Report Title:

Hawaii Emergency Management Agency

Description:

Establishes the hazard mitigation special fund for the Hawaii Emergency Management Agency.

The summary description of legislation appearing on this page is for informational purposes only and is not legislation or evidence of legislative intent.

JUSTIFICATION SHEET

DEPARTMENT: Defense

TITLE: A BILL FOR AN ACT RELATING TO THE HAWAII EMERGENCY MANAGEMENT AGENCY.

PURPOSE: The purpose of this bill is to establish the Hazard Mitigation Special Fund to allow the Hawaii Emergency Management Agency the ability to monitor its own hazard mitigation projects.

MEANS: Amend section 127A-18, Hawaii Revised Statutes (HRS).

JUSTIFICATION: There currently are no funds to support the management and implementation of hazardous mitigation projects covered under section 127A-18, HRS. Section 127A-18 authorizes the Governor (in the absence of an emergency or disaster) to designate state employees, agents, contractors, or representatives to enter private property at reasonable times to mitigate situations deemed by the Governor to be hazardous to the health and safety of the public for situations related to (1) cutting, trimming, or removing dangerous trees or branches that pose a hazard to other properties; (2) stabilizing or removing unstable rock and soil hazards; or (3) cleaning streams and waterways to mitigate or prevent flooding or other hazards.

Annual funding will allow the Hawaii Emergency Management Agency to manage hazardous mitigation and meet the intent of section 127A-18.

Additionally, other states support

hazard mitigation funding and have garnered successful results.

The general fund appropriation included in this measure has been proposed with consideration of the statutorily defined appropriation ceiling for the Executive Branch pursuant to section 37-92, Hawaii Revised Statutes. The total proposed appropriations from the General Fund (which include the Executive Supplemental Budget for FB 2019-2021 and Administration Proposal BUF-08(20), appropriation for bargaining unit 13 collective bargaining increases to be submitted) exceed the appropriation ceiling by \$24,761,740 (or 0.3%) in fiscal year 2021. Funding requested in this measure to allow HIEMA to establish a hazard mitigation special fund to address hazard mitigation projects covered under section 127A-18 will result in the appropriation ceiling for the Executive Branch to now be exceeded in fiscal year 2020-2021 by an additional \$5,000,000 or 0.0006%. This current declaration takes into account additional general fund appropriations authorized for fiscal year 2020-2021 in the Executive Supplemental Budget, administration proposal BUF-08(20), and this measure only, and does not include other general fund appropriations for fiscal year 2020-2021 that may be authorized for the Executive Branch in other legislation submitted to the Legislature during the regular session of 2020.

Impact on the public: The establishment of the Hazardous Mitigation Special Fund will increase public health and safety by providing funds to address the three (3) hazardous mitigation conditions defined in section 127A-18.

Impact on the department and other agencies: Positive impact to the Department of Defense & HIEMA and

other agencies, such as the Department of Transportation and public utilities by providing specific funding to address hazardous mitigation and improve response time to roads and utilities that may otherwise be affected. No known negative impact to other departments.

GENERAL FUND: \$5,000,000.

OTHER FUND: None.

PPBS PROGRAM
DESIGNATION: DEF 110.

OTHER AFFECTED
AGENCIES: Department of Transportation.

EFFECTIVE DATE: Upon approval.
