Comments:

Chairperson Taniguchi, Vice Chairperson Ihara, and members of the committee:

I started working part-time as an Executive Assistant for the Hoisting Machine Operators Advisory Board in January of this year.

I recently retired and was asked by the former Executive Assistant to take this job. I had no interest at all in working -- even part-time -- but after learning about the mission of this Board and being introduced to its members, I was impressed with the Board's commitment to safety of the workers and the general public.

Mr. Chatfield has had considerable experience in the industry and I believe he will continue to contribute as a Board member. I encourage the Committee to confirm Mr. Chatfield for a term to expire June 30, 2024.

Mahalo.

RE: Written Testimony for Consideration & Confirmation to the Hoisting Machine Operators Advisory Board, Gubernatorial Nominee, TIMOTHY CHATFIELD, GM-614

Aloha,

I am Michael M. Dillard, the Regional Director & Senior Consultant at American Electric Co. LLC. I am also an honorably retired US Navy Submarine Machinist Mate Chief Petty Officer. I have had the personal and professional pleasure of knowing and working with Tim Chatfield since he took the helm at Crane Tech. He is, among many good things, a man of principle and integrity. His primary and fiduciary concern is ALWAYS the good of his customers and technicians. As such, I find it fitting that he would be considered for this nomination, as HMOAB's mission is to establish minimum standards to assure hoisting machines are being operated in a safe and lawful manner throughout our beautiful state. Only individuals of the highest caliber of integrity should be appointed for this honorable office. Tim Chatfield has consistently proven himself to be a man worthy

of such a position. I submit this written testimonial for Tim's appointment to the HMOAB with my strongest recommendation.

Respectfully,

Michael M. Dillard, MTS, CESCO
