
A BILL FOR AN ACT

RELATING TO ENVIRONMENTAL IMPACT STATEMENTS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the State's
2 environmental review process was incorporated into the planning
3 processes of the State and counties to balance environmental
4 concerns with technical considerations and economic goals. The
5 legislature further finds that the State, stakeholders, and the
6 public all benefit from public participation and transparency in
7 the environmental review process.

8 However, the legislature recognizes that the public is
9 often unaware of a pending project until a determination is made
10 regarding an environmental assessment or environmental impact
11 statement, at which point the opportunity for public comment has
12 passed. Supporting public participation in projects prior to
13 acceptance of an environmental assessment or environmental
14 impact statement will foster greater awareness of and
15 participation in the environmental review process.

16 The legislature also finds that although the office of
17 environmental quality control currently has a website that

1 provides information to the public, the information provided on
2 the site is not user-friendly. Information is difficult to
3 locate and the site does not highlight pending environmental
4 assessments or environmental impact statements that are
5 currently open for public comments.

6 Accordingly, the purpose of this Act is to require the
7 office of environmental quality control to establish, implement,
8 and maintain an interactive website that is accessible by the
9 public at no cost and provides notification of and opportunity
10 for participation in actions taken pursuant to the State's
11 environmental review process.

12 SECTION 2. Section 343-3, Hawaii Revised Statutes, is
13 amended to read as follows:

2 of a periodic bulletin to be available to persons requesting
3 this information. The bulletin shall be available through the
4 office ~~[and]~~, public libraries[-], and on the office's website.

6 interactive website that shall be accessible by the public at no

21 by an applicant, provided that this notification

7 revenues of the State of Hawaii the sum of \$ or so
8 much thereof as may be necessary for fiscal year 2020-2021 for
9 the purpose of establishing, implementing, and maintaining an
10 interactive website pursuant to this Act.

11 The sum appropriated shall be expended by the department of
12 health for the purposes of this Act; provided that no funds
13 shall be released until after the office of environmental
14 quality control consults its stakeholders regarding the
15 establishment of an interactive website pursuant to this Act.

16 SECTION 4. Statutory material to be repealed is bracketed
