
A BILL FOR AN ACT

RELATING TO PRIVACY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1

PART I

2

SECTION 1. The legislature finds that House Concurrent

3

Resolution No. 225 S.D.1, Regular Session of 2019 ("resolution")

4

established the twenty-first century privacy law task force

5

("task force"), whose membership consisted of individuals in

6

government and the private sector with an interest or expertise

7

in privacy law in the digital era. The resolution found that

8

public use of the internet and related technologies has

9

significantly expanded in recent years, and that a lack of

10

meaningful government regulation has resulted in personal

11

privacy being compromised. Accordingly, the legislature

12

requested that the task force examine and make recommendations

13

regarding existing privacy laws and regulations to protect the

14

privacy interests of the people of Hawaii.

15

The legislature further finds that the task force

16

considered a spectrum of related privacy issues which have been

17

raised in Hawaii and other states in recent years. Numerous

1 states have begun to address the heightened and unique privacy
2 risks that threaten individuals in the digital era of the
3 twenty-first century. Dozens of states have already adopted
4 components of privacy law contained in this Act. California has
5 enacted a comprehensive privacy act, and states such as
6 Minnesota, New York, Virginia, and Washington are considering
7 comprehensive privacy legislation during their current
8 legislative sessions.

9 Following significant inquiry and discussion, the task
10 force made various recommendations on issues such as:
11 modernizing the definition of personal information as it relates
12 to data breaches and the nonconsensual sale of a person's data
13 such as geolocation information.

14 The legislature further finds that in early 2020,
15 governmental and societal responses to the COVID-19 pandemic
16 changed typical types of human interaction. As residents have
17 been mandated and encouraged to stay at home to prevent
18 infection and the spread of COVID-19, an increased online
19 presence has become the new normal. Residents have been forced
20 to use digital methods to shop for groceries and household
21 items, attend classes, complete work projects, and engage in

1 other activity that could usually be done through a non-digital
2 means. Often times these online activities require users to
3 create accounts and share personal information. These online
4 activities also require many businesses to protect a larger
5 volume and new types of data than before, making them potential
6 targets for those looking to steal personal information and data
7 for nefarious purposes.

8 The task force recommended that the definition of "personal
9 information" in chapter 487N, Hawaii Revised Statutes, should be
10 updated and expanded, as the current definition of "personal
11 information" is outdated and needs to be amended. The types of
12 personal information collected by companies online has grown
13 significantly since chapter 487N, Hawaii Revised Statutes, was
14 enacted, and the ways that bad actors can use that information
15 has grown as well. There are many identifying data elements
16 that, when exposed to the public in a data breach, place an
17 individual at risk of identity theft or may compromise the
18 individual's personal safety. Chapter 487N, which requires the
19 public to be notified of data breaches, is not comprehensive
20 enough, as presently written, to cover the additional
21 identifiers. Especially in light of increased digital activity

1 users engage in because of the COVID-19 pandemic, the definition
2 of "personal information" in chapter 487N, Hawaii Revised
3 Statutes, should be updated and expanded to include various
4 personal identifiers and data elements that are found in more
5 comprehensive laws.

6 Additionally, the high transmissibility of the COVID-19
7 virus has lead businesses and governments to consider and
8 implement ways to contact trace people that may have been
9 exposed to the virus. Certain proposed methods of contact
10 tracing have included using geolocation data.

11 The task force recommended that explicit consent be
12 required before an individual's geolocation data may be shared
13 or sold to a third party. Numerous reports have arisen in which
14 a person's real time location is identified, allowing the person
15 to be tracked without that person's knowledge or consent by
16 third parties, who in turn share or sell the real time location.
17 This scenario creates serious privacy and safety concerns.
18 Residents of Hawaii should be able to share their geolocation
19 data to help limit the spread of the novel coronavirus, without
20 sacrificing their privacy or safety.

- 1 (4) An individual's financial account number or credit or
- 2 debit card number;
- 3 (5) A security code, access code, personal identification
- 4 number, or password that would allow access to an
- 5 individual's account;
- 6 (6) Health insurance policy number, subscriber
- 7 identification number, or any other unique number used
- 8 by a health insurer to identify a person;
- 9 (7) Medical history, medical treatment by a health care
- 10 professional, diagnosis of mental or physical
- 11 condition by a health care professional, or
- 12 deoxyribonucleic acid profile;
- 13 (8) Unique biometric data generated from a measurement or
- 14 analysis of human body characteristics used for
- 15 authentication purposes, such as a fingerprint, voice
- 16 print, retina or iris image, or other unique physical
- 17 or digital representation of biometric data; and
- 18 (9) A private key that is unique to an individual and that
- 19 is used to authenticate or sign an electronic record."
- 20 2. By amending the definition of "personal information" to
- 21 read:

1 "~~Personal information~~" means an ~~[individual's first name~~
2 ~~or first initial and last name in combination with any one or~~
3 ~~more of the following data elements, when either the name or the~~
4 ~~data elements are not encrypted.~~

- 5 ~~(1) Social security number;~~
6 ~~(2) Driver's license number or Hawaii identification card~~
7 ~~number; or~~
8 ~~(3) Account number, credit or debit card number, access~~
9 ~~code, or password that would permit access to an~~
10 ~~individual's financial account.]~~

11 ~~identifier in combination with one or more specified data~~
12 ~~elements, when the specified data element or elements are not~~
13 ~~encrypted. "Personal information" [does] shall not include~~
14 ~~publicly available information that is lawfully made available~~
15 ~~to the general public from federal, state, or local government~~
16 ~~records."~~

17 SECTION 3. Section 487N-2, Hawaii Revised Statutes, is
18 amended by amending subsection (g) to read as follows:

19 "(g) The following businesses shall be deemed to be in
20 compliance with this section:

- 1 (1) A financial institution that is subject to the federal
2 Interagency Guidance on Response Programs for
3 Unauthorized Access to Customer Information and
4 Customer Notice published in the Federal Register on
5 March 29, 2005, by the Board of Governors of the
6 Federal Reserve System, the Federal Deposit Insurance
7 Corporation, the Office of the Comptroller of the
8 Currency, and the Office of Thrift Supervision, or
9 subject to 12 C.F.R. Part 748, and any revisions,
10 additions, or substitutions relating to the
11 interagency guidance; and
- 12 (2) Any health plan or healthcare provider and its
13 business associates that [~~is~~] are subject to and in
14 compliance with the standards for privacy or
15 individually identifiable health information and the
16 security standards for the protection of electronic
17 health information of the Health Insurance Portability
18 and Accountability Act of 1996."

19 PART III

1 SECTION 4. Chapter 481B, Hawaii Revised Statutes, is
2 amended by adding a new section to part I to be appropriately
3 designated and to read as follows:

4 "§481B- Sale of geolocation information without consent
5 is prohibited. (a) No person, in any manner, or by any means,
6 shall sell or offer for sale geolocation information that is
7 recorded or collected through any means by mobile devices or
8 location-based applications without the explicit consent of the
9 individual who is the primary user of the device or application.

10 (b) As used in this section:

11 "Consent" means prior express opt-in authorization that may
12 be revoked by the user at any time.

13 "Emergency" means the imminent or actual occurrence of an
14 event, which has the likelihood of causing extensive injury,
15 death, or property damage. "Emergency" shall not include the
16 spread of a bacteria or virus.

17 "Geolocation information" means information that is:

18 (1) Not the contents of a communication;

19 (2) Generated by or derived from, in whole or in part, the
20 operation of a mobile device, including but not

1 limited to a smart phone, tablet, fitness tracker,
2 e-reader, or laptop computer; and

3 (3) Sufficient to determine or infer the precise location
4 of the user of the device.

5 "Location-based application" means a software application
6 that is downloaded or installed onto a device or accessed via a
7 web browser and collects, uses, or stores geolocation
8 information.

9 "Precise location" means any data that locates a user
10 within a geographic area that is equal to or less than the area
11 of a circle with a radius of one mile.

12 "Sale" means selling, renting, releasing, disclosing,
13 disseminating, making available, transferring, or otherwise
14 communicating orally, in writing, or by electronic or other
15 means, a user's geolocation information to another business or a
16 third party for monetary or other valuable consideration.

17 "Sale" shall not include the releasing, disclosing,
18 disseminating, making available, transferring, or otherwise
19 communicating orally, in writing, or by electronic or other
20 means, a user's geolocation information for the purpose of
21 responding to an emergency.

1 "User" means a person who purchases or leases a device or
2 installs or uses an application on a mobile device."

3 PART IV

4 SECTION 5. This Act does not affect rights and duties that
5 matured, penalties that were incurred, and proceedings that were
6 begun before its effective date.

7 SECTION 6. Statutory material to be repealed is bracketed
8 and stricken. New statutory material is underscored.

9 SECTION 7. This Act shall take effect upon its approval.
