A BILL FOR AN ACT

RELATING TO SCIENCE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that as an outgrowth of
2 the immense investment in scientific research initiated by the
3 United States during World War II, the national laboratories has
4 served as the leading institutions for scientific innovation in
5 the United States for more than seventy years. The United
6 States Department of Energy's seventeen national laboratories
7 tackle the critical scientific challenges of our time, from
8 combating climate change to discovering the origins of our
9 universe, and possess unique instruments and facilities, many of
10 which are found nowhere else in the world. They address large
11 scale, complex research and development challenges with a
12 multidisciplinary approach that places an emphasis on
13 translating basic science to innovation.

14 The purpose of this Act is to direct the governor to enter
15 into negotiations with the United States Department of Energy to
16 establish a national laboratory in Hawaii.

S.B. NO. 1461

1 SECTION 2. (a) The governor shall enter into negotiations
 2 with the United States Department of Energy to establish a
 3 national laboratory in Hawaii.

4 (b) No later than twenty days prior to the convening of
 5 the regular sessions of 2020, 2021, 2022, 2023, and 2024, the
 6 governor shall submit a report to the legislature on the status
 7 of the negotiations to establish a national laboratory in Hawaii
 8 and the terms of an agreement, if any.

9 (c) Any agreement to establish a national laboratory in
 10 Hawaii entered into pursuant to this Act shall be subject to
 11 legislative approval.

12 SECTION 3. This Act shall take effect upon its approval.
