CHRISTOPHER YUEN FOR A TERM TO EXPIRE ON JUNE 30, 2022**

**The Department of Land and Natural Resources (Department) strongly supports Governor's Message 583 nominating Christopher Yuen to the Board of Land and Natural Resources for a term to expire on June 30, 2022.**

Mr. Yuen brings a wide breadth of experience to the Board of Land and Natural Resources. He is an organic farmer, supplying local markets with banana, lychee and rambutan. He has served as the Planning Director for the County of Hawaii, Deputy Counsel for the County of Hawaii and as an Interpretive Naturalist for the National Park Service at Hawaii Volcanoes National Park. Mr. Yuen asks pertinent questions during board hearings and is seen as an important partner by his fellow board members. Mr. Yuen also brings a wealth of community service experience to the Board. He is a member of the Advisory Councils for both the Laupahoehoe and Pu'uwa'awa'a Experimental Tropical Forests. He has served on various Hawaii Island community groups organized to protect the Hawaii shoreline or forests, and in most cases these groups have been successful.

Mr. Yuen graduated from the William S. Richardson School of Law, has a Master's Degree from the State University of New York in Environmental Science, and a Bachelor's Degree in Human Biology from Stanford University. He graduated from St. Joseph's High School in Hilo.

The Department notes that Mr. Yuen has served admirably on the Board since July 2014. Further, the Department notes that this is Mr. Yuen's second stint on the Board, first having served from 1990-1998.

Thank you for your consideration of the Department's strong support of Governor's Message 583, nominating Christopher Yuen to a seat on the Board of Land and Natural Resources.

In **SUPPORT** of  
**GM 583, Chris Yuen**  
**Relating to the Aha Moku Advisory Committee**

The Hawaii State Aha Moku Advisory Committee (AMAC) stands in strong support of Gubernatorial Nominee, GM Chris Yuen for consideration and confirmation to the Board of Land and Natural Resources (BLNR), for a term to expire on June 30, 2022.

Mr. Yuen is a life-long resident of Hawaii Island, and is a farmer and practitioner of the protection of natural and cultural practices. With a strong belief in justice tempered with compassion and practicality, Mr. Yuen is successful in rendering fair decisions in the BLNR. He has great life experience that he puts to good use, as he was a long-time Planning Director of the Hawaii County and dealt with complex and often unusual contentious land issues. He works well with constituents and government. Mr. Yuen can, and often is successful in bridging the gap between issues and doing the right thing.

Thank you for the opportunity to testify on this measure. We ask that you approve the nomination of Chris Yuen to the Board of Land and Natural Resources.

Respectfully yours,

Senate Committee on Water and Land

The Administration of the Office of Hawaiian Affairs (OHA) will recommend to the Board of Trustees a position of **COMMENT** for GM583, which nominates Chris Yuen to continue his role as a member of the Board of Land and Natural Resources (BLNR).

With jurisdiction over 1.3 million acres of public, “ceded,” and public land trust lands; 750 miles of coastline; and the entire conservation land use district, the BLNR plays a critical role in the stewardship, management, and disposition of lands, resources, and sites of immense importance to Native Hawaiians. BLNR decisions and other actions may have significant impacts, positive and negative, on the Native Hawaiian community, including on the rights of Native Hawaiian cultural practitioners, as well as on the lands and resources to which the culture, well-being, and identity of Native Hawaiians are intrinsically intertwined. **Accordingly, the BLNR holds heightened responsibilities to consider and enforce the rights and interests of Native Hawaiians, as part of and in addition to its role as a fiduciary under the public trust.**

Given its critical mission, OHA appreciates the willingness of all BLNR members, including board member Yuen, to volunteer their time and expertise in furtherance of the BLNR’s work. OHA further appreciates that BLNR decisions over our lands and resources may require a careful and sometimes controversial balancing of various interests and perspectives. Nonetheless, OHA emphasizes that such decisionmaking must be consistent with the laws and fiduciary obligations of the State, and particularly with respect to the rights and interests of Native Hawaiians under the constitution and the public trust.

Accordingly, while OHA again expresses its appreciation to Mr. Yuen for his willingness to continue serving on the BLNR, OHA does respectfully note that certain significant BLNR decisions in which Mr. Yuen participated in and, in some cases, led decisionmaking discussions on, failed to address substantial OHA concerns regarding the public trust doctrine, Native Hawaiian traditional and customary practices, and natural and cultural resource protection.

As one example, OHA notes that over several consecutive years, Mr. Yuen led BLNR motions to continue water revocable permits for the diversion of streams in East Maui, without requiring the diverter to demonstrate its actual water needs and the planned actual use of diverted water; without requiring the installation of water meters or other mechanisms necessary to determine the actual amount of water diverted or the amount of water left in diverted streams; and without any conditions that would consider, much less balance and protect, the needs of native ecosystems and

Native Hawaiian traditional and customary practices impacted by stream diversions, particularly for the numerous streams not subject to the interim instream flow standards eventually set by the Commission on Water Resource Management. OHA specifically and consistently highlighted in written and oral testimonies the above concerns as fundamental considerations under the public trust doctrine, with particular significance to Native Hawaiian rights and interests; however, for multiple consecutive years, Mr. Yuen did not address these fundamental considerations in his motions and leading of discussions resulting in the renewal of the subject revocable permits.

As the BLNR member representing Hawai'i Island, OHA further notes that Mr. Yuen may have had a particularly relevant and influential role in BLNR decisionmaking and discussions regarding state lands on Maunakea. However, Mr. Yuen's decisions and discussion (or lack thereof) on highly sensitive issues relating to Maunakea have thus far failed to reflect an understanding of Native Hawaiian rights and concerns under the constitution and public trust, as highlighted by OHA in oral and written testimony. Specifically, Mr. Yuen's vote in favor of adopting emergency rules for Maunakea in 2015 failed to consider OHA testimony regarding the need to assess the potential impacts of such rules on Native Hawaiian traditional and customary practices, and further failed to address numerous other technical and substantive legal deficiencies that could have resulted in an unnecessary infringement on the rights of Native Hawaiians as well as the general public; notably, the emergency rules adopted by the BLNR were immediately invalidated by a district court judge, on bases reflected in OHA's testimony. Similarly, during the Office of Mauna Kea Management's annual presentations to the BLNR, Mr. Yuen has not sought to address OHA concerns, originally raised in OHA testimony since 2015, regarding the lack of progress on the implementation of Comprehensive Management Plan action items of particular import to Native Hawaiian rights and the public trust. Much more attention and proactive discussion and decisionmaking regarding such concerns may be necessary for the BLNR to ensure that that management needs of Maunakea are met, consistent with its fiduciary and constitutional obligations.

While OHA again commends and appreciates the willingness of Mr. Yuen to continue his service to the BLNR, the above examples illustrate ongoing concerns regarding his appreciation for and understanding of the BLNR's and state's legal obligations to Native Hawaiians, including with respect to constitutionally protected Native Hawaiian rights and under the public trust doctrine. **OHA accordingly respectfully suggests that the Committee, in considering Mr. Yuen's renomination to the BLNR, ask Mr. Yuen to reaffirm his commitment to carrying out his constitutional and public trust responsibilities to Native Hawaiians, including but not limited to re-attending the Native Hawaiian Law and Public Trust Training Course currently being scheduled for Fall 2020.**

Mahalo nui for the opportunity to testify on this matter.

UNIVERSITY

Senetor Kahele:

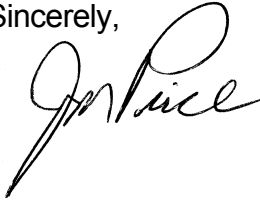

I am writing in support of Chris Yuen's confirmation to the Board of Land and Natural Resources. His professional background personal characteristics cement a long record of dedication to public service in Hawaii.

I am a professor of Geography and Environmental Studies at UH Hilo, and I also serve as the chair of the Natural Areas Reserves Commission for the State of Hawaii (although I write now in a personal capacity). I have known Chris Yuen for approximately ten years. For the past five years, I have been serving with him on the Laupahoehoe Advisory Council, a group of stakeholders representing different parts of the community to help guide decision-making in the Laupahoehoe Forest Reserve and Natural Areas Reserve. Chris has proven to be a wellspring of community experience, sharing his personal stories of a number of environmental issues over the decades. His deep understanding of both the County and State governments and associated agencies underscores a clear expertise.

Born and raised in Hilo, Chris Yuen is a fixture of several aspects of the Big Island community. Professionally, his environmental education and legal background provide a unique combination that is well suited to serve on the BLNR. He is also a farmer, growing a number of different crops (I buy his organic bananas regularly!), and so he has a strong land ethic. Personally, he is thoughtful, well-spoken,

considerate, and fair-minded. For these reasons, I enthusiastically endorse his confirmation to the Board of Land and Natural Resources. Please feel free to contact me with any questions and Mahalo for your consideration.

Dear Chair, and Members of the Committee:

I am writing in strong support of the appointment of Christopher J. Yuen to the Board of Land and Natural Resources.

I have known Mr. Yuen for over 30 years and have worked closely with him on land use policy and legal issues regarding the protection of Hawai'i's unique and fragile ecosystems and valued natural and cultural resources.

He is very fair and balanced in his treatment of sensitive matters and demonstrates a high level of professionalism and thoughtfulness in all decision-making. He is known for his integrity and moral character.

I believe his long standing experience with the Board of Land and Natural Resources, his work as Planning Director for the County of Hawai'i combined with his legal experience makes him an outstanding candidate for this appointment.

The Hawaii Island Community Development Corporation (HICDC) SUPPORTS the confirmation of Christopher Yuen as a Member of the Board of Land and Natural Resources.

I have known Christopher Yuen for many years beginning with his position at Deputy Corporation Counsel for the County of Hawaii, continuing through his term as Planning Director and later as a Member of the Board of Land and Natural Resources.

Throughout this time I found Chris to be thoughtful and able to see many aspects of an issue ranging from his environmental perspective to the need for sensible community growth and affordable housing. This ability to take a well rounded view is essential in addressing the multifaceted issues that come before the Board. For these reasons the Hawaii Island Community Development Corporation (HICDC) supports his nomination.

The Hawaii Island Community Development Corporation is a 501(c)(3) non-profit organization whose mission is to provide low and moderate income residents of the Big Island with affordable housing opportunities. To date HICDC has partnered with more than 350 low income self help builders to achieve homeownership and developed 391 low income rental units.

Thank you for the opportunity to provide testimony on this nomination.

TESTIMONY ON BEHALF OF CHRISTOPHER J. YUEN TO THE BOARD OF THE  
DEPARTMENT OF LAND AND NATURAL RESOURCES, GOVERNOR'S MESSAGE 583,  
COMMITTEE ON WATER AND LAND USE.

Senator Kahele and Members of the Committee:

It gives me great pleasure to support the nomination of Chris Yuen to the Board of the Department of Land and Natural Resources. Most people know Chris in his capacity as Planning Director on the Big Island, as an attorney in private practice, or with the Corporation Counsel. We, at Armstrong Produce, have known Chris for nearly fifteen years in a different capacity, as a farmer. Chris and his family operate The Family Farm, in Ninole, along the Hamakua Coast, where they produce some of the state's best lychee every summer. The Yuens are also the only organically certified lychee farm in the state and are very conscientious about land stewardship and natural resource conservation.

After Chris retired as the County as Planning Director back in 2008, he decided to concentrate on farming, enjoy traveling and other more leisurely pursuits. I am very glad that Chris was willing to return to the Land Board to share his vast knowledge and experience in the area of land use and the environment. The State will continue to benefit from Chris' special insights having served eight years on the Land Board as the Big Island representative previously. His years as Hawaii County Planning Director also enhances his understanding and special reverence for our environment.

As a Land Board member from 1990-1998, Chris was involved in the revision of conservation district rules, a most daunting task, and the review of more than 400 conservation use permits. Chris has also been involved in community groups to preserve coastlines on the Big Island.

I understand that this appointment will allow Chris to complete another term serving on the Board, which began in 2014.

I ask that this Committee confirm the nomination of Christopher Yuen to the Board of Land and Natural Resources as he continues to offer his time, knowledge, and expertise. He is an invaluable member that will help the Board face many challenges over the next several years.

*For 40 years, The Nature Conservancy of Hawai'i has been working closely with government agencies, local businesses, private landowners, non-profit partners, and interested communities across the state to preserve the lands and waters upon which all life in these islands depends. The Conservancy is a private non-profit conservation organization that has helped to protect nearly 200,000 acres of natural lands in Hawai'i. Today, we actively manage more than 35,000 acres in 11 nature preserves on Maui, Hawai'i, Moloka'i, Lāna'i, and Kaua'i, and support 51 coastal communities seeking to effectively co-manage marine resources in partnership with the State of Hawai'i.*

---

The Nature Conservancy supports the confirmation of Chris Yuen to the Board of Land and Natural Resources.

We have worked with Chris for the better part of three decades, including in the 1990's and early 2000's on collaborative efforts to balance conservation management and economic use of Pu'uwa'awa'a and Kahuku Ranch, and to ensure the proposed re-districting of State conservation lands fairly incorporated the needs of both people and nature. During his most recent tenure on the Board, Chris has been a thoughtful arbiter of community-based management at Hā'ena and Ka'ūpūlehu, asking probing questions to build a shared understanding of the value of blending traditional knowledge with the latest science to guide effective resource management.

As Hawai'i County planning director and as a BLNR member, Chris has consistently demonstrated his deep knowledge of and commitment to Hawai'i's people and the natural and cultural resources that support us all. His professional experience, educational background, and personal dedication enable him to guide important statewide policies and decisions related to land use and resource management. We are grateful that Chris will again offer his time, energy, and experience to the BLNR.

## Re: Testimony Supporting GM 583; Confirmation of CHRISTOPHER YUEN to the Board of Land and Natural Resources

Aloha Chair Kahele, Vice Chair Keith-Agaran, and Members of the Committee,

The Hawai'i Island Chamber of Commerce strongly supports the re-confirmation of Christopher Yuen to the Board of Land and Natural Resources.

The Board of Land and Natural Resources has faced some difficult and controversial issues over the last few years and Mr. Yuen has done an exemplary job researching the issues, providing careful reasoning and a valued perspective to help the Board provide solutions and come to difficult decisions. As our state is faced with difficult decisions in these uncertain times, we greatly need his work and counsel to help us navigate our way through.

Mr. Yuen has the respect of an array of conservationists, State and County leaders and employees, scientists, and members of the private sector. Many who have worked with him credit him for being thoughtful and hard-working, always with our state's best interest in mind.

The Hawai'i Island Chamber of Commerce represents nearly 300 member businesses and professionals from East Hawai'i and beyond. We strive to offer effective support of our members by providing advocacy, advancing Hawai'i Island's economic well-being, and promoting our members' and services.

We ask that this Committee confirm the nomination of Christopher Yuen to the Board of Land and Natural Resources as he continues to work towards the betterment of our state.

Sincerely,

Miles Yoshioka

### In **OPPOSITION** of **GM583**

---

Aloha Chair Kahele, Vice Chair Keith-Agaran, and members of the committee,

On behalf of our 20,000 members and supporters, the Sierra Club of Hawai'i **opposes GM583, the confirmation of Christopher Yuen** to the State Board of Land and Natural Resources (BLNR) for a term to expire 6-30-2022. It is important to note that the Sierra Club supported Mr. Yuen's earlier nominations to the BLNR. We oppose Mr. Yuen's continued service now because in the past few years he has failed to use his intelligence and influence to help the BLNR fulfill its legal obligations to protect public trust lands and resources.

The mission of the Department of Land and Natural Resources is to:

"Enhance, protect, conserve and manage Hawaii's unique and limited natural, cultural and historic resources held in public trust for current and future generations of the people of Hawaii nei, and its visitors, in partnership with others from the public and private sectors."

The Department is governed by the appointed BLNR. All Board decisions are governed by Article XI, section 1, which plainly states "[a]ll public natural resources are held in trust by the State for the people."

As the trustee for the public's shared resources, the BLNR serves to address conflicts over the use and misuse of public land and natural resources. It is this Board's responsibility to engineer solutions to conflicts that uphold the constitution and balance the long-term health and appropriate use of public resources. To do this, the Board should take into consideration the direct knowledge of neighbors, maka'āinana, and concerned advocates when evaluating project proposals.

Yet, under Mr. Yuen's influence, the BLNR has repeatedly undercut its fiduciary responsibility to protect the public's interest. Mr. Yuen's recent service on BLNR has fostered discord and litigation, which has increased the cost of business in Hawai'i while undermining the public's faith that the state will protect their interests.

Our most recent example of this was in October in the context of new revocable permits being considered for the on-going diversion of streams in East Maui by Alexander and Baldwin (A&B) and East Maui Irrigation (EMI, jointly owned between A&B and Mahi Pono. Collectively “permit applicants”).

At the hearing, the Sierra Club and several East Maui residents presented evidence and testimony as to the poor state of the diversions, years of damage to public stream resources, and the apparent attempt to sell public stream water.

Specifically, we pointed out that A&B uses 33,000 acres of public land in a way that facilitates the spread of invasive species and yet it does nothing to control invasive species. If DLNR required the permit applicants to take steps to manage invasive species, then it would save DLNR money – money DLNR is constantly asking the legislature to provide, by the way -- and protect the future of this critical, public freshwater water resource.

In an apparent attempt to prove the Sierra Club wrong, Mr. Yuen called up DLNR staff members to explain how much money A&B contributes to the East Maui Watershed Partnership to control invasive species. The staff from the Division of Forestry and Wildlife responded: none. Having failed to prove us wrong, Mr. Yuen dropped the point altogether.

He could have--but did not--propose that the terms of the permit be amended to require the applicant to control the spread of miconia or any of the other invasive species found on the public land that A&B uses.

Instead, he proposed other amendments to the permit that increased the amount of A&B’s water take well beyond what the DLNR staff recommended. The staff recommended that the permit applicants receive 35 million gallons of water per day (MGD) based on the anticipated agricultural activities in the next year. After the Sierra Club testified to the lack of justification for diverting anything more than 25 MGD, Mr. Yuen called up the representatives for A&B, EMI, and Mahi Pono and asked them how much water they would like to have. The applicants’ representative said 45 million gallons in total for the year.

Without any evidence to justify such a significant increase in water take or analysis of alternative sources of water (such as groundwater), Mr. Yuen made a motion to amend the staff recommendation to increase the amount of water A&B could divert to 45 million gallons per year. The implication of this decision is that during the dry season, when streams produce less water, A&B can now drain dry those streams that do not have minimum instream flow standards.

Mr. Yuen accepted A&B’s claims that it always cleans up its trash on public land, even though the Sierra Club produced photographic evidence at the hearing of discarded PVC piping, rusty metal pieces, and other rubbish along public stream banks.

Mr. Yuen stated his assumption that the Water Commission did everything necessary to protect all of the streams of East Maui, despite incontrovertible evidence that the Commission's most recent decision does not address 13 streams in the East Maui Watershed. These are the 13 that his motion allowed A&B to drain completely dry in the summer.

The Board adopted Mr. Yuen's motion after he made a passionate argument that included complaints about the repeated testimony from the public about excessive diversions and harm to public trust resources, and the conclusion that if people do not like the decision then they can take it to court.

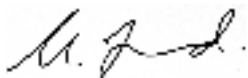

Unfortunately, that is exactly where we are. At great expense to the Sierra Club, the state, and the permit applicants, these temporary permits for a permanent stream diversion issued without sufficient justification or protection for public trust resources are currently before the First Circuit Court. This could have been avoided, if the BLNR had made a decision based on science and principle of protecting public resources from exploitation.

Sadly, this is not an isolated incident. Mr. Yuen consistently belittles those who speak out in favor of protecting the streams and not once asks hard questions of permit applicants, or anyone supporting the applicant.

And it is not limited to just stream issues. This scenario describes many other issues that Mr. Yuen has taken up as a member of the BLNR. From burials to endangered species to conservation districts, the outcome is conflict, discord, and litigation. This is because Mr. Yuen is often the proponent of motions to the BLNR that fail to uphold the constitution, abide by the Department's statutes and regulations, or give the beneficiaries of the public trust confidence that their concerns are heard and addressed.

We now turn to you, the members of the Senate, for help in addressing the dysfunction of the BLNR. We strongly urge you to recommend against the confirmation of Mr. Yuen to the BLNR because his recent positions do not fulfill the legal obligations or uphold the mission of the Department.

Aloha Senators,

Please OPPOSE GM 583 and decline to confirm the nomination of Chris Yuen to yet another term to the Board of Land and Natural Resources. He has served for 14 years in total, which violates the spirit, if not the letter of HRS § 26-34, which limits terms of service to 8 consecutive years. Vacating Member Yuen's spot would allow the Governor to appoint a person from any number of underrepresented groups on the BLNR, including Hawaiians and women.

We oppose Mr. Yuen's confirmation to BLNR because of his positions on the following issues:

1. Mauna Kea emergency rules. Mr. Yuen aggressively questioned opponents of emergency rules, but did not similarly question proponents. He was convinced that it was an emergency requiring immediate action. Yet, after a circuit court judge struck down the emergency rules, nothing happened. There was nothing to justify any sort of emergency. There never was.
2. Thirty-Meter Telescope permit. Mr. Yuen voted in favor of granting the TMT permit, ignoring the many concerns of the community concerning the desecration of Mauna Kea.
3. Kahuku wind turbines. After the hearing officer recommended that a permit for the controversial Kahuku wind project be denied, Mr. Yuen aggressively questioned counsel for Keep the North Shore Country while deferring to the claims of the applicant. He discounted recent scientific studies and ignored evidence that showed that every wind facility has grossly underestimated how many ōpe'ape'a they would kill. Yet he accepted the applicant's unsupported claim that it could not curtail the spinning of the blades when necessary to protect ōpe'ape'a.
4. Kahala Hotel. The Kahala Hotel operated a restaurant, tourist cabanas, and sold wedding packages on public land, generating hundreds of thousands of dollars. When community members brought the violations to BLNR's attention, Mr. Yuen shrugged his shoulders and supported for the hotel, which continues to exclude members of the public from the beach.
5. Labor violations in longline fisheries. Mr. Yuen convinced the Board to ignore the connection between the state's commercial fishing licensing practice for foreign fishing operations and the exploitation of local fisheries and workers via an indentured servant system on longline fishing ships operating out of Hawai'i. One petitioner, a Hawaiian fisherman, has appealed BLNR's decision all the way to the Hawai'i Supreme Court.
6. Seawalls for vacation condos. Mr. Yuen convinced BLNR to approve a seawall for a timeshare investment on Maui called Hololani. He actively disregarded the pleas of community members and longtime fishers to protect shoreline from the erosion caused by seawalls. Instead of addressing their concerns, Mr. Yuen questioned community members, who had flown in from Maui, why they hadn't raised their concerns at prior BLNR meetings.
7. 'Ewa limu. Mr. Yuen expressed disdain for limu gatherers whose practice would obviously be adversely impacted by the discharge of polluted stormwater on top of limu beds in 'Ewa.
8. Hilton Hotel profits. Mr. Yuen argued BLNR should charge less for the Hilton to use state land to launch its fireworks displays for guests, even though DLNR lacks adequate funds as it is.

For all these reasons, amongst others, we strongly urge you to OPPOSE GM583.

Sincerely,

Lei Niheu

Aloha Senators,

Please accept this testimony from KAHEA: The Hawaiian-Environmental Alliance in **strong opposition** to GM 583 and decline to confirm the nomination of Chris Yuen to yet another term to the Board of Land and Natural Resources. KAHEA is a Hawai'i-community based 501(c)(3) nonprofit organization with over 10,000 supporters. Mr. Yuen has served for 14 years in total on the BLNR, which violates the spirit, if not the letter of HRS § 26-34, which limits terms of service to 8 consecutive years. Vacating Member Yuen's spot would allow the Governor to appoint a person from any number of underrepresented groups on the BLNR, including k̄naka maoli (Native Hawaiians) and women.

Mr. Yuen treats large landowners and developers with deference, but aggressively questions Hawaiians and others who champion natural resources. He takes applicants at their word, but submits aloha 'āina to searching scrutiny for any real or imagined inconsistency in their claims and positions.

In addition to his past bad actions, enumerated below, if re-appointed, Mr. Yuen will be a decisionmaker on many controversial issues that matter greatly to Hawaiian and local communities in Hawai'i. These include, but are not limited to:

- Long term lease arrangements for the East Maui stream diversions
- Long term lease arrangements for Wai'ale'ale stream diversions
- Allowable 'ōpe'apea (bat) take by wind turbines
- Influencing negotiations on Mauna Kea related issues like a possible future general lease, management plan updates
- Allowable take for the aquarium fish trade
- Oversight on leases of state land for military use

Our resources, and the people who rely on them, deserve decisionmakers who are committed to compassionate listening, creative solutions and critical questioning of entities that pose harm to their health. Mr. Yuen has showed time and time again that he will not commit to doing so.

Reasons I oppose Mr. Yuen's continued tenure on BLNR include his positions on:

1. Thirty-Meter Telescope permit. Mr. Yuen voted in favor of granting the TMT permit, ignoring the many concerns of the community and long-time advocates concerning the desecration of Mauna Kea.

Aloha mai e Senator Kai Kahele:

I respectfully submit email testimony in support of the reappointment of Christopher Yuen to the Board of Land & Natural Resources for another two-year term. Chris is an environmentally-aware organic farmer who has stewarded the'aina in a responsible manner which produces food and yet protects the soil and water from degradation. He has been an intelligent, thoughtful and foresighted member of the BLNR for many years and thoroughly enjoys this form of community service which most citizens would avoid like COVID-19. Chris is also very accessible and takes the time to explain complicated legal issues to whoever inquires or refers you to the proper bureaucrat at the DLNR.

I approached Chris with my concerns about a family squatting on DLNR land in the back of Hanapepe Valley and reported that adjacent landowners had complained about the river's waters being diverted by these illegal occupants. This past winter, I made a pilgrimage to my ancestral lands on Kaua'i and found my access blocked by a locked gate, large barking dogs and a sense of menace. The location of the squatters' site is just yards from where the Hanapepe River waters can be controlled by a mechanism installed by Alexander & Baldwin during their sugar plantation era. Chris agreed to bring this matter to the attention of the Board.

I also inquired about the legality of installing sandbags and the topping-off of large trees by beachfront landowners on Kaua'i's north shore. The butchered trees were weakened by the total absence of branches and leaves. With their roots exposed to the harsh elements, the trees could not retain the land and allowed the winter surf to sweep away much of the sand. Most of these homes were vacation rentals thus the trees were cut to enhance the view of the ocean by tourists. Chris referred me to the proper land agent whom I sent photos and filed a citizen's complaint.

I don't always file complaints and critiques with Chris just because he is the most approachable member of the BLNR. I mentioned that I thoroughly enjoyed my December journey to Ke'e Beach which is a Kaua'i state park administered by DLNR. The vast improvements to the parking area as well as access to the beach through the wetlands were astounding. I shared my kudos with Chris who passed along my compliments to DLNR Director, Suzanne Case.

In short, Chris Yuen represents the common folk utilizing his common sense as a Big Island native and best common practices as a farmer to make informed and intelligent decisions while sharing his insight with other BLNR members. Although he is an attorney, published scholar and seasoned Hawaii County bureaucrat, he is truly an earthbound man with a genuine ear for listening to the citizens while protecting Hawaii's land and all its natural resources for future generations,

Please confirm the reappointment of Christopher Yuen, as an At-Large member to the BLNR.

I support Chris' nomination as I have in the past. My wife and I have known Chris for 35 or so years in many capacities. When he was with Corp Counsel on the Big Isle, he participated ,in the Kahaualea Geothermal hearings where I represented many organizations opposing the Application over many years and a number of contested case hearings. Altho my cliente opposed the County's position, he was always professional and well prepared. We became friends. Around the same time, my wife was working for the State's stream assessment , in the recreation investigation. They conducted hearings on all Islands and found Chris to be a knowledgeable and constructive participant. Later, when Chris was Planning Director, I represented C. Brewer regarding, inter alia, land use issues as impacted, vel non, by HCPC ash deposits. Chris and I communicated, again professionally and knowledgeably re same. Also, in the Coupe vs County of Hawaii Cases, I again opposed the County, from trial through the Sup. Ct.. Chris' and my paths crossed again- still professionally and knowledgeably. Our office has had a number of Land Use cases contrary to County of Hawaii in which Chris was the Planning Director- again through trial and appeal, each side winning some and lossing some , our relationship was cordial, professional. We remain friends with mutual respect and we and our spouses have dined at each others homes on the Big Island. Bottom line- Chris is fair, balanced, condial and knowledgeable on a wide variety of subjects, especilly land. I respect him, value his opinion, even when mine may differ and he is a fair to middling farmer, which counts for a lot when one's job is to evluate land and its uses. He is a man for all seasons and is exactly what this job demands. I support his nomination.

I strongly support Chris Yuen's renomination to the Board of Land and Natural Resources. I have known Chris for fifty years, and he is one of the most honest, dedicated, experienced, and knowledgeable individuals one could hope to meet. We are fortunate that he is willing to continue to work for our community as a BLNR member, and if he is confirmed, I know he will continue his public service with complete integrity, and in a way that will make Hawaii proud.

Dear Senator Kahele and committee members,

I have known Chris Yuen for over 20 years. He has an impressive background in Hawaii land use, conservation, and legal issues. He also is a leader who is able to craft ideas and justifications for a way forward in difficult, contentious, and complex decisions. He is a true environmentalist as well as a pragmatist. He has a long history of fighting for public access, particularly to some of the most treasured beaches on his home on Hawaii island, such as Makalawena, Kohanaiki, and Papaikou. He also has served eight years as the planning director for Hawaii island, so he knows how government works and how to make things happen as an administrator as well as a decisionmaker.

On the Land Board, there is always many sides to issues, with impassioned voices caring about our irreplaceable lands and waters. Chris Yuen is a voice of reason on the Land Board, able to provide fair, balanced, and carefully-researched recommendations. Those that testify to the Land Board can trust that they will be heard and treated with respect and consideration.

Please support his nomination to the Board of Land and Natural Resources so he can continue to serve Hawaii.

With Aloha,

Re: GM583

Dear Senator Kahele and Committee Members,

I strongly urge you to confirm Christopher Yuen to continue his service for the next two years on the Hawaii Board of Land and Natural Resources. I have great respect and admiration for the many positive actions Mr. Yuen has accomplished both on Hawaii Island and for the State during his long career in government service, both as an employee and as a volunteer. He has a practical and at the same time very forward-thinking approach to government matters that affect our State's lands and waters. Because of Mr. Yuen's legal background his opinions and recommendations are based on the law. I truly think that it would be a serious loss to Hawaii's efforts in combating climate change to lose such a proponent of our conservation goals on the Board.

I have worked with Mr. Yuen when we were both members of Ka'Ahahui o Pu'uwa'awa'a and more recently in his capacity on the Pu'uwa'awa'a Advisory Council. His participation has helped to formulate the successful on-going restoration of the invaluable native ecology of the ahupu'a. Also, as a member of the public, I participated in the County of Hawaii Community Development Plans (CDP) initiated and implemented by Mr. Yuen when he was the planning director for Hawaii County during 2000 to 2008. These CDPs were developed by the communities for the communities and are the legal documents that guide and to a large extent dictate how the communities expect development to proceed. Mr. Yuen's vision for improving county planning so that it reflects the community members' ideas has been an amazing tool for the benefit of the County of Hawaii's future.

Mr. Yuen has been instrumental in many other aspects of protecting and promoting conservation on Hawaii Island. They include to name a few Awake'e-Manini'owali; Makalawena; Kekaha Kai State Park; and protection of the Keaukaha shoreline.

I hope that you will consider his confirmation favorably.

Aloha,

Sally H. Rice

Senator Kai Kahele, Chair, Senate Committee on Water and Land:

This testimony is in whole-hearted support of the confirmation of Chris Yuen to the Board of Land and Natural Resources. I have had the privilege to work with Chris as his deputy when Chris was the County of Hawaii Planning Department Director starting in 2000. At first, I had a slight apprehension that I would be working for a one-sided environmentalist. Through the years, I've observed one of the most rational and balanced professional that I've met. He carefully listens. He understands the issues at stake with depth and clarity. He then makes reasoned decisions even if unpopular. I've witnessed reactionary criticism of his decisions from both sides of the development fence. I've treasured the opinions he has written as Planning Director providing code or rule interpretations, procedural clarifications, or policy guidance-- concise, clear, addressing complex points that reflects his gift of intelligence. Chris also has heart. He is a person with strong values. For all these reasons, I've called upon Chris for his insights in my current position as County of Hawaii Managing Director. For the sake of a promising future, please confirm Chris Yuen to serve on the Board overseeing our State's vital resources.

Subject: GM583 – In **SUPPORT** of the Confirmation of Christopher Yuen to the Board of Land and Natural Resources

Dear Chair Kahele and Committee Members:

I am writing in support of the confirmation of Chris Yuen to the Board of Land and Natural Resources.

As I wrote in a letter supporting his initial nomination in 2015, I had the pleasure of working closely with Chris when he was the Planning Director for the County of Hawaii and I was the County's Managing Director. He is extremely intelligent, and has encyclopedic knowledge of both planning and environmental laws and issues. His law degree and experience complemented by his master's degree in environmental science make him a valuable member of the BLNR.

While he was Planning Director his department implemented significant projects such as Community Development Plans, an update to the General Plan, closing loopholes in the condominium property regime laws, and working with communities and developers to make more shoreline access available to the public.

His ability to quickly grasp the essentials of an issue, and to work with developers, environmentalists, and the general public were tremendous assets to the County of Hawaii, and I believe have been tremendous assets to the State of Hawaii as a member of the Board of Land and Natural Resources.

Thank you for taking the time to read this as you consider once again the confirmation of Chris Yuen to the Board of Land and Natural Resources. I do not think you can find anyone else as qualified and dedicated as Chris.

Dear: Senator Kahele

I am writing to ask that you re-appoint Mr. Christopher J. Yuen (GM583) to his current position as an at-large member of the Board of Land and Natural Resources. His present appointment expires at the end of the current legislative session.

Chris formerly served as the Hawai'i Island Board member from 1990-1998. During that period, I was the Branch Manager for the Hawai'i Division of Forestry and Wildlife. I had the several opportunities to work with Chris on various issues and challenges facing the Hawai'i District. I found Chris to be extremely knowledgeable about DLNR operations and in particular those within the Division of Forestry and Wildlife.

Chris has a strong conservation ethic, is very experienced in handling controversial issues, and works well with people. He is exceptionally good at finding practical solutions to difficult problems.

Please consider re-appointing Chris Yuen to the BLNR for another term.

Sincerely yours,

Jon G. Giffin

I have known Chris Yuen for over 10 years and strongly support his nomination and confirmation to the Board of Land and Natural Resources. Chris has intimate knowledge of Hawaii's unique history and needs when it comes to natural resources. He takes a practical approach to balancing the interests of the land and its people, in order to serve and preserve both. He is also exceptionally qualified for this role, as a Hawai'i-raised lawyer with broad experience at various levels of natural resource management, dedicating many years of his career to such roles. Finally, Chris is a person with great integrity and passion for doing his job well, and with the honor and respect it requires. Thank you for considering this testimony.

Aloha Chair Kahele, Vice-Chair Keith Agaran, and Committee Members:

I strongly support the nomination of Chris Yuen to the Board of Land and Natural Resources in my individual and personal capacity.

I have know Chris for decades in my professional and personal capacities and worked or appeared before him when he served as the Planning Director for the County of Hawai'i and as a member of the Board of Land and Natural Resources. Chris is a dedicated servant of the public, in the best possible sense. In all my many interaction with Chris, he is always thinking about whether an action or proposed project serves the interests of the public and taxpayers. His expertise in land and water are invaluable to the Board of Land and Natural Resources, as his fair and clear articulation of his concerns for the public good.

Chris has my strongest recommendation and I urge the Committee to support his nomination to the Board of Land and Natural Resources.

Aloha Senator Kaiuli`i Kahele, Chair, Senator Gilbert Keith-Agaran, Vice-Chair, and Members of the Senate Committee on Water and Land:

This is a letter of support for the confirmation of Christopher Yuen to the Board of Land and Natural Resources (BLNR).

I have worked with Chris since the 1990s in community-based initiatives to protect Hawai`i Island coastal areas and the public's ability to responsibly access them. While working as a Planner in the Hawai`i County Planning Department with Chris as our Director in the early 2000s, I experienced first-hand his ability to analyze and problem solve complex land use issues. He is a hard worker, and his love of Hawai`i Island is apparent in his work.

His past and current service on the BLNR has demonstrated his ability to work with others and to not only represent the interests of Hawai`i Island but also our island state.

I humbly ask for your favorable confirmation of Christopher Yuen to the Board of Land and Natural Resources.

Hawaii State Senate, Honolulu

Aloha Senator Kai:

It is a pleasure to contact you regarding our strong support for the confirmation of Christopher Yuen to his continued appointment on the Board of Land and Natural Resources. We have known and interacted both professionally and socially with Chris for many decades here on Hawai`i Island. His impressive public service career as past County Planning Director, and with the BLNR has helped to shape progressive and sustainable land use policies both private and public, particularly as related to the sound management of State lands under DLNR jurisdiction. Even in his prior private legal career Chris worked tirelessly in the public interest (often *pro bono*) to ensure that planning, development, and environmental protection policy was well conceived and balanced in the best long-term interest of our citizenry.

Chris embraced our work at the University of Hawai`i Hilo, encouraging applied research to help answer strategic and complex land use and development issues before the County and State. Whether in private practice or in his role as County Planning Director Chris gave generously of his time and knowledge through guest lectures and accommodating UH Hilo student as interns in the County Planning Department. We and the students participating in the Planning Certificate Program are forever grateful for his support.

We believe Chris will always act in the best interest of the citizens of Hawai`i. For this reason, we urge his reappointment to the BLNR.

Aloha Legislators: As a 45-year resident of the Big Island involved in land matters through both public infrastructure project development and conservation projects, I would like to express my strong support for Chris Yuen's re-appointment to the Board. He is the most thoughtful, hard-working and balanced board member I can imagine. His diligence and creativity have led to solutions for some of the most intractable and perplexing issues that the BLNR has faced over the years. I know from my own tenures on the Marine and Coastal Zone Management Advocacy Council, the Mauna Kea Management Board, and the Environmental Council just how difficult that can be. We will face ever more difficult decisions in the uncertain times facing us, and we greatly need Chris's work and counsel to help us navigate our way through. Please reappoint him.

The Honorable Ronald Kouchi, President, And Members of the Senate,

I strongly support the confirmation of Chris Yuen as a member of the Board of Land & Natural Resources. He has proven to be, and I believe will continue to be, a strong advocate for reasonably protecting Hawai'i's lands and natural resources.

Thank you.

Dear Senator Kahele, With this letter I am giving my wholehearted support for the confirmation of Chris Yuen to continue his service on the Board of Land and Natural Resources. I have had the privilege of serving on two Hawaii Island advisory committees with Chris (Pu'uwa'awa'a and Laupahoehoe advisory committees). Chris is incredibly knowledgeable on all matters associated with natural resource management in the State of Hawaii. His background in planning, law, and forestry adds a unique and rarely possessed skill set to serve the people of Hawaii. Further, Chris is passionate about protecting our natural resources while understanding the balance and need to promote sustainable livelihoods. Chris takes the time and does the research before making decisions. He is thoughtful, yet firm. In my professional capacity I often present annual updates to the BLNR and am always impressed when watching Chris in action. He is prepared, he asks good questions and he is respectful. I am not sure if you could find a better candidate to serve on the BLNR.

Respectfully,

Dear Chairman Kahele and Members of the Committee,

I would like to submit testimony in favor of your confirmation of Chris Yuen to serve on the State of Hawaii's Board of Land and Natural Resources.

I have known Mr. Yuen since 2000 when he was appointed by Harry Kim's Administration as the County's Director of Planning and I was serving on the Hawaii County Council.

With his experience as a planner, attorney and farmer, Mr. Yuen is what I would describe as a pragmatic idealist. It is clear that he is very interested in determining what is in the interest of our Island Community as well as the environment. At the same time, he is able to balance those priorities with what is practical and implementable.

We are fortunate that, with his passion and skills, Mr. Yuen would like to continue serving our State as a member of the BLNR.

Respectively yours,

Nancy Pisicchio

RE GM 583: Gubernatorial Reappointment of CHRISTOPHER YUEN to the Board fo  
Land and Natural Resources

My name is JoAnn Yukimura. As a former mayor and long-time councilmember from  
Kaua'i County, I am pleased to support Governor Ige's reappointment of Chis Yuen to  
the Board of Land and Natural Resources (BLNR).

Throughout Chris Yuen's many years of public service, he has demonstrated qualities  
of a good decisionmaker. He is well informed, able to analyze complex issues, comes  
to meetings prepared, and is a good listener. This is not easy in public decisionmaking  
that is often fraught with highly conflicted interests and a lot of factual confusion. Chris  
Yuen's skills are particularly important on the Board of Land and Natural Resources,  
whose mission it is, as holder of the public trust, to "enhance, protect, conserve and  
manage Hawaii's unique and limited natural, cultural and historic resources for current  
and future generations" --resources that are often fragile and irreplaceable.

Chris Yuen's training as a lawyer, his experience as a planning director, and his  
commitment to Hawai'i's environment enable him to ask thoughtful questions and  
suggest creative win-win solutions where possible. Even where I may not have the  
same position on as issue, I am confident that Chris has done his homework and has  
come to an honest and sincere conclusion.

I respectfully request that the Committee on Water and Land confirm the reappointment  
of Christopher Yuen to the Board of Land and Natural Resources. Thank you for this  
opportunity to comment.

Dear Senator Kai Kahele,

I am writing you today to express my support of Chris Yuen's confirmation to the Board of Land and Natural Resources. I have known Chris for over a decade and am continuously impressed with his knowledge of Hawaii's environment and the issues it faces. Add his law background and intimate understanding of Hawaii's environmental laws and I doubt if there is anyone more suited for the job. I believe that Chris will do what is best for the natural resources and people of Hawaii.

Sincerely,

Andrew Gray

Aloha,

I write in enthusiastic support of the nomination of Christopher Yuen to the Board of Land and Natural Resources.

I have known Chris for 40+ years, as both a coworker and a friend. He has always been passionately committed to the preservation and perpetuation of natural and cultural resources. While sometimes we may not agree on issues, he is always patient, and happy to engage in substantive discussions with an open mind. He has a broad, intelligent and experienced grasp, through his personal experiences on land and on the ocean, of our outdoors, as well as the laws governing their protection and use.

If confirmed, Mr Yuen will continue to be a tremendous asset for the Island of Hawaii, and for all of Hawaii nei.

Mahalo for considering him.

TESTIMONY OF DARYN ARAI  
before the  
SENATE COMMITTEE ON WATER AND LAND  
Senator Kaiali'i Kahele, Chair  
Senator Gilbert S.C. Keith-Agaran, Vice Chair

DATE: Wednesday, May 13, 2020  
TIME: 1:00 PM  
PLACE: Conference Room 229  
State Capitol  
415 South Beretania Street

Aloha, Chairman Kahele, Vice Chairman Keith-Agaran, and Members of the Committee,

SUBJECT: Gov. Msg. 583-Nomination of CHRISTOPER YUEN to the  
Board of Land and Natural Resources

I would like to offer my strong support of the nomination of Christopher Yuen to the Board of Land and Natural Resources as its Hawai'i Island representative.

I had the pleasure of working with Mr. Yuen upon his appointment as Director of the County of Hawai'i Planning Department from December 2000 to December 2008. It was around that same time that I became a manager of one of the divisions within the department. This gave us an opportunity to really learn what to expect from each other as we settled into our new responsibilities.

Mr. Yuen earned a reputation as a very thoughtful person who always took the time to explain the rationale behind the many daily decisions that he made which set the course for the department during his tenure and beyond. And when people understand why things are set the way they are, it is with greater focus that they can assist the department and the County in accomplishing its goals. He was, in my experience, one of the most prolific authors of amendments to our codes and rules that help the department to do its job.

I could go on about the metrics of his many accomplishments and contributions throughout the years, but feel it would be more important to convey to the Committee my wholehearted support for a gentleman whose driving purpose is to do what is in the best interest of Hawai'i Island and our State. The fact that Mr. Yuen has served multiple terms on the BLNR stretching back to 1990 speak volumes. His service at both the State and County level on matters relating to land use gives him broad, unique and informed perspectives on the many important matters that comes before the Board.

Your support of Christopher Yuen's nomination to the BLNR will be much appreciated!

With kind regards,

Sen. Kahele:

I wholeheartedly support Chris Yuen's nomination for another term on the Board of Land and Natural Resources. I have known Chris both personally and professionally for nearly forty years. His care and knowledge of land and land use issues is both broad and deep, apparently going back to his first public advocacy when he was in high school in Hilo. Some of his positions on issues have been met with strong opposition, and I haven't always agreed with him, but I am certain that he has carefully considered all of the relevant facts and that he believes his conclusions balance public and private interests and consider the impact his conclusions will have on our environment and on the rights of Native Hawaiians and Native Hawaiian culture.

Please vote for Chris's reappointment.

RE: Support the confirmation of Mr. Chris Yuen (GM583) to Board of Land & Natural Resources

I retired from the Division of Aquatic Resources (DLNR) in 2013. I served 30 years as Hawaii Island Aquatic Biologist and later as the Environmental Protection Manager in Honolulu. While working for DLNR, I had the opportunity to collaborate with Chris's siblings, Mary Lou (State Planning) and Andy (UH graduate student). They were both very professional, and especially committed to public service. Chris reflects the same qualities. He is thoughtful, fair, and honest. His perspective on Hawaii, especially the environment, is generational. One foot in the past, the other to the future.

Environmentally, Chris understands how island functions. His perspective is '*mauka-makai*' and he well aware of the connectivity of the clouds, native rainforests, streams, and nearshore marine resources. He is guided by the poetic saying, "*Ola I ka wai a ka 'opua*" (Pukui), or there is life in the water from the clouds. This saying summarizes in totality, the functions of the Department of Land & Natural Resources. Chris will make a great Board member.

Aloha Chair Kahele, Vice Chair Keith-Agaran, and Members of the Committee of Water and Land,

I began my education and career in conservation, and deeply respect the expertise and giving nature of Mr. Christopher Yuen, being considered for the Board of Land and Natural Resources.

This is complicated work, to say the least, which entails public administration, science and popular will. I have worked with endangered species from across Hawai'i; restoring native forest here in my home in Mānoa, and working with the kūhuli (snails) of O'ahu, Lana'i, Moloka'i and Maui. I have advocated for my community with regards to developmental and citizen efforts concerning Paradise Park in Mānoa. The BLNR's work touches much of what we do as people involved in the business of government. Mr. Yuen's decades of experience are well-suited for the Board's mission and duties, and I hope that the Committee will please vote in support; mahalo.

Sincerely yours,

RE: Letter of Support for confirmation of Mr. Chris Yuen to the Board of Land and Natural Resources

To Senator Kahele,

It is our honor to recommend that Mr. Chris Yuen be renewed via the Confirmation process to serve on the Board of Land and Natural Resources. Mr. Yuens' vast knowledge, as exemplified by his years of experience, serves as proof of his knowledge, skills and abilities. Over the years, we have been impressed with his understanding related to the organization of local government; knowledge necessary to address and solve community matters. His extensive knowledge of and experience with Hawai'i Island's resources and communities has provided an avenue of support that our community has come to value and respect. His leadership in our community more than exemplifies his truthfulness which in-turn has lead to our enduring trust; a value core to our family and community. His continued presence is very-much welcomed and we sincerely recommend his confirmation to the Board of Land and Natural Resources.

Aloha,

Subject: BLNR Nomination

Aloha, Senator Kahele:

Please accept my late nomination of Chris Yuen for BLNR membership renewal. I'm late in submitting this because I've been sequestered here on our farm in Hamakua for

the past month with no phone or internet for the past 8 days until late this afternoon, when Hawaiian Telcom finally arrived to repair both services, and I just became aware of your hearing tomorrow.

Chris is widely respected and admired here, as you know, and is incredibly well qualified to represent us on the BLNR as his education and experience amply illustrate. He's been a strong advocate for the environment as well as for the local community in his work in state and county governments and is an effective arbiter for reasoned and rational land use policies and natural resource protection.

His extensive environmental achievements are well known unlike his many actions on behalf of the community. As one example of the latter, our non-profit veterans organization approached him back when he was our county planning Director to enlist his advice and guidance in helping us plan and proceed with our project goals to develop an affordable senior independent living community for Hawaii seniors with low to modest incomes (with preference to veterans) in addition to a one stop veterans' service center and medical outpatient clinic on two plots of un-planned over grown vacant state land along Kawili St. in Hilo below UHH that we obtained thru a Governor's Executive Order (approved by the state legislature). Having done that, we turned to him again subsequently for his advice and assistance in helping us prepare a comprehensive Environmental Assessment;

and then most recently, we turned to Chris and our other BLNR representative at the time - Stan Roehrig – for their support in getting our housing development partner a long term state lease for one of those parcels for them to develop and operate 92 senior living units along with a community center where residents can gather and import needed services. That project is now in development and will soon be followed by the other, resulting in meeting community needs and helping diversify the E Hawai'i economy consistent with state and county plans.

For his demonstrated commitments to the community and many examples of like commitments to protecting and wisely using all our natural resources, we join others in strongly advocating for Chris's serving another term on the BLNR, and request your support for this proven stewardship of our land.

Dear Senators,

I am Steven Lee Montgomery, a biological scientist and beekeeper with 52 years experience working in Hawai'i Nei, ranging from the Papala Kepau groves of Pololu Valley to the Loulu groves of Nihoa Islet. Having served 5 years sitting on the Land Use Commission a decade ago, I have some appreciation of the great demands upon the calendars and stamina of every member of such crucial executive Boards. The duties of the Board of Land and Natural Resources are especially vast and vital, and with the majority of public lands being on the Big Island, expertise from the Volcano Isle is essential.

Chris Yuen has had broad legal, planning and farming experience all over the Big Island, beginning at Volcanoes National Park and continuing in Kona pushing for new State Parks. I met him in the 70s on Oahu near U H Law School while we were graduate students.

After 5 decades observing, volunteering & writing to BLNR & legislators on needed reforms and audits, and testifying before Chairs since Sunao Kido, Susumu Ono, & Bill Paty, the steady trend has been better and better care for Natural Resources due to efforts of so many Chairs, staff and astute Board members like this serial nominee.

At this stage in his life, he could be sitting back enjoying the fruits of his country farm, or basking on a deck chair doing world cruises, but in this stunning era of daily dilemmas, this unflappable citizen chooses to sign on for even more years in a hot seat at long meetings sorting options with great care to build a better future for wahi pana, places and communities, we know and love.

The public needs his experience, grace and wisdom on BLNR, so I urge Senators to please confirm Chris Yuen for more service. Mahalo,

Dear Senators, I ask for your support of the appointment of ChrisYuen to the Board of Land and Natural Resources. I have known Chris Yuen first as a lawyer in private practice but worked with him the most when he served as the Planning Director for the County of Hawaii.

Chris Yuen and I do not always agree on the issue at hand but I have come to like and respect him very much for the genuine listener that he is. He shows courtesy and pays attention to details throughout the process he is participating in whether it was at the counter at the planning department or in a public hearing. I note from my own attendance at BLNR meetings that he is always prepared and testifiers can confidently participate knowing they are respected no matter what their opinion or thought may be. That is the kind of person we need on an important body such as the BLNR. Please confirm this appointment. Thank you.

**TESTIMONY IN OPPOSITION TO GM 583**

Aloha Chair Kahele, Vice Chair Keith-Agaran, and other Committee members:

My name is Ina Taea. As someone who follows and is involved with many issues under the purview of the Department of Land and Natural Resources, I must oppose GM 583 submitting for consideration and confirmation of Gubernatorial Nominee, Christopher Yuen, to the Board of Land and Natural Resources (BLNR or Board) for a term to expire June 30, 2022.

As a community member who has actively opposed the Na Pua Makani (NPM) wind project on Oahu's North Shore for years, I believe many of Mr. Yuen's decisions during his recent appointment to the BLNR run counter to the needs of the community and the environment. Now, more than ever before, we are in need of a board member who will truly "enhance, protect, conserve and manage Hawaii's unique and limited natural, cultural and historic resources". In addition, we need a board member who will honor the community's concerns and voices rather than appease developers. Unfortunately, Mr. Yuen's decisions and actions have failed to gain the public trust during his most recent tenure.

For example, during BLNR's hearings related to NPM wind turbines in Kahuku, Mr. Yuen voted in support of leasing State lands to NPM even after he had been apprised that the turbines would be far too large and imposing for its location. He also supported the NPM's Habitat Conservation Plan (HCP) despite concerns of the community regarding the inadequacy of the developers HCP in protecting the endangered Ope`ape`a. Mr. Yuen's support of NPM despite the community's concerns ultimately allowed the BLNR's approval of the construction of the monster turbines. This decision resulted in the mass protests from the Kahuku community (and overwhelming islandwide support), leading to over 200 arrests.

Mr. Yuen's decisions during his most recent appointment does not reflect the public interest and the protection of Hawaii's natural resources. Now that he is being considered for another appointment, his past decisions and their detrimental impacts

cannot be ignored. Given the crucial role that the board will play in this critical time for Hawaii, I cannot in good faith support Mr. Yuen's nomination. I strongly encourage this committee to oppose this nominee and ask Governor Ige to submit a candidate who better understands the uniqueness of Hawaii's cultures, communities, environment and the values of Aloha Aina.

Thank you for this opportunity to testify.

I am writing to oppose GM 583 - the submission for Christopher Yuen, to the Board of Land and Natural Resources for a term to expire June 30, 2022. Mr. Yuen has displayed a complete lack of disregard for the situation that was created by installing the new wind turbine in Kahuku, which has caused major stress, devaluation and concern to the people who should be protected. With this example of callous judgment, Mr. Yuen is not an appropriate candidate for the protection and prioritization of Hawaii land. We depend on our government to be our voice and to be accessible to the concerns of your citizens. They also need to prioritize the protection and prioritization of the land, our plants, and our animals. Clearly, these responsibilities were not adhered to nor represented by Mr. Yuen. I am asking you to place someone in this position with the knowledge, experience and dedication necessary to protect Hawaii. Mahalo.

My name is Sina P. Pili. As someone who follows and is involved with many issues under the purview of the Department of Land and Natural Resources, I must oppose GM 583 submitting for consideration and confirmation of Gubernatorial Nominee, Christopher Yuen, to the Board of Land and Natural Resources (BLNR or Board) for a term to expire June 30, 2022.

As a community member who has actively opposed the Na Pua Makani (NPM) wind project on Oahu's North Shore for years, I believe many of Mr. Yuen's decisions during his recent appointment to the BLNR run counter to the needs of the community and the environment. Now, more than ever before, we are in need of a board member who will truly "enhance, protect, conserve and manage Hawaii's unique and limited natural, cultural and historic resources". In addition, we need a board member who will honor the community's concerns and voices rather than appease developers. Unfortunately, Mr. Yuen's decisions and actions have failed to gain the public trust during his most recent tenure.

For example, during BLNR's hearings related to NPM wind turbines in Kahuku, Mr. Yuen voted in support of leasing State lands to NPM even after he had been apprised that the turbines would be far too large and imposing for its location. He also supported the NPM's Habitat Conservation Plan (HCP) despite concerns of the community regarding the inadequacy of the developers HCP in protecting the endangered Ope`ape`a. Mr. Yuen's support of NPM despite the community's concerns ultimately allowed the BLNR's approval of the construction of the monster turbines. This decision resulted in the mass protests from the Kahuku community (and overwhelming islandwide support), leading to over 200 arrests.

Mr. Yuen's decisions during his most recent appointment does not reflect the public interest and the protection of Hawaii's natural resources. Now that he is being considered for another appointment, his past decisions and their detrimental impacts cannot be ignored. Given the crucial role that the board will play in this critical time for Hawaii, I cannot in good faith support Mr. Yuen's nomination. I strongly encourage this

committee to oppose this nominee and ask Governor Ige to submit a candidate who better understands the uniqueness of Hawaii's cultures, communities, environment and the values of Aloha Aina.

Thank you for this opportunity to testify.

TESTIMONY REGARDING GM 583

Senator Kahele and members of the Committee on Water and Land,

I oppose the confirmation of Chris Yuen to yet another term on the Board of Land and Natural Resources.

Many years ago, Chris Yuen was a champion of natural resources and the public's access to them. But those days have long passed. His tenure on the BLNR has been marked with scorn for members of the public, indifference to the law, and deference to developers.

There are many reasons that the Senate should not confirm his nomination.

First, Mr. Yuen has served on the Board of Land and Natural Resources for 14 years. He served two consecutive terms from 1990-1998. And from July 2014 until today. If you confirm his appointment, he will be able to serve another two years – and arguably two more after that given the recent amendments to HRS § 26-34(b). His appointment violates the spirit, if not the letter, of HRS § 26-34, which limits terms of service to 8 consecutive years. Give someone else a chance.

Second, except for the chair of BLNR (whose term expires in two years), every single member of the board is a man. The Governor could have graciously thanked Mr. Yuen for his 14 years of service and easily found a woman qualified for this position.

Third, Mr. Yuen treats large landowners and developers with deference, but aggressively questions Hawaiians and others who champion natural resources. He takes applicants at their word, but refuses to believe anything that environmentalists say. He goes out of his way searching for any possible inconsistency in the claims and positions of environmentalists, but never does the same for developers. There are many examples.

Kahuku wind. After hearing officer Yvonne Izu recommended that a permit for the controversial Kahuku wind project be denied, Mr. Yuen aggressively questioned counsel for Keep the North Shore Country while deferring to the claims of the applicant. He discounted recent scientific studies. He ignored evidence that showed that every wind facility has grossly underestimated how many ōpe‘ape‘a they would kill. He accepted the applicant's unsupported claim that it could not curtail the spinning of the blades when necessary to protect ōpe‘ape‘a.

Mauna Kea emergency rules. Mr. Yuen aggressively questioned opponents of emergency rules, but did not similarly question proponents. He was convinced that it was an emergency requiring immediate action. Yet, after a circuit court judge struck down the

emergency rules, nothing happened. There was nothing to justify any sort of emergency. There never was.

Kahala Hotel. The Kahala Hotel operated a restaurant on public land, built and rented tall cabanas on public land, conducted weddings on public land, and generated hundreds of thousands of dollars from public land – under a permit that only allowed for maintenance and recreational activities (not commercial ones). These activities were as visible as protestors on Mauna Kea. When community members brought the violations to BLNR’s attention, Mr. Yuen shrugged his shoulders and expressed support for the hotel continuing to exclude memberf of the public from the best parts of the beach. Why are Hawaiians subject to prosecution while a large corporation is allowed to illegally profit off of public land with impunity?

Hilton Hotel Mr. Yuen argued that BLNR should be charging less for the Hilton to use state land to launch its fireworks displays for guests. DLNR lacks adequate funds as it is. Mr. Yuen displayed more concern for the hotel’s finances than DLNR’s.

‘Ewa limu. Mr. Yuen showed disdain for the concerns of limu gatherers whose practice would obviously be adversely impacted by the discharge of polluted stormwater on top of limu beds in ‘Ewa.

Shoreline Armoring. Mr. Yuen convinced the BLNR to approve a seawall for a timeshare investment on Maui called Hololani. He actively disregarded the pleas of beach users to protect the public beach from the erosion caused by shoreline armoring. He understood that the decision the investors sought lacked a legal basis, but he explained away those concerns to Board members. Not surprisingly, the bill before the Legislature to retroactively create the needed legal authority failed to pass and the Board’s decision was moot.

Commercial Fisheries Mr. Yuen convinced the Board to ignore the connection between the state’s commercial fishing licensing practice for foreign fishing operations and the exploitation of local fisheries and workers via an indentured servant system on longline fishing ships operating out of Hawai`i. This decision is also before the Supreme Court.

I’ve known Chris for many years. I’ve attended a couple of fantastic Christmas parties at his lovely house. I supported his nomination as planning director of Hawai‘i County and lobbied the Ige administration to appoint him to the BLNR in 2015. I also successfully sued over two of the decisions he made as Hawai‘i County Planning Director. This isn’t personal. It’s just time to give someone else a chance.

Aloha,

/s/

David Kimo Frankel

I must oppose GM 583 submitting for consideration and confirmation of Gubernatorial Nominee, Christopher Yuen, to the Board of Land and Natural Resources (BKNR) for a term to expire June 30,2020.

I am a community member who is opposed to the Na Pua Makani wind project on Oahu's Norht Shore for yers. I believe many of Mr. Yen's decisions during his recent appointment to the BLNR was not done for the wellness of the community and the environment. We need a board member that will Protect, Conserve and manage Hwaii's unique and limited natural, cultural resources. We need a board member that will honor the community's concerns and voices rather than appease developers. It is with great sadness that Mr. Yuen's decisions and actions have made such a negative impact on the community and has failed to gain the public trust. That will continue and the community will continue to oppose since he has proven to not be a trustworthy board member.

Mr. Yuen voted in support of leasing State land to Na Pua Makani even after he had been apprised that the turbines would be far too large and imd close to not only residential homes, also schools, clinic and hospital. He also supported the Habiata Conservation Plan (HCP) despite conerns vocalized by the community. This was regarding the protection of the endangered Ope'ape'a. This decision resulted in the mass protests from the Kahuku community to being supported island wide with over 200 arrests.

Mr. Yuen does not reflect the publics interests and protection of Hawaii's natural resorces. I cannot and will not in good faithsupport Mr.Yuen's nomination. I strongly encourage the committe to oppose this nominee and ask Governor Ige to submit a candidate who better understans Hawaii's cultures, our communities, and the value of the AINA.

SENATE COMMITTEE ON COMMERCE, CONSUMER PROTECTION, AND HEALTH

May 13, 2020, 1:00 P.M. Room 229

TESTIMONY IN OPPOSITION TO GM 583

Aloha Chair Kahele, Vice Chair Keith-Agaran, and other Committee members:

My name is 'Atalina Pasi. As someone who follows and is involved with many issues under the purview of the Department of Land and Natural Resources, I must oppose GM 583 submitting for consideration and confirmation of Gubernatorial Nominee, Christopher Yuen, to the Board of Land and Natural Resources (BLNR or Board) for a term to expire June 30, 2022.

As a community member who has actively opposed the Na Pua Makani (NPM) wind project on Oahu's North Shore for years, I believe many of Mr. Yuen's decisions during his recent appointment to the BLNR run counter to the needs of the community and the environment. Now, more than ever before, we are in need of a board member who will truly "enhance, protect, conserve and manage Hawaii's unique and limited natural, cultural and historic resources". In addition, we need a board member who will honor the community's concerns and voices rather than appease developers. Unfortunately, Mr. Yuen's decisions and actions have failed to gain the public trust during his most recent tenure.

For example, during BLNR's hearings related to NPM wind turbines in Kahuku, Mr. Yuen voted in support of leasing State lands to NPM even after he had been apprised that the turbines would be far too large and imposing for its location. He also supported the NPM's Habitat Conservation Plan (HCP) despite concerns of the community regarding the inadequacy of the developers HCP in protecting the endangered Ope`ape`a. Mr. Yuen's support of NPM despite the community's concerns ultimately allowed the BLNR's approval of the construction of the monster turbines. This decision resulted in the mass protests from the Kahuku community (and overwhelming islandwide support), leading to over 200 arrests.

Mr. Yuen's decisions during his most recent appointment does not reflect the public interest and the protection of Hawaii's natural resources. Now that he is being considered for another appointment, his past decisions and their detrimental impacts cannot be ignored. Given the crucial role that the board will play in this critical time for Hawaii, I cannot in good faith support Mr. Yuen's nomination. I strongly encourage this committee to oppose this nominee and ask Governor Ige to submit a candidate who better understands the uniqueness of Hawaii's cultures, communities, environment and the values of Aloha Aina.

Thank you for this opportunity to testify.

To Whom It May Concern:

My name is Elizabeth Rago. I'm a resident and home owner residing in Kahuku and I am writing to oppose the re-appointment of Christopher Yuen to the Board of Land and Natural Resources.

Mr. Yuen has an impressive resume, to be sure. On it's face, his education and experience may make him an obvious, maybe ideal member of the BLNR.

However, his lack of holistic approach to environmental issues in our state, his carelessness with the power entrusted to him, and his history of undermining the process while seeing to his own interests are not conducive to what a board member for the DLNR must embody.

I was party to the contested case against Na Pua Makani re: industrial turbines killing the Ope'ape'a. Along with Keep the North Shore Country, we produced evidence that the Habitat Conservation Plan (HCP) did not meet the minimum requirements of Hawaii's laws regarding endangered species protections. The hearing officer agreed that the HCP was inadequate in demonstrating sufficient mitigation and protections of our endangered species. Clearly, it was time for Na Pua Makani to make necessary changes so that they would be in compliance with Hawaii's environmental requirements and laws.

During the hearing at BLNR, Mr. Yuen was vocal about his support of the turbines without regard to the findings of the inadequate HCP. While he did not outright say this, his line of questioning was often accusatory. He questioned my commitment to the environment which I found curious given that I was party in protecting one of two species endemic to our islands. And while he acknowledged receiving an inappropriate ex parte phone call from State Senator Inoye, unlike his colleague, he refused to recuse himself, as if his "confession" alone would provide its own mitigation of the damage a conflict of interest has in cases where competing interests are at stake. It is also worth noting that Mr. Yuen often spoke with disdain to the female attorney representing Keep the North Shore Country.

And of course, he then voted against what the evidence laid out and what the hearing officer recommended. He issued the permit to build turbines that kill Hawaii's endangered species.

Because of his choices, because of his actions, hundreds of people were arrested, tens and thousands of dollars have been spent to pay for legal fees, and we are now fighting this in Hawaii's Supreme Court. The time and money spent from the pockets of our poor rural community all could have been prevented had Christopher Yuen sided with the law from the beginning and have NPM go back and redo an HCP that meets the legal guidelines of Hawaii environmental law. He is a waste of tax payer monies.

For this reason, my hope is that the senate please reconsider this reappointment and vote no to Christopher Yuen.

Aloha!

This is my Testimony opposing Christopher Yuen for term ending 2022.

I have been active in opposing the wind turbines in Kahuku for years.

Please select someone who sees how huge and noisy these turbines are next to homes and schools.

He doesnt care about the residents. He just cares about his influence with corporations.

Please give my testimony to all the voting members at todays meeting.

Thank you,  
Beth Leeds

Aloha Chair Kahele, Vice Chair Keith-Agaran, and other Committee members:

My name is Chantelle E Matagi. As a community member who votes and actively participates with many different issues affecting our unique Pacific island community – including many issues under the purview of the Department of Land and Natural Resources, I must oppose GM 583 submitting for consideration and confirmation of Gubernatorial Nominee, Christopher Yuen, to the Board of Land and Natural Resources (BLNR or Board) for a term to expire June 30, 2022.

As a community member who actively opposed the Na Pua Makani (NPM) wind project on Oahu's North Shore for years, I view many of Mr. Yuen's decisions during his recent appointment to the BLNR as being counter to the needs of the community and the environment and find his total lack of consideration concerning the communities opinions and safety to be offensive. Now, more than ever before, we need a board member who will support projects that "enhance, protect, conserve and manage Hawaii's unique and limited natural, cultural and historic resources". In addition, we need a board member who will honor the community's concerns and voices. Unfortunately, Mr. Yuen's decisions and actions have failed to gain the public trust during his most recent tenure and have left many of us to question who he represents and why he represents them.

For example, during BLNR's hearings related to NPM wind turbines in Kahuku, Mr. Yuen voted in support of leasing State lands to NPM even after he had been apprised that the turbines would be far too large and imposing for its location. He also supported the NPM's Habitat Conservation Plan (HCP) despite concerns of the community regarding the inadequacy of the developers HCP in protecting the endangered Ope`ape`a. Mr. Yuen's support of NPM allowed the BLNR's approval of the construction of these dangerous monster turbines. This decision resulted in the mass protests from the Kahuku community (and overwhelming island-wide support), leading to over 200 arrests.

Mr. Yuen's decisions during his appointment have not reflected the public interest and the protection of Hawaii's natural resources. Now that he is being considered for another appointment, his past decisions and their detrimental impacts cannot be ignored. Given the crucial role that the board will play in this critical time for Hawaii, I cannot in good faith support Mr. Yuen's nomination. **I am-Kanaka Maoli aka Native Hawaiian**

**I am-Registered to vote in Hawaii.**

**Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-TERM LIMIT: Mr. Yuen served for 14 years in total which violates HRS § 26-34 limiting terms of service to 8 consecutive years. Vacating Member Yuen's spot would allow the Governor to appoint a person from underrepresented groups on the BLNR, including Hawaiians and women.**

**Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-MAUNA KEA EMERGENCY RULES: Mr. Yuen aggressively questioned opponents of the emergency rules, but did not similarly question proponents. He was convinced that there was an emergency requiring the declaration of rules. A circuit court judge struck down the emergency rules that had no justification and were therefore unconstitutional.**

**Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-THIRTY METER TELESCOPE PERMIT: Mr. Yuen voted in favor of granting the TMT permit, ignoring numerous concerns of the community regarding the desecration of Mauna Kea.**

**Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to**

the Board of Land and Natural Resources (BLNR) for the following reasons:-KAHUKU WIND TURBINES: After the hearing officer recommended that a permit for the controversial Kahuku wind project be denied, Mr. Yuen aggressively questioned counsel for Keep the North Shore Country while deferring to the claims of the applicant. He discounted recent scientific studies and ignored evidence that showed that every wind facility has grossly underestimated how many ōpe‘ape‘a (native Hawaiian bats) they would kill. Yet he accepted the applicant’s unsupported claim that it could not curtail the spinning of the blades when necessary to protect ōpe‘ape‘a.

Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-KAHALA HOTEL: The Kahala Hotel operated a restaurant, tourist cabanas, and sold wedding packages on public land, generating hundreds of thousands of dollars. Even though community members brought the violations to the BLNR’s attention, Mr. Yuen continued his support for the hotel, which continues to exclude members of the public from the beach.

Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-LABOR VIOLATIONS IN LONGLINE FISHERIES: Mr. Yuen convinced the Board to ignore the connection between the state’s

commercial fishing licensing practice for foreign fishing operations and the exploitation of local fisheries and workers via an indentured servant system on longline fishing ships operating out of Hawai'i. One petitioner, a Hawaiian fisherman, has appealed the BLNR's decision all the way to the Hawai'i Supreme Court.

Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-SEAWALLS FOR VACATION CONDOS: Mr. Yuen convinced BLNR to approve the seawall for a timeshare investment on Maui called Hololani. He actively disregarded the pleas of community members and longtime fishers to protect shoreline from the erosion caused by seawalls. Instead of addressing their concerns, Mr. Yuen questioned community members, who had flown in from Maui, why they hadn't raised their concerns at prior BLNR meetings.

Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-'EWA LIMU: Mr. Yuen expressed disdain for limu gatherers whose practice would obviously be adversely impacted by the discharge of polluted stormwater on top of limu beds in 'Ewa.

Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-HILTON HOTEL PROFITS: Mr. Yuen argued BLNR should charge less

**for the Hilton to use state land  
to launch its fireworks displays  
for guests, even though DLNR  
lacks adequate funds as it is.**

Other value	I am-Registered to vote in Hawaii.	I am-Registered to vote outside of Hawaii.	I am-Not registered to vote.	Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-TERM LIMIT: Mr. Yuen served for 14 years in total which violates HRS § 26-34 limiting terms of service to 8 consecutive years. Vacating Member Yuen's spot would allow the Governor to appoint a person from underrepresented groups on the BLNR, including Hawaiians and women.	Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-MAUNA KEA EMERGENCY RULES: Mr. Yuen aggressively questioned opponents of the emergency rules, but did not similarly question proponents. He was convinced that there was an emergency requiring the declaration of rules. A circuit court judge struck down the emergency rules that had no justification and were therefore unconstitutional.	Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-THIRTY METER TELESCOPE PERMIT: Mr. Yuen voted in favor of granting the TMT permit, ignoring numerous concerns of the community regarding the desecration of Mauna Kea.	Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-KAHUKU WIND TURBINES: After the hearing officer recommended that a permit for the controversial Kahuku wind project be denied, Mr. Yuen aggressively questioned counsel for Keep the North Shore Country while deferring to the claims of the applicant. He discounted recent scientific studies and ignored evidence that showed that every wind facility has grossly underestimated how many ōpe'ape'a (native Hawaiian bats) they would kill. Yet he accepted the applicant's unsupported claim that it could not curtail the spinning of the blades when necessary to protect ōpe'ape'a.	Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-KAHALA HOTEL: The Kahala Hotel operated a restaurant, tourist cabanas, and sold wedding packages on public land, generating hundreds of thousands of dollars. Even though community members brought the violations to the BLNR's attention, Mr. Yuen continued his support for the hotel, which continues to exclude members of the public from the beach.

<p>Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-LABOR VIOLATIONS IN LONGLINE FISHERIES: Mr. Yuen convinced the Board to ignore the connection between the state’s commercial fishing licensing practice for foreign fishing operations and the exploitation of local fisheries and workers via an indentured servant system on longline fishing ships operating out of Hawai’i. One petitioner, a Hawaiian fisherman, has appealed the BLNR’s decision all the way to the Hawai’i Supreme Court.</p>	<p>Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-SEAWALLS FOR VACATION CONDOS: Mr. Yuen convinced BLNR to approve the seawall for a timeshare investment on Maui called Hololani. He actively disregarded the pleas of community members and longtime fishers to protect shoreline from the erosion caused by seawalls. Instead of addressing their concerns, Mr. Yuen questioned community members, who had flown in from Maui, why they hadn’t raised their concerns at prior BLNR meetings.</p>	<p>Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-'EWA LIMU: Mr. Yuen expressed disdain for limu gatherers whose practice would obviously be adversely impacted by the discharge of polluted stormwater on top of limu beds in ‘Ewa.</p>	<p>Please OPPOSE GM 583 and the reconfirmation of Chris Yuen to the Board of Land and Natural Resources (BLNR) for the following reasons:-HILTON HOTEL PROFITS: Mr. Yuen argued BLNR should charge less for the Hilton to use state land to launch its fireworks displays for guests, even though DLNR lacks adequate funds as it is.</p>	<p>Additional Comments:</p>

yes	yes	yes	yes	I witness a lack of respect to our culture and 'āina by the University of Hawai'i. It's truly hard to gain back the trust after what I witnessed when Mauna a Wakea woke up due to the TMT. I feel there is no transparency and honesty to operate mauna a Wakea.

yes	yes	yes	yes	Mr Yuen's track record proves that his priority is not the land and natural resources of our island home. He should not be confirmed. There are many other qualified kanaka with the 'ike of our kupuna at heart. There has been no other time such as this, that demonstrates the need to go back to the ways of our kupuna, and Mr Yuen has proven that he's NOT supportive of this, but rather supports private interests. Auwē.

yes	yes	yes	yes	He did not help to follow HAR 183 rule, which protects conservation land on Mauna a Wakea. Now to protect our mauna we need people in this position that will enforce the rule to protect natural resources, cultural resources and religious resources. Even though these things seem to be good enough to allow more development such as TMT, our mauna is in trouble with his vote that jeopardizes the health of Mauna a Wakea.

				I strongly oppose any governmental gain on Native Hawaiian sacred lands. I feel this is a threat to the Hawaiian culture. I see no need but greed being filled by any of the above. Hawaiian to me means getting ahead with out stepping on anyone's toes. Why must we also deface the landscape with another eye sore. Some will say this will benefit science. But who's science? The rich? Or the people native to these lands. 14 years is a really long time to be in a position of power. Change need to happen. It starts with aloha!

				The recent events of Covid-19 pandemic has shown our lack of importance towards land relationship and self sustainability. The individuals in office should be more open to knowledge and practices that Native Hawaiians have on this relationship with land. Building homes is great. But when we have 90% of our food imported and prime agriculture land being rezoned to feed the real-estate market something is not right. Our thoughts and ideas on how we support residents of Hawai'i need to change. I am a regular family man and this is just my opinion. I humbly ask elected officials to put Hawaiian knowledge on environment at the forefront. Mahalo nui.

yes	yes	yes	yes	We are saddened by the lack of integrity in regards to Mr. Yuen and governor Ige when it comes to the desecration of sacred land and in favor of the communities of Hawaii. Decisions have been made without considering the burdens that the people of Hawaii carry on their backs. To some, maybe the hoped ancestral homage and respecting holy ground still meant something to people in power in Hawaii. Hawaiians are a people that gather what's lost and hold on to the strength of their people, the spirits who still move through places like Mauna Kea. They realize the beauty in nature and how by desecrating a mountain does not bring any of us close to closing the unhinge doors of economic disparity. It does not further scientific exploration in a new profound way. It does not bring together a harmonious community, but carries the tune of a weeping other over a crowd of frustrated people in protest. I urge you to reconsider and find a way to honor the people of Hawaii and recreate the honorable zeitgeist that ripples through it's fresh, breathtaking air.

				To Whom It May Concern: My name is Elizabeth Rago. I'm a resident and home owner residing in Kahuku and I am writing to oppose the re-appointment of Christopher Yuen to the Board of Land and Natural Resources. Mr. Yuen has an impressive resume, to be sure. On it's face, his education and experience may make him an obvious, maybe ideal member of the BLNR. However, his lack of a holistic approach to environmental issues in our state, his carelessness with the power entrusted to him, and his history of undermining the process while seeing to his own interests are not conducive to what a board member for the DLNR must embody. I was party to the contested case against Na Pua Makani re: industrial turbines killing the Ope'ape'a. Along with Keep the North Shore Country, we produced evidence that the Habitat Conservation Plan (HCP) did not meet the minimum requirements of Hawaii's laws regarding endangered species protections. The hearing officer agreed that the HCP was inadequate in demonstrating sufficient mitigation and protections of our endangered species. Clearly, it was time for Na Pua Makani to make necessary changes so that they would be in compliance with Hawaii's environmental requirements and laws. During the hearing at BLNR, Mr. Yuen was vocal about his support of the turbines without regard to the findings of the inadequate HCP. While he did not outright say this, his line of questioning was often accusatory. He questioned my commitment to the environment which I found curious given that I was party in protecting one of two species endemic to our islands. And while he acknowledged receiving an inappropriate ex parte phone call from State Senator Inoye, unlike his colleague, he refused to recuse himself, as if his "confession" alone would provide its own mitigation of the damage a conflict of interest has in cases where competing interests are at stake. It is also worth noting that Mr. Yuen often spoke with disdain to the female attorney representing Keep the North Shore Country. And of course, he then voted against what the evidence laid out and what the hearing officer recommended. He issued the permit to build turbines that kill Hawaii's endangered species. Because of his choices, because of his actions, hundreds of people were arrested, tens and thousands of dollars have been spent to pay for legal fees, and we are now fighting this in Hawaii's Supreme Court. The time and money spent from the pockets of our poor rural community all could have been prevented had Christopher Yuen sided with the law from the beginning and have NPM go back and redo an HCP that meets the legal guidelines of Hawaii environmental law. He is a waste of tax payer monies. For this reason, my hope is that the senate please reconsider this reappointment and vote no to Christopher Yuen.

				Mahalo nui Senators for reading my testimony. As a resident of Kahuku, I strongly oppose Chris Yuen's reconfirmation to BLNR because of his past stances on the Kahuku Wind Project and the TMT at Mauna Kea. I was one of the 200 arrests at Kahuku for protecting our 'ōpe'ape'a (Hawaiian hoary bats), birds, and 'āina from the destruction of industrial wind turbines. Mr Yuen failed our Kahuku community by not taking into account our voices. He has served as a BLNR member for 14 years. It is time for our Governor to nominate a person from underrepresented groups, specifically Hawaiians and women, to BLNR.

yes	yes	yes	yes	Make no mistake that I am an informed voter and I am closely watching issues that pertain to Native Hawaiians, environment, and tourism. My vote will go to representatives who take these matters to heart. Hawaii and it's people should come first, and voting in favor of Yuen's reappointment flies in the face of those goals. Do not allow him to be reappointed, or risk the disillusionment of your constituents.

yes	yes	yes	yes	DLNR has already violated enough Federal Legislation to be reported to Authorities. Removing Federal Forest Reserve Lands as Conservation then leasing or selling them off is a serious offense and Chris Yuen is a part of that effort. The Bats being destroyed by the Kahuku turbines are on the Endangered Species List, also Federal. Hawaiian Homelands are also Federal owned. Please do not allow them to continue these aberrations? yes	yes	yes	yes	Respectfully, Mr Yuen has proved by his record that he is NOT for the people. His decisions made are NOT in the interest of the population affected. He does not value or consider the voice of affected communities, a dangerous and poisonous trait for a public servant. He is biased in his way of thinking and i strongly oppose his appointment to any DLNR seat

yes	yes	yes	yes	Dear Senate Members, I respectfully request that you will not reappoint Chris Yuen to the BLNR. As shown above Mr. Yuen has not fulfilled the state's duty to protect its land and natural resources. The constitution of the State of Hawaii is unique and guarantees that the land and water are held in trust for the people. Mr. Yuen has abused this trust and favored profit over the constitutional rights of the people. He must not get reappointed. Mahalo
yes	yes	yes	yes	
yes	yes	yes	yes	Time for Chris Yuen to leave BLNR. Too many things against the people, not FOR our people

yes	yes	yes	yes	We don't want it TAKE IT BACK
				Senators, I have known Chris Yuen since I was 16 years old. We grew up in Hilo and were good friends. I have absolutely no personal animus toward this commissioner and in fact, admire him for many of his personal qualities. He is very intelligent, honest and direct. But he is still the wrong person for this position, and this is especially true now. Hawai'i requires a different kind of leadership in areas of resource management as we will need to shift this economy away from dependence on tourism, urban development and investment that does not engage with and benefit our own communities. Chris Yuen has demonstrated an ability to communicate with builders, policymakers and financiers. He has not shown an ability to communicate or even sympathize with people who continue to depend on shoreline resources for food, who don't want a giant windmill in their backyard, or even people who have reasonable fears of shoreline erosion from sea-walls. Please just thank Mr. Yuen for his years of service and consider any other applicant that has some sensitivity to the 'āina and to the people who have lived on this 'āina for generations. Mahalo Jonathan K Osorio

yes	yes	yes	yes	What precedent does this exception to term limit set and why has it been allowed? There are many intelligent, dedicated, and responsible residents in Hawai'i. As you all know the President of the United States, the Governor of Hawai'i, the Mayors of Hawai'i's Counties, and County Council members ALL have term limits. Why Mr. Yuen is even being reconsidered again for this seat is unacceptable and unsettling. Senators like yourselves are not subject to term limits. But the constituents will ultimately decide that fate. Eight years is an ample period of time for one to make many important decisions affecting all residents of Hawai'i. These appointments don't always result in transparency and accountability to the people who are most affected and also to the resources they swore to protect. I truly believe and understand that all who serve on this board are there to Protect the Resources of Hawai'i, not only for the present but for the future generations of Hawai'i. Mr. Yuen has not proven that true in many instances, as presented above, and up to the present. I humbly ask that this committee deny this reappointment of Mr. Chris Yuen to the BLNR. Aloha Aina!

				Limu is part of my diet. YUENs stand against limu gathering is against my basic health. Seawalls erode our beaches and causes more destruction to our shorelines. This is based on scientific evidence. There has been many studies on this subject and Yuen chooses to support investors, non-reidents and their shoreline properties over the health of the whole pae 'aina. Slavery was banned during the Hawaiian Kingdom and human rights established then for any person working or in our waters. Today, Yuen lobbies to allow slavery or indentured servitude, to establish its ugly head in the fishing industry. Next, in these islands and the whole employee status of our state? I question any diplomat, politician or representative who even contemplates such inhumane, uncivilized, demeaning form of service to attach the word employment on that is ludicrous. Business on public land was banned in Waikiki years ago. Kahala privatizes the use of public lands and Yuen is for it? I question why is there no one in office correcting this action by Kahala? The Kahuku Windmills and Yuens stance on it is where I draw the line. I am a voter of 40 years. This year I will make a list of every individual who allowed this and promote awareness to everyone to vote these people out of office as my public community service!!! Its in your lap and this is on your desk. Make the right choice! I OPPOSE Yuen for any position in this state and especially for BLNR.

				I am opposed to the nomination of Mr. Yuen to the BLNR for the reasons stated clearly shows his intent and willingness to go along with the status quo when he has clearly failed as a board member. yes	yes	yes	yes	As a member of Koolauloa district, I can see the turbines in Kahuku from my house. Despite community objection of these turbines for years, DLNR and other state bodies put companies and profit before the people. Also as a member of the Limu Hui in our islands, the people and our leaders cannot allow someone who is so anti-aina to continue in this privileged and powerful position. Looking at Yuen's track record should automatically bar him from anymore work affecting our aina and well-being of people and place.
yes	yes	yes	yes	

				To whom it may concern, I have lived in Kahuku for most of my life where 20 industrial wind turbine have been built in opposition to so many in my community. I have also devoted 11 years in the visitor industry as an educator where I have been able to share the cultural and natural beauties of our island-state and never once have I met a visitor to Hawaii comment positively on any wind farm here on the north shore. They have instead used the words "obtrusive", "imposing", "appalling", "detracting"(from the natural, undeveloped surrounding), and "saddening". I am absolutely aware of the need for renewable clean energy, but do not believe wind farms maintain the integrity of what our visitors spend thousands of dollars for, to experience a safe tropical friendly island free from industrial eye sores. The visitor traffic we face daily on the north shore can attest to a statement made regularly by visitors I've met which is something to the effect of I couldn't wait to get out of Honolulu/Waikiki. Thank you

The law is clear, and DLNR is violating it--the foreign fishermen cannot land and so cannot be licensed. Further: many (most?) cannot understand the language of the conservation agreements they sign, so Hawaii's limited fisheries are not protected.

yes	yes	yes	yes	BLNR continues to purchase land in Ka'ū (recently spending \$11 million dollars) to be overseen by Keoni Fox and the Ala Kahakai trail (a PRIVATE organization)! Chris Yuen casted his vote in FAVOR of this purchase! How can the county afford to purchase land during this time when the economy is struggling to stay afloat!? The Ka'ū community were completely blind-sided and unable to come together and express their mana'o due to the pandemic; however, a decision had been made anyway. BLNR is supposed to help preserve Hawaiian lands, instead they have continued to use TAX-PAYER'S MONEY to hand out land to those not from and currently residing within our community! You continue to lose the trust of the kānaka who are of this land. This continued disrespect you have shown the culture, the 'āina and its people, will no longer be tolerated.

yes	yes	yes	yes	Senators, at this juncture in Hawaii's history, I hope you will clearly see the need for our elected officials to put an end to political cronyism and to strongly support putting individuals in place who truly aloha 'aina. Leadership must show that it can be trusted not to allow those with not-so-hidden agendas to be put into positions of power. Please do NOT confirm Chris Yuen. Sincerely, Bal Patterson
yes	yes	yes	yes	Our 'Āina, wai and all natural resources will be best managed by individuals who heed the voice Of the Hawai'i's native people as we have been entrusted to mālama Hawai'i for thousands Of generations. Candidates like Mr. Yuen who arrogantly disregard kanak voices and irresponsibly makes decisions that cause continued detriment to our natural resources CANNOT be allowed to hold authoritative positions in the BLNR. Our pae 'Āina and our people deserve true aloha 'Āina proponents who aim to RESTORE & SUSTAIN Hawai'i for our grandchildren.

yes	yes	yes	yes	This is not Pono, we cannot continue in a system that is broken and not of the people. Support our sacred places so that future generatios my witness.
yes	yes	yes	yes	It is quite clear that Chris Yuen stands for everything but the Kanaka Maoli. The Hawaiian's have been treated like third class citizen's for over a 100 years. They have lost every right and have been denied what is clear and without doubt theirs in the first place! You know it in your heart of hearts how people in high places have made these atrocious decisions all in the name of money! For those of you, that are in office on behalf of the people, I ask you this. Who are the people you are helping? Is it the indigenous people of this aina or is it every foreigner waving a buck under your nose? 2020 should show something. Your not invincible, you sit in a seat to make justful and right decisions. Are you? What are you deciding that effects our keiki and all future generations? no	yes	yes	yes	I was born and raised on the North Shore of Oahu and I continue to be concerned about my island home and its issues.
yes	yes	yes	yes	Aloha e Senator Kahele, Senator Keith-Agaran, Senator Nishihara, Senator Riviere, Senator Fevella, and Distinguished Members of the Senate - I humbly ask for your support and assistance in making these damaging wrongs and decisions made by Chris Yuen; PONO by OPPOSING GM 583 and the reconfirmation of Chris Yuen to the BLNR. As a Native Hawaiian, Kanaka 'Ōiwi, and descendant to the Aboriginal or Indigenous People of the lands known as or referred to as the Hawaii Islands; I will STAND UP for and STRONGLY believe in and advocate protecting our 'Āina and the n/Native Hawaiian people, heritage, cultural rights and practices of our Lāhui, and the future of our Keiki. Though, I currently do not reside in HI, I often come home to our ancestral lands; our eldest keiki resides full-time, works, and attends college in HI; my #4 keiki (out of five) and son was recently offered admissions into and will be starting his 9th grade year at Kamehameha Schools at Kāpalama; many of my Ohana still reside in or their 'ōiwi are laid to rest on the 'Āina; and I plan on moving back home to HI full-time instead of part-time so that I can better kōkua e na kūpuna, keiki, and lāhui - so, my Ohana and I are heavily influenced and impacted by the ongoings and decisions made there in HI. Mahalo nui for your time, efforts, consideration, and support on this situation...Wishing you and yours All of the Very Best & Lots of ALOHA, Yvette

yes	yes	yes	yes	I belive we need an appointment to the BLNR with less bias to new industry and more bias to actually protecting our natural resources. In the case of Mauna Kea and TMT for example, we need to stop industrial development of conservation use lands. An 18 story 5 acre development is industrial development, not conservation.

yes	yes	yes	yes	Typical mentality of a certain type of people. Force something YOU want on a community that does NOT want it. Stuff it down their throat and then tell them they should be "proud" of it. Maybe in his spare time he can kick more Native Americans off their own land or tell Hawaiians they're not allowed to speak their own language.

yes	yes	yes	yes	Please think about the next 7 generations and end the continued genocide of my people. It is so difficult to be Hawaiian in Hawai'i today. Please prioritize cultural needs and stop crowding Native Hawaiians out with all eggs in one economic basket. Clearly that isn't going well for the State. The path Hawai'i is on is unsustainable. We need more native representation and women in leadership positions. Stop violating basic human rights and respect the recommendations of the United Nations. The world is watching.

yes	yes	yes	yes	Mr. Yuen convinced the BLNR to allow for Alexander & Baldwin to increase the amount of water (a public trust resource) they can take up to 45 million gallons per year from our streams without both an actual reason or even establishing proper protections for our water. Allowing A&B the ability to keep excessively taking our water without an environmental review and contributing to the further drying of East Maui streams, streams important to kalo farmers and Native Hawaiian cultural practitioners. This is also while being unprofessional and belittling those trying to protect this resource in public.
yes	yes	yes	yes	I was a resident of Hawai'i for 15 years and the continued desecration of the aina must cease immediately. The future of the sustainability of the aina falls on your shoulders. The demise of the aina falls on your shoulders. This man must not retain his position.

yes	yes	yes	yes	I strongly oppose the reconformation of Chris Yuen to BLNR.The 14 year term he has already served is in violation of HRS § 26-34. Not only is he violating the law by serving a 14 year term but his influence on the BLNR has contributed to excisions being made that have resulted in the desecration of sacred place and have resulted in violation of laws that are put in place to protect our environment and sacred places. I am not native hawaiian but have lived on the island of Kauai since I was 9 days. I feel the importance of protecting and respecting these places and respecting the connection native Hawaiians have to these places here. It is unfortunate that people who have completely opposite values and have really have no right to be in a place of power over the people who consider this place sacred. The people who protect the aina and thier sacred places should never have to fight for the right to say no. It is thier birthright toDefend and protect these places. Thier Kupuna have given them that honor and to disregard that is a true injustice to the hawaiian people. God bless and may you all ask yourselves and make this decision from your hearts and from a place of love and do what is right for the hawaiian culture for this generation and future generations

yes	yes	yes	yes	It is time that actual protectors of land and natural resources be in charge of protecting land and natural resources.
yes	yes	yes	yes	Why do the people of Hawaii need to suffer more. In regards to the Na Pua Makan project, Senator Gil Riviere asked Mr Yuen what message he had for the people of Kahuku. He said that they should view the turbines as a point of pride. What a shameful comment, and clearly denotes that he doesn't hear the voice of the people even when solid evidence is shown to support the natural land and resources surrounding our area. Please we cannot perpetuate this kind of leadership. We need someone interested in protecting the Land and Natural resources not someone protecting corporations.
