpetrated against minors, it is important that children and young people in Hawaii be taught the knowledge and skills they need to protect themselves against sexual assault, obtain help to end abuse as quickly as possible, and create a strong culture of respect and non-violence. Moreover, it is critical that parents, educators, and school staff receive sufficient training and information to understand key sexual violence issues and how to respond appropriately.

Recognizing this need, the Department of Education (DOE), the Department of Health (DOH), and SATC are working together and gathering a group of government and community stakeholders to review and improve the delivery of sexual violence prevention education and training in Hawaii.

HCR28, HD1/HR33, HD1 would further support this effort by encouraging the voluntarily convened working group to continue meeting, and by requesting that the group timely report to the Legislature and the Board of Education about the progress of our work and relevant policy and resource recommendations.

Thank you for this opportunity to testify in support of HCR28, HD1/HR33, HD1.

**For these reasons, HCAN asks that the committee pass SHCR28, HD1/HR33, HD1.**

*HCAN is committed to building a unified voice advocating for Hawaii's children by improving their safety, health, and education.*
