Informational Budget Briefing  
Thursday, January 17, 2019, 10:00 am  
State Capitol, Room 211

**Mission Statement:** The Hawaii State Public Library System (HSPLS) nurtures a lifelong love of reading and learning through its staff, collections, programs, services and physical and virtual spaces.

**State-Wide Conditions Affecting Operations:** On November 14, 2018, Finance Memorandum No. 18-23 issued policies and guidelines for the preparation of the Executive Budget Request for Fiscal Biennium 2019-21. As directed by this Executive policy, we have focused our requests to those that are critical and sustainable to support our Mission.

**Federal Funds:** HSPLS receives approximately \$1.2 million through its only source of federal funds, the Library Services and Technology Act (LSTA), provided by the Institute of Museum and Library Services. LSTA funding is distributed to all states based on a population formula and requires a Maintenance of Effort agreement and matching general funds on the part of the State.

HSPLS relies on general funds to meet these requirements, and any reduction in our budget would reduce the amount of federal funds Hawaii receives. LSTA funds completely support our technology, integrated library system, and online database subscriptions for the public. All of these services are integral to maintaining library operations and supporting Hawaii's communities.

**Non-General Funds Reports:** HSPLS reports to the Legislature may be viewed at:  
<http://www.librarieshawaii.org/about-us/reports/annual-reports/>

**Budget Request:**

HSPLS' FB2019-2021 budget requests include the following:

- **1.0 Librarian III Position.** This position is necessary for the planned expansion of the Naalehu Public Library and to provide adequate coverage for the Pahala Public and School Library. Pahala Library was closed 35 days to the community last fiscal year, and already has been closed 29 days in this fiscal year. This library is well-used and has been important to the community during the eruptions of Kilauea, because the library had air conditioning and clean air. Unfortunately, due to the staffing levels on Big Island, often times we did not have staff from other locations to temporarily move on short-notice to keep Pahala open. Without this position, we will continue to struggle to keep this library open for this community that values access to the library.
- **\$17,000 for Operations of the New Nanakuli Library.** The original appropriation amount for operations of this facility was \$4,000. After six months of being open, and an analysis of the operational costs, additional funding is needed to maintain this new library.
- **\$522,942 Additional Funding for Security Services.** We currently have security guards in 39 of our 51 public library branches. The security guards are present to provide protection of State property and the personal safety of the library patrons and staff during public service hours, and sometimes when our libraries are closed. Additional funds are needed to provide for cost increases, including pay increases, additional libraries needing security services, an increase in hours of services needed at some public libraries, the need for additional night monitoring when we are experiencing surges in destructive behavior around our facilities, and the addition of towing services for vacated vehicles.

- **\$1,500,000 for Library Collections.** The Hawaii State Public Library System continues to face the challenges of a growing library system (now 51 branches), increasing costs of titles to provide in multiple formats, and the need to provide more access to digital collections that are accessible from all of our islands. Collections are a core service and are vital for creating opportunities for our communities to have access to the resources they need to be successful. This funding request is to increase the base to \$2,250,000 with the addition of \$1,500,000 to ensure equitable access for all of our patrons statewide.

The current collection has been supported by Special Funds, which are the fines and fees charged to patrons for overdue, damaged and lost materials, fees charged for DVDs and meeting room rentals. Revenue in general has continued to decline, in large part due to changes in library patron behavior and improving services for patrons. For example, the rental of DVDs, has declined due to more streaming of digital content by patrons. In FY2014, DVD revenue was \$626,895.84. In FY2018, DVD revenue dropped to \$391,100.14. Fines and fees have begun to decline due to patrons' ability to use the Libraries Hawaii App to use as a library card and track when materials are due, thereby reducing the number of late-returned materials.

At the same time as revenue has decreased, library patrons continue to request more copies of library materials in digital format, which increases the cost of purchasing and maintaining our library collection, as we are now maintaining paper, digital and audio copies to meet all of our library patrons' needs. Providing access to electronic collections is expensive, but it also enhances our ability to provide access to the same resources for patrons through all 51 branches across 6 islands, instead of requiring the purchase of multiple physical copies for every branch.

The following is an example of the cost to purchase one title in multiple formats. It demonstrates the change in the purchasing structure from 20 years ago when all the library needed to purchase was physical copies.

TITLE	COST		
	Format	List Price	Discounted Price*
Count to Ten by James Patterson	Paper	\$35.00	\$21.22
	Digital (ebook)	\$48.00	
	Audio (eaudio)	\$47.99	
	<b>TOTAL</b>	<b>\$117.21</b>	

*\*HSPLS receives discounts for purchasing multiple copies.*

We must continue to bridge the physical and virtual collections, and it is vital that we have enough funding to have the collections that our communities need. Digital content has a different cost structure, directly affecting our ability to acquire and maintain the digital collection used by our library patrons.

When we pay for digital content, we are only leasing copies of the material. Publishers have differing thresholds of when we must pay more to continue access to the publication; in other words, the cost of keeping the most popular publications that library patrons want, in our collection, will continuously rise. In the end, this means we must ensure there is a continuous stable source of funding to ensure patrons have access.

We are seeking alternatives for increasing revenue, but a consistent base level of funding ensures we can afford to provide patrons with the titles, materials and information resources that they need. A consistent base also enables us to look for new ways to remove barriers to access to our collections and materials for children and families, because we will not have to rely on fines to be the main support of our collection budget.

- **\$240,000 to implement RFID technology.** Funding would allow us to expand use of RFID technology into the libraries that would most benefit immediately, including our highest circulating library branches in FY2020 and FY2021. The new Nanakuli Public Library is the first library to have RFID technology to manage a branch collection more efficiently and effectively.

RFID tags are placed in every book and those tags are used to check-out materials at the circulation desk and self-check machines. The system provides a check-out process with amazing speed, provides security for materials by interacting with gates as patrons leave, and enables staff to do inventories by using a simple device to scan the shelves. This funding will be used to implement RFID in four of our highest circulating branches to increase efficiencies for staff and provide better service for patrons. The cost includes all of the equipment, maintenance agreements, and RFID tags for four additional libraries for each fiscal year.

- **Lump-sum Health & Safety CIP Funds of \$7,000,000 for FY2020 and \$5,000,000 for FY2021.** Funding is needed to address backlogged Health and Safety projects and energy efficiency projects. Each year the Department of Accounting and General Services does walk throughs of all of our buildings and updates a list of Repair and Maintenance projects and CIP projects. That list has been long and stagnant with exception to the past three years because of the support of the Board of Education, Governor and Legislature. We want to continue to improve our spaces by taking care of the large projects that have been waiting for years to be addressed. The longer these large projects are not addressed, the more the costs increase. Attached is HSPLS' Facilities Report that highlights the most pressing projects by branch, as well as a comprehensive updated list of HSPLS' pending Health and Safety projects as prepared by the Department of Accounting and General Services.

- **\$3,000,000 Planning, Design and Construction Funds for the Hawaii State Library for FY2020 and FY2021.** It has been approximately 30 years since our flagship library was last renovated. Due to its age and the number of people it serves, major work is needed to repair deterioration of the building, upgrade its electrical and plumbing infrastructure, and update to energy efficient lighting.

We look forward to working with the Senate Committee on Ways and Means in developing HSPLS' FB2019-2021 budget during this Legislative session. Thank you for this opportunity to present our budget information to your committee.

State Librarian

The Hawaii State Public Library System (HSPLS) is now made up of 51 branches across 6 islands. For more than 50 years, the State of Hawaii has invested millions of dollars of public funds in buildings, equipment, resources and materials to serve the residents of Hawaii.

Your public libraries provide community spaces where people can gather to learn and grow. Our task is to ensure these spaces remain safe and inviting for our patrons. With sixty percent of HSPLS branches built before 1970 and over forty-six percent of these at 50+ years old we need your support.

In April of 2018, the Nanakuli Public Library opened as the 51st branch of the Hawaii State Public Library System. The community waited for more than 20 years to have their own community space. It is designed to be a gathering place for learning, growing and being together.

In FY2018, with the funding provided by the Governor and Legislature, HSPLS was able to complete seven (7) CIP projects and twelve (12) R&M projects.

This year's report provides basic information about each of our branches, CIP projects completed in FY18 and those currently underway. It also identifies the currently estimated cost to address the Repair and Maintenance and top CIP issues in each of them. The Department of Accounting and General Services has provided all estimates to HSPLS.

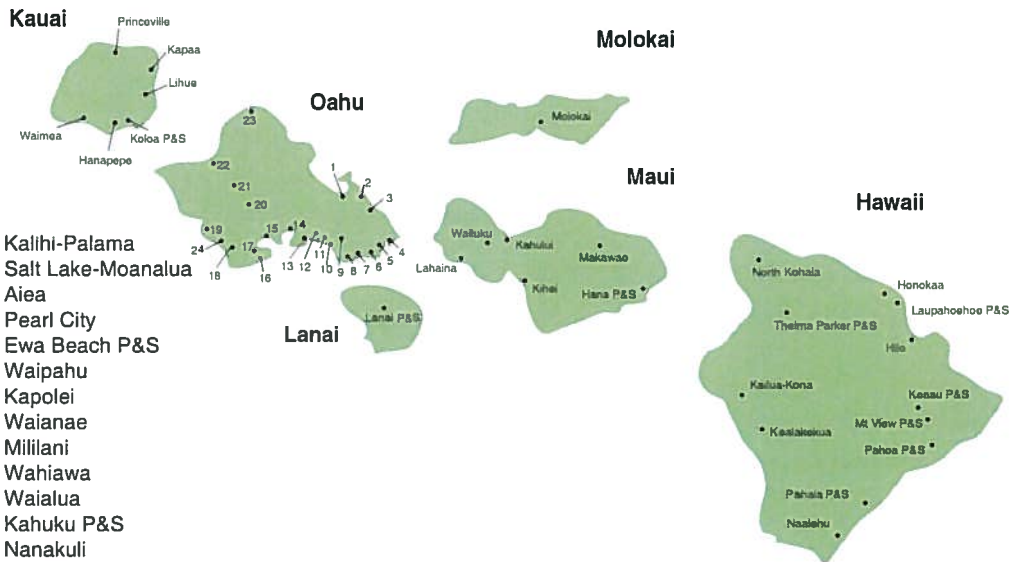

HSPLS continues to review, prioritize, and build strategic directions for improving our public library buildings and spaces to best serve our communities.

If you would like any further information please do not hesitate to contact Mallory Fujitani, Special Assistant to the State Librarian, at 808-586-3700.

FROM: Roderick K. Becker, Comptroller

SUBJECT: Project Funding Request for the FY 2020/2021 Budget for the  
Hawaii State Public Library System

Attached are the prioritized backlog lists of repair/maintenance projects for the upcoming biennium budget request for FY 2020/2021. Soft copies were emailed earlier. Upon request, staff from our Central Services Division can attend scope and consultant selection meetings and provide more detailed scope and photos of the high priority projects.

The individual projects were scored and prioritized by funding type. Also, projects that are ongoing or funded by your Department were removed from the high priority list.

The CIP and General funding needed were based on high priority projects (generally Condition rating '8' and above). Projects rated '8' and higher are energy related or the conditions may cause further damage to the building. The recommended funding for the projects, by source, are:

	<u>CIP Bond Fund</u>	<u>General Fund</u>
FY2020	\$9,578,950	\$1,297,830
FY2021	\$9,000,810	\$1,547,970

If you have any questions, please contact Mr. Corey Shibata at 381-0147 or [corey.b.shibata@hawaii.gov](mailto:corey.b.shibata@hawaii.gov).

EDN407	QF	AR	1	1	Funding for additional staff at Naalehu and Pahala Public Library	This position is necessary for the planned expansion of the Naalehu Public Library and to provide adequate coverage for the Pahala Public and School Library. Pahala Library was closed 35 days to the community last fiscal year, and already has been closed 29 days in this fiscal year. This library is well-used and has been important to the community during the eruptions of Kilauea, because the library had air conditioning and clean air. Unfortunately, due to the staffing levels on Big Island, often times we did not have staff from other locations to temporarily move on short-notice to keep Pahala open. Without this position, we will continue to struggle to keep this library open for this community that values access to the library.	A	1.00		24,474	1.00		48,948
EDN407	QD	AR	2	2	Additional funding for Nanakuli Public Library	The original appropriation amount for operations of this facility was \$4,000. After six months of being open, and an analysis of the operational costs, additional funding is needed to maintain this new library.	A			17,000			17,000
EDN407	QB	AR	3	3	Additional funding for Security Services	We currently have security guards in 39 of our 51 public library branches. The security guards are present to provide protection of State property and the personal safety of the library patrons and staff during public service hours, and sometimes when our libraries are closed. Additional funds are needed to provide for cost increases, including pay increases, additional libraries needing security services, an increase in hours of services needed at some public libraries, the need for additional night monitoring when we are experiencing surges in destructive behavior around our facilities, and the addition of towing services for vacated vehicles.	A			522,942			522,942
EDN407	QM	AR	4	4	Unfunded Operational Expenses - Library Books and Materials	The Hawaii State Public Library System continues to face the challenges of a growing library system (now 51 branches), increasing costs of titles to provide in multiple formats, and the need to provide more access to digital collections that are accessible from all of our islands. Collections are a core service and are vital for creating opportunities for our communities to have access to the resources they need to be successful. This funding request is to increase the base to \$1,750,000 with addition of \$1,500,000 to ensure equitable access for all of our patrons statewide. 						<p>The current collection has been supported by Special Funds, which are the fines and fees charged to patrons for overdue, damaged and lost materials, fees charged for DVDs and meeting room rentals. Revenue in general has continued to decline, in large part due to changes in library patron behavior and improving services for patrons. For example, the rental of DVDs, has declined due to more streaming of digital content by patrons. In FY2014, DVD revenue was \$626,896. In FY2018, DVD revenue dropped to \$391,100. Fines and fees have begun to decline due to patrons' ability to use the Libraries Hawaii App to use as a library card and track when materials are due, thereby reducing the number of late-returned materials.</p> <p>At the same time as revenue has decreased, library patrons continue to request more copies of library materials in digital format, which increases the cost of purchasing and maintaining our library collection, as we are now maintaining paper, digital and audio copies to meet all of our library patrons' needs. Providing access to electronic collections is expensive, but it also enhances our ability to provide access to the same resources for patrons through all 51 branches across 6 islands, instead of requiring the purchase of multiple physical copies for every branch.</p> <p>We must continue to bridge the physical and virtual collections, and it is vital that we have enough funding to have the collections that our communities need. Digital content has a different cost structure, directly affecting our ability to acquire and maintain the digital collection used by our library patrons.</p> <p>When we pay for digital content we are only leasing copies of the material. Publishers have differing thresholds of when we must pay more to continue access to the publication; in other words, the cost of keeping the most popular publications that library patrons want, in our collection, will continuously rise. In the end, this means we must ensure there is a continuous stable source of funding to ensure patrons have access.</p> <p>We are seeking alternatives for increasing revenue, but a consistent base level of funding ensures we can afford to provide patrons with the titles, materials and information resources that they need. A consistent base also enables us to look for the new ways to remove barriers to access to our collections and materials for children and families, because we will not have to rely on fines to be one of the key supports of our budget.</p>

EDN407	QM	AR	5	5	RFID Technology for Efficient Services	<p>Funding would allow us to expand use of RFID technology into the libraries that would most benefit immediately, including our highest circulating library branches in FY2020 and FY2021. The new Nanakuli Public Library is the first library to have RFID technology to manage a branch collection more efficiently and effectively.</p> <p>RFID tags are placed in every book and those tags are used to check-out materials at the circulation desk and self-check machines. The system provides a check-out process with amazing speed, provides security for materials by interfacing with gates as patrons leave, and enables staff to do inventories by using a simple device to scan the shelves. This funding will be used to impement RFID in four of our highest circulating branches to increase efficiencies for staff and provide better service for patrons. The cost includes all of the equipment, maintenance agreements and RFID tags.</p>				240,000			240,000

## OFFICE OF THE STATE LIBRARIAN

With oversight by the Board of Education, the State Librarian plans, directs, measures, evaluates, and reports to the Board, the Governor, the Legislature, and the public about library services, collections, and programs which fulfill the mission of the Hawaii State Public Library System (HSPLS).

- Represents HSPLS to the Board of Education, the Governor, the Legislature, other State agencies, the Congressional delegation, professional organization, community groups, and the public.
- Develops and recommends policies for Board approval and implements and evaluates policies.
- Initiates long-range statewide strategic planning and needs assessment studies; develops goals, objectives, standards, and evaluation criteria; and oversees activities to achieve system objectives.
- Establishes a coherent, effective organizational structure and lines of authority.
- Develops an administrative and support services team, which represents all functions within HSPLS: the Hawaii State Library and the Library for the Blind and Physically Handicapped, community libraries, and their support units including administrative services, human resources, electronic support, technical services, and library development.
- Facilitates effective communication and working relationships throughout the organization.
- Promotes a commitment to fair and consistent services throughout the library system for all customers by overseeing the development and documentation of integrated policies, guidelines, and procedures.
- Pursues State and Federal funding, grants, and donations to maximize HSPLS' ability to provide an appropriate and innovative array of collections, services, and programs to meet community needs.
- Develops a program-based, needs-driven budget for recommendation to the Board. Presents testimony and provides background information and reports during the legislative session.
- Mentors library staff by providing encouragement, guidance, and training opportunities to increase knowledge, skills, and performance and to prepare staff to assume increasing levels of responsibility and leadership.
- Networks with DHRD, the University of Hawaii's Library and Information Science program, and other government, professional, and community organizations to attract potential applicants and make them aware of employment opportunities within HSPLS.
- Monitors customer expectations as well as service methods and best practices in both the library and commercial fields.
- Initiates new technologies and practices to improve services and collections.
- Promotes a culture of continuous improvement and innovation.

## SPECIAL ASSISTANT TO THE STATE LIBRARIAN

The Special Assistant to the State Librarian provides support for the Office of the State Librarian by working with the State Librarian, library administrators and staff to implement Hawaii State Public Library System (HSPLS) program objectives.

- Participates in the planning, organizing, and administration of the HSPLS' programs and services.
- Confers with other administrative team members and program administrators to resolve problems, clarify system goals, objectives, priorities, and responsibilities, and implement initiatives approved by the State Librarian.
- Serves as a liaison with the Board of Education, Legislature, and other groups on behalf of HSPLS as necessary.

## TECHNICAL SERVICES SECTION (TSS)

The Technical Services Section orders, catalogs, and processes materials for Hawaii State Public Library System (HSPLS) libraries and recommends effective acquisitions and processing procedures for front-line staff. Through its national standards-based cataloging operations, TSS creates and maintains the bibliographic records in HSPLS' online inventory of library materials. TSS works with administrators, the public service staff, and the Electronic Services Support Section (ESSS) staff to maximize the union catalog's reliability and usefulness in accessing HSPLS' physical and digital collections.

### Acquisitions and Processing

- Recommends statewide policies, procedures, and practices for the acquisition and processing of materials.
- Recommends efficient and effective workflow methods relating to acquisitions and processing by front-line library staff.
- Notifies/distributes vendor catalogs and other promotional materials to libraries.
- Coordinates and compiles title recommendations from Hawaii State Library (HSL) subject specialists and selection committees into consolidated order lists, which are distributed in spreadsheet form to HSPLS libraries.
- Orders library materials selected and sent to TSS by HSPLS libraries.
- Coordinates order/receipt accounting with the Administrative Services Branch (ASB) for cost center accounting and purchase order/voucher production.
- Prepares and distributes status reports to HSPLS libraries about their orders and receipts.
- Serves as a liaison in resolving vendor problems between vendors and individual libraries. Files claims, receives credits, and verifies vendor statements and invoices.
- Evaluates vendor performance, prices, discounts, delivery times, and service quality.
- Processes and distributes centrally purchased and received materials.
- Processes centrally purchased library materials that are physically received and cataloged at TSS, including linking, labeling, stripping, stamping, covering, sorting and packing for delivery and mail.
- Develops written procedures and conducts training sessions for front-line staff about ordering and processing requirements. Instructs and advises staff about procedures on an on-going basis.
- Works with the Electronic Services Support Section (ESSS) to attain optimum performance of library automated systems related to acquisitions and processing
- Process HSPLS libraries' individual orders for library materials following the same procedures used for ordering library materials from the consolidated order list.
- Processes invoices for payment by matching the packing slips received at the libraries with the invoices, checking for discrepancies in titles, quantities, and pricing of library materials ordered and received.
- Reconciles and validates the monthly purchase card charges using the appropriate packing slip and invoice for each charge, requesting invoices as necessary, and paying invoices that are received, but not charged.

### Cataloging and Classification:

- Recommends statewide cataloging and classification policies and practices based on national standards .
- Provides centralize cataloging of library materials in print, non-print and electronic formats for all libraries in HSPLS. Creates and maintains bibliographic records and authority files.
- Provides classification and other identification for all library materials.
- Researches and corrects reported errors in the online catalog.
- Conducts training sessions and gives presentations on catalog and authority control requirements to libraries. Alerts the field about classification changes.
- Maintains the integrity of the bibliographic database.

### Cataloging and Classification (continued)

- Works with ESSS and vendors to resolve problems with automated library systems related to cataloging, database maintenance, and the public catalog.
- Participates in system discussions about new formats, technology, and collections and shares technical services expertise and recommendations.

- Monitors new developments, technologies, and best practices in the technical services field.
- Provides consultative services to HSPLS libraries on collection development and evaluation.

Other

- Oversees the common facility operations and maintenance requirements of all the support offices at the Salt Lake facility.
- Coordinates the receipt and distribution of materials donated to HSPLS, including cataloging and processing as needed.

## ELECTRONIC SERVICES SUPPORT SECTION (ESSS)

- Provides overall design, implementation, research and development of infrastructure and peripheral technological support for library services support offices.
- Provides information technology support to all HSPLS staff during all open hours of libraries and departments. Provides limited emergency support and services during off-hours.
- Provides tier 2 technical support to customers to assist in accessing HSPLS services. (Tier 1 is Telephone Reference & Information)
- Advises HSPLS core administrators of information technology changes, needs, assessments and conducts a regular dialogue with administration to ensure that operations and technology design align with the requirements and needs of HSPLS.
- Develops specifications for equipment and software to support libraries and departments.
- Provides hardware and software maintenance, upgrade and repair services for libraries and departments.
- Provides scheduled preventive maintenance services.
- Provides training and retraining on the library's electronic systems.
- Works with vendors and suppliers to provide timely, cost-effective services and resolution of problems.
- Administrates server systems (virtual and physical) and network connections.
- Monitors system activity and performance, reporting and adjusting as necessary to provide timely, economical services to staff and patrons.
- Coordinates system implementations with other State agencies; implements State-mandated IT directives.
- Advises and executes technical implementation of new services selected by Administration.
- Manages the HSPLS Debt Collection service.
- Maintains HSPLS notification system, including electronic mail notifications.
- Fulfills LSTA automation-related federal program reporting requirements.
- Scans juvenile applications for all locations, stores them digitally on servers and retrieves them when staff requests a copy.

### Administrative services:

- Provides oversight of Section functions; prioritizes work; ensures adherence to scheduled events such as preventive maintenance, system upgrades, etc.
- Works with HSPLS administration to integrate new technologies and upgrades into system services.
- Prepares and defends Section budget request.
- Coordinates purchase/upgrade of services, hardware and software throughout HSPLS to provide consistency of access and ease of repair/upkeep.
- Provides all personnel services for the Section, including but not limited to, hiring, training, evaluation, discipline, prioritizing of work, and scheduling.

### Information Technology Specialists, Automation Technicians, Library Technician and Trainer

- Trains/retrains staff on all systems as current and at every upgrade/change.
- Logs all problem calls, responds immediately or as appropriate; communicates as necessary with all libraries/departments on system problems.
- Maintains intranet and learning corner sites where all technical documentation and resources reside.
- Monitors automated system operation; installs upgrades and fixes as required.
- Sets up all system administration activities to run at optimum times. Monitors all processes for problems, and creates backups at appropriate times.
- Monitors telecommunications network and works with provider to maintain maximum up time.
- Keeps current with changes/upgrades to telecommunications technologies.
- Provides installation, initial training, and repair service for all PCs telecommunication and peripheral equipment for libraries and departments.
- Purchase, install, and maintain telephone equipment.
- Maintains inventory of electronic equipment for HSPLS.
