
A BILL FOR AN ACT

RELATING TO MARINE RESOURCES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the State's
2 nearshore marine resources are being increasingly impacted by
3 local and global stressors and that existing state management
4 measures may be inadequate to ensure long-term sustainability.

5 On September 1, 2016, at the International Union for
6 Conservation of Nature World Conservation Congress in Hawaii,
7 and as part of the sustainable Hawaii initiative, Governor David
8 Ige announced the State's commitment to effectively manage
9 thirty per cent of Hawaii's nearshore waters by 2030. Referred
10 to as the marine 30x30 initiative, this effort aims to balance
11 sustainable use with restoration and conservation to benefit
12 local communities now and in the future. The department of land
13 and natural resources is capitalizing on this initiative to
14 establish new strategic directions in the way it manages the
15 State's nearshore marine resources.

16 Led by the division of aquatic resources, the marine 30x30
17 initiative includes strategies to reevaluate and update

1 statewide fishing regulations and establish a statewide network
2 of marine managed areas encompassing thirty per cent of the
3 State's nearshore waters. Successful development and
4 implementation of these strategies hinge on effective public
5 outreach and a fair and transparent stakeholder input process,
6 including statewide public hearings and concentrated scoping
7 workshops in communities where marine managed areas are
8 proposed. Management plans will be developed to establish clear
9 management goals, measure effectiveness, and inform ongoing
10 adaptive management.

11 The purpose of this Act is to provide the department of
12 land and natural resources with the resources it needs to
13 successfully undertake the comprehensive stakeholder engagement
14 process and adaptive management strategies associated with the
15 marine 30x30 initiative.

16 SECTION 2. There is appropriated out of the general
17 revenues of the State of Hawaii the sum of \$ or so
18 much thereof as may be necessary for fiscal year 2020-2021 for
19 the marine 30x30 initiative; provided that the sum appropriated
20 shall be expended as follows:

1 (1) \$ for professional facilitation for the
2 stakeholder engagement process associated with the
3 marine 30x30 initiative;

4 (2) \$ for travel expenses for the department of
5 land and natural resources' marine 30x30 initiative
6 team and staff to attend twenty-six planned
7 stakeholder engagement meetings throughout the State;

8 (3) \$ for the department of land and natural
9 resources' strategic communication and outreach
10 associated with the marine 30x30 initiative; and

11 (4) \$ for management plan development associated
12 with the marine 30x30 initiative; provided that the
13 management plan shall include scientific data and
14 research to support and justify any conclusions and
15 recommendations.

16 The sum appropriated shall be expended by the department of
17 land and natural resources for the purposes of this Act.

18 SECTION 3. This Act shall take effect on July 1, 2050.

19

Report Title:

Marine Resources; DLNR; Marine 30x30 Initiative; Appropriation

Description:

Appropriates funds to provide DLNR with necessary resources associated with the marine 30x30 initiative, including funds for team and staff travel, strategic communication and outreach, professional facilitation, and management plan development. Effective 7/1/2050. (HD1)
