# A BILL FOR AN ACT

RELATING TO HEALTH.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that the findings of the  
2 annual report from the Hawaii physician workforce assessment  
3 project submitted to the legislature prior to the regular  
4 session of 2020 determined that there is a serious twenty-four  
5 per cent physician shortage in the State. The neighbor island  
6 shortage is more severe, measuring forty-four per cent in Hawaii  
7 county, thirty-six per cent in Maui county, and thirty-two per  
8 cent in Kauai county. The federal government has also validated  
9 the shortage by designating Hawaii, Maui, and Kauai counties as  
10 health professional shortage areas. Additionally, Hawaii's  
11 congressional delegation has written to the federal Centers for  
12 Medicare and Medicaid Services, recognizing the risk to the  
13 State's most vulnerable communities. Moreover, the legislature  
14 recognizes that the physician shortage will worsen unless  
15 mitigating steps are taken immediately.

16           The legislature further finds that the general excise tax  
17 and related county surcharges are levied on Hawaii businesses on

1 the sale of goods and services. The general excise tax applies  
2 to medical services provided by group and private practice  
3 physicians, making Hawaii the only state taxing medical services  
4 in this way. The general excise tax and related county  
5 surcharges are applied to the gross receipts of Hawaii medical  
6 practices without regard to the high costs of providing medical  
7 services in a high cost state. Community physicians are often  
8 operating small businesses with narrow profit margins, and  
9 medicare, medicaid, and private insurer payments for medical  
10 services are well below national levels. The general excise tax  
11 and related county surcharges make medical practices unviable,  
12 resulting in practice closures and challenges in recruiting and  
13 retaining new or younger physicians.

14 The legislature also finds that the general excise tax and  
15 related county surcharges are highly regressive forms of  
16 taxation and disproportionately and adversely affect low-income  
17 and middle-class families struggling to cope with the State's  
18 high cost of living. Currently, physicians who receive  
19 medicare, medicaid, and tricare payments are subject to the  
20 general excise tax, although they may recoup this cost from  
21 patients as a way to recover the expense. However, most

1 physicians do not currently pass along this cost to patients,  
2 but this practice may soon have to change.

3       The legislature further finds that while hospitals and  
4 their employed physicians are exempt from the general excise tax  
5 and related county surcharges, many Hawaii hospitals continue to  
6 operate at a loss. If the general excise tax were imposed on  
7 hospitals, it would result in nearly all hospitals having  
8 negative margins, essentially taxing the institutions out of  
9 business and significantly impairing patient access to health  
10 care. The legislature concludes that in order to safeguard  
11 patient access to care, medical services performed within group  
12 and private practice should be exempt from the general excise  
13 tax and related county surcharges.

14       The purpose of this Act is to help reduce the impact of the  
15 general excise tax on the shortage of physicians by exempting  
16 all gross proceeds from medical services by physicians from the  
17 general excise tax.

18       SECTION 2. Chapter 237, Hawaii Revised Statutes, is  
19 amended by adding a new section to be appropriately designated  
20 and to read as follows:

1           "§237-     Exemption for medical services provided by  
2 physicians.   (a) There shall be exempted from, and excluded  
3 from the measure of, the taxes imposed by this chapter, on all  
4 of the gross proceeds arising from medical services provided by  
5 physicians.

6           (b) As used in this section, "medical services provided by  
7 physicians" includes those services provided within hospitals,  
8 medical clinics, and private medical practices that are  
9 performed by a physician or osteopathic physician licensed under  
10 chapter 453."

11           SECTION 3. New statutory material is underscored.

12           SECTION 4. This Act, upon its approval, shall apply to  
13 taxable years beginning after July 1, 2050.

**Report Title:**

Health; General Excise Tax; Exemption; Medical Services;  
Physicians

**Description:**

Provides a general excise tax exemption for medical services provided by physicians for taxable years beginning after July 1, 2050. (HD2)
