Dear Chair Nishihara and Members:

SUBJECT: Senate Bill No. 600, Relating to Firearms

I am David Nilsen, Acting Major of the Records and Identification Division of the Honolulu Police Department (HPD), City and County of Honolulu.

The HPD supports Senate Bill No. 600, Relating to Firearms.

Raising the legal age for a person to bring a firearm into the state of Hawaii to 21 will clarify a loophole in our firearms laws, as the legal age to obtain a permit to acquire a firearm is 21. Aligning both of the respective Hawaii Revised Statute sections will allow for a clear understanding and easier enforcement of the statute.

The HPD urges you to support Senate Bill No. 600, Relating to Firearms.

Thank you for the opportunity to testify.

Re: **Senate Bill 600 - OPPOSE**

Dear Chairman Nishihara:

On behalf of the Hawaii members of the National Rifle Association, we strongly oppose Senate Bill 600.

Hawaii requires individuals who bring a firearm into the state to register that firearm within five days; however an age for registration is not expressly stated in statute. SB 600 would set the minimum age for registration at 21 years old. This legislation will discriminate against those young adults who possess lawfully acquired firearms from traveling to Hawaii for hunting or recreational purposes along with those who are relocating to Hawaii for various reasons including members of our military.

We encourage the author to explore proposals that go after those misusing firearms instead of focusing attention on the good honest law abiding citizens traveling or relocating to the Aloha State.

For the foregoing reasons, we urge your opposition to SB 600.

Sincerely,

Daniel Reid

HEARING: Thursday, February 7, 2019, at 1:15pm

RE: SB600 Relating to Firearms

Aloha Members of the Senate Committee,

The Hawaii Firearms Coalition OPPOSES SB600.

The Hawaii Firearms Coalition believes the 2nd Amendment's "...right to keep and bear arms..." applies to persons under the age of 21 and therefore this bill is unconstitutional. A person under the age of 21 can join the military and die for their country, drive a car which can be far more dangerous than a firearm and is not a constitutional right, and be an adult making life decisions. However those supporting this bill do not believe these good people deserve the constitutional right to keep and bear arms.

This bill would affect military servicemembers under the age of 21 transferring to Hawaii with their firearms. The firearms they use to practice marksmanship which could one day save lives. This also affects civilians who move to Hawaii, competitive shooters flying in for an event, and hunters traveling to Hawaii for an adventure.

There is a strong gun control bias in Hawaii with no remorse in restricting people's civil rights. This is evident where the Honolulu Police Department has a policy of confiscating guns for those under the age of 21. Military servicemembers and civilians, under the age of 21, traveling to Hawaii will do the right thing by attempting to register their guns with the Honolulu Police Department. However HPD will confiscate their guns due to the belief that no one under the age of 21 can register a firearm. Nowhere in HRS 134-3 (relating to firearms registration) states a minimum age to register a firearm.

A report by the Legislative Reference Bureau dated May 3, 2018 agrees that there is no minimum age written in Hawaii law to register a firearm. The LRB also goes on to state that Hawaii law allows someone 18 or older to possess a long gun for hunting and target shooting.

For these reasons the Hawaii Firearms Coalition Opposes SB600. Thank you for your consideration.

MEMORANDUM

TO: Honorable Sam Satoru Kong
Representative, 33rd District

FROM: Rina C.Y. Chung 
Research Attorney

SUBJECT: Minimum Age for Registration of Firearm with County Police Department

You requested this office to confirm that section 134-3, Hawaii Revised Statutes (HRS), does not specify that a person registering a firearm be of a certain minimum age. In your request, you indicated that a twenty-year-old constituent had been informed by the Honolulu Police Department that he must be at least twenty-one years of age to register a rifle that he plans to bring to Hawaii from Texas.

While the Bureau does not issue formal legal opinions or provide legal advice, we have reviewed the applicable statutes and offer the following information for your review and consideration.

The HRS does not appear to specifically address the type of situation described in your request. For this reason, the applicable law with respect to registration of the rifle in question may be subject to different interpretations. For informational purposes, the remainder of this memorandum discusses age-related provisions presently found in part I of Chapter 134, HRS.

We note that section 134-3, HRS, relating to *registering* a firearm does not contain any specific age requirement.

However, section 134-2, HRS, which addresses *permits to acquire* firearms, does specify minimum age requirements. Section 134-2(a), HRS, provides in relevant part: "No person shall acquire the ownership of a firearm . . . whether procured in the State or imported by mail, express, freight, or otherwise, *until the person has first procured . . . a permit to acquire the ownership of a firearm as prescribed in this section.*" (Emphasis added.) Section 134-2(d), HRS, specifies, among

other things, that "[t]he chief of police of the respective counties may issue permits to acquire firearms to citizens of the United States of the age of *twenty-one years or more . . .*" (Emphasis added.)

We further note that Chapter 134, HRS, does not specify a procedure for county police departments to follow when, pursuant to section 134-3(a), HRS, a "person arriving in the State who brings or . . . causes to be brought into the State a firearm of any description" attempts to register the firearm pursuant to that subsection but is not of sufficient age to acquire or own a firearm under section 134-2, HRS.

Additionally, we note that the following sections of Chapter 134, HRS, specify minimum age requirements for other types of firearm-related activities (italic emphases added), yet as a whole the Chapter does not seem to offer much clarity with respect to each type of activity or consistency with respect to minimum ages for these activities.

1. Section 134-2(d), HRS, allows a county chief of police to issue a permit to an alien "for use of rifles and shotguns for a period not exceeding sixty days, upon a showing that the alien has first procured a hunting license" under part II of Chapter 183D, HRS; provided that the alien is *eighteen years of age or older*.
2. Section 134-2(d) also allows a county chief of police to issue a permit to an alien "for use of firearms for a period not exceeding six months, upon a showing that the alien is in training for a specific organized sport-shooting contest held within the permit period"; provided that the alien is *twenty-one years of age or older*.
3. Section 134-4(a), HRS, prohibits the "transfer"¹ of "any rifle having a barrel length of sixteen inches or over or any shotgun having a barrel length of eighteen inches or over, whether usable or unusable, serviceable or unserviceable, modern or antique, registered under prior law or by a prior owner, or unregistered" to "any person *under the age of eighteen years*, except as provided by section 134-5", HRS.
4. Section 134-4(c), HRS, allows the loan of a "lawfully acquired rifle or shotgun . . . to *an adult*"² for use within the State for a period not to exceed fifteen days without a permit; provided that where the rifle or shotgun is to be used outside of the State, the loan may be for a period not to exceed seventy-five days."
5. Section 134-5(a), HRS, allows a person to "carry and use any lawfully acquired rifle or shotgun and suitable ammunition while actually engaged in hunting or target shooting or while going to and from the place of hunting or target shooting"; provided that the person is either "of the *age of sixteen years, or over*" or "accompanied by an adult" if "*under the age of sixteen years*"; and provided further that if hunting is involved, the person "has procured a hunting license" under part II

¹ We note that section 134-4, HRS, does not define "transfer", nor does section 134-1, HRS, which is the definitional section for the chapter.

² Similarly, we note that "adult" is not defined in sections 134-1 or 134-4, HRS.

of Chapter 183D, HRS. Under the Hawaii Administrative Rules (HAR),³ a person must be "*at least 10 years of age*" in order to "be issued a hunter education certificate after completion of the hunter education program" and generally speaking, under section 183D-28, HRS, a person must possess a hunter education certificate to obtain a hunting license under that section, unless the person qualifies for an exemption that is based on the person's age and proof of prior licensure.

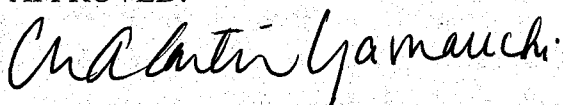

6. Section 134-5(b), HRS, allows the loan, without a permit, of a "lawfully acquired firearm . . . to a person, *including a minor*,⁴ upon a target range or similar facility for purposes of target shooting; provided that the period of the loan does not exceed the time in which the person actually engages in target shooting upon the premises."
7. Section 134-5(c), HRS, allows a person to "carry unconcealed and use a lawfully acquired pistol or revolver while actually engaged in hunting game mammals, if that pistol or revolver and its suitable ammunition are acceptable for hunting by rules adopted pursuant to [section 183D-3, HRS] and if that person is licensed pursuant to [part II of Chapter 183D, HRS]." Under section 13-123-22(2)(K), HAR, "[n]o person *under the age of 18 years* shall hunt game mammals with a handgun."

For your convenience, unofficial printouts of sections 134-2, 134-3, 134-4, 134-5, and 183D-28, HRS, are enclosed, as well as the HAR sections cited herein.

As noted above, the Bureau does not issue formal legal opinions or provide legal advice. Therefore, your constituent may wish to consult with a private attorney. The Hawaii State Bar Association operates the Lawyer Referral & Information Service, which refers potential clients to private attorneys. Information on the service may be obtained by calling (808) 537-9140, emailing iris@hsba.org, or visiting <http://hawaiilawyerreferral.com>. Harvey Gerwig	Testifying for Hawaii Rifle Association	Oppose	Yes

Comments:

The Hawaii Rifle Association is **STRONGLY OPPOSED** to SB600 for the following reasons:

- * Many States on the Mainland allow firearm possession at ages less than 21.
- * When persons from other states move to Hawaii and bring their legally owned guns with them, they find that their guns are confiscated and NOT allowed to be registered.
- * Military members who are not yet 21 years old and bring their personally owned firearms with them when they are stationed in Hawaii have those guns confiscated. It is not right to treat those that protect our nation in this manner.

Please do not move this bill forward.

COMMITTEE ON PUBLIC SAFETY, INTERGOVERNMENTAL, AND MILITARY AFFAIRS

Chair, Vice Chair, and Members,

Please defer SB600 by voting NO.

This is nothing but an illegal age-discrimination-based statute that would deny legal law-abiding adult citizens their constitutionally-protected right to keep arms, solely on the basis of their age, and no other factors. The actual evidence regarding crime and this age group, both as victims and perpetrators leads to the exact opposite conclusion to the assumptions underlying SB600. These people, aged 18 to 20, are legal adults in all other matters of law in Hawaii and the United States. They can drive, vote, get married, enter into contracts, be tried as adults for any crimes committed, etc. On what basis, other than pure age discrimination, should they be denied the right to keep arms, like all other law-abiding adults?

It's even more ludicrous when one thinks that this effects members of the military who may train with and use weapons daily, yet when they return home are denied the ability to have such weapons for self-defense of themselves and their families. Completely nonsensical. And hypocritical. You expect them to possibly die in military action defending their country and the rights embodied by it, yet deny them those same rights they are willing to die for? Ludicrous.

If the Hawaii legislators believe that persons 18 to 20 years of age aren't entitled to exercise their constitutionally-protected rights, then pass laws that deny persons of that age group ALL their rights, not just one particular one. That would be the rational thing to do. Rational, that is, if there were even a shred of evidence that denying these people their rights would have any benefit to society at all. Of course, you well know there isn't any such evidence, which is why some legislators have selected only one such right to be denied, based not upon evidence, but upon nothing more than irrational fear that such persons of said age are prone to dangerous firearm-related behavior beyond other age groups.

In fact, this proposed law has it completely backwards if we are to consider facts rather than mere bias.

Because **18-20 year-olds are the most frequently criminally victimized age group**, they deserve MOST to have the ability to defend themselves from such predators, *not* be prevented from defending themselves. Disarming the most abused group only makes them even more vulnerable to more predation. That's the exact opposite of "public safety".

Data also shows that people in the 21-24 age group commit crimes at a higher rate than people in the 18-20 age group. Thus according to facts, the rational evidence-based proposed legislation would have to ban the import and/or possession of firearms by anyone under the age of 25.

Another example of the wrongly directed prejudice directed at this age group is the data for Michigan, Nevada and Texas indicate that permit holders between the ages of 18 and 22 are even more law-abiding than older permit holders. Why should these law-abiding young adults be denied their right to defend themselves?

Are you going to vote on proposed legislation based upon facts or some data-less emotional discriminatory hyperbole?

See, for example:

THE IMPACT OF BANNING JUVENILE GUN POSSESSION

THOMAS B. MARVELL
Justec Research

Abstract

A 1994 federal law bans possession of handguns by persons under 18 years of age. Also in 1994, 11 states passed their own juvenile gun possession bans. Eighteen states had previously passed bans, 15 of them between 1975 and 1993. These laws were intended to reduce homicides, but arguments can be made that they have no effect on or that they even increase the homicide rate. This paper estimates the laws' impacts on various crime measures, primarily juvenile gun homicide victimizations and suicide, using a fixed-effects research design with state-level data for at least 19 years. The analysis compares impacts on gun versus nongun homicides and gun versus nongun suicides. Even with many different crime measures and regression specifications, there is scant evidence that the laws have the intended effect of reducing gun homicides.

Do not irrationally discriminate! All law-abiding adults are entitled to exercise ALL their rights. Do not pass SB600. Vote NO on SB600.

Thank you,

George Pace

I see this bill as WHOLLY ANTI-MILITARY as that is who this seems to target; young soldiers under the age of 21 who have signed on to protect our nation..with firearms!

This law would turn these young men & women into criminals if they wanted to protect themselves or their families in their own residence while serving their country!

I also find it interesting that their is a another bill in this session seeking to LOWER the legal voting age to 16.

These young folks are now being told they are old enough to drive, vote, fight & possibly die for their country, yet NOT old enough to own or possess a firearm in their own residence.

Remarkable..

In many other states across the nation you only have to be 18 years to purchase a rifle or shotgun. So if these adults move to Hawaii they have to turn in their legally purchased firearm because of Hawaii's age restriction? Sounds like you are setting up a condition where people will not register their long gun for fear of confiscation of personal property that is brought into the state.

I OPPOSE SB600

There is no data showing that importation of firearms by persons 18-21 into the state represents a significant source of firearms or any harm whatsoever. The Attorney General should first be tasked with providing this in their annual "Firearms Registrations in Hawaii" report.

Without any data, I have to assume most importations would be by service members ordered to Hawaii.

I am unaware of any problem arising from service members or others 18-21 possessing firearms in Hawaii. Since it would impose a significant burden on a right ensured in both US and Hawaii Constitutions (I assume firearm owners entering the state would have to dispose or store their lawfully owned firearms when moving into Hawaii) it is bad public policy.

As a technical matter, section 134-3 deals with registration. I don't think it is appropriate to add requirements for importation into this section as it creates confusion. (For example, certain firearms are exempted from registration in 134-3, so does the import ban apply to these?) It seems like 134-7 would be a more appropriate place for this new prohibition. As a hypothetical, if someone 18 who lawfully possessed a firearm that fires loose black powder in one state enters Hawaii with the firearm after this bill is enacted, he/she couldn't register it, but I don't see what the penalty would be?

We should first demonstrate an actual harm, not just theoretical harm before taking away rights of individuals.

I strongly OPPOSE this measure. This proposal directly and adversely impacts incoming service members assigned to Hawaii, and competitors who visit Hawaii to participate in shooting sports events sanctioned by nationally-recognized organizations.

Thank you for the opportunity to testify on this measure.

I strongly oppose SB600.

The Liberty and Freedom to exercise a right enshrined in both the U.S. and Hawaiian Constitutions should not have an age associated to an inherent right. If you all feel the need to assign an age to freedom maybe make it eighteen years old? Eighteen is the age of adulthood and your old enough to enlist in the military and fight and dies for your State and Nation.

I oppose SB600. A person at the age of 18 can join the armed forces, and sent in harms way bearing arms to perform the warfighting duties of our country, and perhaps risk their lives so we can enjoy our freedoms. Yet SB600 proposes to abridge the constitutional rights of this age group 18-21, although they may be asked to bravely lay down their lives so that we can rest easy? Something fundamentally wrong here.

To Whom It May Concern,

Please oppose SB600. Should this become law, it will prohibit those that visit Hawaii for hunting and competitive reasons from being able to participate in these activities. This will bring a drop in tourism to the State that so heavily depends on them for the income of the majority of residents here.

Please oppose SB600.

Respectfully,

Davin Asato

As A resident of Hawai'i, a strongly oppose SB600 and ask that you do also. The State of Hawai'i is home to a number of US military Facilities and there are US service men and women transferring to and from them at all times. SB600 would become an added hardship in an already stressful time for those incoming service men and women that are under the age of 21. Safe long term storage would have to to be found and paid for if the firearm(s) were to be kept. Or a last minute sale of firearm(s) while already trying to transfer. The worst case is not knowing about SB600 and becoming a criminal possibility jeopardizing their military service.

If you are so worried about an 18 year old being responsible, why does the State allow them to Vote? In many minds, voting is way more dangerous than the posession of a firearm.

These Service men and women are old enough to serve and die for this Country. SB600 will only infringe on their rights as citizens of this Country, the same rights they swore an oath to defend. If I'm not mistaken, I believe the legislation swore an oath as well.

I please ask you to stand up for the rights of the people you were elected to represent and oppose SB600.

This bill would deny the legal right to own firearms to anyone under the age of 21. This would mean that if someone brings a firearm from out of state and they are under the age of 21 they would be considered a criminal even though they legally purchased and own the firearm.

This law would adversely affect the military members who are sent to Hawaii. These young men and women are charged with protecting this nation and using firearms to do so. But due to their age would be criminals if they wish to defend their home.

Similar laws are currently being challenged throughout the country and it would be wise for Hawaii to see the outcome of these legal proceeding before considering the bill further. Passing of this bill into law would likely result in lengthy and costly legal actions against the state.

Aloha,

I strongly oppose SB600. Where Hawaii's legal age to purchase a long gun or handgun is 21 years of age, that is not the case with other States. Some States allow adults, 18 y/o or older to purchase long guns. These individuals LEGALLY purchased said firearms, had a NICS background check done, and properly filled out the BATFE 4473. They should be allowed to bring their guns here since they were acquired legally.

I see this bill as WHOLLY ANTI-MILITARY as that is who this seems to target; young soldiers under the age of 21 who have signed on to protect our nation..with firearms!
This law would turn these young men & women into criminals if they wanted to protect themselves or their families in their own residence while serving their country!

I also find it interesting that there is another bill in this session seeking to LOWER the legal voting age to 16.
These young folks are now being told they are old enough to drive, vote, fight & possibly die for their country, yet NOT old enough to own or possess a firearm in their own residence.
Remarkable..

Please vote down this proposal!
Thank you for your time.

This bill goes against all the men and women in uniform who is willing to serve and protect our nation at the age of 18. It only punishes our military members with such regards of them having a firearm. Are our legislatures really that ignorant at this point? If a man or woman can legally swear in and join the military at the age of 18, why are they punished if they are ever stationed in Hawaii? It's absurd to have that much prejudice on people based on their age.

Sincerely,
Mark D.

Testimony : I strongly oppose SB600 as it prevents lawfully obtained firearms by those under the age of 21, but older than 18 years of age to come into the state. Military personnel may be within this age bracket and if they are active members defending this country, they should be able to bring in firearms that are currently allowed in the State of Hawaii.

No other right is subject to such an egregious infringement. We trust sixteen-year-olds to drive two-ton hulks of steel down the road at 60 miles per hour, but we can't trust eighteen-year-olds to handle firearms? Why the push to turn people into criminals?

This bill will not make people safer. The only mass shooter in recent history who was younger than 21 stole the weapons he used and killed his mother. It is an obvious ploy to disarm peaceful people who just want to exercise their right to defend their homes and their families with the means of their choice. This bill will only leave 18-20 year-olds more vulnerable to theft and home invasion. It will not stop criminals who do not fear the law from buying black market guns.

Uphold your oath to support and defend our rights, and oppose this bill.

Sincerely,
Shaun Woods

Today I am wrighting to urge you to not support the bill SB600. Currently such laws other states that have tried this ssort of law are now in the courts being challenged. What sort of message are you sending to the men and women who serve us in the military and are sent to Hawaii. Maybe they compete in trap shooting cowboy action or just plane home defense if they live off base. By supporting this bill you will tell them they can defend our country even go off to war and die for your rights and my rights, but they are not good enuff citizen to bring their firearms the legally own before being sent here.

It is also unfair to young people who have grown up around guns and have had gun safety drilled into them from a young age. It especially denies young women, many leaving home to attend college or other schooling, often alone, the chance to defend themselves from home invaders and rapists.

This bill would deny the legal right to own firearms to anyone under the age of 21. This would mean that if some one brings a firearm from out of state and they are under the age of 21 they would be a criminal Even though they legally purchased and own the firearm.

This law would adversely affect the military members who are sent to Hawaii. These young men and women are charged with protecting this nation and using firearms to do so. But due to their age would be criminals if they wish to defend their home.

Similar laws are currently being challenged throughout the country.

THIS INFRINGES ON 2ND AMENDMENT RIGHTS FOR ANYONE UNDER 21, BOTH MALE AND FEMALE.

AMERICANS CAN JOIN THE MILITARY AT 17 YRS OLD, GET SENT TO A FOREIGN WITH A "ASSAULT RIFLE" KILL TERROIST OR USE THE RIFLE TO DEFEND THEMSELVES AND THEN COME HOME AND CAN'T DEFEND THEMSELVES AND FAMILY IN THEIR OWN HOME.

ACCORDING TO RECORDS FROM CDC, HAWAII RANKS #16 IN THE NATION IN RAPE CASES PER 100,000.

THIS SB600 TAKES AWAY THE RIGHT OF INDIVIDULAS TO PROTECT THEMSELVES AND FAMILY IN THEIR OWN HOME FROM VIOLENT INTRUDERS THAT WANT TO RAPE AND CAUSE HARM.

Testimony : This email is in OPPOSITION of SB600. This bill is unconstitutional for the fact that it denies a right to an adult. In our great nation, we all agree that one becomes a functioning adult capable of independent actions and fully responsible for one's self the moment they reach 18 years of age. By that age, we are able to do things that minors are restricted from doing on their own (such as enlist into the armed forces). So if 18 year olds are responsible enough to enter into a binding contract to serve their country using firearms like M4s, why are they not responsible for purchasing and transporting their own personal firearms? Let's not forget that, unlike alcohol, firearms are protected under the 2nd Amendment of this great nation's Constitution.

I respectfully urge any and all members of the Hawaii Legislature who will be voting on this to vehemently OPPOSE this legislation. Mahalo.

Testimony : This e-mail is in OPPOSITION of SB600..... While these restrictions appears to be a “common sense” approach to public safety and the prevention of tragedies like Sandy Hook and countless other similar incidences, it is fundamentally naive and dangerously compromises freedoms that may appear no longer necessary in peaceful societies. Naive in just the same way that making crystal methamphetamine, cocaine and heroin illegal will eliminate it from circulation. Dangerous in that only law abiding citizens will be weaponless. Those of us who are responsible and lawful gun owners treat this freedom with great respect and hold sacred the absolute miracle that represents each individual life. I would like to train my children as soon as I feel they can be responsible and have internalized these principals. Do not allow this freedom to only criminals or fanatics. In order to truly make effective any weapon bans aimed to protect the public, the government or police will need to randomly and thoroughly search individuals, homes and establishments. And WE ALL will have to submit to that loss of the freedom of privacy. Weapon bans alone will not protect us from the criminal or fanatic. Only loss of the right to resist random and thorough search and seizures by persons in authority will prevent illegal use of weapons. Therein lies the slippery slope we tread.

Dear Sir/Ma'am

I am writing this in response to the bills being introduce to ban semi automatic rifles, commonly and incorrectly referred to by Government officials and the media as assault rifles.

I'd like to ask you one question, what do you know about firearms in this country outside of what you see on TV?

Do you know what select fire is?

Do you know the difference between semi automatic and automatic?

Do you know what caliber round that a AR15 uses?

Do you know the difference between a magazine and a clip?

Do you know what the AR in AR15 means?

I could go on and on but most of these questions can be answered by a simple google search.

My point is, these are gun 101 questions and folks like yourself looking to ban semi automatic firearms can't answer them. You would rather spread misinformation about guns sharing facts that are incorrect and if repeated often enough by the media seem to become reality to you and your colleagues. Facts don't lie and not one single fact supports your argument.

Your thought presses for gun safety can be compared to drinking and driving.

Let's reduce the number of fatalities caused by drunk drivers by removing the sober drivers from the street.

I would invite you to come see one of the Practical shooting events that myself and many others partake in. Every weekend you see 50 to 75 women, children and men of all races and backgrounds competing.

I would invite you to watch or partake in any of the handgun safety courses that take place every weekend, many of these courses specially for women. There are also training courses that are held. You'll be taught rifle and handgun technique to protect your family and loved ones or improve your accuracy at the range.

There will be a gun show at the Blaisdale in March, you should go and talk to people there, contrary to what you may believe there will NOT be gang members illegally purchasing guns. Rather family's and friends having a good time and spending money on their hobbies.

Have you ever been to one of the shooting fairs at Kokohead? Over the weekend there are

more attendees than a UH football game. Every politician in Hawaii should go and learn something, it may open your eyes.

I enjoy many aspects of shooting. I compete in Practical shooting events held at Kokohead every weekend. Most often we compete with hand guns but we really enjoy the multi gun events where we compete with hand gun, rifle and shotgun. I enjoy spending weekends on Lanai hunting with my family and friends. Even if I don't bag a deer or a mouflon the time we get to spend together is priceless. I enjoy the time I have spent with my dad in Houston shooting sporting clays. Spending the afternoon shooting clays on shotguns he has restored. I enjoy building rifles, several on the AR platform. One in particular was used to help a friend pass his shooting Quals to become a sheriff. I enjoy the classes I take to help me become a better shooter. I take these classes so I know what I need to do should I ever be put in a position to protect my life or that of my friends and family.

My story is no different from all other legal gun owners and what has us all baffled is why you think we are a threat to this state and country. We all wonder why you want to take our second amendment rights away but keep them in place for your own protection. Why can celebrities and politicians be safe behind armed guards but the ordinary citizen be stripped of their right to protect themselves? Are we supposed to believe that a police officer will always be there in time?

In the last 20 years there have been more shootings, many of which are sensationalized by the media. In all these cases it has been a failure of government that has allowed these to happen, not the silent majority law abiding gun owner. But politicians want to keep adding more gun laws instead of fixing the root problems. Guns have not changed in the last 20 years, our society has. Talk to any teacher and you will know their daily struggle. Undisciplined kids that are shown no consequence for their actions. Today criminals have more rights than the victim.

I really wish that politicians would spend the time and get to know the real gun owners in this country. Maybe then they will realize that their efforts are misguided. No new gun law will ever stop someone determined to do harm. Recent terror attacks have proved this. Most anti gun lobbies will always ask why anyone would need a semi automatic rifle, yes there are others than just the AR platform. Well, what you just read is my reason and millions more like me.

Recently my way of life was saved by my dearest friends Chaney. I shoot, surf and ride motocross with Channy. In September 2017 she gave me a new kidney and a new lease on life. Is this the type of person you feel as a threat to society?

This law would also be a serious problem for any military members in Hawaii under the age of 21 who would not hesitate to protect their loved ones with a firearm just as they protect their nation with a firearm in service.

Please, do not take my right to bear arms away from me, limiting my protection, the protection of the lives of my loved ones, my livelihood, my favorite pastime. Remember, that the law does not apply to law-breakers. Regulation and suppression of my rights only punish law-abiding citizens.

Testimony : This e-mail is in OPPOSITION of SB600. This bill creates a double standard for citizens who safeguard our freedoms and way of life. Young men and women (under 21 years of age) put their lives on the line to protect the US are trusted to carry and utilize firearms in the line of duty. However, this bill tells them, no matter how trusted you are with firearms by your government and job, this state will not recognize that. I believe this bill sends the wrong message to lawful young citizens. Thank you for taking the time to read my testimony.

Respectfully,
Steven Yip

This bill would deny the legal right to own firearms to anyone under the age of 21. This would mean that if some one brings a firearm from out of state and they are under the age of 21 they would be a criminal Even though they legally purchased and own the firearm.

This law would adversely affect the military members who are sent to Hawaii. These young men and women are charged with protecting this nation and using firearms to do so. But due to their age would be criminals if they wish to defend their home.

Sincerely,
Michael Andres

Please stand with law-abiding citizens in support of the Second Amendment and oppose this gun control agenda that includes misguided efforts such as banning commonly owned firearms, discriminating against young adults by denying them their Second Amendment rights, and trying to legislate one-size-fits-all solutions to matters of personal responsibility. Punishing law-abiding gun owners for the acts of criminals is flat out wrong and won't solve any of the mental health and behavioral problems that we desperately need to do something about.

Again, please oppose all of the gun control bills being brought before your committee. Thank you.

Testimony : This email is in Opposition to SB600. Like the other gun bills being proposed this year, this bill does nothing except make real criminals more bolder knowing that there would be even more defenseless victims .

I owned my first shotgun at 9 years old and was trained that what you point at is likely to die. So at 9 years old I knew the difference between a toy and a real gun. Our society has lost that with the force feeding of violent video games where all you need to do is hit reset to come back to life. This is not the guns fault, but the fault of society losing its way and of the marketing and Hollywood industry trying to make a profit off of violence.

The second amendment wasn't written by a bunch of hunters, it was written by patriots who had just liberated a country. They knew full well that the best defense for our country, our families and communities was a well armed populace.

if you want to protect the citizens against violence, ban things like violent video games, violent movies that give impressionable weak minds ideas to commit violence. Ban alcohol that kills far more people than guns through domestic violence and drunk driving.

I urge you to show some courage and protect the Constitutional rights that our great country was founded on.

This bill would deny the legal right to own firearms to anyone under the age of 21. On its face, this bill is in contrast to the current Federal law allowing ownership of a firearm to those 18 years and older. This would mean that if some one brings a firearm from out of state and they are under the age of 21 they would be a criminal Even though they legally purchased and own the firearm.

This law would adversely affect the military members who are sent to Hawaii. These young men and women are charged with protecting this nation and using firearms to do so. But due to their age would be criminals in Hawaii for exercising a Constitutionally protected right.

Testimony : I am writing you to voice my opposition to Senate Bill 600. I am urging you to do the same. I am a concerned citizen, resident of Honolulu, born and raised on the Big Island – and I serve in federal law enforcement. I write you as a law-abiding, constitutionally aware private citizen.

SB 600 is a one-size-fits-none attempt to promote gun control by making it difficult for young people to transport a firearm into the state. This law makes no sense as it would unduly punish young visitors and new residents to Hawaii for owning a firearm prior to coming into the state. It is unclear what this bill hopes to accomplish. This will also have a disproportionate impact on young enlisted military service members. Thousands of 18-21-year-old soldiers, airmen, marines, and sailors are in Hawaii – a large percentage arriving from out of state, often from states with less restrictive laws than Hawaii. These men and women are old enough to fight and die, but in Hawaii will not be old enough to transport a firearm that they legally purchased and owned into the state. This sends an anti-military, anti-mainland, anti-gun, and anti-‘haole’ message.

Testimony : OPPOSITION of SB600

Dear Law Makers:

On the heels of the 9th Circuit Court, the most liberal court in the nation, ruling of Hawaii's 2nd Amendment violations and flagrant judicial activism law makers double-down and propose a bill that will only add another black-eye to Hawaii's civil-rights history, and additional cost to tax payers to litigate

I write this testimony not as a gun-nut/militia type, but that of a LIFE LONG LIBERAL. My wife and I are both technology professionals and middle class voters. This bill completely misses the mark and will not further public safety, but will only position Hawaii to not only now violate the 2nd Amendment, but make our sons and daughters serving in the military FELONS over-night. There is no mention of military personal who might being Permanent Change Stationed (PCS) here. The paint-by-numbers feel of this bill reeks to that of outside interests of regressive-totalitarian-leftism and those who do not understand the complexity of our 'aina. I resent the fact that our sporting/hunting culture here is being likened to that of the South-side of Chicago, Baltimore, or South Central Los Angeles.

Our gun violence statistics are INFINITESIMAL to that of the crime/poverty ridden war zones on the mainland.

Our culture is different

We are different.

Oppose this bill,

Chris Yates

As a veteran who at 18 joined the Navy and was trusted with weapons and trained to operate a nuclear reactor I'm made as hell at this bill. You can fight and die at 18 for this country but you would remove the ability for someone who is under 21 to buy a gun? Insane!

I have had a concealed carry permit in every state I've lived in except here. I have been a hunter and competitive shooter. I also believe strongly in being able to defend one's home, self and family.

The ban being proposed is a clear infringement on the 2nd Amendment and is the liberal gun lobby wish list. I'm more than angry, I'm furious at this and other attempts to curtail my rights as well as others in Hawaii. I look forward to the opportunity to speak in person to you about this and other bills that are clearly ANTI-GUN and have nothing to do with safety.

This would mean that if some one brings a firearm from out of state and they are under the age of 21 they would be a criminal Even though they legally purchased and own the firearm.

This law would adversely affect the military members who are sent to Hawaii. These young men and women are charged with protecting this nation and using firearms to do so. But due to their age would be criminals if they wish to defend their home.

This bill would prohibit law abiding citizens from traveling to Hawaii with their legally owned firearms. This would affect men and women of our armed forces, law enforcement officers, and hunters who travel with their rifles. This would have a negative impact on tourism and is in direct violation of our state's and nation's constitution. Please oppose this poorly thought out bill. Please support our Freedom as Hawaiians and as Americans. Thank You.

Testimony : This Email is in opposition to SB600. The enlistment age for the arms service is 18 years old and 17 is some cases with parental consent. I, as an 18 year old male, registered for the draft as part of the Selective Service Act many years ago. The State of Hawai'i has many Military Facilities throughout the State. At all times, there are Military aged service men and women transferring to and from these bases/facilities with their possessions, many times including firearms. You would be causing an undue hardship to these service men and women, that find out last min that due to this law have to pay for long term storage, last min sale of the firearm, etc. Or they will transfer in this State and promptly find out they are now a felon.

There are also responsible hunters that come in for hunting vacations that you would affecting with SB600.

If you feel so strongly about an 18 year old legally owning and possessing a firearm that you feel you must vote SB600 into law, I would like to an amendment to the language that also outlaws anyone under the age of 18 the ability to vote since you feel they are not responsible enough. If you are think my last comment is ridiculous, that is good, I hope it will give you pause about taking away someone's rights away. Outlawing their 2nd ammendment right is as ridiculous as taking away their 1st.

I am asking you once again to please oppose SB600.

Thank you,

Seth Addison

Testimony : Dear Senators and Representatives,

SB 600 is unconstitutional and a violation of the 2nd Amendment. Citizens have a right to bear arms, to protect themselves.

You cannot limit how a person can protect themselves or the number or rounds a rifle or pistol can contain. I watch the news, when home invasions occur, there is always more than 1 person. It usually is a group of thieves. Why limit the number of rounds a person can have to protect themselves.

These laws were brought about due to news constantly reporting criminals committing shootings. Those individuals are criminals, there is no logical reasoning that criminals will follow any laws you create. Why punish the many non-criminals when a minority of criminals commit a crime. There is no sound reasoning to this. Every time a criminal commits a crime, it's the good citizen that is punished, you have the victim, then the public.

I will take legal action if my rights are violated and so will many others. This is a violation of my constitutional rights and there will be no compensation for my property. How am I to defend myself, how are elders and the weak to defend themselves against criminals? Have you given any thought of this?

All you are doing is punishing good people.

These lawsuits will cost tax payers. The constituents will blame you for bringing this about.

Sincerely,
Ed

It's also unfair because the police is never on time to the scene, so by the time law enforcement arrives to the scene that person could be hurt, raped or dead. I own a number of sporting weapons that fit the parameters described in the new proposed gun control measures. I am not under the age of 21, and I am not a criminal, in fact, I'm a contracted, trained, technically qualified and long-term employee in good standing of a government organization that expects its employees to know how to handle such weapons effectively and actively discriminates against criminals of all kinds.

Arbitrarily deciding that certain individuals are unfit to own firearms just because they are too young to purchase alcohol is foolhardy, ignorant and incredibly narrow minded and will only punish the good people of society, either making them criminals or making them further resent you and the government that you represent, because supporting such a bill demonstrates that you do not represent their demographic or age bracket. Legal gun owning teenagers are good people, they are old enough to vote and are still active members in their local communities. In many cases, the younger generation are the people that keep communities strong and together, not the ones that undermine society and tear communities apart.

Additionally, the sporting firearms trade (and that includes all kinds of semiautomatic rifles and pistols as well as bolt action rifles and revolvers) is a multi-million dollar industry, the tax from which probably pay for a good fraction of many government programs and expenses. Reducing the tax revenue by eliminating an entire age category from the customer base of the sporting firearms industry will reduce the government funds available for all kinds of government services, infrastructure improvements (like the light rail system) and worker salaries. Loss of that revenue would force the government to either cut services or remove paid workers, and neither of those is a desirable outcome, either to the government or to the people.

No other right is subject to such an egregious infringement. We trust sixteen-year-olds to drive two-ton hulks of steel down the road at 60 miles per hour, but we can't trust eighteen-year-olds to handle firearms? Why the push to turn people into criminals?

This bill will not make people safer. The only mass shooter in recent history who was younger than 21 stole the weapons he used and killed his mother. It is an obvious ploy to disarm peaceful people who just want to exercise their right to defend their homes and their families with the means of their choice. This bill will only leave 18-20 year-olds more vulnerable to theft and home invasion. It will not stop criminals who do not fear the law from buying black market guns.

Uphold your oath to support and defend our rights, and oppose this bill.

Sincerely,
Shaun Woods

I see this bill as WHOLLY ANTI-MILITARY as that is who this seems to target; young soldiers under the age of 21 who have signed on to protect our nation..with firearms!
This law would turn these young men & women into criminals if they wanted to protect themselves or their families in their own residence while serving their country!

I also find it interesting that there is another bill in this session seeking to LOWER the legal voting age to 16.
These young folks are now being told they are old enough to drive, vote, fight & possibly die for their country, yet NOT old enough to own or possess a firearm in their own residence.
Remarkable..

Please vote down this proposal!
Thank you for your time.

This bill goes against all the men and women in uniform who is willing to serve and protect our nation at the age of 18. It only punishes our military members with such regards of them having a firearm. Are our legislatures really that ignorant at this point? If a man or woman can legally swear in and join the military at the age of 18, why are they punished if they are ever stationed in Hawaii? It's absurd to have that much prejudice on people based on their age.

Sincerely,
Mark D.

This bill would deny the legal right to own firearms to anyone under the age of 21. This would mean that if some one brings a firearm from out of state and they are under the age of 21 they would be a criminal Even though they legally purchased and own the firearm.

This law would adversely affect the military members who are sent to Hawaii. These young men and women are charged with protecting this nation and using firearms to do so. But due to their age would be criminals if they wish to defend their home.

Similar laws are currently being challenged throughout the country.

Turning them into criminals because they move to Hawaii should not be allowed, especially for the members of our military, who do not get to choose where they are stationed. We entrust the security of our nation (with firearms) to these adults, and making laws that are contradictory to their training and duty, should not happen.

I would appreciate the opportunity to speak with any Senator, in person regarding this bill.

Thank you,

Kent Kurihara

Hawaii has a lot of problems. We have a drug problem, a property crime problem, a homelessness problem, a traffic problem and a distressing number of infrastructure problems. What we do NOT have is a gun problem. Rather than wasting my tax dollars implementing and enforcing this unimpactful policy and then wasting more of my money trying to defend it in court when the state gets sued please take those resources and start chipping away at the real causes of human misery here in the islands. If you won't I'm sure we can find someone who will.

This bill will unfairly penalize under 21 years old members of our military who come to Hawaii and are legal gun owners wanting to bring their firearms into the state. It's also unfair and wrong for people who want to come to Hawaii for hunting and marksmanship competitions. It would also penalize Hawaii residents who are under 21 years old who leave with firearms legally owned and upon return would criminalize them. No Aloha. NO SB600
