1 SECTION 1. The legislature finds that Maui memorial

6 medical center currently has a peak parking demand of five
7 hundred twenty stalls. By 2025, this need is projected to
8 increase to eight hundred ninety-seven stalls.

9 To accommodate this growth, Maui memorial medical center is
10 proposing to build a six hundred-stall parking structure to
11 complement other on-campus open parking areas. The estimated
12 cost per space is \$35,000, with an overall projected cost of
13 \$21,000,000.

14 Parking is currently spread throughout the campus in eleven
15 areas, not including paid off-campus parking at the Queen
16 Kaahumanu shopping center, which is located more than a mile

1 away from Maui memorial medical center and requires an eight-to-
2 ten minute transit in light traffic.

3 The purpose of this Act is to help finance infrastructure
4 improvements at Maui memorial medical center by appropriating
5 general funds that shall be matched on a dollar-for-dollar basis
6 by one or more private entities.

8 be sufficient to finance the projects listed in this Act, are
