In consideration of  
SENATE BILL 1063  
RELATING TO WIRELESS COMMUNICATION

Senate Bill 1063 proposes to amend Section 205-2, Hawaii Revised Statutes (HRS) regarding wireless communication antenna land uses within the Conservation District by inserting language stipulating that communication antennas as defined in Section 205-4.5(a) (18), HRS, shall be camouflaged to blend in with the surrounding environment. **The Department of Land and Natural Resources supports this measure and offers the following comment.**

Conservation District Use Applications for wireless communication facilities are evaluated on a case by case basis. All new facilities are required to be camouflaged to blend into the surrounding environment.

Thank you for the opportunity to comment on this measure.
