Comments:

I've known Kathi since she was in high school where we attended the same church and bible study. She was always consistent, introspective and open to new ideas. When she got really comfortable, she was contributing and vocal.

Today when we visit, I'm always pleasantly surprised at how articulate and knowledgeable she is on her subjects. I know she has a very caring heart and strives to do her best.

I know she will excel at any job she takes on so I gladly support her in this position.

To Whom it May Concern,

I am writing to you in regard to my sister, who has been nominated to serve on the Hawaii Advisory Commission on Drug Abuse and Controlled Substances.

As her twin sister, I have a special bond and obviously known Kathi Calles her entire life, and though my family connection might make me slightly biased, I still feel that I am a good enough judge of character to be considered a fair reference.

Kathi is a person of good moral character, who comes from a strong family. Our family has always believed in hard work, integrity, high ethical standards, and strong character, and Kathi has retained all those beliefs. She knows what it means to do an honest day's work, and also recognizes the value of her family obligations.

Kathi has excellent communication skills. In addition, she is extremely organized, reliable, has good judgement of others. Kathi can work independently and is able to follow thorough to ensure that the job gets done. She is flexible and willing to work on anything that is given to her to complete.

In her personal life, Kathi has many friends, among whom she is quite well respected and liked. She never has a bad word to say about anyone, and her kindness and generosity are unparalleled.

In closing, I too have dedicated my life to public service for 20 years and I was very happy that she followed my suit. I truly believe that Kathi would be an excellent choice to serve on the Hawaii Advisory Commission on Drug Abuse and Controlled Substances. Please contact me if you would like to discuss Kathi's qualities any further.

Thank you,

Kimberli M. Fujii
