Chairperson

Before the House Committee on  
FINANCE

Tuesday, February 26, 2019  
1:30 P.M.  
State Capitol, Conference Room 308

In consideration of  
HOUSE BILL 1121, HOUSE DRAFT 1  
RELATING TO WATER SECURITY

House Bill 1121, House Draft 1 proposes to appropriate out of the general revenues of the State of Hawaii an undetermined amount of funds for Fiscal Years 2019-2020 and 2020-2021 for the Department of Land and Natural Resources' (Department) Commission on Water Resource Management (Commission) to conduct an update of the Statewide Framework for Updating the Hawaii Water Plan in order to ensure that emerging issues, such as climate change, are adequately addressed in the State's long-range plan to protect and conserve our water resources. **The Department supports this measure provided that its passage does not replace or adversely impact priorities indicated in the Executive Budget request.**

Section 174C-31, Hawaii Revised Statutes (HRS), provides for the development of the Hawaii Water Plan, a long-range, comprehensive, multi-component plan that seeks to address the problems of supply and conservation of water. Section 174C-31(n), HRS, further provides that the Commission may add to the Hawaii Water Plan any other information, directions, or objectives it feels necessary or desirable for the guidance of the counties. Under this authority, the Commission adopted the Statewide Framework for Updating the Hawaii Water Plan (Framework) in 2000. The Framework is a guidance document that provides recommended elements for inclusion in each component plan so that updated plans are more useful and may be more easily integrated and coordinated with respect to water source development by the State and counties.

With many of the components being updated for the first time since initial adoption of the Hawaii Water Plan in 1990, it is timely to conduct a comprehensive review of the Framework based on

the experiences and lessons learned by the various agencies responsible for updating individual component plans. Updating the Framework is identified as a priority project in the Commission's draft Water Resource Protection Plan. Better guidance will provide the basis for more holistic water planning thereby increasing our future water security.

The Commission respectfully requests that the total amount of funds needed to carry out the Framework update be awarded in Fiscal Year 2019-2020, rather than being spread out over two fiscal years, as this would be more efficient in terms of procurement and contracting. Should the Legislature decide to move forward and fund this initiative, the Department estimates the total cost to be \$300,000.

Thank you for the opportunity to comment on this measure.

TESTIMONY OF THE DEPARTMENT OF AGRICULTURE

BEFORE THE HOUSE COMMITTEE ON FINANCE

FEBRUARY 26, 2019  
1:30 P.M.  
CONFERENCE ROOM 308

HOUSE BILL NO. 1121 HD1  
RELATING TO WATER SECURITY

Chairperson Luke and Members of the Committee:

Thank you for the opportunity to testify on House Bill 1121 HD1 relating to water security. The purpose of this bill is to direct the Commission on Water Resource Management to provide additional guidance for future Hawaii Water Plan updates by addressing emerging issues, such as climate change and include any other useful or necessary elements to ensure the long-term protection and management of water resources. The Department of Agriculture supports this measure provided it does not impact the Department's priorities listed in the Executive Budget.

The Department recognizes that climate change will affect how we provide service and support to Hawaii's agricultural community. Changing rainfall patterns and intensity will determine how the Department operates and protects our irrigation system. Rising sea levels and its effect on groundwater will control the productivity of our wells and stream diversions. Guidance in future Hawaii Water Plans will assist the Department in addressing these emerging issues.

Thank you for the opportunity to testify on this measure.

**Testimony in SUPPORT of HB1121-HD1  
RELATING TO WATER SECURITY**

REPRESENTATIVE SYLVIA LUKE, CHAIR  
HOUSE COMMITTEE ON FINANCE

Hearing Date: February 26, 2019

Room Number: 308

- 1 **Fiscal Implications:** This measure may impact the priorities identified in the Governor's
- 2 Executive Budget Request for the Department of Health's (Department) appropriations and
- 3 personnel priorities.
  
- 4 **Department Testimony:** The Department supports this measure which provides an
- 5 appropriation to update the Statewide Framework for Updating the Hawaii Water Plan as long as
- 6 it does not impact the priorities identified in the Governor's Executive Budget Request. The
- 7 Department is responsible for the Water Quality Plan which outlines the regulations, standards,
- 8 and resource management policies that define the quality to be maintained in ground- and
- 9 surface-water resources.
  
- 10 **Offered Amendments:** None.
  
- 11 Thank you for the opportunity to testify on this measure.

Testimony in Support of HB1121 HD1  
Relating to the Water Security

House Committee on Finance  
February 26<sup>th</sup>, 2019  
1:30pm  
Conference Room 308

**Subject:** House Bill (HB) 1121 HD1 Relating to Water Security

Aloha Chair Luke, Vice Chair Cullen, and Members of the House Committee on Finance,

At One World One Water we are dedicated to reinvesting in water infrastructure and restoring natural environments, and we strongly support **HB1121 HD1** which requires the Commission on Water Resource Management to conduct an update of the statewide framework for the Hawaii Water Plan to provide guidance for Hawaii's future water plan.

As climate change persists and droughts become more common, dedication to water security in the Hawaii Islands is becoming crucial. By including climate change in the State Water Plan and each of its five main components through this bill, the state will be more prepared to provide fresh water supplies even as the climate changes. Through facilitating interagency meetings with all agencies responsible for updating components of the plan, CWRM can help build momentum and ensure that each agency is taking into consideration climate change, increased population and development, and other emerging changes.

We strong support **HB1121 HD1** and are confident that it will help make Hawaii more resilient to climate change through increased fresh water security.

Please contact us at [globalwater@gmail.com](mailto:globalwater@gmail.com) should you have any questions or require additional information regarding this matter.

Sincerely,  
*One World One Water*

HEARING BEFORE THE  
HOUSE COMMITTEE ON FINANCE

**TESTIMONY ON HB 1121, HD1**  
RELATING TO WATER SECURITY

Room 308  
12:30 PM

Aloha Chair Luke, Vice Chair Cullen, and Members of the Committee:

I am Brian Miyamoto, Executive Director of the Hawaii Farm Bureau (HFB). Organized since 1948, the HFB is comprised of 1,900 farm family members statewide and serves as Hawaii's voice of agriculture to protect, advocate and advance the social, economic and educational interests of our diverse agricultural community.

**The Hawaii Farm Bureau supports HB 1121, HD1**, which requires the Commission on Water Resource Management to conduct an update of the statewide framework for the Hawaii water plan to provide guidance for Hawaii's future water plan.

The preamble to HB1121, HD1 references changes in weather patterns as a justification for this request. Intense storms coupled with severe droughts have been forecasted for the State, resulting in severe consequences for agriculture. Recent occurrences have demonstrated the devastation that can happen. The water plan should include ways to minimize damage to our farms and ranches. Methods to manage stormwater as well as utilize the resource for drought periods should be included in the plan.

HFB requests your support for this critical plan to strategically focus investments for the future.

Thank you for this opportunity to provide our opinion on this matter.

The Honorable Sylvia Luke, Chair  
and Members  
Committee on Finance  
Hawaii State Capitol, Room 308  
Honolulu, Hawaii 96813

Dear Chair Luke and Members:

Subject: House Bill 1121, House Draft 1, Relating to Water Security

The Honolulu Board of Water Supply (BWS) supports House Bill (HB) 1121, House Draft (HD) 1. This bill requires the Commission on Water Resource Management to conduct an update of the statewide framework for the Hawaii water plan to provide guidance for Hawaii's future water plan and provides an appropriation.

The statewide framework to update the Hawaii Water Plan was developed to provide guidance in the integration of the various components of the Hawaii Water Plan and to give additional direction to the various agencies responsible for the preparation of its constituent parts. The State Water Code, Chapter 174C, Hawaii Revised Statutes, recognizes the need for a program of comprehensive water resources planning to address the problems of supply and conservation of water. Emerging issues such as climate change, sea level rise and infrastructure and resource resiliency needs to be addressed in the comprehensive framework update.

Thank you for your consideration of our testimony on HB 1121, HD 1.

Very truly yours,

  
ERNEST Y. W. LAU, P.E.  
Manager and Chief Engineer
