19

20           WHEREAS, in July 2015, a prototype wave generator called  
21 Azura became the first wave technology device to successfully  
22 supply grid power, producing twenty kilowatts of clean energy  
23 for the State of Hawaii; and  
24

25           WHEREAS, although research is ongoing, federal funding for  
26 the Wave Energy Test Site at Kaneohe Bay is scheduled to expire
