A BILL FOR AN ACT

RELATING TO HUMAN SERVICES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that thousands of Hawaii
2 residents experience visual disabilities that hamper daily
3 living and that may lead to conditions of isolation, limited
4 productivity, loss of independence, and lack of social
5 integration. The department of human services estimates that
6 there are twelve thousand state residents who are blind or have
7 a significant visual impairment; many live on Oahu where access
8 to opportunities and services are better organized and readily
9 available compared to services provided on the neighbor islands.
10 The legislature further finds that training, adjustments to
11 blindness services, and transportation services receive state
12 and local support based on economies of scale. However, this
13 approach leaves approximately two thousand neighbor island
14 residents with the choice to either move to Oahu or live without
15 the opportunity to have full and integrated lives in their
16 current communities. The legislature also finds that a
17 supplemental service plan is needed to provide additional

1 support services for neighbor island residents who are blind and
2 visually impaired.

3 The purpose of this Act is to establish a neighbor islands
4 blind and visually impaired service pilot program to provide
5 services and training for blind and visually impaired neighbor
6 island residents and supplement existing statewide services.

7 SECTION 2. (a) The department of human services shall
8 establish a neighbor islands blind and visually impaired service
9 pilot program to provide services and training to blind and
10 visually impaired individuals residing on the neighbor islands.

11 (b) The pilot program shall provide peer-to-peer outreach,
12 sight loss adjustment, peer counseling support, and mobility
13 training to participants, including:

14 (1) Outreach efforts to identify individual and program
15 needs;

16 (2) Adjustment services, including individual and group
17 counseling;

18 (3) Communications development, including access
19 technology awareness and training;

20 (4) Daily living, self-care, and home management skills;

21 (5) Orientation and mobility training; and

1 (6) Other services, including peer support, needed for
2 participants to sustain independence and social
3 integration.

4 The services provided under this subsection shall be provided by
5 volunteers, who shall be recruited, assigned, and supervised by
6 the department or an entity contracted by the department to
7 organize and implement the pilot program. All volunteers shall
8 be qualified and chosen based on experience and training and
9 shall use training methods consistent with the structured
10 discovery approach used in the new visions program operated by
11 the Ho'opono services for the blind.

12 (c) The pilot program shall also provide special needs
13 transportation assistance to participants. The department shall
14 work with neighbor island transportation service providers and
15 other individuals to create a special needs transportation
16 assistance service network to serve participants.

17 (d) Applications for participation in the pilot program
18 shall be submitted on a form furnished by the department. The
19 department shall establish procedures and requirements for
20 accepting participants into the pilot program.

1 (e) The pilot program shall be authorized to extend and
2 supplement the services provided by the Ho'opono services for the
3 blind branch within the division of vocational rehabilitation of
4 the department.

5 (f) The department shall enter into a contract with a
6 nonprofit organization to manage the day-to-day operations of
7 the pilot program; provided that any nonprofit organization
8 contracted under this subsection shall:

- 9 (1) Have the qualifications necessary to provide peer
10 support services to participants;
- 11 (2) Consist of a majority of officers and directors who
12 are blind or visually impaired;
- 13 (3) Have membership chapters or organization subunits
14 located on neighbor islands that will be served by the
15 pilot program.

16 (g) The department shall submit a report of its findings
17 and recommendations to the legislature no later than twenty days
18 prior to the convening of the regular session of 2021. The
19 report shall include:

- 20 (1) A record of pilot program activities and
21 accomplishments;

1 (2) A recommendation on whether to extend the program; and

2 (3) Any proposed legislation.

3 (h) The department shall adopt rules pursuant to chapter
4 91, Hawaii Revised Statutes, necessary to implement the pilot
5 program.

6 (i) As used in this section:

7 "Department" means department of human services.

8 "Participant" means an individual whose loss of sight
9 results in a substantial limitation to mobility or living
10 independently and who is a resident of a county with a
11 population less than five hundred thousand and is participating
12 in the pilot program.

13 "Pilot program" means the neighbor islands blind and
14 visually impaired service pilot program established by this Act.

15 "Special needs transportation" means transportation at
16 times or for trips when public transportation is not a
17 reasonable option for a participant.

18 SECTION 3. There is appropriated out of the general
19 revenues of the State of Hawaii the sum of \$500,000 or so much
20 thereof as may be necessary for fiscal year 2020-2021 for
21 neighbor islands blind and visually impaired service pilot

1 program established pursuant to this Act, including the hiring
2 of necessary staff, travel, and per diem expenses; stipends for
3 living expenses for pilot program volunteers; provision of
4 special transportation assistance for program participants; and
5 other necessary expenses associated with the pilot program;
6 provided that:

7 (1) The department of human services shall identify and
8 secure other sources of funding, including federal
9 funding, to provide for matching funds for the pilot
10 program; and

11 (2) Any funds appropriated pursuant to this section shall
12 be in addition to and shall not supplant any portion
13 of the base budget for any state or county agency
14 providing services for blind or visually impaired
15 persons.

16 The sum appropriated shall be expended by the department of
17 human services for the purposes of this Act.

18 SECTION 4. This Act shall take effect on July 1, 2020, and
19 shall be repealed on June 30, 2021.

S.B. NO. 2248

1
