TESTIMONY OF THE DEPARTMENT OF AGRICULTURE
BEFORE THE SENATE COMMITTEE ON AGRICULTURE & ENVIRONMENT

MARCH 11, 2019
1:15 P.M.
CONFERENCE ROOM 224

HOUSE BILL NO. 1103 HD2
RELATING TO THE PESTICIDE SUBSIDY PROGRAM

Chairperson Gabbard and Members of the Committee:

Thank you for the opportunity to testify on House Bill 1103 HD2, relating to the Pesticide Subsidy Program. This bill will appropriate money to the Hawaii Department of Agriculture to continue the pesticide subsidy program established under Act 105, Session Laws of Hawaii 2014. The funds will be used towards assisting coffee farmers on Hawaii Island, Maui, and Oahu to control the coffee berry borer and mitigate the damage it causes to the coffee beans. The Department supports this measure and requests an amendment.

Invasive species are a primary threat to Hawaii's agriculture and economy. The coffee berry borer is a significant coffee pest in Hawaii and the world. The additional funds will allow the Department to continue to support coffee farmers through the duration of the program. The Department requests that this funding be a general fund appropriation and not be placed into the pesticide use revolving fund.

Thank you for the opportunity to submit testimony.

March 11, 2019

HEARING BEFORE THE
SENATE COMMITTEE ON AGRICULTURE AND ENVIRONMENT

TESTIMONY ON HB 1103, HD2
RELATING TO THE PESTICIDE SUBSIDY PROGRAM

Room 224
1:15 PM

Aloha Chair Gabbard, Vice Chair Ruderman, and Members of the Committee:

I am Brian Miyamoto, Executive Director of the Hawaii Farm Bureau (HFB). Organized since 1948, the HFB is comprised of 1,900 farm family members statewide, and serves as Hawaii's voice of agriculture to protect, advocate and advance the social, economic and educational interests of our diverse agricultural community.

The Hawaii Farm Bureau supports HB 1103, HD2, which appropriates funds to the Department of Agriculture for the pesticide subsidy program

Coffee is one of Hawaii's signature crops; one that helps bring fame and tourists to Hawaii. Coffee Berry Borer (CBB) threatens the entire Hawaiian coffee industry. While the full tally is yet to be made, farms on Hawaii Island have experienced deep losses. Some have failed. Moreover, large quantities of coffee have been downgraded due to insect damage, reducing the value of the remaining crop. CBB is a serious threat to Hawaii's agriculture industry and the state's economy. While CBB is battled worldwide, no other coffee growing origin shares Hawaii's high labor costs and restrictions on pesticides that may be used elsewhere to fight this destructive pest. This places the industry at a competitive disadvantage when compared to the rest of the coffee-growing world.

Fighting CBB is a priority in other coffee-producing countries. The USDA has expressed its support targeted toward research, education, and mitigation. The industry's response has been immediate and multi-faceted. A non-profit CBB task force has been formed, including growers, processors, HDOA, UH, USDA and county government. CTAHR and HDOA have been responsive and effective in their combined efforts. The industry has committed countless private sector dollars and has leveraged both State and Federal funds. The State must continue to do its part.

A recent CTAHR economic analysis estimates FY2013 crop losses due to CBB at \$7.68 million, with a resultant \$571,000 annual loss in state tax revenues. The extension of the CBB Pesticide Subsidy Program should be viewed as a modest investment one of the state's largest and most important agricultural industries.

Thank you for the opportunity to testify on this measure of great importance.
