

DEPARTMENT OF LABOR AND INDUSTRIAL RELATIONS

DAVID Y. IGE
GOVERNOR
SCOTT T. MURAKAMI
DIRECTOR

SENATE COMMITTEE ON WAYS AND MEANS

SENATE COMMITTEE ON LABOR, CULTURE AND THE ARTS

INFORMATIONAL BRIEFING JANUARY 15, 2019

**THE HONORABLE DONOVAN M. DELA CRUZ, CHAIR,
THE HONORABLE GILBERT S.C. KEITH-AGARAN, VICE CHAIR,
THE HONORABLE BRIAN T. TANIGUCHI, CHAIR
THE HONORABLE LES IHARA, JR., VICE CHAIR
AND MEMBERS OF THE SENATE COMMITTEES**

A. MISSION STATEMENT

The mission of the Department of Labor and Industrial Relations (DLIR) is to, "...administer programs designed to increase the economic security, physical and economic well-being, and productivity of workers, and to achieve good labor-management relations, including the administration of workers' compensation, employment security, apprenticeship training, wage and hour, and industrial relations laws. The department shall also have the function of developing, preparing, and disseminating information on employment, unemployment, and general labor market conditions," section 26-20, Hawaii Revised Statutes (HRS).

B. CURRENT ECONOMIC AND FISCAL CONDITIONS

Ironically, current positive economic conditions present the Department with substantial challenges regardless of the Means of Financing (MOF). The record sized labor force and low unemployment rate generate additional demands on the capacity of general funded divisions. Modest staffing restoration has occurred since the Great Recession, but not at the pace of workforce expansion.

For example, Disability Compensation Division (DCD) "reported workers' compensation cases"

has increased from 21,349 in FY12 to 29,525 in FY18, a 38% increase. The Wage Standards Division (WSD) processed nearly 600 complaints in FY18, an increase of 15% over the previous fiscal year. The Labor and Industrial Relations Appeals Board (LIRAB) was not able to resolve 38% of appeals within 15 months, the average time to produce a written decision and order was 29 months, with currently 55 cases waiting for a written decision and order.

The record low unemployment rate results in significantly lower levels of formula funding for the federal programs that account for approximately 60% of the Department's funding. The Unemployment Insurance Division (UI) is draining its special fund reserves to maintain levels of service, including face-to-face availability on all islands. UI is also facing reduced administrative funding due to shifts in how the federal government reimburses states in accordance with the migration of services to online platforms. The Workforce Development Division (WDD) has shrunk through Reductions-in-Force (RIFs) and attrition on Oahu and the Neighbor Islands.

C. FEDERAL FUNDS

DLIR's federal funding largely fluctuates based on the State's unemployment rate, as compared to the other states. Therefore, while the State's unemployment rate remains the lowest in the country, the funding for the department's larger divisions (Unemployment, Workforce Development) falls correspondingly and some of the programs that assist those functions correspondingly experience reduced funding (Research & Statistics, Employment Security Appeals, General Administration). In addition, changes in federal program emphases, as well as initiatives, affect levels of funding.

WORKFORCE DEVELOPMENT DIVISION (WDD, LBR111)

CFDA 17.258 ETA WIA Adult

CFDA 17.278 WIA Dislocated Workers

CFDA 17.259 WIA Youth

The Workforce Innovation and Opportunity Act (WIOA), effective July 1, 2015, superseded the Workforce Investment Act (WIA), which was a major funding source for WDD. WIOA includes new provisions requiring firewalls between the State Administrative Entity, the Counties, and the Counties' service providers.

WIOA also mandates Counties to competitively procure American Job Centers. Hawaii County chose another service provider and joins Honolulu in providing services through other providers. WDD obtained contracts to continue the services currently provided to Adult and Dislocated Workers in the Counties of Maui and Kauai.

The receipt of federal workforce funds has become more unstable and unpredictable as

compared to past years because of changes in the federal law and funding methodologies. U.S.DOL has increasingly relied on competitive solicitations versus increasing formula allocations to states. This makes funding more uncertain on a year-to-year basis.

WORKFORCE DEVELOPMENT COUNCIL (WDC, LBR 135)

CFDA 17.258 ETA WIOA Adult

CFDA 17.278 WIOA Dislocated Workers

CFDA 17.259 WIOA Youth

On June 15, 2018, WDC issued final FY18 allocations as announced by the U.S.DOL of overall funding for WIOA Adult, Dislocated Workers and Youth Programs. Funding for the Dislocated Workers Program was decreased by 8.29% or \$146,603.

The purpose of the dislocated workers program is to help displaced workers become reemployed through job search assistance and/or training that builds their occupational skills to meet the needs of employers. This program's success is measured by participants' entry and retention into employment. Displaced Workers include individuals who have lost their jobs, including those displaced because of company closings or mass layoffs.

Due to severe flooding caused by a three-day torrential tropical storm and volcanic eruptions in spring 2018, the WDC applied for and received approval of National Disaster Grants for Oahu, Kauai and Hawaii counties. On Kauai, a \$500,000 grant is paying for wages of eligible dislocated workers temporarily employed to remove tons of large debris off nearshore coral reefs. On Hawaii Island, a \$3.5 million grant is paying the wages of dislocated workers to conduct clean-up, recovery, and humanitarian services at public and non-profit facilities located within the disaster area. The grants are only available through June 30, 2020.

The decrease in federal funding and continued uncertainty of funding levels and priorities of the federal administration will widen the skills gap in Hawaii – the job skills employers are looking for and the skills that job seekers in the labor market possess – especially during a time of very low unemployment. Hardest hit would be those with barriers to employment such as veterans, ex-offenders, disabled, out-of-school youth, low level of literacy, low income, as well as displaced workers. Funds provide employment, training and education services to job seekers and employers at the American Job Centers statewide.

Hawaii Occupational Safety and Health Division (HIOSH, LBR143)

CDFA17.503 Occupational Safety and Health Program

CDFA17.504 Consultation Agreements

To date, it is not certain whether the new federal administration will implement any negative impacts to the Occupational Safety and Health Administration's (OSHA) programs. Current funding levels continue to be insufficient to meet OSHA benchmarks for most State Programs, like HIOSH. The new OSHA leadership continues to favor compliance assistance and cooperative programs for employers.

The Hawaii Occupational Safety and Health Division (HIOSH) receives federal funds on a matching basis for its two (2) grants. Its enforcement grant of approximately \$1.5 million must be matched on a 50% - 50% basis with \$1.5 million of State funds, while its consultation grant of approximately \$470,000 of federal funds must be matched by \$47,000 of State funds.

HIOSH's mission is to, "Assure so far as possible, every working man and woman in the State safe and healthful working conditions," and currently has inspection and enforcement authority over all private sector workplaces in the state and State and local government. HIOSH jurisdiction excludes maritime activities, federal government employers and workers, contractors at National Parks and on other federal lands, military installations where access is controlled, and the U.S. Postal Service where federal OSHA has oversight.

The HIOSH grants must be resubmitted and approved annually for review of costs coverage and State matching funds. Cost coverage continues to be a challenge with payroll, overhead, legal, and operational expense increases. Any decrease in federal funding would jeopardize HIOSH's mission unless the deficit is offset with State funding. Absent a State funding offset, Hawaii private employers could be moved to the jurisdiction of federal OSHA and need to work with federal inspectors and attorneys on any federal citation issues and penalties. Penalties of approximately \$2 million would then be deposited in the U.S. Treasury instead of the State general fund account.

Hawaii Civil Rights Commission (HCRC, LBR153)

CDFA 14.401 Fair Housing Assistance Program

CFDA 30.002 Equal Employment Opportunity Commission

HCRC does not anticipate immediate loss of federal funds for FY2019. However, the federal administration's priorities are subject to change and may impact HCRC. HCRC receives federal funds pursuant to two federal contracts, a work-sharing agreement with the Equal Employment Opportunity Commission (EEOC), and a cooperative agreement with the Housing and Urban Development's (HUD) Office of Fair Housing and Equal Opportunity. Under these contracts, HCRC is paid for processing fair employment and fair housing complaints that are dual-filed under state and federal laws.

HCRC uses the federal funds received pursuant to the EEOC and HUD contracts to pay for personnel services and operating costs. HCRC does not yet have executed EEOC and HUD contracts for FY2019 and expects to have those contracts in place for execution in mid-2019, after the finalization of the FY2019 federal budget.

Payment vouchers for the FY2018 federal contracts are in process; as noted above, the contracts were executed after the federal budget was enacted, with payments based on performance. HCRC will use funds received for the FY2018 contract to cover FY2019 federally funded operating costs.

Unemployment Insurance Division (UI, LBR171)

CFDA 17.225 ETA Unemployment Insurance Administration

The State's strong economy is reflected in a historically low unemployment that resulted in Tax Schedule C staying in effect for employers this year due to a healthy amount in the benefits trust fund. Due to reduced federal administrative grants, the UI Division will be challenged to meet operational costs of covering minimum staffing and normal overhead expenditures. Staffing has been reduced from 225 FTE to below 120 FTE. For federal FY 2019, UI will experience a budget shortfall of approximately \$3.5 million.

At the end of FY 2018, the Special Unemployment Insurance Administration Fund (SUIA) had a balance of approximately \$8.0 million as \$2 million was used. Should the estimated total loss of federal funds of \$1.3 million, plus collective bargaining and increased overhead expenditures come to fruition, the UI Division will use nearly 50% or \$3.5 million of the \$8 million balance of the SUIA in FY 2019. These monies will help to maintain essential services to ensure that all eligible persons can collect the jobless compensation they are entitled to. SUIA funds are used to supplant depleted federal funds to retain the capability to react to downturns in the economy.

Research and Statistics Office (R&S, LBR901)

CFDA 17.002 Labor Force Statistics

For FY19 R&S was fully funded by the Bureau of Labor Statistics (BLS). However, R&S continues to struggle to maintain data quality and meet contract deliverables as the allocations from BLS and the Employment and Training Administration (ETA) are not quite enough to keep up with increases in staff salaries and the rising costs of fringe benefits as well as administrative and technical expenses. The current partial federal shutdown has not affected R&S yet. But if the shutdown continues, R&S's work may be affected should the General Services Administration

(GSA) have to shut down BLS networks and online tools that it operates for BLS and if the Census Bureau is unable to do data collection that are core data for R&S' programs.

The following are R&S programs that may be at risk due if federal funds are restricted or reduced:

Local Area Unemployment Statistics (LAUS)— produces the monthly labor force estimates and unemployment rates for the state, counties, and islands. The LAUS program also produces the annual Areas of Substantial Unemployment that affects the amount of federal funds available for various workforce development laws and programs.

Current Employment Statistics (CES)—produces the monthly estimations of job counts, hours, and earnings by industries. This data are essential economic indicators for the counties and for the State.

Quarterly Census of Employment and Wages (QCEW)—is the universe of covered worker employment and wages from Unemployment Insurance. A quarterly Multiple Worksite Report allows R&S to break out employment and wages for employers with multiple worksites to produce county level employment and wage information.

Occupational Employment Statistics (OES) Survey—is a survey of employers in all industries in the State. Information is collected on occupational staffing patterns by industries and the most current occupational wages for the State and metropolitan statistical areas. This program provides base employment figures for the development of Hawaii's long and short-term job projections. OES survey data is also used to determine annual construction worker shortages in Hawaii and is used by legal authorities for assessing wages lost in employment disputes.

CDFA 17.225 ETA Unemployment Insurance Administration

- Conducts the Annual Evaluation of the Hawaii Unemployment Compensation Fund as required by HRS 383-126.5.
- Maintains management information statistical databases, data analysis and the UI data validation mandated by the Employment and Training Administration (ETA).
- Produces UI trust fund and workload projections for legislative and budget purposes.
- Conducts annual data analysis and computations to determine the UI taxable wage base, maximum weekly benefit amount, and the tax schedule to be in effect for the coming year.

CFDA 17.005 BLS Occupational Safety and Health Statistics

R&S conducts the Occupational Injuries and Illnesses Survey under a cooperative agreement with the BLS. Private industry and state and local government employers are surveyed on the number and incidences of nonfatal occupational injuries and illnesses and detailed characteristics of cases, which result in days away from work. R&S also compiles data for the Census of Fatal Occupational Injuries.

CFDA 17.207 Workforce Information Grant

- Produces long-term and short-term industry and occupational projections as required by ETA. Workforce development programs must utilize these projections to implement their programs.
- Produces labor market information products and publications.
- Provide training and support to local workforce and educational agencies.

OFFICE OF COMMUNITY SERVICES (OCS, LBR903)

In FY2017-18, OCS administered nine federal grant programs through contracts with non-profits totaling nearly \$5.6 million. In general, the federal programs do not provide adequate funds to cover the cost of administering the programs. State general funds are required to cover the shortfall for administering programs for the low income, immigrant, and refugee communities. In addition to the inadequate level of administrative funds, the level of programmatic funding and the timing of the funding allotments from the federal government are uncertain.

The federal government shut down has affected two of the three food programs as of December 2018. Some of the federal programs received their first quarter allocations, however, funding for the remainder of the fiscal year is subject to a full year funding by Congress or another continuing resolution.

CFDA 93.569 Community Services Block Grant (CSBG)

This funding supports a wide variety of anti-poverty and social service programs, currently with a \$3.7 million grant from the U.S. Department of Health & Human Services (DHHS). The funds pass through to Hawaii's four Community Action Agencies: Honolulu Community Action Program (HCAP), Hawaii County Economic Opportunity Council (HCEOC), Kauai Economic Opportunity (KEO), and Maui Economic Opportunity (MEO). OCS received its first quarter allocation for FFY19, which is positive since it is the most significant grant for the office. Under the federal statute that governs CSBG, federal funding for the state administration is limited to 5% of the total award.

CFDA 10.568 The Emergency Food Assistance Program (TEFAP)

CFDA 10.565 Commodity Supplemental Food Program (CSFP)

These grants provide low-income individuals and families with food through separate annual grants from the U.S. Department of Agriculture's (USDA). The TEFAP program requires the state to provide matching funds or in-kind contributions equal to the amount of administrative funds provided by federal government. Both TEFAP and CSFP were affected by the federal government shutdown and are operating on limited funding through a continuing resolution that ended December 21, 2018. Accordingly, OCS informed service providers that it will not be able to continue to fund its administrative costs to run the programs which include payroll, rent, shipping and utility expenses beyond this date.

CFDA 10.576 Senior Farmers' Market Nutrition Program (SFMNP)

The SFMNP provides low-income seniors with fresh fruits, vegetables, and honey from local farmers through a \$498,746 grant from the USDA. The grant requires the state and local service providers to cover most of the costs to administer this labor intensive, time-consuming application and coupon redemption program as administrative costs are limited to 10%. This program is very popular with the kupuna community, but administratively burdensome and underfunded. Thus, continuation of the program in Kauai and Hawaii counties was uncertain. In response to this need, OCS sought temporary relief from the Hawaii Department of Agriculture through a MOA to help defray administrative costs for FFY 2019. OCS has earmarked this entire sum for distribution to the service providers and will continue to seek other sources of supplemental administrative funding to assist our local agencies.

CFDA 81.042 Weatherization Assistance Program (WAP)

CFDA 93.568 Low-Income Home Energy Assistance Program (LIHEAP)

These grants provide home weatherization devices, appliances, and services to help reduce energy costs for low-income individuals through a \$215,750 WAP grant from the U.S. Department of Energy and a \$417,157 grant from DHHS. The current program year (PY18) for WAP runs until June 30, 2019 and funding beyond this time requires OCS to apply for and receive approval from the U.S. Department of Energy for program year (PY19).

CFDA 93.667 Social Service Block Program (SSBP)

CFDA 93.558 Temporary Assistance to For Needy Families (TANF)

These interrelated funds provide legal services to promote children's welfare and family stabilization through two grants totaling \$282,000 for FFY18 and funded through an MOA with the Department of Human Services (DHS). This funds the Legal Advocacy, Outreach, and

Referral Services to Protect the Rights of Children and Their Families program. OCS recently discovered that the MOA with DHS did not provide for the cost of administering the program dating as far back as 2010. OCS is currently working with DHS and the grantee to allocate a portion of the programmatic funds to OCS for the administration of this program.

CFDA 93.566 Refugee and Entrant Assistance Program

This federal program encompasses two sets of services for refugees: Refugee Social Services for Employment and other social services for five years after arrival or grant of asylum, and Refugee Cash and Medical Assistance during the first eight months after arrival or grant of asylum. The base funding for this program has been around \$75,000 per year. With the declining number of refugee arrivals both nationally and in Hawaii and considering the federal Administration's policies, future funding is extremely uncertain.

CFDA 16.320 Specialized Services for Victims of Human Trafficking

Provides culturally appropriate specialized emergency, medical, legal, and other services for victims of labor and sex trafficking in Honolulu. OCS received a three-year grant award totaling \$584,000 from U.S. Dept of Justice, Office for Victims of Crime, for FFY 2015-2018, which was extended for one additional fiscal year, ending September 30, 2019. This program has been serving an average of 25 victims per year. Administrative funding under this grant is limited to 1% and requires the State to provide matching funds totaling \$198,022.

D. NON-GENERAL FUNDS

DLIR non-general fund reports are available at:

<http://labor.hawaii.gov/find-a-report/>

E. BUDGET DEVELOPMENT PROCESS & PRIORITIZATION

The DLIR budget process utilizes a "bottom-up" approach. Each program is requested to review their current operational activities and what resources are needed to adequately provide the required statutory services to the public at acceptable levels. All program findings are then reviewed by the director and appropriate staff to develop the department's final budget.

Requests for additional funds are prioritized based on several factors that include, but are not limited to, the following: service levels to the public, State and Federal legal mandates, modernization efforts to increase efficiency and transparency for workers, employers and practitioners, and addressing reduced federal funding in critical program areas.

F. SIGNIFICANT ADJUSTMENTS

The following include the DLIR's budget requests in order of priority:

1. Disability Compensation Division (DCD, LBR183)—Modernization Project

DCD is in the process of improving its level of services to all stakeholders and an integral part of that effort involves the automation of the division's operations with a focus on providing customer-centric services. In FB2015-17, DCD embarked on a strategic plan to improve its business processes and to modernize its case management system and with \$905,000 procured a consultant and derived recommendations.

The first steps involved improving business processes with the resources already available to help ensure that subsequent automation efforts would not in effect lock inefficient processes in an automated fashion.

In FB2017-19 the department received \$3,326,158 to initiate the automation process with consultants and one FTE IT position. Consultants contracted to study and analyze the DCD program recommended three major initiatives to further streamline and automate division processes. The three initiatives were:

- Electronic Data Interchange (EDI) Intake (i.e. electronic claims intake);
- Business Process Automation and Case Management (i.e. business process workflow); and
- Self-Service Portal (online services for claimants and providers).

DCD implemented these initiatives in 2017 with seven sub-projects spanning Fiscal Years 2018-2021. The contracts are structured, so the development of the system is in an Agile fashion with the segmentation of the contracts for validation at each stage of the project. The sub-projects and the fiscal years are:

- FY2018—Assessment of the DCD systems.
- FY2019—eCMS (Electronic Case Management System) Foundation and DocuShare Data Migration.
- FY2020—Lotus Notes Data Migration.
- FY2021—Mainframe Migration and Portal Development for Stakeholders; Migration of Paper-based cases into the eCMS.

For this biennium, the DCD is requesting \$2,565,469 in FY2020 and \$1,772,998 in FY2021 for IT Consultants, Software and Hardware to finish the Modernization Project. This phase will allow Hawaii's injured workers to receive faster medical care and benefit

payments through quicker case processing and case management. Importantly, the project will enable a service-oriented, online environment through a portal for all stakeholders involved in the workers' compensation program.

2. Disability Compensation Division (DCD, LBR183)—Independent Verification and Validation (IV&V)

The IV&V services for DCD's Modernization Project is being sought this biennium (\$450,000) in accordance with the Legislature's mandate. DCD has begun the procurement process to acquire a contractor that will provide services that will ensure quality assurance and control efforts for the DCD Modernization Project. The IV&V will help DCD ensure that the Agile system development occurs by appropriate segments and validating it at every stage.

3. Unemployment Insurance Division (UI, LBR171)—Modernization

UI's system for benefits and tax & quarterly wage reporting is 32 years old and housed at ETS on the mainframe. The system has been upgraded with front-end enhancements over the years to enable the system to meet changing reporting and data tracking requirements. The migration from the mainframe will assure operations continue unhindered while improving data security at less cost.

DLIR is actively pursuing joining a small state consortium led by Idaho to piggyback on the core system developed by Idaho with an estimated cost to Hawaii of \$4 million. This system will house UI's benefit, tax, and quarterly wage applications.

4. Disability Compensation Division (DCD, LBR183)—Program Specialist I, SR24

DCD is requesting the restoration of one of the three previous positions abolished due to budgetary constraints. This position in DCD administration was providing legislative, labor relations, and vocational rehabilitation support to DCD and was being redescribed to oversee the State's Vocational Rehabilitation (VR) program at the time of its abolishment.

HCR105 (SLH, 2017) identified numerous challenges that the VR Unit continues to face and required the Department to submit a report to the Legislature on its efforts to keep its commitment to work with vocational rehabilitation stakeholders, address the issues raised in the Resolution, and recommendations made to improve the performance of

the VR Unit. If restored, this position will further efforts to improve administration of the VR program.

5. Unemployment Insurance Division (UI, LBR171)—Neighbor Island Programs

Due to the low unemployment rate federal funds for the UI offices in Hilo, Kona, Maui, and Kauai have been supplemented from the Special Unemployment Insurance Administration (SUIA) for the past three years. UI has used \$4.1 million dollars to maintain levels of service on the Neighbor Islands during that time. As previously outlined, the SUIA fund is nearing depletion to address the reduced federal funding and funds would be used for the projected special fund shortfall.

6. Labor and Industrial Relations Appeals Board (LIRAB, LBR812) Staff Attorney, Exempt

LIRAB is requesting funding for a staff attorney position to address the case backlog and will help with complex controverted cases that take significant amounts of time to resolve. An attorney would enable the Board to settle more cases without going to trial and reduce the time it takes to issue a written decision after trial.

In FY17, LIRAB settled 190 cases and 175 cases in FY18. An additional staff attorney can help the Board hold more settlement conferences and devote more time to facilitate settlements. With more cases settled, there would be less decisions for the Board to write. The Board currently receives 400+ new appeals a year. A goal of settling or resolving 200 or more appeals a year would be attainable with an additional staff attorney position.

In FY17, the average time it took for a case that went to trial to be closed by a written decision was 27 months from the receipt of post-trial briefs. In FY18, the average time was 29 months. One of the reasons for the delay is that the Board spends a significant amount of time per week in hearings or trials. The Board is also required by law to review and approve attorney's fee requests, an often tedious and time-consuming task that takes time away from writing decisions.

Recent court decisions have increased the attorney's fee requests workload by requiring LIRAB to provide more specific justification and explanation for adjusting fees. Additional legal support would greatly assist the Board in this area as well as with drafting written decisions. Written decisions could be issued much sooner than the current average of 29 months. A goal of issuing a written decision within 9-12 months after the receipt of post-trial briefs would be attainable if the Board receives an additional staff attorney position.

7. Hawaii Civil Rights Commission (HCRC, LBR153)—Program Specialist, SR22

The HCRC currently has one Program Specialist V, who has coordinated the HCRC's voluntary mediation program. From 2016-2018, the Program Specialist V played a key role in the planning, implementation, and development of an HCRC Fair Housing Mediation Pilot Program. In addition to developing policies, procedures, and forms with the Department of Housing and Urban Development (HUD) guidance and approval, the Program Specialist V mediates the fair housing cases in-house, due to the exacting requirements of the new program.

The fair housing mediation pilot program has been a great success, allowing parties to achieve just resolution without resort to enforcement (investigation, conciliation, and litigation). The success of the program has required the Program Specialist V to devote substantial time to that work, to the detriment of existing work coordinating the non-housing mediation program.

Establishment of a new Program Specialist IV will allow for continued development of the fair housing mediation program, establishing it as an ongoing program that is no longer a "pilot" program, while increasing capacity to effectively coordinate and expand the existing mediation program for non-housing cases. This will result faster resolution and less expense as well as reduce the costs of investigating and litigation. HCRC estimates that the requested addition of a Program Specialist V could increase the number of cases referred to voluntary mediation by as much as 50%.

8. Wage Standards Division (WSD, LBR152)—Labor Law Enforcement Specialist, SR22, Hearing Branch.

Currently, the WSD Hearings Branch has one position (Hearings Branch Chief) that conducts hearings for employees who were fired due to a worker's compensation injury, appeals of contested prevailing wage claims, wage claims, and Hawaii Family Leave Law complaints. The Branch Chief handles all the cases single handedly including taking all branch phone calls, correspondences, document review, filing and recording, status conferences, pre-hearings, hearings, and record requests from DCD and UI.

The requested hearings officer would independently conduct hearings and informal pre-hearing conferences for simple to moderately difficult cases. The position will also handle all preliminary matters prior to status conferences, pre-hearings, and hearings, to enable the Hearings Branch Chief to avoid ex-parte communication with parties.

Moreover, Act 135 (SLH, 2017) requires a new administrative penalty for violations of wage payment law (Chapter 388, HRS) that is deposited into the Labor Law

Enforcement Special Fund (Act 187, SLH 2018). 25% of penalties from wage payment claims are now appealed. If approved, the new hearings officer will focus on these appeals along with duties described above.

Department of Labor and Industrial Relations
Department Functions

Table 1

Division	Description of Function	Activities	Prog ID(s)	Statutory Reference
Disability Compensation	Ensure workers' compensation and temporary disability insurance, prepaid health care benefits are provided	Conduct hearings, render decisions, investigate complaints, audit payroll records, review health care plans.	LBR183	Chapters 386,392, 393
Hawaii Occupational Safety and Health	Ensure safe and healthy workplace	Compliance inspections, consultations, investigations	LBR143	Chapter 396
		Boiler, elevator, amusement ride inspections	LBR143	Chapter 397
		Certification of hoisting machine operators	LBR143	Chapter 396
Labor & Industrial Appeals Board	Perform administrative review of workers' compensation appeals	Schedule pre-hearing conferences, conduct hearings and render decisions	LBR812	Chapter 371
Workforce Development	Administer Workforce Development programs	Job placements, provide training, post employer job openings on website	LBR111	Chapters 371, 372, 383, 394B
Workforce Development Council	Develop and coordinate the state workforce development strategic plan	Maintain compliance with the Workforce Innovation and Opportunity Act and project future workforce needs	LBR135	Chapter 371
Unemployment Insurance	Payment of unemployment benefits and collecting employer contributions	Processing claims, determining eligibility, adjudicating discrepancies, conduct employer audits	LBR171	Chapter 383
Employment Security Appeals Referee's Office	Perform administrative review of unemployment appeals	Conduct hearings and render decisions	LBR871	Chapter 383
General Administration	Administer department's labor programs	Provide general administrative services through Director's, Fiscal, Electronic Data Processing Systems, and Human Resources Offices	LBR902	Chapter 371
Research & Statistics Office	Collect and analyze labor related statistics	Provide reports on employment and unemployment, industry trends and occupational demands, and characteristics of the workforce	LBR901	Chapter 371
	Develop and maintain the Hawaii Career Information Delivery system	Provide outreach and educational activities for students and adults for career development	LBR901	Chapter 373
Hawaii Civil Rights Commission	Enforce state laws prohibiting discriminatory practices	Investigate complaints, conduct hearings, order appropriate legal equitable relief or affirmative action when there are violations	LBR153	Chapters 368, 378, 489, 515
Wage Standards	Administer wage standards and fair employment laws	Investigate complaints, conduct hearings, issue child labor permits	LBR152	Chapters 387, 388, 390, 104, 398, 378
Hawaii Labor Relations Board	Administer collective bargaining laws in public/private employment	Issue declaratory rulings, provide impasse assistance, and review occupational safety and health appeals	LBR161	Chapters 89, 377
Office of Community Services	Facilitate programs for the economically disadvantaged immigrants, and refugees to achieve economic self-sufficiency	Administer human services programs to improve individual's economic status and assist private and public agencies in implementing anti-poverty programs	LBR903	Chapter 371K
