Statement of  
**LEO ASUNCION**  
Planning Program Administrator, Office of Planning  
before the  
**HOUSE COMMITTEE ON JUDICIARY**  
Wednesday, April 17, 2019  
3:00 PM  
State Capitol, Conference Room 325

in consideration of  
**SCR 205**

**URGING THE STATE BOARD ON GEOGRAPHIC NAMES TO CONSULT WITH  
COMMUNITY MEMBERS WHO HAVE DIRECT TRADITIONAL, CULTURAL, AND  
FAMILIAL TIES TO THE DISTRICT OF PUNA TO ESTABLISH APPROPRIATE NAMES  
FOR THE FISSURE 8 VENT AND OTHER FEATURES OF THE 2018 ERUPTION OF  
KILAUEA VOLCANO.**

Chair Lee, Vice Chair San Buenaventura, and Members of the House Committee on  
Judiciary.

The Office of Planning (OP) supports Senate Concurrent Resolution 205, which urges the  
Hawai'i Board on Geographic Names (HBGN) to "consult with community members who have  
direct traditional, cultural, and familial ties to the district of Puna to establish appropriate names  
for the fissure 8 vent and other features of the 2018 eruption of Kīlauea volcano."

OP notes that a similar resolution was adopted in 2018 by the Hawai'i County Council  
(Res. 640-18). Councilmember Susan Lee Loy, who introduced the resolution, and  
Councilmember Ashley Kierkiewicz, who represents the Puna District, both attended meetings  
of the HBGN in recent months and have expressed their willingness to help facilitate meetings  
with the Puna community.

HBGN is moving forward with the naming process and has established a Permitted  
Interaction Group (PIG) which is expected to engage in dialogue with and collect feedback from the  
community through one or more meetings in the Puna area. The PIG is tasked with setting a  
submission deadline for any new name proposals for the fissure 8 vent, review the proposed names  
for all features associated with the 2018 Kīlauea eruption event, and report back to the full Board  
with its recommendations no later than December 31, 2019.

Thank you for the opportunity to testify on this matter.

**SCR-205**

Comments:

Dear Chair Lee, Vice Chair San Buenaventura, and committee members:

I appreciate the opportunity to provide testimony in support of Senate Concurrent Resolution No. 205. The Hawaii County Council passed a resolution last year containing similar language on the principle that those most affected by the eruption and those having the deepest ties to the land should be given due consideration for the naming of the features of the 2018 eruption. I am looking forward to assisting the Board on Geographic Names' permitted interaction group in their anticipated site visit to Puna, and facilitating community meetings alongside the Council Member from that district.

Aloha Piha, Sue

Testimony of  
Aha Moku Advisory Committee

House Committee on Judiciary

Wednesday, April 17, 2019  
3:00 p.m.  
Conference Room 325

**In Support of SCR 205 (HSCR 2270)  
Relating to Kilauea Volcano; Fissure 8; State Board on Geographic Names**

SCR 205 HSCR 2270 urges the State Board on Geographic Names to consult with community members who have direct traditional, cultural, and familial ties to the District of Puna to establish appropriate names for the fissure 8 vent and other features of the 2018 eruption of Kilauea Volcano. **Aha Moku strongly supports SCR 205 (HSCR 2270) .**

It is collectively believed within the culture of Native Hawaiians that the names for geographic places have specific and special meanings that relate only to that specific place. In Puna, this is traditionally so. And while we can appreciate the global community of amateur lava watchers, well-meaning University of Hawaii advisors, and others who have offered their suggestions of names for this Place, commonly known now as Fissure 8, we ask that the correct protocol of consulting only with those who have direct traditional, Native Hawaiian cultural and familial ties, as well as those who have generational knowledge of the mo'olelo, cultural history and natural and cultural resources of what was once there, from ancient times to now; and what can be again. The generational knowledge of the Native Hawaiian elders and communities of Puna is essential to the correct physical and spiritual naming of Fissure 8. If this naming is not spiritually and culturally correct, then it will only satisfy those who live outside of Puna, but will be a great insult and disservice to those who have a generational connection to Puna and been most impacted by the eruptions resulting in Fissure 8.

It is stated in the resolution that Section 4E-1, Hawaii Revised Statutes, provides that the members of the State Board on Geographic Names shall consist of the following or their representatives: The Chairperson of the Board of Land and Natural Resources, the Chairperson of the Office of Hawaiian Affairs, the Chairperson of the Hawaiian Homes Commission, the Director of the Office of Planning, the President of the University of Hawaii, the State Land Surveyor, and the Director of the Bernice P. Bishop Museum. These are the entities who will approve the naming of Fissure 8. Our fear is that it is not known if any of these people are from Puna or have the generational and lineal knowledge of that place. Those connected to Puna who have that spiritual connection.

We pray that the members of the State Board on Geographic Names have the sensibility, compassion and wisdom to work with the community members who have direct traditional, cultural, familial and generational ties to the District of Puna; and to turn to them to establish the appropriate names for fissure 8. As Aha Moku is attached to the Department of Land and Natural Resources, already makes recommendations to the Board of Land and Natural Resources in regards to natural and cultural resources, and already works for, and with, the traditional and generational families of Puna, we offer our assistance to the State Board on Geographic Names on connecting to the 'ohana of Puna who are the only correct ones to name this fissure as they are part of the 'ike and 'uhane of Puna.

Comments:

To the Honorable Chris Lee, Chair; the Honorable Joy A. San Buenaventura, Vice Chair; and Members of the Committee on Judiciary:

The O`ahu County Democrats Legislative Priorities Committee submits its testimony in support of SCR 205 which urges the State Board on Geographic Names to consult with community members who have direct traditional, cultural, and familial ties to the district of Puna to establish appropriate names for the Fissure 8 vent and other features of the 2018 eruption of Kilauea Volcano.

As Fissure 8 is an inaccurate name in the geological sense as the magmatic flow is inconsistent with a fissure, it is totally appropriate to rename Fissure 8 to a name that is traditionally and culturally appropriate in the Hawaiian Islands.

Thank you for this opportunity to submit support testimony on SCR205.

Mahalo nui loa.

Melodie Aduja
