JUSTIFICATION SHEET

DEPARTMENT: Transportation

TITLE: A BILL FOR AN ACT RELATING TO PAYMENT FOR AIRPORT CHARGES.

PURPOSE: To amend the law relating to use of credit cards to pay for airport charges, section 261-7.6, Hawaii Revised Statutes, to add the use of debit cards and online electronic payments; to allow the airports to pay for processing fees and charges and to impose additional processing fees or charges upon the user for online electronic payments such as Automated Clearing House payments and for credit and debit cards; and to allow the airports to have the user pay for processing fees and charges directly to the credit or debit card processor.

MEANS: Amend section 261-7.6, Hawaii Revised Statutes.

JUSTIFICATION: The airports need to be able to process online electronic payments and credit and debit cards for products and services provided by the airports because of the high demand for alternative forms of payment. Badge and fingerprint fees, permittee fees, and other airport fees often involve cash that have been subject to theft in the past. Credit and debit card transactions provide much stronger internal controls and will significantly reduce the chances of theft in the future.

Impact on the public: The public as well as airport employees have requested that they be able to process credit and debit cards. Cash and checks will still be accepted, however the public will have a more convenient way to pay for services.

Impact on the department and other agencies:
The airports will be able to integrate the Point of Sale system with the credit and debit card terminals for the Badge and Fingerprint Office. Districts will have the option to create an online permittee portal for applicants to enter their information and make payments online.
