# A BILL FOR AN ACT

RELATING TO THE COMPOSITION OF THE STATE COUNCIL ON MENTAL  
HEALTH.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that native Hawaiians  
2 experience distinct health disparities that pervade their day-  
3 to-day well-being and hinder their overall health.

4           Data on native Hawaiian mental health evince the pressing  
5 need for state intervention and confirm that culturally-based  
6 programs are four times more successful in addressing those  
7 needs. For example, youth suicide attempt and death rates are  
8 highest among native Hawaiians, profoundly impacting their  
9 families and communities. Alarming, native Hawaiian youth and  
10 emerging adults are 2.3 times more likely to die by suicide  
11 compared to Caucasian youth in Hawaii. Furthermore, native  
12 Hawaiian youth are twice as likely to have made a suicide  
13 attempt in the last year compared to their Caucasian peers.

14           These mental health disparities, tragically, start in the  
15 early years of life. Native Hawaiian keiki are overrepresented  
16 as victims of abuse and neglect. By high school, female native

1 Hawaiian students experience feelings of sadness or hopelessness  
2 to a greater degree than their peers. Native Hawaiian youth  
3 also maintain some of the highest rates of drug use in the  
4 State. Not surprisingly, these mental health disparities  
5 persist for native Hawaiians through adulthood and even as  
6 senior citizens.

7       Unfortunately, native Hawaiians tend to underutilize  
8 existing mental health services, seek therapy only after their  
9 illness has become severe, or leave treatment prematurely.  
10 Cultural incongruence with western mental health approaches may  
11 be a driving factor in native Hawaiian underutilization of  
12 mental health services. Experts explain that clients are more  
13 likely to seek out and use mental health services when their  
14 values and beliefs are congruent with the interventions  
15 provided.

16       In 2014, the legislature codified a commitment to address  
17 health disparities throughout the State. Specifically, section  
18 226-20(7), Hawaii Revised Statutes, directs decision-makers to  
19 "[p]rioritize programs, services, interventions, and activities  
20 that address identified social determinants of health to improve  
21 native Hawaiian health and well-being[.]" Additionally, the

1 legislature recognizes that eliminating health disparities and  
2 achieving health equity across demographics is a national  
3 priority, as unequal health outcomes and disparate well-being  
4 are pervasive even when people have health insurance and medical  
5 care.

6       The legislature finds that the state council on mental  
7 health is responsible for advising, reviewing, and evaluating  
8 the allocation and adequacy of mental health resources and  
9 services in the State. Accordingly, requiring the council to  
10 include members with knowledge of or work experience involving  
11 native Hawaiian concepts of well-being, culturally-grounded  
12 mental health methodologies, or traditional healing or health  
13 practices will help to systemically advance culturally  
14 responsive policies and programs that may be critical to  
15 addressing the dire mental health needs of Hawaii's native  
16 Hawaiian and Pacific Islander communities.

17       Accordingly, consistent with the commitment embodied in Act  
18 155, Session Laws of Hawaii 2014, the legislature finds that it  
19 is in the best interest of the State to provide appropriate  
20 native Hawaiian cultural representation on the state council on  
21 mental health.

1           The purpose of this Act is to require a certain number of  
2 members of the state council on mental health to have  
3 demonstrated knowledge of or work experience involving native  
4 Hawaiian concepts of well-being, culturally-grounded mental  
5 health methodologies, or traditional healing or health  
6 practices.

7           SECTION 2. Section 334-10, Hawaii Revised Statutes, is  
8 amended to read as follows:

9           "**§334-10 State council on mental health.** (a) There is  
10 established, within the department of health for administrative  
11 purposes, a state council on mental health. The council shall  
12 consist of twenty-one members appointed by the governor as

14 council, the governor shall ensure that all service area boards  
15 of the State are represented, and that a majority of the members  
16 are nonproviders of mental health or other health services, and  
17 that a majority of the members are not state employees. The  
18 number of parents of children with serious emotional

- 10       (2) Work history that demonstrates an appropriate level of  
11           knowledge of or involvement in native Hawaiian and  
12           indigenous health, transgenerational trauma, or

14           hooponopono, laau lapaau, or lomilomi;

19           treatments, techniques, services, or practices.

20       [~~(b)~~] (c) The council shall elect a chairperson from among  
21 its members. All members shall serve without compensation but

1 shall be paid their necessary expenses in attending meetings of  
2 the council.

3       ~~(c)~~ (d) The council shall advise the department on  
4 allocation of resources, statewide needs, and programs affecting  
5 two or more service areas. The council shall review and comment  
6 on the statewide comprehensive integrated service plan and shall  
7 serve as an advocate for adults with serious mental illness,  
8 children with serious emotional disturbances, other individuals  
9 with mental illnesses or emotional problems, and individuals  
10 with combined mental illness substance abuse disorders.

11       ~~(d)~~ (e) If the department's action is not in conformance  
12 with the council's advice, the department shall provide a  
13 written explanation of its position to the council.

14       ~~(e)~~ (f) The council shall prepare and submit an annual  
15 report to the governor and the legislature on implementation of  
16 the statewide comprehensive integrated service plan. The report
