

UNIVERSITY OF HAWAII SYSTEM

Legislative Testimony

Testimony Presented Before the
House Committee on Lower and Higher Education
Friday, February 7, 2020 at 2:20 p.m.

by

Donald O. Straney, Vice President for Academic Planning and Policy
University of Hawai'i System

HB 2255 – RELATING TO THE UNIVERSITY OF HAWAII PROMISE PROGRAM

Chair Woodson, Vice Chairs Hashem and Quinlan, and members of the Committee:

Thank you for the opportunity to present testimony in support of HB 2255 – Relating to the University of Hawaii Promise Program. Importantly, it would amend Section 304A-506, HRS, to expand the Hawai'i Promise program to provide scholarships for the unmet direct costs needs of qualified students enrolled at any campus of the University of Hawai'i.

Expanding the Hawai'i Promise program to students in 4-year degree programs at the University of Hawai'i, who qualify for federal financial aid, is the highest priority in the Board of Regent's budget request for the university this year. Expanding this program to all university undergraduate programs will significantly enhance the number of economically disadvantaged students who can attend—and graduate from—the state's public university. It will be a significant step forward in expanding access to economic opportunity for Hawai'i's students and preparing the educated workforce the state will need to grow in the coming decades.

Recognizing that tuition is higher at the 4-year campuses, the University of Hawai'i proposes that the Hawai'i Promise program to students in 4-year degree programs at the University of Hawai'i for students with financial need (as determined based on their Free Application for Federal Student Aid) be limited to the cost of tuition and educational fees. It would be awarded only to students to meet remaining tuition and fees need after federal need based aid and their own Estimated Family Contribution. Based on this model, our current estimate is that approximately 5,147 additional students would benefit from the expansion of this program: approximately 2,965 students attending UH Mānoa, 1,085 attending UH Hilo, and 1,097 attending UH West O'ahu.

The program is effective for students in the community colleges, where participation in Hawai'i Promise has led to increase student success in their programs. Many of these successful students will be ready to transfer to a 4-year UH degree program at the completion of this academic year. A 4-year version of Hawai'i Promise will help these students afford the continuation of their education.

Thank you for the opportunity to testify on this matter.

KAMEHAMEHA SCHOOLS®

TESTIMONY

By Ka'ano'i Walk

RE: **HB 2255, Relating to the University of Hawai'i Promise Program**

E ka Luna Ho'omalū Woodson, ka Hope Luna Ho'omalū Hashem, ka Hope Luna Ho'omalū Quinlan, a me nā Lālā o ke Kōmike Ho'ona'auao Ha'aha'a, Ki'eki'e, a me ke Kulanui o ka Hale o nā Lunamaka'āinana, aloha! My name is Ka'ano'i Walk, the Senior Policy Analyst for Kamehameha Schools.

Kamehameha Schools is in **support** of HB 2255, which expands the Hawai'i community college promise program to provide scholarships for the unmet direct cost needs of qualified students at any four-year University of Hawai'i campus who meet certain eligibility criteria and appropriates funds for the program.

We commend the legislature for funding, and the University of Hawai'i for administering, this program in the community colleges, which covered the unmet need costs for over 1,400 students and increased the retention rate. We support the expansion of the program to serve more of Hawai'i's college students in need, especially Native Hawaiians.

Founded in 1887, Kamehameha Schools is an educational organization striving to restore our people through education and advance a thriving Lāhui where all Native Hawaiians are successful, grounded in traditional values, and leading in the local and global communities. We believe that community success is individual success, Hawaiian culture-based education leads to academic success and local leadership drives global leadership.

'A'ohe hana nui ke alu 'ia. No task is too large when we all work together! **Please advance this measure.**

HB 2255, RELATING TO THE UNIVERSITY OF HAWAII PROMISE PROGRAM

Chair Woodson, Vice Chair Hashem, Vice Chair Quinlan and Committee members;

Thank you for the opportunity to submit testimony in support of HB 2255 Relating to the University of Hawaii Promise Program. My name is Jill Hasegawa, a proud alumna of the University of Hawaii (UH) and Board President of the University of Hawaii Alumni Association (UHAA). UHAA represents the more than 300,000 alumni graduating from all UH campuses statewide.

The education and experiences gained at UH are integral to our success, and for many of us, attending UH is a family tradition.

On behalf of UHAA, its leadership, and members, I am writing to thank you for your past commitment and service to our community, our state, and our university. I am also writing to ask for your continued support of issues that will benefit our UH 'Ohana across all ten campuses of the UH System.

UHAA acknowledges and thanks the legislature for providing funding to support the Hawaii Promise Program at the community colleges. Due to its great success, the UH is now requesting to continue and to expand the program to provide scholarships for the unmet direct cost needs of qualified students, particularly Native Hawaiians, low-income students, and those from underserved regions at any four-year University of Hawaii campus who meet certain eligibility criteria.

We strongly support this request and ask for your support as well. It would be a great source of pride for both UH alumni and the community as a whole, to be able to provide our students with this assistance. We all know that the key to Hawaii's economic well-being relies heavily on an educated workforce, and providing access and affordability to our state's only public higher education institutions are a necessary first step.

We urge you to support HB 2255. Mahalo.

Re: HB 2255 RELATING TO THE UNIVERSITY OF HAWAII PROMISE PROGRAM

IN SUPPORT

Aloha Chair Woodson, Vice Chairs Hashem and Quinlan and Members of the Committee:

Mahalo for hearing this important bill, and mahalo for the opportunity to provide testimony in support of HB 2255 which would expand the Hawaii community college promise program to provide scholarships for the unmet direct cost needs of qualified students at any four-year University of Hawaii campus who meet certain eligibility criteria.

I provide this testimony as a concerned citizen and as a member of the Education Committee of the Hawaii Executive Conference's CHANGE Initiative, which in part grew out of the business community's response to the Aloha United Way's sobering 2017 ALICE Report. The CHANGE Initiative recognizes that to address the issues highlighted in the ALICE Report, we must work together to increase the educational capital of our State by increasing participation in and completion of college by students, particularly Native Hawaiians, low-income students, and those from underserved regions and populations to prepare them for success in the workforce and their communities.

The Hawaii Promise program currently helps to achieve this goal by reducing cost as a barrier to college attendance by providing scholarships for unmet direct cost needs of qualified students enrolled at any University of Hawaii Community College campus.

The three-year track record of this program has been impressive; however, it is clear that many higher paying jobs in Hawaii require a bachelor's degree, including jobs for which Hawaii has significant workforce needs. Expanding the program to include students attending any four-year University of Hawaii campus will go a long way to helping us improve the educational and social capital of our State. It is an investment that will pay dividends well into the future.

On a personal note, I attended college and graduate school on scholarships, and I know how much they can change the trajectory of one's life. Without those scholarships I would never have been able to complete my education, and I am eternally grateful to those who created and supported the scholarships I received.

Please support this important bill. Mahalo for your consideration.

Very truly yours,

Timothy E. Johns

DATE/LOCATION: February 7, 2020; 2:20 p.m., Conference Room 309

RE: TESTIMONY IN SUPPORT OF HB 2255 – RELATING TO THE UNIVERSITY OF HAWAII PROMISE PROGRAM

We ask you to support HB 2255 which expands the Hawaii community college promise program to provide scholarships for the unmet direct cost needs of qualified students at any four year University of Hawaii campus who meet certain eligibility criteria.

Appropriates funds for the program. We support creating opportunities for students to obtain higher education without the barriers of costs. This program has proven to be effective in making higher education available to students, particularly those who are underserved and under-resourced and for whom, earning a college degree may have been out of reach because of the cost barriers.

Parents And Children Together runs an out-of-school time program for youth in both the Kuhio Park Terrace (Kalihi) and Puuwai Momi (Halawa) housing complexes. We have witnessed instances where high school students get into college, earn scholarships and are still unable to attend college because scholarships do not cover the full costs and the remaining costs remain a burden and a barrier to obtaining a higher education degree. The Hawaii Promise Program bridges the gap to cover the costs of tuition and fees that are not covered and has successfully served over 1,300 students thus far.

The number of individuals and families whose lives are affected by economic instability in Hawaii is disheartening. The costs associated with economic instability and poverty are well documented. The long-term effects of economic instability and the related chronic stress on individuals and families, especially children, are harmful and detrimental to the potential for healthy and promising futures. Even our working families and tax paying citizens are facing increasing economic pressures with Hawaii's high cost of living and struggle to make ends meet. If covering the costs of day to day living is already a challenge... imaging having to think about paying for a child to go to college.

Aloha United Way's ALICE (Asset Limited Income Constrained, Employed) Report notes:

- In Hawai‘i, there are 165,013 ALICE® households (37% of total households) while another 47,066 households (11% of total households) live below the Federal Poverty Level.
- In total, 48% of Hawaii's families with children have incomes below the ALICE survival budget.
- The average annual household survival budget for a single adult in Hawaii is \$28,128, which translates to an hourly wage of \$14.06.
- \$72,336 is the average annual Household Survival Budget for a family of four living in Hawaii.
- 37% of senior households in Hawaii qualify as ALICE.
- Many of our ALICE and below families do not have adequate savings.

Economic instability and poverty across the globe has reached epidemic proportions. In Hawaii, it is no different. As one of Hawaii's social service providers, serving over 15,000 clients annually, we have a vested interest in working together with all sectors to help Hawaii's residents break the cycles of poverty. Over 90% of the clients PACT serves are living in deep poverty. Many factors contribute to poverty: political and economic structures, community conditions, exploitation and the least of which is an individual's choice. We encourage the legislature to consider this investment our youth, the future leaders of our State. Education is one of the greatest assets that will help to create our youth create positive future stories for themselves and hopefully for generations to come.

Founded in 1968, Parents And Children Together (PACT) is one of Hawaii's not-for-profit organizations providing a wide array of innovative and educational social services to families in need. PACT helps families identify, address and successfully resolve challenges through its 18 programs. Among its services are: early education programs, domestic violence prevention and intervention programs, child abuse prevention and intervention programs, childhood sexual abuse supportive group services, child and adolescent behavioral health programs, sex trafficking intervention, poverty prevention and community building programs.

Thank you for the opportunity to testify in **support of HB 2255**, please contact me at (808) 847-3285 or rkusumoto@pacthawaii.org if you have any questions.

ASUH
Associated Students of the University of Hawai'i
YOUR STUDENT GOVERNMENT

House Committee on Lower and Higher Education
Representative Justin Woodson, Chair
Representative Sean Quinlan, Vice Chair

Friday, February 7, 2020, 2:20 PM

Re: SUPPORT FOR HB 2255: RELATING TO THE UNIVERSITY OF HAWAII PROMISE PROGRAM

Dear Chair Woodson, Vice-Chair Quinlan and Distinguished Members of the Committee:

My name is Landon Li, and I am the President of the Associated Students of the University of Hawaii, the undergraduate student government at UH Mānoa. We represent the voices of over 10,000 full-time classified undergraduate students on the UHM campus. Our constituents **strongly support** the passage of **H.B. 2255: RELATING TO THE UNIVERSITY OF HAWAII PROMISE PROGRAM**.

The ASUH recognizes the positive impact that the Hawaii Promise Program has had for students at the community college level. For example, 73% of first-year Promise students continued on to either earn their degree or remain in school, compared to only 67% of non-Promise students, showing that the Promise Program has helped to improve retention. Hawaii Promise students have also been shown to have higher GPAs than non-Promise students.

Retention at UH Mānoa is an issue, with the 4-year retention rate hovering just above 60%. Many students forgo their educational aspirations citing costs as their main motivator to drop out of school. Expanding the Promise Program to 4-year institutions would provide further financial assistance for those facing the decision between their education and finances.

Many community college students wish to enter professional careers that require degrees only obtainable from UH's four-year institutions. Expanding the Hawaii Promise Program to include UH's four-year institutions would have an immense impact on students' ability to pursue their educational and career goals, whether they are a transfer student or high school graduate. Projections show that approximately 5,150 students would benefit from the Hawaii Promise Program expansion, many of whom would not have the opportunity to pursue a four-year degree otherwise.

It is for these reasons that the 10,000 full-time classified, undergraduate students on the UH Mānoa campus strongly urge you to pass **H.B. 2255**.

Attached to this testimony are letters from only a small fraction of the students who see the value of the Hawaii Promise Program expansion.

Thank you very much for your time.

Landon Li, President
Associated Students of the University of Hawaii at Mānoa
landonli@hawaii.edu

Dear Chair and Vice Chair and members of the committee,

My name is Kelly Ruan. I am a first-generation college student, studying Finance. I am writing to support the expansion of the Hawaii Promise Program, as I have first hand experience in how hard it is as a college student here.

Many people have unexpected things happen in their lives, whether they be family or personal lives. College students have to go through those things, while trying to focus on their studies at the same time and excel in them.

My story begins with my 2nd year of college. My dad caused a lot of drama in the family and left my family to fend for themselves and financially. My dad physically and mentally abused us, and right before he left, he had said that I was now 18 and was essentially kicking me out of the house. I didn't even have a job or a home. This mentally affected me immensely, thinking that he left us because of me, that he had to pay for me to go to college and I was somehow so disobedient that he had to cheat on my mom and leave. He blamed me for the reason for their breakup, when in everything I did I had my family in mind to motivate me.

I felt unwelcome in my own home. I found a job and decided to live with my boyfriend. My father left us, and I didn't want to ask my mom for tuition as she was now working 6 days a week, looking after 3 kids on her own. This was not an easy time, as I had to work 3 days a week to make ends, while taking 5 courses to make tuition cheaper for myself, and had a great effect on me mentally. My pell grant covered only half of tuition and for 3 semesters, and for each of the semesters, my bank account was at \$0 as I had to pay for my living expenses, as well as pay off tuition so that I no longer had a hold on my student account, and would be able to register for courses the next semester. I am now on my 6th year, as I had to go part time some semesters due to the high tuition cost on my 3 days a week part time wage. If I had some help, I could've definitely graduated quicker, and wouldn't feel the pressure financially as much, as I got anxiety every time I went back to \$0. I didn't even have enough time to work more and make more money, due to classes.

I kindly ask that you consider bringing this to 4 year colleges. While I could go to college cheaper at CC schools, they do not have such a reputation as getting a degree from UH Manoa.

Thank you for your time,
Kelly Ruan

Dear Honorable Chair, Vice Chair, and Distinguished Members of the Committee,

My name is Gabrielle Rose Baguio and I am a sophomore student at UH Manoa, majoring in Mechanical Engineering.

I am writing this testimony to express my support for an expansion of the Hawaii Promise Program to four-year campuses.

It is clear that the Hawaii Promise Program works incredibly in the 2-year campuses as Hawaii Promise students were seen to have higher GPAs than non-Promise students. Hawaii Promise Program greatly helps in lifting the financial burden of college, especially for students who have unmet need even after their federal aid.

Being an engineering student is stressful. Adding in financial burdens, life in university is tough, and sometimes it feels like I'll break any moment. As a first generation college student in the US, I wouldn't be able to afford college if it wasn't for financial aid (grants and scholarships). Having the Hawaii Promise Program expanded to four-year campuses such as UH Manoa would be immensely helpful to students like me who are in dire need of financial aid in order to get a degree or stay enrolled in school.

I hope you will be able to help us with our journey as university students by expanding the Hawaii Promise Program to four-year university campuses.

Sincerely,
Gabrielle Rose Baguio

Aloha Chair Woodson, Vice Chair Quinlan, and Distinguished Members of the Committee,

My name is Eugene Lao, and I am an undergraduate student at the University of Hawai'i at Mānoa pursuing a Bachelor of Science degree in Computer Science. I am writing to express my emphatic support of expanding the Hawai'i Promise Program to include the UH System's four-year institutions. Though I myself would not be eligible for tuition assistance under this program, I am nevertheless keenly aware of the good such an initiative would do for my peers.

Throughout my time as an undergraduate, I have met several exemplary students who have either had to drop out or consider dropping out due to financial considerations. This comes as no surprise, as about 1/3 of the approximately 10,000 full-time undergraduates attending Mānoa are Pell Grant recipients. Moreover, data on the Hawai'i Promise Program as it currently exists at the community colleges shows that students receiving tuition assistance through the program have a statistically higher rate of retention.

For the reasons listed above, I sincerely hope you consider voting in favor of expanding this program. Thank you for your time and consideration.

Respectfully,
Eugene Lao

Dear Honorable Chair, Vice Chair and Distinguished Members of the Committee:

My name is Nana Clemons and I am a student at UH Manoa. I am a senior majoring in psychology and minoring in American Studies. I am writing to express my strong support for an expansion of the Hawaii Promise Program to four-year campuses.

With rising tuition, more students need financial assistance. The Hawaii Promise Program is currently only available at the community college level but should be expanded to four-year institutions. Financial problems are often the reason students drop out. There is evidence that programs like the Hawaii Promise Program help increase retention rates by easing the burden of tuition cost on students.

As a UH Manoa student, I am lucky to have had some scholarship money and FAFSA money cover majority of my tuition. However, every semester, I have always had to pay the sum NOT covered by scholarship and FAFSA. Over the years, those costs have accumulated. I would have benefited greatly from a program like Hawaii Promise Program.

Again, I strongly express my support for an expansion of the Hawaii Promise Program to four-year campuses. It would benefit many students like myself and others. An expansion of the program to UH Manoa (and other 4-year campuses) could help as many as 5,150 students.

Sincerely,
Nana Clemons

Dear Esteemed Chair, Vice-Chair, and Members of the Committee:

My name is Dresden Vogt, and I am a Senior at the University of Hawai'i at Mānoa, majoring in U.S. history and Spanish Language and Literature. I am writing to urge expansion of the Hawai'i Promise Program in order to include the Universities of Hawai'i at Hilo, West O'ahu, and Mānoa.

As a first-generation college student, navigating my college experience has been difficult. As the daughter of a single mother who grosses under \$20,000 in wages each year, funding my college experience has been that much harder. Even a difference of \$2,200 remaining after scholarships and federal student aid have paid out provides outsized stress on my financial status. Taking into account the five years needed to finish my degrees, I will have paid the equivalent of a full year of tuition, out of pocket. This is a situation no student should be forced to endure in order to attend university. Had I been afforded the opportunity offered by the Hawai'i Promise Program, I would have been able to avoid this burden.

Moreover, students who are unable to afford the full cost of community college tuition before assistance from the Hawai'i Promise Program will be unable to afford the increased cost of university tuition. Consider: Kapiolani Community College tuition for Hawai'i residents is \$3,144 a year, while the UH Mānoa tuition for state residents is over \$11,000 a year. This difference is substantial on its own, but presents a huge obstacle when considered in the face of the absence of the Hawai'i Promise Program at the full university level.

I ask you to support the expansion of the Hawai'i Promise Program to include UH Hilo, West O'ahu, and Mānoa.

Sincerely,

Dresden Vogt

Dear honorable chair, vice chair, and distinguished members of the committee.

My name is Jungha Kim and I am a student at the University of Hawai'i at Manoa. I am writing in support of the expansion of the Hawai'i Promise Program. For students with a score of 0 for their EFC, they can still have a payment balance of over 1 grand. For students like me, that can take many hours per week including commuting and work time. This last-dollar tuition assistance can help students like me stay in school, and graduate with a 4 year diploma to show for it. For all of these reasons please expand the Hawai'i Promise Program to include 4 year institutions.

Jungha Kim

Dear chair, vice-chair, and distinguished committee members,

My name is Kasey Yap and I am a senior majoring in Natural Resources and Environmental Management at the University of Hawaii at Manoa (UH Manoa). As a student who receives financial aid, I understand the challenges of attending college and worrying about paying my tuition and the cost of living. I am in support of an expansion to the Hawaii Promise Program to four-year campuses. The Promise Program has greatly benefitted students of community colleges across the state. Out of all students enrolled in the promise program, 73% of students earned their degrees and stayed in school. These students also showed a higher GPAs than non-promise students. The expansion of the Promise Program would help to reach 5,150 students across the university system (2,965 students at UH Manoa) with the average award being \$3,440 per student. With the expansion of the promise program to four-year universities, many students will be able to attend college without the added stress and burden of tuition and the cost of living. Thank you for taking this time to read this testimony.

Sincerely,

Kasey Yap

Dear Chair, Vice Chair, and members of the committee,
My name is Alyssa Renteria and I'm a student at the University of Hawaii at
Manoa. I'm submitting testimony on behalf of the Hawaii Promise Program. I'm
originally from Las Vegas, NV and am still a resident there. We have our own
version ~~of it~~ called the Nevada Promise Program. I've known so many
students back home that have benefitted from this program and am sure residents
of Hawaii will greatly benefit. I hope this testimony will bring you to support
the Hawaii Promise Program and its expansion because this success will
surely spread back to the mainland and my home. Please be one of the
few who support programs like this because this will help you leave
a positive mark throughout the communities of Hawaii and others you may not
know. Thank you for reading this testimony. "

Mahalo,

Alyssa Rte

Young Progressives Demanding Action
P.O. Box 11105
Honolulu, HI 96828

LATE

February 7, 2020
2:20 PM

TO: House Committee on Lower & Higher Education
RE: Testimony in support of HB2255

Dear Representatives,

Young Progressives Demanding Action (YPDA) advocates for public policies that reflect the values of young people throughout the State of Hawai'i. One of those values is that everyone has the right to a high quality and affordable higher education. This is a fundamental part of a working democracy.

As an organization that is also a Registered Independent Organization (RIO) at the University of Hawai'i at Mānoa, with members who are currently pursuing higher education in the University of Hawai'i system, we wanted to testify in support of this measure. Expanding the Hawai'i Promise Program to include four-year institutions is a much needed investment into our students. Expanding the ability for more people to not only just dream of, but actively seek out higher education that will help in advancing successful careers.

The Promise Program is a last-dollar tuition assistance for Pell Grant students. This gives lower income students from underserved communities the financial reinforcement needed to pay for the additional expenses that come with being a university student, such as textbooks for class and dorming on campus. This would mean taking on less student loans, and the ability to finish your degree without having to drop out due to not being able to pay for the costs. As the future leaders and innovators of our state, it's important that we give university students the tools to succeed.

Young Progressives Demanding Action **supports** HB2255.

Thank you for the opportunity to testify,

Jun Shin,
Executive Committee Member
Young Progressives Demanding Action (YPDA)

Chamber of Commerce HAWAII

The Voice of Business

LATE

**Testimony to the House Committee on Lower and Higher Education
Friday, February 7, 2020 at 2:20 P.M.
Conference Room 309, State Capitol**

RE: HB 2255, RELATING TO THE UNIVERSITY OF HAWAII PROMISE PROGRAM

Chair Woodson, Vice Chairs Hashem and Quinlan, and Members of the Committees:

The Chamber of Commerce Hawaii ("The Chamber") **supports** HB 2255, which expands the Hawaii Community College Promise Program to provide scholarships for the unmet direct cost needs of qualified students at any four year University of Hawaii campus who meet certain eligibility criteria and appropriates funds for the program.

The Chamber is Hawaii's leading statewide business advocacy organization, representing about 2,000+ businesses. Approximately 80% of our members are small businesses with less than 20 employees. As the "Voice of Business" in Hawaii, the organization works on behalf of members and the entire business community to improve the state's economic climate and to foster positive action on issues of common concern.

Established in 2017, the Hawaii Promise program currently provides financial aid for any qualified student at UH Community Colleges. This program provides students aid for any financial needs not met by other forms of financial aid such as federal grants and benefits, and scholarships from UH or other sources.

We recognize that we are at a critical time, when it comes to preparing our children for their roles in our future workforce. By expanding the Hawaii Promise Program, we are able to encourage students across the state that might not have considered attending any of the University of Hawaii's four-year campuses due to financial concerns, that they now have that opportunity through the support of this program.

Thank you for the opportunity to provide comments.
