

Department of Transportation

Hawaii Interagency Biosecurity Plan January 2019 Progress Update

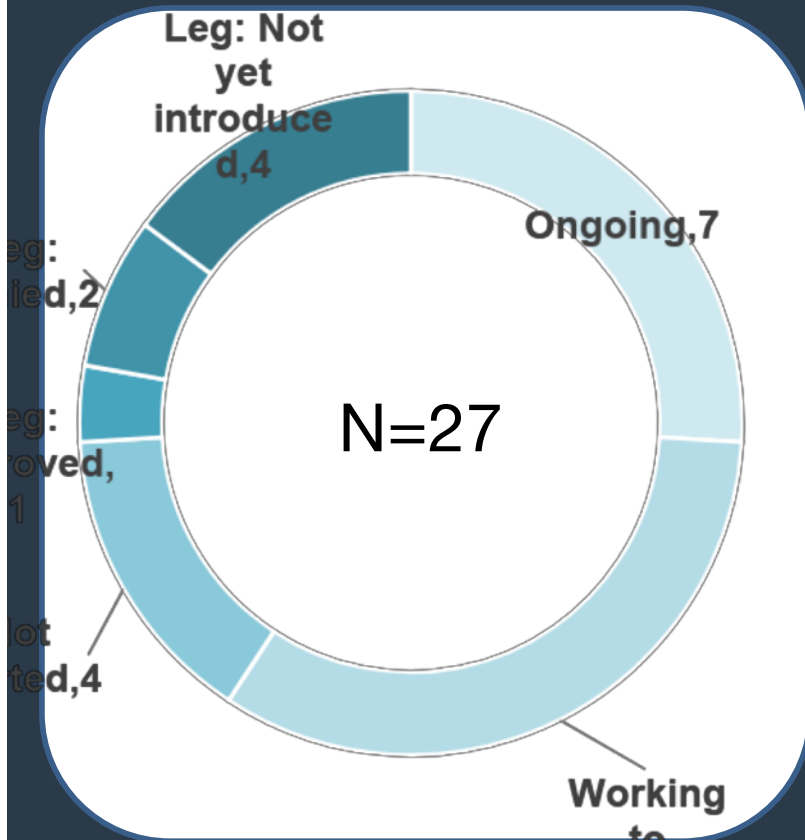

Primary Biosecurity Roles

- Management of ports of entry/exit
- Management of state roadways
- Represented in HIBP in supporting role for actions led by DLNR, HDOA, and DOH

HDOT Supported Actions

Highlights:

- Supporting monitoring programs at major ports through **Mamalu Poepoe**
- Coordinating with partners through regular meetings
- Supporting DLNR DAR in collecting data for ballast water & biofouling
- Supporting HDOA in new biosecurity signage at HNL

Remaining Needs:

- Working with DAR on funding to support aquatic biosecurity work in 2019 session
